2. Bill title: To authorize the Secretary of the Interior to provide for the development and operation of a visitor and environmental education center in the Pinelands National Reserve, in the State of New Jersey.

3. Bill status: As ordered reported by the Senate Committee on Energy and Natural Resources, December 2, 1987.

4. Bill purpose: The bill directs the Secretary of the Interior to develop, in cooperation with the State of New Jersey, an interpretive program for the Pinelands National Reserve. This program would include the planning, construction and operation of a visitor and environmental education center. The bill authorizes $1 million for planning and design of the center, and $5 million for construction. The bill also authorizes $21.2 million for additional land acquisition in the Pinelands.

5. Estimated cost to the Federal Government:

[By fiscal year, in millions of dollars]

	1988	1989	1990	1991	1992
Authorization level	27.2				
Estimated outlays	4.8	6.6	6.2	5.3	4.3

The operation and maintenance of the education center would cost the federal government an additional $225,000 annually beginning in fiscal year 1992.

The costs of this bill fall within budget function 300.

Basis of estimate: This estimate assumes that the bill will be enacted in January 1988, and that the full amounts authorized will be appropriated. It is assumed that the planning and design of the center would be completed within 12 months of the date of enactment, and that the construction of the center would be substantially completed within 18 months of completion of the plans and design. CBO estimates that about $4 million would be expended each year for land acquisition.

6. Estimated cost to State and local governments: The State of New Jersey would be required to fund 25 percent of the construction, operation and maintenance costs of the center. We estimate that the state share for operation and maintenance costs would total $75,000 annually, and that construction costs would total $1.25 million over the 1989-1991 period.

7. Estimate comparison: None.

8. Previous CBO estimate: None.

9. Estimate prepared by: Douglas Criscitello.

10. Estimate approved by: C.G. Nuckols (for James L. Blum, Assistant Director for Budget Analysis).

Mr. BRADLEY. Mr. President, New Jersey's Pinelands National Reserve grew from historic Federal and State legislation in 1978 and 1979. It represented a cooperative experiment among Federal, State, and local governments. It's a partnership that rarely has been accomplished with the success of this effort. In the case of the Pinelands, the results have been solid. This national reserve has faced numerous obstacles, which have repeatedly been overcome by imagination and determination.

Prior to the passage of the Federal National Park and Recreation Act in 1978 and the State's 1979 Pinelands Protection Act, more than 240,000 acres in the Pinelands were under public ownership as parks, wildlife areas and State forest. Because of the unique and fragile nature of the Pinelands, the Pinelands National Reserve legislation sets aside a 1.1-million-acre area—nearly 22 percent of the land area in the State—for special consideration and protection.

Most visitors to New Jersey pass the Pinelands without notice. Millions of people yearly drive on the New Jersey Turnpike and the Garden State Parkway which border the Pinelands area. There are no snow-capped peaks, no soaring waterfalls, no spectacular caverns. This 1.1 million acres of scrub pine forest, wetlands, and rare plant and animal species is subtle and precious. The Pinelands represents a vast wilderness area, made even more remarkable by its proximity to the Northeast's population and industrial centers.

But it is a fragile area—the Pinelands' sandy soils and shallow ground water table are easy victims to industrial pollution or abuse.

Mr. President, today the full Senate is considering legislation which supplements these efforts to establish the Pinelands Reserve. A central goal of this legislation is to end the anonymity of this wild and beautiful region. Passage of this legislation will enable the creation of a Pineland's visitor or interpretive center. This legislation includes a Federal spending authorization of roughly $5 million for the development of such a facility.

This center would serve two key purposes:

To focus attention on the vast and beautiful Pinelands Wilderness, and

To provide an easily accessible center for environmental education and telling the Pinelands story.

A decade ago, this wilderness area was in danger and, today, because of the historic efforts, the Pinelands are alive and well. In 1983, the United Nations itself recognized the importance of the Pinelands by designating it as an "International Biosphere Reserve," a distinction it shares with only the world's most remarkable ecosystems such as Yellowstone National Park and the Florida Everglades.

It is the Pinelands Commission that has the tough job of protecting the most fragile and remarkable areas. The Pinelands Commission uses its comprehensive management plan as a blueprint for the protection and development of this vital wilderness. Much of the plan represents an effort to channel development away from sensitive areas. However, an essential component of this plan is a land acquisition program which is designed to protect critical environmental and cultural areas and provide a wide range of recreational opportunities.

Appproximately, 100,000 acres of land have been targeted for acquisition with the goal of establishing a system of self-maintaining ecological reserves which are representative of the Pinelands. So far, roughly 67,000 acres have been funded for acquisition. Unfortunately, with a Federal grant of $5.8 million last summer, the original spending authorization of $26 million contained in the 1978 legislation was exhausted.

It is my goal to give the Pinelands Commission and the State DEP, which actually must purchase the land, the tools they need to complete this vital acquisition program. To this end, the legislation increases the Federal spending authorization by $21.2 million.

There are two main targets for this new land acquisition program:

The Wading River ecosystem in the central Pinelands, and

Lands in the Manumuskin River watershed area in the south.

The Wading River watershed area includes the unique pine plains—12,000 acres of pygmy pine forest—and white cedar swamps. The Wading is one of New Jersey's purest streams and a popular spot for canoeists—two features it shares with the Manumuskin River in the south.

I note that, earlier this month, the Senate approved my legislation which designates the Maurice, Manumuskin, and Menantico Rivers as study rivers for possible inclusion in the Nation's system of wild and scenic rivers. The features that make these rivers exceptional are the features of the Pinelands itself.

Mr. President, that the Pinelands can exist at all in New Jersey, the most densely populated State in the Nation, is amazing. The Pinelands demonstrates the power of people to hold back, to reflect on the land's meaning and promise, and to decide positively that the collective interest is preservation and restraint.

The Senate Energy Committee reviewed this legislation, and endorsed it unanimously, with a 19-to-0 vote. I urge my colleagues today to consider this legislation and its critical value, and to pass it—as did the Energy Committee—by a unanimous vote.

The bill (S. 1165) was considered, ordered to be engrossed for a third reading, read the third time, and passed: as follows:

S. 1165

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 502 of the National Parks and Recreation Act of 1978 (Public Law 95-625; 16 U.S.C. 471i), establishing the Pinelands National Reserve in the State of New Jersey, is amended by adding at the end the following new subsection:

"(l)(1)(A) In furtherance of the findings and purposes of this section, and to enhance public education and appreciation of the natural and cultural resources of the Pine Barrens area of New Jersey, the Secretary shall, in cooperation with the planning entity and appropriate departments and agencies of the State of New Jersey, implement an interpretive program for the Reserve.

"(B) The program authorized by this subsection shall include—

"(i) the preparation of interpretive and informational materials, exhibits, films, lectures, and other devices and educational methods, and making them available, directly and through appropriate offices of the State of New Jersey, to the public; and

"(ii) the planning, construction, and operation, in accordance with this subsection, of a visitor and environmental education center and related facilities located in the Reserve.

"(2)(A)(i) Within 12 months of the date of enactment of this subsection, the Secretary, with the concurrence of the planning entity and the State of New Jersey, and the cooperation of other public and private entities as may be necessary and appropriate, shall complete a plan and design for the visitor and environmental education center and related facilities.

"(ii) The plan shall—

"(I) indicate the location or locations of the center and related facilities;

"(II) set forth the method of acquisition, the prospective ownership of the real property on which the center shall be constructed, and the estimated cost of the acquisition, construction, and operation of the center; and

"(III) indicate the manner in which the planning entity established pursuant to this section and the State of New Jersey shall participate in the acquisition, construction, and operation of the center.

"(iii) The design of the interpretive center shall include a provision for an observation facility at an appropriate site, consistent with the relatively primitive nature of the area, to demonstrate the openness and expanse of undeveloped land that characterizes the Pine Barrens region.

"(B) Within 18 months of the completion of the plan and design of the center, the Secretary shall substantially complete the construction of the center and related facilities. Notwithstanding any other provision of law, the Secretary may accept the donation of real property and construct the center and related facilities thereon, or the Secretary may construct the center and related facilities on property owned by the State of New Jersey or a political subdivision thereof, as indicated in the plan and design. Federal funds in an amount of 75 percent of the cost shall be available for the construction of the center and related facilities.

"(C) The Secretary shall cooperate in the operation and maintenance of the center and related facilities, including the assignment of professional staff of the National Park Service to assist in the interpretation of the Pine Barrens area. Federal funds in the amount of 75 percent of the cost shall be available for operating and maintaining the interpretive center and facilities.

"(3) The Secretary may enter into such contracts and agreements with the planning entity, the State of New Jersey, and other public and private entities as may be necessary and appropriate to carry out the authorities and responsibilities of the Secretary under this subsection. There is authorized to be appropriated such sums as may be necessary to carry out the interpretive program for the Reserve, not to exceed, however—

"(A) $1,000,000 for completion of the plan and design for the visitor and interpretive center, pursuant to paragraph (2)(A), and

"(B) $5,000,000 for construction of the center, pursuant to paragraph (2)(B) and related facilities and exhibits.".

(b) Section 502(k) of such Act is amended by—

(1) striking out "of this section" in the first sentence and inserting in lieu thereof "of subsections (a) through (j) of this section"; and

(2) adding at the end thereof the following new sentence: "Effective October 1, 1987, in addition to the funds authorized pursuant to this subsection, there are hereby authorized to be appropriated not to exceed $21,200,000 for land acquisition.".

Mr. JOHNSTON. Mr. President, on December 9, 1987, the Committee on Energy and Natural Resources filed the report to accompany S. 1675, a bill to provide for the establishment of the Hagerman Fossil Beds National Monument in the State of Idaho, and for other purposes.

At the time the report was filed, the committee had not received an estimate of cost from the Congressional Budget Office. The committee has now received that report, and I ask unanimous consent that it be included in the RECORD at this time for the use and information of the public and my colleagues of the Senate.

There being no objection, the report was ordered to be printed in the RECORD, as follows:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, December 9, 1987.

Hon. J. BENNETT JOHNSTON, Jr.,
Chairman, Committee on Energy and Natural Resources, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the attached cost estimate for S. 1675, a bill to provide for the establishment of the Hagerman Fossil Beds National Monument in the State of Idaho, and for other purposes.

If you wish further details on this estimate, we will be pleased to provide them.

With best wishes.

Sincerely,

EDWARD M. GRAMLICH,
Acting Director.

CONGRESSIONAL BUDGET OFFICE COST ESTIMATE

1. Bill number: S. 1675.

2. Bill title: A bill to provide for the establishment of the Hagerman Fossil Beds National Monument in the State of Idaho, and for other purposes.

3. Bill status: As ordered reported by the Senate Committee on Energy and Natural Resources, December 2, 1987.

4. Bill purpose: S. 1675 would establish the Hagerman Fossil Beds National Monument on nearly 4,400 acres in Idaho, and would authorize the appropriation of $5 million for this purpose. The bill would require the

Secretary of the Interior to acquire these lands through donation or exchange.

5. Estimated cost to the Federal Government:

[By fiscal year, in millions of dollars]

	1988	1989	1990	1991	1992
Authorization level	5.0				
Estimated outlays	1	0.1	0.4	1.4	1.2

The costs of this bill fall within budget function 300.

Basis of estimate: This estimate assumes that the $5 million authorized would be appropriated for 1988 and would be used for development activities. The outlay estimate is based on historical spending patterns, and assumes that development would not begin until 1990, after the land has been acquired through exchange or donation. CBO estimates that preparing the management plan required by Section 6 of the bill would cost approximately $250,000 and would be completed during the first two years after the bill is enacted. These estimates are based on information provided by the National Park Service.

6. Estimated cost to State and local governments: None.

7. Estimate comparison: None.

8. Previous CBO estimate: None.

9. Estimate prepared by: Michael Sieverts (226-2860).

10. Estimate approved by C.G. Nuckols (for James L. Blum, Assistant Director for Budget Analysis).

The amendment was agreed to.

The bill (S. 1675) was ordered to be engrossed for a third reading, read the third time, and passed.

SEC. 202. PROTECTION OF SIGNIFICANT HISTORIC ASSETS.

The Secretary, with the consent of the owners thereof, may acquire by donation or purchase with donated funds the following properties or sites of significant historic interest in Duval County, Florida:

The Secretary shall administer such properties in accordance with a plan that integrates the administration and interpretation of the ecological values of the Preserve and the historical values of the sites so acquired and the historical features of Fort Caroline. Such administration and interpretation shall be conducted through the facilities and staff of Fort Caroline National Memorial consistent with section 2 of the Act of September 21, 1950 (64 Stat. 897).

S. 90

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

(a) Short Title.—This Act may be cited as the "Big Cypress National Preserve Addition Act".

(b) Amendment of Big Cypress National Preserve Act.—Whenever in this Act an amendment is expressed in terms of an amendment to the Act of October 11, 1974, such amendment shall be considered to be made to the Act entitled "An Act to establish the Big Cypress National Preserve in the State of Florida, and for other purposes", approved October 11, 1974 (Public Law 93-440; 88 Stat. 1257).

SEC. 2. FINDINGS AND PURPOSE.

(a) Findings.—The Congress finds that—

(1) the planned construction of Interstate 75 is presently being designed in such a way as to improve the natural water flow to the Everglades National Park, which has been disrupted by State Road 84 (commonly known as "Alligator Alley");

(2) the planned construction of Interstate 75 provides an opportunity to enhance protection of the Everglades National Park, to promote protection of the endangered Florida panther, and to provide for public recreational use and enjoyment of public lands by expanding the Big Cypress National Preserve to include those lands adjacent to Interstate 75 in Collier County north and east of the Big Cypress National Preserve, west of the Broward County line, and south of the Hendry County line;

(3) the Federal acquisition of lands bordering the Big Cypress National Preserve in conjunction with the construction of Interstate 75 would provide significant public benefits by limiting development pressure on lands which are important both in terms of fish and wildlife habitat supporting endangered species and of wetlands which are the headwaters of the Big Cypress National Preserve; and

(4) public ownership of lands adjacent to the Big Cypress National Preserve would enhance the protection of the Everglades National Park while providing recreational opportunities and other public uses currently offered by the Big Cypress National Preserve.

(b) Purpose.—It is the purpose of this Act to establish the Big Cypress National Preserve Addition.

SEC. 3. ESTABLISHMENT OF ADDITION.

The Act of October 11, 1974, is amended by adding at the end thereof the following new section:

"Sec. 9. (a) In order to—

The Secretary shall, as soon as practicable, publish a detailed description of the boundaries of the Addition in the Federal Register.

"(3) The amount described in paragraph (1) shall be reduced by an amount equal to 20 percent of the amount of the total cost incurred by the Secretary in acquiring lands in the Addition other than from the State of Florida.

"(4) For purposes of this subsection, the term 'total cost' means that amount of the total acquisition costs (including the value of exchanged or donated lands) less the amount of the costs incurred by the Federal Highway Administration and the Florida Department of Transportation, including severance damages paid to private property owners as a result of the construction of Interstate 75.".

(b) METHODS OF LAND ACQUISITION IN THE ADDITION.—The first sentence of subsection (c) of the first section of the Act of October 11, 1974, is amended—

"(g) There are hereby authorized to be appropriated such sums as may be necessary to carry out the activities set forth in this Section."

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment.

The amendment (No. 1357) was agreed to.

Mr. CHILES. Mr. President, I am delighted that the Senate is taking action to protect environmentally sensitive habitat at a reasonable cost by approving S. 90. This legislation will add 146,000 acres to the Big Cypress National Preserve in south Florida, a region nationally recognized for its wide variety of plant and animal species and home to the endangered Florida panther.

Acquisition for the preserve addition will be in conjunction with the planned construction of Interstate 75. This construction will sever existing access to private property north and south of the highway, requiring the payment of damages to the property owners by the Florida Department of Transportation. If we act quickly to enact this legislation enabling the utilization of the DOT severance damage funds, we will make it possible for the public to acquire these unique lands for substantially less cost than would otherwise be possible.

As an original sponsor of the Federal legislation establishing the Big Cypress National Preserve, I am keenly aware of the role water quality and quantity plays in ensuring the livelihood of Everglades National Park which is directly south of the preserve. The everglades ecosystem is fragile and totally dependent on the complex hydrology of the entire region. The Big Cypress Preserve was established by Congress in 1974 to make sure this important watershed area was not further developed or disrupted. Passage of S. 90 will guarantee an improved system of protection for the watershed.

I have looked forward to expanding this spectacular preserve for some time now, Mr. President, and I am afraid that any further delay will prevent us from enjoying the cost savings provisions of this bill. When the Federal Government has an opportunity such as this, we ought to seize it, and I am pleased that the Senate will do just that today.

Mr. GRAHAM. Mr. President, we have the opportunity today to support and approve S. 90, a bill which authorizes the Department of the Interior to join the State of Florida in acquiring a 146,000-acre addition to the Big Cypress National Preserve.

It is our hope that within the next 6 months to 1 year, agreement will be reached on a proposed land exchange between the Department of the Interior and the Collier family of Florida.

This exchange would include much of the acreage in the preserve addition which S. 90 designates.

This exchange would also include other lands in Florida critically important to protecting sensitive areas and species—including the 10,000 islands.

Once agreement is reached, I will support legislation approving the exchange.

Mr. President, we need to move on S. 90 now so that authorization is in place when the final agreement is worked out.

Our goal in this effort is to create an envelope of protection around Everglades National Park. If we fail to act, the 146,000 acres comprising the Big Cypress addition are likely to be developed into citrus groves and subdivisions. The resulting alterations in water flow and the degradation of water quality could be drastic. A significant investment in our National Park System would be wasted.

We should, at this time, remove the interstate exchange authorization language from S. 90 because the details of the exchange are still being discussed.

Once that deletion takes place, the Florida and Arizona delegations can work freely toward an exchange agreement for the acquisition of the Big Cypress Preserve addition.

And we should also be aware that an important related economic factor is the conversion of Highway 84, known as Alligator Alley, to Interstate 75. This conversion will require the State of Florida to pay severance damages in acquiring the right-of-way.

It is fiscally prudent that we acquire lands within the proposed preserve addition at the same time land is being acquired for Interstate 75. The State of Florida should be commended for having taken the first step on December 3, by paying $15 million for a 7,600-acre tract adjoining the land encompassed by S. 90.

The timely passage of S. 90 could help to save one of the most significant and endangered natural resources on this continent. The Everglades system—of which the Big Cypress Preserve is a crucial part—is absolutely unique—one of a kind. It is the key to the survival of countless endangered species—plants and animals and reptiles—all dependent on this one fragile linchpin for their own continued existence.

We have an obligation to the rest of the world—not just to Floridians or even Americans—to preserve the mysterious beauty of the Everglades and the complexities of its function as a water provider—to preserve also the singular plant and animal and marine life species only found in the Everglades hammocks and marshes.

State and Federal cooperation in the purchases of the Big Cypress Addition is profoundly important to the future and to our present quality of life. The Federal Government has as grave a responsibility to protect its considerable investment in the Big Cypress and in the Everglades National Park as it does to join Florida in preserving a peerless environmental treasure.

I encourage my colleagues to support S. 90 as amended.

The **PRESIDING OFFICER.** Is there any further debate? If not, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

Any recommendation for significant changes in the approved recreational access points, including any proposed additions, shall be accompanied by an assessment of the environmental impact of such changes.".

Section 8 of the Act of October 11, 1974, is amended—

(1) by striking out "There" in the first sentence and inserting in lieu thereof "(a) Except as provided in subsection (b), there"; and

(2) by adding at the end thereof the following new subsection:

"(b) There are authorized to be appropriated such sums as may be necessary to acquire lands within the Addition.".

SECTION 1. SHORT TITLE.

This Act may be known as the "Battle Mountain Pasture Restoration Act of 1987".

SEC. 2. FINDINGS AND PURPOSES.

(a) Findings.—The Congress finds that—

(1) the Humboldt Project is a land reclamation and irrigation project created pursuant to the Act of Congress of June 16, 1934 (48 Stat 195), and June 17, 1902 (32 Stat 388), and is an irrigation dam project known as Rye Patch Dam located in Pershing County, Nevada;

(2) the Pershing County Water Conservation District, a quasi-political subdivision of the State of Nevada, entered into contracts in 1934 to purchase all of the lands comprising the Battle Mountain Community Pasture, consisting of approximately twenty-nine thousand eight hundred and eighty-four acres of land, and water rights appurtenant thereto in Lander County, Nevada, consisting of a consolidation of two ranches known as the Filipini Ranch and the Aldous Ranch;

(3) the Pershing County Water Conservation District transferred all of the water rights appurtenant to the Filipini and Aldous Ranches to the Humboldt Project to provide water to make the construction of Rye Patch Dam feasible;

(4) the legislation authorizing the construction of the Humboldt Project provided that title to the Filipini Ranch and Aldous Ranch was to lie with the United States until further Act of Congress;

(5) the Pershing County Water Conservation District assigned its purchase contracts of the Filipini Ranch and the Aldous Ranch comprising the community pasture to the United States in 1934, and in 1936 conveyed the water rights to the United States as re-

quired under the terms of the Humboldt Project to make the construction of Rye Patch Dam feasible;

(6) a repayment contract was entered into with the United States Department of the Interior, Bureau of Reclamation, on October 1, 1934, to provide the funds necessary for the construction of Rye Patch Dam and Reservoir, and to ensure the repayment to the United States of all costs of construction and operation of the Humboldt Project;

(7) the Pershing County Water Conservation District water users have completely repaid the United States all of the costs of the Humboldt Project, including the cost of the purchase of the Aldous and Filipini Ranches, known as the Battle Mountain Community Pasture;

(8) the Pershing County Water Conservation District has paid real estate taxes on the Battle Mountain Community Pasture for many years;

(9) the Battle Mountain Community Pasture continues to be required by the Pershing County Water Conservation District to ensure that the waters of the Humboldt River pass through the pasture, and are not diverted or diminished, in accordance with the terms of the transfer of the water rights as provided by the State of Nevada;

(10) the Pershing County Water Conservation District has an immediate and continuing need for the Battle Mountain Community Pasture; and

(11) the purpose of this Act is to convey to the Pershing County Water Conservation District fee title to the Battle Mountain Community Pasture in recognition of the fact that it was initially acquired by the Pershing County Water Conservation District, and subsequently transferred to the United States for the Humboldt Project, until further Act of Congress and the full repayment of the construction and acquisition costs of the Humboldt Project to the United States.

SEC. 3. CONVEYANCE.

The Secretary of the Interior shall convey, subject to all existing rights and interests of third parties upon, in, and over the property, and upon payment of administrative costs incurred in making the transfer, not to exceed $20,000, to the Pershing County Water Conservation District, all right, title, and interest of the United States in and to the land described in section 4 of this Act.

REPEAL OF BROWN-STEVENS ACT WITH RESPECT TO CERTAIN INDIAN TRIBES IN NEBRASKA

Mr. BYRD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar 441, H.R. 2639.

The **PRESIDING OFFICER.** Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 2639) to repeal the Brown-Stevens Act concerning certain Indian tribes in the State of Nebraska.

There being no objection, the Senate proceeded to the immediate consideration of the bill.

AMENDMENT NO. 1359

(Purpose: To extend the time to compile and publish the final list of land allotments or interests within certain claim categories on the White Earth Indian Reservation as required by Pub. L. 99-264 (100 Stat. 61)

Mr. SIMPSON. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Wyoming [Mr. SIMPSON], for Mr. BOSCHWITZ, proposes an amendment numbered 1359.

Mr. SIMPSON. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill add the following:

Section 7(c) of the White Earth Reservation Land Settlement Act of 1985 (P.L. 99-264; 100 Stat. 61; 25 U.S.C. 331 note) is amended by (1) deleting "not later than five hundred and forty days of the date of publication of the Secretary's first list in the Federal Register" and inserting in lieu thereof "not later than March 12, 1989", and (2) deleting "should be added to" and inserting in lieu thereof "should be corrected or added to".

Mr. BOSCHWITZ. Mr. President, as my colleagues recall, in 1985, after 6 long years of hard work, Congress finally passed the White Earth Reservation Land Settlement Act. This act fairly and equitably addresses the very complex issues involved through a combination of monetary and land settlements. To achieve this end, the Bureau of Indian Affairs is required to compile two lists of individuals who have claims to the settlement agreement.

The first list, which was required by section 7(a) of the act, was filed by the date required. Unfortunately, however, today the implementation of the act may be thrown far behind schedule due to the Bureau of Indian affairs' inability to meet the filing date of the second list of allotments. In fact, BIA tells me that the list cannot be complied by the March 12, 1988, deadline without risking serious omissions and errors.

Mr. President, the second filing is the mechanism which triggers the claims resolution process. Until a final determination of potential claimants is made, no other research can be undertaken. To resolve this problem, I am introducing an amendment to H.R. 2639 to provide a 1-year extension of the deadline for the second list. I want to make it clear, however, that the Bureau can publish the list as soon as it is completed any time during the extension period—I urge BIA to complete the research as soon as possible. I want to add that it is my sincere hope and expectation that the Bureau will complete the second list well before the new March 1989 deadline.

The amendment also makes clear that the publication of the second list may include corrections to the first list published by the Secretary. It is indeed disappointing that the first list contains many errors.

Mr. President, I urge the adoption of the amendment.

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment of the Senate from Minnesota [Mr. BOSCHWITZ].

The amendment (No. 1359) was agreed to.

The PRESIDING OFFICER. Are there further amendments? If there be no further amendment to be proposed, the question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

So the bill (H.R. 2639), as amended, was passed.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORGANOTIN ANTIFOULING PAINT CONTROL ACT

Mr. BYRD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 464, S. 1788.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 1788) to protect the aquatic environment from certain chemicals used in antifoulant paints, and for other purposes.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. MITCHELL. Mr. President, I rise in support of the Organotin Antifouling Paint Control Act of 1987.

It has been a pleasure to work with Senators TRIBLE and COHEN in the development of this legislation. They were the first to alert us to the threats to the marine environment posed by organotins in antifouling paints. And, they have taken the lead in drafting the bill we are introducing today.

Mr. President, the coastal and marine waters of our country are a natural resource of tremendous value. Marine bays and estuaries play an essential part in the ecological system which supports fisheries and wildlife. And, our coastal waters provide recreational opportunities for millions of Americans.

We must be especially alert to threats to the quality of marine waters and the integrity of the marine and coastal environment.

In April of this year, the Subcommittee on Environmental Protection, which I chair, held a hearing on the effects of organotin compounds on the marine environment.

The purpose of the hearing was to review the large body of scientific evidence indicating that an organotin compound known as tributyltin, or TBT, may pose a serious threat to marine organisms and the marine environment. The subcommittee also heard testimony on options for restricting TBT use, including regulation by the Environmental Protection Agency and legislative action by the Congress.

One of the most dramatic problems identified at the hearing was the extent of TBT contamination in the Chesapeake Bay. Recent tests by the Environmental Protection Agency indicate that TBT is present in the bay at levels significantly above the concentration levels identified by the EPA as safe.

We also heard from representatives of States, such as Maryland and Virginia, which have adopted legislation to protect coastal waters from TBT contamination. I am pleased that my home State of Maine has also adopted legislation restricting the use of TBT.

Other witnesses at the hearing provided an overview of the scientific research of TBT and related compounds and described the views of the U.S. Navy and the paint industry.

Based on this hearing, I concluded that we have clear evidence that TBT poses a threat to the marine environment and that an effective and coordinated response must be developed. The legislation we are introducing today is intended to provide the prompt and effective action needed to address the TBT contamination problem.

The legislation has two primary provisions. First, it prohibits the use of any paint containing TBT on boats of less than 25 meters in length. An exception to this length limit is made in the case of aluminum boats and outboard motors. Aluminum boats and outboard motors can be painted with paint containing TBT if the paint meets the standard established in the bill or if the paint is certified by the Administrator as acceptable.

The second major provision of the bill establishes a maximum rate of release of TBT from antifouling paint of

3 micrograms per square centimeter per day. This release rate provides for a full measure of protection of the environment without impractical reductions in the effectivness of antifouling paints. In addition, this release rate is attained by over 20 paints now on the market and assures that consumers will have a range of paints to choose from.

The bill further provides that the release rate will sunset if the Environmental Protection Agency takes final action to establish a release rate under alternate legislative authority. The EPA is considering such action and it is our intention that the release rate determined to be appropriate by the EPA, using the full range of available data, be the effective release rate restriction in the long term. Our legislation, however, will protect the environment until EPA is able to reach a decision and take a final regulatory action.

The bill addresses several other aspects of the TBT contamination problem.

Section 4(d) of the bill prohibits purchase of TBT for the purpose of adding it to paint to make an antifouling paint. These so-called free association paints release TBT at very high rates and pose a significant threat to the environment and the health of the marine environment.

Section 6 of the bill provides for monitoring of coastal waters to identify TBT contamination. In addition, the Secretary of the Navy is directed to conduct monitoring in harbors serving as home ports and report on any TBT contamination identified.

Section 7 provides for civil penalties for persons violating the provisions of the act.

Section 10 directs the EPA Administrator to publish a water quality criteria document identifying levels or concentrations of TBT in fresh and marine waters which are a threat to the environment.

Section 11 directs the Administrator to conduct a research program, in consultation with the Secretary of the Navy, to identify alternatives to TBT and to identify nonchemical antifouling systems.

This legislation will be an important step forward in our efforts to protect the quality of marine and fresh waters. I look forward to working with our colleagues in the House in development of final legislation to address this problem.

I hope my colleagues will give this bill their full support as it advances through the legislative process.

Mr. TRIBLE. Mr. President, along with Senators MITCHELL, COHEN, and CHAFEE, I introduced this legislation to suspend the use of highly toxic marine paints containing organotin. On November 10, 1987, the bill was unanimously approved by the Committee on Environment and Public Works.

Today, over 70 percent of the world's commercial and recreational ships are painted with the antifouling paints known generally as organotin. These paints are also applied to buoys, crab pots, fish nets, and other marine structures.

Organotin paints are extremely effective in eliminating barnacles and other fouling organisms. However, these paints may also have a lethal effect on other marine and fresh water life.

The Environmental Protection Agency [EPA] is in the process of conducting a special review of a specific organotin, tributyltin, because the agency has determined that this highly toxic substance may present unreasonable risks to nontarget aquatic organisms such as mussels, clams, oysters, and fish. EPA suggests that final rules on this issue will be made in July of 1988. However, that time table is not certain and any action by EPA is subject to considerable delay.

I am deeply concerned about the harmful effects organotin paints pose to marine life and public health, and believe that it is important to act now and limit the use of organotin paints until the EPA is able to establish final rules on this potentially deadly chemical.

The United States lags far behind other nations in regulating these toxic paints. France, England, and Japan all have limits on the use of organotins. Germany and Switzerland have totally prohibited tributyltin's use in fresh water.

Fortunately, many States have established maximum amounts of organotin which may be released in the water. Those States include Virginia, Maine, Maryland, Alaska, Washington, Michigan, New York, California, North Carolina, New Jersey, and Oregon. As a result, the tremendous flow of the harmful chemical into our Nation's waters has been diminished.

I applaud the responsible actions taken by Virginia, Maine, and the other States. However, the organotin problem demands a uniform national response. That's why Senators MITCHELL, COHEN, CHAFEE, and I sponsored this legislation to protect the aquatic environment by reducing immediately the amount of organotin entering the waters of the United States.

Our bill prohibits the use of all organotin paints with a release rate of more than 3 micrograms per centimeter per day. A release rate measures the amount of organotin that is released from these paints over an extended period of time. The 3 release rate will remain in effect pending final action by EPA.

Moreover, because recreational vessels account for a large amount of the organotin entering the water from antifouling paints, this bill bans the use of all organotin-based paints for any vessel 25 meters or less. This absolute prohibition does not apply to the aluminum hull or outboard motor or lower drive unit of a vessel that is 25 meters or less. Organotin paints with a release rate of 3 or less are permitted in these circumstances.

Finally, the administrator of the EPA is required to monitor the concentrations of organotin in the Chesapeake Bay and other estuaries in the United States and assist the States in monitoring waters for the presence of organotins and in the laboratory analysis of samples. The Secretary of the Navy is required to test, not less than annually, the waters of the home ports of Navy ships to determine the level of organotin contamination.

Mr. President, I consider this an emergency situation. Organotin levels found in the Chesapeake Bay last year were alarmingly high. Similar organotin levels have been found in many other areas around the country. We must act now to protect our marine environment and I urge my colleagues to support this measure.

The bill was ordered to be engrossed for a third reading and was read the third time.

Mr. BYRD. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be discharged from further consideration of H.R. 2210, that the Senate proceed to its consideration, that all after the enacting clause be stricken, that the text of S. 1788 be inserted, that the bill be advanced to third reading and passed, and the motion to reconsider be laid on the table.

THE PRESIDING OFFICER. Without objection, it is so ordered.

The text of the bill follows:

(B) until such final decision takes effect, is certified by the Administrator under section 5 as having a release rate of not more than 3.0 micrograms per square centimeter per day;

(7) "release rate" means the rate at which organotin is released from an antifoulant paint over the long term, as determined by the Administrator, using—

(A) the American Society for Testing Materials (ASTM) standard test method which the Environmental Protection Agency required in its July 29, 1986, data call-in notice on tributyltin compounds used in antifoulant paints; or

(B) any similar test method specified by the Administrator;

(8) "retail" means the transfer of title to tangible personal property other than for resale, after manufacturing or processing;

(9) "State" means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, or any territory or possession of the United States; and

(10) "vessel" shall have the same meaning given to such term in section 3 of title 1, United States Code.

FINDINGS AND PURPOSE

SEC. 3. (a) The Congress finds the following:

(1) more than 70 percent of the worldwide commercial shipping fleets and recreational boats are painted with an antifouling paint known generically as organotin;

(2) antifouling paints containing organotin biocides are used to prevent the buildup of barnacles and other encrusting organisms on vessels;

(3) the elimination of fouling growths on vessels is highly beneficial for operating capability and leads to lower operating and maintenance costs and substantial fuel consumption reductions;

(4) laboratory and field studies show that organotin is very toxic to marine and freshwater organisms at very low levels;

(5) vessels that are less than 25 meters in length and are coated with organotin antifoulant paint account for a large amount of the organotin released into the aquatic environment; and

(6) the Environmental Protection Agency has determined that concentrations of organotin currently in the waters of the United States may pose unreasonable risks to oysters, clams, fish, and other marine life.

(b) The purpose of this Act is to protect the aquatic environment by reducing immediately the quantities of organotin entering the waters of the United States.

PROHIBITION

SEC. 4. (a)(1) Except as provided in paragraph (2), no person in any State may apply to a vessel that is 25 meters or less in length an antifoulant paint containing organotin.

(2) Paragraph (1) shall not prohibit the application of a qualified antifoulant paint on—

(A) the aluminum hull of a vessel that is 25 meters or less in length; or

(B) the outboard motor or lower drive unit of a vessel that is 25 meters or less in length.

(b) No person in any State may apply to a vessel greater than 25 meters in length an antifoulant paint containing organotin other than a qualified antifoulant paint.

(c) No person in any State may knowingly sell or deliver to, or purchase or receive from, another person an antifoulant paint containing organotin, unless the antifoulant paint is a qualified antifoulant paint.

(d) No person in any State may knowingly sell or deliver to, or purchase or receive from, another person at retail any substance containing organotin for the purpose of adding such substance to paint to create an antifoulant paint.

CERTIFICATION

SEC. 5. (a) Not later than 90 days after the date of the enactment of this Act, the Administrator shall certify each antifoulant paint containing organotin that the Administrator is able to determine has a release rate of not more than 3.0 micrograms per square centimeter per day.

(b) After the initial period of certification required by subsection (a), the Administrator, not later than 90 days after the receipt of information with regard to an antifoulant paint containing organotin submitted in response to a data call-in or pursuant to any provision of Federal law, shall certify such paint if, on the basis of such information, the Administrator is able to determine that such paint has a release rate of not more than 3.0 micrograms per square centimeter per day.

MONITORING

SEC. 6. (a) The Administrator, in consultation with the Under Secretary of Commerce for Oceans and Atmosphere, shall monitor the concentrations of organotin in the water column sediments, and aquatic organisms of representative estuaries in the United States. This monitoring program shall remain in effect until 7 years after the date of the enactment of this Act. The Administrator shall submit annually to the Speaker of the House of Representatives and to the President pro tempore of the Senate a report detailing the results of this monitoring program for the preceding year.

(b) The Secretary of the Navy shall provide for periodic testing, not less than annually, of any harbors and related waters serving as the home port for any Navy vessel to determine the level of organotin contamination in such harbor or waters, including testing of aquatic organisms. The Secretary shall provide a report and assessment of this monitoring data to the Administrator and to the Governor of the State in which the home port is located. Such report shall be included in the report to Congress required pursuant to subsection (a).

(c) To the extent practicable, the Administrator shall assist States in monitoring waters for the presence of organotins and in laboratory analysis of samples.

CIVIL PENALTIES

SEC. 7. (a) Any person who violates any provision of section 4 shall be liable to the United States for a civil penalty in an amount not to exceed $5,000 for each such violation.

(b) A civil penalty for a violation of any provision of section 4 shall be assessed by the Administrator by an order made on the record after opportunity (provided in accordance with this section) for a hearing in accordance with section 554 of title 5, United States Code. Before issuing such an order, the Administrator shall give written notice to the person to be assessed a civil penalty under such order of the Administrator's proposal to issue such order and provide such person an opportunity to request, within 15 days of the date the notice is received by such person, such a hearing on the order.

(c) In determining the amount of a civil penalty, the Administrator shall take into account the nature, circumstances, extent, and gravity of the violation or violations and, with respect to the violator, ability to pay, effect on ability to continue to do business, economic benefit to violator resulting from such violation, any history of prior violations, the degree of culpability, and such other matters as justice may require.

(d) The Administrator may compromise, modify, or remit, with or without conditions, any civil penalty which may be imposed under this section.

(e) Any person who requested in accordance with subsection (b) a hearing respecting the assessment of a civil penalty and who is aggrieved by an order assessing a civil penalty may file a petition for judicial review of such order with the United States Court of Appeals for the District of Columbia Circuit or for any other circuit in which such person resides or transacts business. Such a petition may only be filed within the 30-day period beginning on the date the order making such assessment was issued.

(f) If any person fails to pay an assessment of a civil penalty—

(1) after the order making the assessment has become a final order and if such person does not file a petition for judicial review of the order in accordance with subsection (e), or

(2) after a court in an action brought under subsection (e) has entered a final judgment in favor of the Administrator,

the Attorney General shall recover the amount assessed (plus interest at currently prevailing rates from the date of the expiration of the 30-day period referred to in subsection (e) or the date of such final judgment, as the case may be) in an action brought in any appropriate district court of the United States. In such an action, the validity, amount, and appropriateness of such penalty shall not be subject to review.

AUTHORITY TO SELL EXISTING STOCKS

SEC. 8. Notwithstanding the prohibitions contained in section 4, the Administrator shall provide a reasonable time, not to exceed 180 days from the date of the enactment of this Act, for the continued sale, delivery, purchase, receipt, application, and use of stocks of organotin antifoulant paint and organotin additives that existed before the date of the enactment of this Act.

DISCLAIMER

SEC. 9. Nothing in this Act shall preclude or deny any State or political subdivision thereof the right to adopt or enforce any requirement regarding antifoulant paint or any other substance containing organotin. Compliance with the requirements of any State or political subdivision thereof respecting antifoulant paint or any other substance containing organotin shall not relieve any person of the obligation to comply with the provisions of this Act.

WATER QUALITY CRITERIA DOCUMENT

SEC. 10. The Administrator shall, not later than September 1, 1988, issue a final water quality criteria document, pursuant to section 304(a) of the Federal Water Pollution Control Act, concerning organotin compounds.

SEC. 11. (a) The Administrator, in cooperation with the Secretary of the Navy, shall conduct research into alternative antifouling chemicals and nonchemical antifouling systems.

(b) The Administrator shall, within 3 years of the date of enactment of this Act, provide a summary assessment of such research in a report to the Speaker of the House of Representatives and the President pro tempore of the Senate.

EFFECTIVE DATES

SEC. 12. (a) Except as provided in subsection (b), this Act shall take effect on the date of its enactment.

(b)(1) Section 4 and section 7 of this Act shall take effect 90 days after the date of the enactment of this Act. Subsections (b) and (c) of section 4 shall remain in effect only until a final decision regarding the release of organotin into the aquatic environment by antifoulant paints, pursuant to the process initiated by the Administrator's Position Document 1 dated January 8, 1986—

(A) is issued by the Administrator; and

(B) takes effect.

(2) For purposes of paragraph (1) of this subsection, a final decision shall be considered to have taken effect upon the date of the expiration of the time for making any appeal with respect to such decision or, in the case of any such appeal, the resolution of such appeal.

TRANSFER OF THE DISTRICT OF COLUMBIA OLD CITY POST OFFICE BUILDING

Mr. BYRD. Mr. President, on behalf of Mr. Ford, I introduce a bill, and I ask for its first reading.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill to authorize the acquisition of the old city post office in the District of Columbia by the Architect of the Capitol.

Mr. FORD. Mr. President, this bill would authorize the transfer of the District of Columbia Old City Post Office Building situated at Massachusetts Avenue and North Capitol Street, to the Congress of the United States. For several years, Members of the House and Senate have surveyed this nearby building to ascertain its suitability for use by the two Houses, the Library of Congress, Government Printing Office, and other legislative and executive agencies.

Such surveys have conclusively demonstrated the enormous potential value of this magnificent building to the legislative branch of Government.

Among the uses identified are special loading and unloading areas which can meet urgent and serious security needs of the House and Senate, as well as the Library of Congress. The building would provide much needed space for many House and Senate activities which now occupy space in House and Senate office buildings which can be put to better use when available.

In addition, the Senate Computer Center currently occupies rental space at substantial annual cost, and could readily be relocated to the city post office building.

As indicated earlier, there are important uses by other than legislative agencies of Government which can be accommodated. The Postal Service and the Smithsonian Institution have expressed the desire to establish a new Postal Museum in the building. This should certainly be possible, and space can be made available for a Government Printing Office bookstore, if such a project proves feasible and desirable.

After transfer to the Congress, the bill would place the building in the control of the Architect of the Capitol, under the direction and supervision of the House Committee on Administration and the Senate Committee on Rules and Administration. Acquisition of the building by the Capitol Architect would be under the direction of a Commission specially created in the bill. Reimbursement to the Postal Service would be negotiated and agreed upon.

Mr. President, the studies which have preceded the introduction of this bill have, at least preliminarily, demonstrated a very strong need by the Congress for this building. I am also convinced that the further studies which will follow introduction of the bill will establish the substantial savings which this acquisition can bring about.

I ask unanimous consent that a section-by-section analysis of the bill be printed in the Record, along with the bill itself.

There being no objection, the material was ordered to be printed in the Record, as follows:

S. 1947

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Mr. McCLURE. Mr. President, on Friday, November 13, 1987, the Committee on Energy and Natural Resources held a hearing on the nomination of Earl E. Gjelde to the Under Secretary of the Interior. On December 2, the committee ordered favorably reported this nomination by a vote of 19 to 0.

Mr. President, I would like my colleagues to be aware of Mr. Gjelde's extended career in public service, including his present position as counselor to the Secretary at the Department of the Interior. He has served as Chief Operating Officer and Special Assistant for Policy and Programs at the Department of Energy and Acting Administrator and Deputy Administrator at the Bonnevilled Power Administration, as well as other various management positions at the BPA.

He has been a long-term confidant of Secretary Hodel, dating back to their time together at the Bonneville Power Administration. When Mr. Hodel became Secretary of Energy in November of 1982, Mr. Gjelde moved with him and served as Chief Operating Officer for the Department. Since February of 1985, when Mr. Hodel became Secretary of the Interior, he has been counselor to the Secretary.

In his statement before the committee, Mr. Gjelde referred to the benefits of his Government service in preparing him for his new position:

> I believe this experience has given me a good understanding of how government works, with the necessary meshing between policy level appointees and the professionals who carry out the work—between broad policies and the program details to implement them. Throughout my experience, I have learned to have great respect for the professionals, the career employees in government, who faithfully execute the policies in accordance with broad policy guidelines and the principles which underlie them.

The principal role of the Under Secretary is to be responsible for general management of the day-to-day operations of the Department. However, these responsibilities also relate to policy development, and require a clear understanding of the President's overall policy. In his capacity as Under Secretary, Mr. Gjelde must assist the Secretary in implementing these policies with enthusiasm and a strong sense of commitment.

Mr. President, I believe that Mr. Gjelde will do just that. He is well-qualified for this position, and I urge my colleagues to join me in supporting this confirmation.

LEGISLATIVE SESSION

The Senate resumed legislative session.

THE HEROES OF CAPITOL HILL

Mr. PRESSLER. Mr. President, we have all heard about the sad incidents where local citizens refused to get involved and help out an individual in need. Today I rise to pay tribute to two individuals who got involved and made a difference.

Adrian Boyle is a young man who lives here on Capitol Hill and attends Gonzaga High School. On the night of November 20, Adrian saw two men robbing and beating up on another man who was walking home. Instead of shying away, Adrian jumped out of his car and proceeded to chase one of the muggers down the street in an attempt to catch him. Despite the fact that these men were older and larger than Adrian, he showed no fear and went to help a fellow citizen. This is a tremendous feat.

Although the muggers were not caught, Adrian stayed and helped Blair Downing, the victim, to the police station to report the crime. My office has spoken with Mr. Downing, a Treasury Department employee and he wishes to express his sincere appreciation for Adrian's help. He said it is very encouraging to see young people willing to get involved in such a courageous and caring way. Adrian Boyle is an outstanding young man.

The second incident is similar. In witnessing another attempted mugging, Tim White of WORLDNET joined the chase to catch the mugger. Tim was joined by two other young men who saw what was going on. With the help of a taxi driver the three of them were able to lock the mugger in the cab, and physically hold the doors closed until the police came. Because of the concern of all of these local citizens, the mugger was caught.

In this case a small group of citizens working together confronted a potential robber. Their courage exceeds the normal. If everyone did as Mr. White and Mr. Boyle there would be fewer muggings and robberies. I know there is much controversy about the best way to proceed when confronted by or when witnessing a robbery. Citizen involvement helps reduce muggings. Even if a citizen cannot get physically involved, calling for help and willing to be a witness as helpful.

Mr. Boyle and Mr. White are indeed "Heroes of Capitol Hill."

EDUCATIONAL IMPROVEMENT

Mr. TRIBLE. Mr. President. In 1822 James Madison, then in retirement at Montpelier, wrote a friend:

> Knowledge will forever govern ignorance and people who mean to be their own governors must arm themselves with the power which knowledge gives.

The Congress would do well to heed Madison's words this year as it strives to adjust the Federal budget to fit economic constraints and to improve America's competitive position in the world marketplace.

Virginians, I am proud to note, have long understood that a sound educational system is absolutely fundamental to the health and welfare of American self-government. The first free schools in the United States were founded in Hampton, VA. They were the Syms Free School established in 1634 and the Eaton Free School founded about 1640.

American education is now going through a period of informed review with intensive public interest. In 1983 the National Commission on Excellence in Education startled many Americans in concluding that:

> The educational foundations of our society are presently being eroded by a rising tide of mediocrity that threatens our very future as a Nation and a people.

Many other commissions, boards, councils and foundations have since questioned how well our schools are performing. Among teachers, school administrators, parents, and public officials there is now widespread, but by no means universal, agreement that more must be done to improve elementary and secondary schools in order to prepare our children for the future.

It is very disturbing, for example, to learn that about 20 percent of Americans are functionally illiterate. They cannot read and write well enough to meet the demands of our contemporary society. Whatever their precise number, we all understand the personal tragedy of each adult who cannot read simple directions or complete a job application. Moreover, illiteracy hurts America's productivity, international competitiveness, and economic well-being.

Illiteracy, of course, is a symptom of larger ills in the education system. This symptom and others have raised several unsettling questions about the health of America's schools: What is the condition of schooling in the country? What are the causes of educational problems in our schools? What recommendations for change are appropriate?

Marcia Lynn Whicker and Todd W. Areson, of Virginia Commonwealth University's School of Community and Public Affairs, explore answers to these questions in a thoughtful article published last month in the Rappahannock Record of Kilmarnock, VA.

Their article can serve as a brief guide to the school improvement discussion and help stimulate the responsible ideas necessary for strengthening the educational foundations of our Nation.

Mr. President, I ask that the article be printed in the CONGRESSIONAL RECORD.

GRADING AMERICAN EDUCATION: REPORT CLAIMS WE'RE BEHIND

(By Marcia Lynn Whicker and Todd W. Areson)

Ominous signs exist that American schools, once the paragon of broad-based mass education, are no longer excellent. In fact, critics, including the authors of a recent article in U.S. News & World Report, charge that they are no longer even good, citing the following statistics:

Japanese high school graduates completing the twelfth grade have the equivalent of three to four more years of schooling than do U.S. high school graduates. Half of Japanese high school graduates know as much as the average U.S. college graduate. In a 1987 report, the National Assessment of Educational Progress found that U.S. high schools graduate 700,000 functionally illiterate students every year.

Soviet students typically study physics and algebra for five years, biology for four years, and calculus for two. In the U.S., only six percent of all high school students study calculus. Two-thirds of all U.S. students take no more than two years of high school math; most never take physics or chemistry.

When 22 experts in comparative education were asked to rank elementary and secondary educational systems in six countries, they ranked the U.S. next to last in mathematics and science, ahead of Britain and behind top-ranking Japan, second-ranking U.S.S.R., France and West Germany. The U.S. did not rank first in any area; it placed second in social studies only, behind West Germany.

In use of a country's own language, the U.S. ranked last, surpassed by top-ranking France, the U.S.S.R., West Germany, Japan, and Britain. In use of foreign languages—skills useful for exporting and global competitiveness—the U.S. ranked fourth behind West Germany, the U.S.S.R., and France.

While nine out of ten Japanese students earn high school diplomas, nearly one-fourth of Americans drop out of high school. This results in about one million untrained teenagers entering the U.S. job market, and often the unemployment lines, every year. Many of those who stay in high school do so primarily to take driver's education and get a driver's license.

In a United Nations survey of knowledge of foreign cultures given students in nine countries, U.S. youth scored the lowest. In another test, many 12-year-old Americans could not locate the U.S. on the world map.

In an era where future economic success seems tied more closely than ever to high quality, highly educated, and highly competitive labor force, many experts are calling for a re-examination of U.S. educational institutions and a complete overhaul of our system.

Students today need to know far more than the basic three R's of the past. The National Commission on Excellence in Education has recommended an increased emphasis on English, mathematics, science, social studies, computer science, and foreign languages. Goals offered for high school English include equipping students:

To comprehend, evaluate, and use what they read;

To write well-organized and effective papers;

To listen to and discuss ideas intelligently; and

To relate literature to everyday living.

High school mathematics would include algebra, geometry, applied math, estimation, approximation, and measurement skills. Science would not only convey basic physical and biological concepts, laws and processes, but also impart methods of scientific inquiry and reasoning. Through the introduction of computers and computer science into curricula, students would understand the capacity of computers as information, computation, storage, and communication devices. They would also use computers to study other subjects and develop some understanding of electronics and related technologies.

Social studies would equip students to understand the functioning of political and economic systems, the differences between repressive and free societies, and the implications of social structure and culture. To increase fluency in foreign languages, the Commission recommended that foreign languages be introduced into elementary schools. Proficiency in a non-native language usually takes from four to six years of study.

Other recommendations would increase the amount and effectiveness of time spent on learning, including introducing study skills in elementary school, adopting a 7-hour school day and a 200 to 220-day school year, and assigning more homework. As necessary, additional time should be devoted to disadvantaged and gifted students. Energy used to discipline would be diminished through consistent application of standards of conduct and through placing disruptive students in alternative classrooms and programs.

The quality of teachers would be greatly improved by requiring that teachers have academic training in the subjects they teach. College professors could assist secondary teachers in preparing more rigorous materials. Teachers' salaries would be raised to attract and keep competent professionals. A comprehensive evaluation system—including peer review for salary, tenure, promotion, and retention—would be developed to reward superior teacher, to encourage average teachers to improve, and to eliminate ineffective teachers. Competency tests would be required to enter the profession; periodic certification renewals would force teachers to keep abreast in their field.

Clearly we have our homework cut out for us; the question is whether, as a nation, we will undertake it or, like many of our students, continue to court disaster through dalliance and delay. These suggestions require that more dollars be spent for public education and more effectively, that we develop a vision of a superior educational system, and that we have the will to carry out our vision. While quality in education costs, maintaining an uneducated, unqualified, and uncompetitive labor force costs far more dearly—as we are already uncomfortably aware.

HUMAN RIGHTS IN THE SOVIET UNION

Mr. NUNN. Mr. President, in the aftermath of all the summit meetings between President Reagan and General Secretary Gorbachev, I would like to address an issue of deep personal concern to hundreds of thousands of American and Soviet citizens—the prospects for human rights in the Soviet Union. The dramatic and compelling nature of this issue was demonstrated most recently by the huge rally on behalf of Soviet Jewry that took place last Sunday, December 6, in Washington.

To put human rights in the Soviet Union into perspective, it is worthwhile to remember that relations between the Soviet Union and the United States currently offer both hope and risk, both opportunity and challenge. At the moment, our relations are in transition.

On the one hand, our two countries have already signed agreements eliminating intermediate range nuclear missiles in Europe and establishing risk reduction centers. Furthermore, we seem to be moving forward in our negotiations on long-range nuclear weapons, nuclear testing, weapons in space, and chemical weapons. This progress on nuclear arms control is encouraging.

On the other hand, however, if the Soviet Union is indeed serious about becoming a responsible member of the family of nations, the real proof will emerge in other areas. On Afghanistan, Soviet officials have said that their Government has made a "political decision" to leave Afghanistan. The Soviet Union must prove its commitment by agreeing to a quick and complete withdrawal of its troops.

One of the most important tests will be in the area of human rights. What is important is not only that those Soviet citizens who desire to emigrate are allowed to leave, but also that those who choose to remain in the Soviet Union are free to enjoy their fundamental human rights. This challenge to the Soviet Union was described to me earlier this year when Senator JOHN WARNER, the ranking Republican member of the Armed Services Committee, and I visited several countries in Eastern Europe. In Romania, Rabbi Rosen, who has been very active in promoting human rights for Jews in his country, told us, "The first problem with Russia is for the Soviet government to let Jews be Jews."

Does "glasnost" mean that Jews will at last be allowed to be Jews? That Jehovah's Witnesses, Pentacostals, Muslims, and other religious communities will be free to practice their faiths? Whatever our hopes for "glasnost" may be, it is sobering to remember that it is aimed at making the Soviet economic system work better, not converting it into a Jeffersonian democracy.

Nonetheless, General Secretary Gorbachev's policy of "glasnost" has produced some noticeable changes:

Of course, the press is still controlled, but Soviet newspapers now print articles critical of the bureaucracy and the economy. Literary magazines go even further.

For the moment at least, some long suppressed books are being printed and more books from abroad are being made available to the public.

Restrictions on Jews entering institutions of higher learning have been eased.

Emigration has increased dramatically since 1986, with an estimated 8,000 Jews likely to be allowed to leave by the end of this year. Almost as many Jews left the Soviet Union this June as in all of last year.

Like our progress in arms control negotiations, these improvements in human rights are encouraging. Unfortunately, however, this promising policy of "glasnost" also has a dark side:

At least one anti-Semitic group has sprung up and is enjoying great freedom to harass Jews.

Promises of more freedom to train rabbis and the young, especially in Hebrew, have not yet been fulfilled.

Most new applications for emigration are denied, except to the children and parents of those who have already emigrated.

The Soviet Government has clamped down on regional ethnic groups out of fear that more autonomy for them could undermine ethnic Russian culture.

The Soviet people remain uninformed of their Government's actions. For example, they still do not realize the extent of their country's involvement in Afghanistan, even though casualties there are mounting.

Despite the recent increases in emigration, the process required to secure permission to leave the Soviet Union continues to be a painful and drawn-out ordeal for Soviet Jews. Compared to the tens of thousands who would like to leave, this year's rate of emigration represents only a trickle.

The courageous efforts of Soviet Jews to emigrate have a personal significance for me and many other Members of Congress. All of us have been moved by stories of individuals struggling to leave the Soviet Union—whether to rejoin their families, to practice their religions, to find meaningful work, or just to enjoy the freedoms of Western democracies. In my case, I have taken a special interest in the efforts of five families:

Ilya Shostakovsky and his family, who live in Leningrad;

Aleksey Magarik and his wife, who live in Moscow;

Lev Shapiro and his family, who live in Leningrad;

Leonid Yuzefovich and his family, who live in Moscow; and

Pavel Tsimberov and his family, who live in Leningrad.

I have contacted Soviet officials on behalf of these families and will continue to do all that I can to help them to secure permission to emigrate.

Mr. President, my message today is one of cautious hope. The Soviet Government seems to be making some promising changes in certain foreign and domestic policies. At the same time, however, we cannot be sure yet of the purpose, permanence, or breadth of these changes. Further progress in improving human rights in the Soviet Union will be one of the principle factors that the citizens of our Nation consider in judging both General Secretary Gorbachev and the Soviet policy of glasnost.

ADDRESS BY PAUL N. TEMPLE AT THE TEMPLE AWARD FOR CREATIVE ALTRUISM CEREMONY

Mr. PELL. Mr. President, recently the Senate caucus room was the site of an extraordinary dinner ceremony. It was the first Temple Award for Creative Altruism. Some of our congressional colleagues were with me that evening, and the following remarks by Paul N. Temple, chairman of the board of the Institute of Noetic Sciences, and well known to many of you, is a way of sharing the spirit of that ceremony.

I ask unanimous consent that his excellent speech be inserted in the RECORD.

I have had a long personal interest in the Institute of Noetic Sciences, and the serious and competent research it has supported in the study of the human mind and the fuller understanding of man's potential. It is in keeping with the organization's philosophy that it has found a way to honor one of man's most noble urges, creative altruism.

There being no objection, the speech was ordered to be printed in the RECORD, as follows:

OPENING SPEECH BY PAUL N. TEMPLE

It seems befitting that we have come together to honor our altruists in such a setting dedicated to the national interests of our country. Perhaps not all of the political events that have taken place in the Caucus Room could be described as altruistic, but there is no doubt that this hall is hallowed by good intentions, deep commitments and devoted lives of public service. I agree that hopefully the good spirits of this evening will help a bit to elevate the level of future deliberations in this historic chamber.

On behalf of my wife, Diane, and myself we gratefully and sincerely thank all of the Honorary Dinner Committee. You have given your names and support to help make this evening an extraordinary event.

I would like to pay a special tribute to the Chairman of the Committee, Mr. Laurance Rockefeller.

Mr. Rockefeller and his father before him, John D. Rockefeller, Jr., have given philanthropy a new dimension and a deeper meaning in our country. I would like to read a few excerpts from the personal creed that was written many years ago by Mr. Rockefeller's father and has evidently been the basis upon which his own philanthropic achievements have been based. The excerpts read as follows:

"I believe in the supreme worth of the individual and in his right to life, liberty, and pursuit of happiness.

"I believe that every right implies a responsibility; every opportunity, an obligation; every possession, a duty.

"I believe in the sacredness of a promise, that a man's word should be as good as his bond; that character not wealth or power or position—is of supreme worth.

"I believe that the rendering of useful service is the common duty of mankind and that only in the purifying fire of sacrifice is the dross of selfishness consumed and the greatness of the human soul set free.

"I believe in an all-wise and all-loving God, named by whatever name, and that the individual's highest fulfillment, greatest happiness, and widest usefulness are to be found in living in harmony with his will.

"I believe that love is the greatest thing in the world; that it alone can overcome hate; that right can and will triumph over might."

So spoke John D. Rockefeller.

It is this last point that is so relevant as we gather to celebrate the altruism of humankind—the altruism that exists in every human being, and that is so keenly developed in those we honor tonight, and which, as John D. Rockefeller said, "Is the greatest thing in the world; that alone can overcome hate; that can and will triumph over might."

Laurance Rockefeller and his gracious wife, Mary, not only extend the Rockefeller heritage, they have added immensely to it with their own creative spirit. Their personal philanthropy in recent years reflect their strong personal interest in the human spirit. Yet this is an initiative coming from a man at an age when many are resting on their laurels (as well he might have). He has been part of the inspiration that gave birth to this award for altruism.

We want to thank you, Mr. and Mrs. Rockefeller for helping to make this evening a reality.

The Rockefeller concept that love can overcome hate inspires us when we see a spirit of peace and disarmament emerging between our country and the Soviet Union. Accordingly, we welcome the distinguished Ambassador of the Union of Soviet Socialist Republics, the Honorable Yuri Dubinin, who has joined us tonight. Mr. Ambassador, we appreciate the new openness of your country and look forward to a spirit of altruism in the summit talks in Washington next month.

As you can see from your programs, ladies and gentlemen, the Honorary Dinner Committee is truly a non-denominational group that contains representatives of many major religions, different political persuasions and a wide range of professions. It is truly a group of distinguished persons from many walks of life who have come together, each in his own way, to honor others whose lives are characterized by a spirit of service and of love.

Now I should like to thank the jury that selected the five persons to be the first recipients of The Temple Award. Their work has required the wisdom of Solomon. There were almost 200 nominations for the award. The nominees included persons from many nations, religions, and peoples, reflecting the fact that altruism is a characteristic that appears in all cultures, all mankind. It is a coincidence that all awardees this year are Americans. The diversity of the nominations, however, confirms our belief that altruism takes many forms, and that it permeates our everyday lives. Spouses nominated each other, siblings nominated each other, parents nominated children, and children nominated parents, mentors their students, and of course, students their mentors. Colleagues, friends, rich and poor, young and old. Many of us have been deeply moved and inspired by these nominations. Taken individually they may not seem to be too dramatic for they are the grist of daily life—a mother who is always there for her family, a retired woman in a small Midwestern town who each day does something kind for others (such as picking up library books for residents of a nursing home, and who has put 98,000 miles on her car running errands of goodwill for strangers), a physician who is paid through contributions to charities rather than fees, a woman who dresses as Raggedy Ann to make daily visitations to the local hospital; and countless business people who have given so generously of time and money to community causes. But as a group, and taken collectively, they are overwhelming in their power, their goodwill, and their genuine concern for others.

The final decision was extremely difficult due to the large number of truly deserving nominees. Some of the participants of the jury are here with us tonight and I would like to give them special thanks and ask them to stand. I would especially call attention to Mr. Winston Franklin (affectionately know as "Wink"), Executive Vice President of the Institute of Noetic Sciences; and Mr. Tom Hurley, who is the executive in charge of the exceptional human abilities program of the Institute. Both of them have made major contributions to the success of this program.

I would also like to recognize Rusty Schweikhart, one of our former astronauts who is here tonight. He not only served on our jury, but is a leader in building bridges with the Soviet cosmonauts.

I would also thank Mrs. Pamela Gilmore and Ms. Katherine Francis who have coordinated all arrangements for this event.

Finally, I would like to acknowledge the spirit of altruism in each and all of you that brought you here tonight to help pay respect to our awardees. Many of you have come from far away to be present tonight, and we are most grateful.

The interest that has been generated in this particular project shows that it is an idea whose time has come. In our world there is an excess of gratuitous violence, Rambo-style, absorbed by our youth from television and movies. I believe that people today, especially the young, are eager to focus on some loftier images and models for their lives—a different kind of heroism . . . .

You might be interested in how and where the idea of awards for creative altruism originated. One morning two years ago Diane and I were having a swim. As we relaxed in the pool I chanced to remark that I read an editorial on how there were no real heroes anymore, outside the movies. It reminded me of a sermon I had once heard entitled, "When Pygmies Cast Such Long Shadows You Know It Is Late In The Day." In any case, I took exception to the basic idea, and reminded Diane of two men who had in recent years been much in the news. One had plunged into the ice-covered Potomac River to help rescue survivors from a passenger airplane that had crashed into the river during a winter storm and quickly sunk. Another was a District of Columbia firefighter. A huge truck had broken through the siderail of a high overpass leaving the driver dangling out its open door over the ledge. When the driver could hold on no longer he plummeted to earth. The man would have been killed, but Fireman Richard Young jumped beneath him and caught him in his arms. The falling driver survived and sustained less injury than did Fireman Young who caught him. Will you please stand, Richard Young, so we can salute you?

The more we thought about and discussed this topic of heroism, like the inspiring gallantry of Fireman Young, the clearer it seemed that something should be done to give special recognition to those persons whose whole lives reflect a spirit of love and service to others. They are the true unsung heroes, and it is they who make real for all of us the possibility of a genuinely altruistic way of being. They are the models for our youth, and for a future better than the past.

Diane and I shared this concept with the Board of Directors of the Institute of Noetic Sciences, which stimulated a growing dialogue on the subject. We agreed that an altruistic spirit is a gift. Some people are born with it and others are reborn to it. Few come to altruism as a way of life as the result of a purely intellectual process.

Our use of the term "creative altruism" was inspired by the work of Professor Pitirim Sorokin, a pioneering sociologist who founded the Department of Social Relations at Harvard University. Sorokin spent the last decades of his career studying love and its importance for personal growth, healing, and positive social change. He defined "creative altruism" as unselfish service motivated by love, and learned through his study of saints, as well as of ordinary "good neighbors," that those who are most consistently and creatively altruistic invariably had a profound spiritual commitment or practice.

Sorokin emphasized the importance of altruism for the survival and well-being of humankind. He wrote, "At the present time there seems to exist no power but creative love that can prevent future suicidal wars and revolutions; and there seems to be no effective defense against the apocalyptic methods of destruction but the Sermon on the Mount practiced in human behavior, incorporated into our social institutions, and incessantly articulated by culture." "Only the greatly increased production, accumulation and circulation of love," he said, "can save humanity from the terrible dilemma that is now pending."

Altruism is a gift like other gifts we human beings receive from our creator. These gifts may be thought of as extraordinary human abilities. Many of you are attending the symposium concerning extraordinary human abilities that is being held in the GSA Departmental Auditorium today and tomorrow. This dinner is closely related to the subject of that symposium.

In the symposium which has been entitled "The Greater Self," participants have been looking at the highest development that we have been able to identify in self-healing, creativity, and peak performance involving the mind, body and spirit.

Against this noetic background the annual award for creative altruism was conceived. Stated at the bottom of page two of your programs are the criteria. I will not repeat them but I do want to emphasize that our recipients are not chosen only on the basis of their achievements. While these are important, for they are the seed from which altruism flowers in the world, another factor was equally significant—the candidates' embodiment of a particular quality of being. All of our recipients are distinguished by their capacity to inspire the spirit of altruism and love in others through their personal presence and the depth of their concern and respect. This quality of being is a powerful force for change in the world. We prefer to think of our honored guests tonight, not so much as winners, but as "representatives," first of all of the other nominees, and also of all people who live altruistic lives. The jury has selected five recipients this year, not only because it was difficult to reach agreement on one, but also because they wanted to demonstrate in how many different ways altruism manifests itself and they also wanted to honor the spirit of altruism in each of us.

There is a fortuitous coincidence between the name of the award, and its true meaning. When the Board of the Institute took the decision to sponsor The Temple Award for Creative Altruism, my wife and I had some difficulty at first in accepting that it should be called "The Temple Award."

Since Temple is our family name, it appeared to us at first anomalous that we could reward selflessness in a way that might appear to be self-aggrandizing. Then we checked the scriptures and concluded that the name was indeed an appropriate one.

Jesus spoke of the temple of his own body. He said "Destroy this temple and in three days I will raise it up." Paul the Apostle wrote, "The temple of God is holy and that is what you are." He wrote further to the Corinthians, "Do you not know that your body is a temple of the Holy Spirit who is in you, whom you have from God, and that you are not on your own." "Glorify God in your body," he added. "We are the temple of the living God."

Therefore my wife and I rejoice at the knowledge that our family name happens to symbolize the fact that human bodies may be looked upon as temples of the living God within them and that they can and should be put to the uses of God during our lifetime by following the inner impulses of his spirit. This inner direction from God is what we personally believe to be the true explanation for the wonderful altruistic nature that shines in the persons we are honoring tonight.

Finally, I would like to say a word about the Institute of Noetic Sciences of which I happen to be the present chairman. It is believed that the word "Noetic" was invented by William James in his Varieties of Religious Experience. Webster's New Collegiate Dictionary says the noetic "pertains to cognition, especially through direct and self-evident knowledge." It has also been described as "inner-knowing," and it stems from the Greek words noesis meaning to "perceive," and nous, translated most simply as "mind." In other words, the Institute of Noetic Sciences is a nonprofit organization dedicated to the study of the human mind and to a deeper understanding of its potential. I should like to clarify, if there should be any doubt, that the Institute does not expouse any new religion. It does not advocate any particular philosophy or theology. It is neither "new age" nor "old paradigm." It is a research institute pure and simple and it is also a membership organization that you can join if you feel moved to do so. About 15,000 others have done so. Some materials concerning the Institute have been placed on the tables here tonight. In those materials you will be able to see the wide variety of research projects that have been supported by the Institute. (See pages 4 to 14 of the 1986 winter review). Obviously, my wife and I are proud to serve on its board of directors.

You will be interested to know that the founder of the Institute was Edgar Mitchell, of Apollo 14, another of our astronauts who became the 6th man on the moon. He had a transcendental experience on the way back from the moon. This experience led directly to the founding of the Institute in 1973. In taking this action he too was motivated by altruism. Ed, will you please stand so that we may honor you?

So there you have it. Now let us proceed with the main purpose of the evening—the presentation of The Temple Award to our outstanding altruists. Each awardee will be given a certificate in addition to the $25,000 monetary award that they shall share.

Each award will be presented by a person of distinction who has welcomed this opportunity to perform this function.

Our first presenter will be the very distinguished actor, Mr. Robert Young, whom we all fondly remember as Marcus Welby, MD, and who has been one of my favorite film personalities for many years. Mr. Young will present the award to Francis Joseph Brennan, the founder of the Seven Seas Home for Alcoholics and the Homeless, as well as the Mission Alcoholic Center, both in San Francisco, California.

The second presenter will be Congressman Gus Hawkins of Los Angeles. He will present the award to Alice Harris of the Watts district of Los Angeles. She is the Founder and Executive Director of the Parents of Watts Program.

The next presenter is my good friend, Dr. Willis Harman, President of the Institute of Noetic Sciences. Mr. Harman will present the award to Mildred and Glen Leet, cofounders of the Trickle Up Program. This program involves grants of $100 to groups of 5 or more persons who wish to create a new business. Over 4,000 businesses in 90 countries have been started by "the poorest of the poor," thanks to these grants.

Finally, our last presenter, The Very Reverend James Morton, Dean of the Cathedral of St. John the Divine in New York City. He, an episcopal priest, will present the award to Father Bruce Ritter, a catholic priest who founded Covenant House on New York's lower east side. Covenant House is an international agency for the care of children and young adults. It now serves over 20,000 homeless and runaway youth in New York, Toronto, Houston, Fort Lauderdale, New Orleans and Guatemala.

(Following the Presentations.)

We have been deeply honored by your presence, and hope that you will assist us in disseminating far and wide the knowledge that the life of true altrusim is perhaps the highest calling of mankind and deserving of our profound respect and encouragement.

I leave you with this ancient prayer: "May you live among people who care."

Thank you and God bless you all.

ENERGY AND NATURAL RESOURCES COMMITTEE PROVISIONS OF RECONCILIATION BILL

Mr. JOHNSTON. Mr. President, I want to comment briefly on the Energy and Natural Resources Committee provisions contained in S. 1920. Since the Budget Committee has not filed a report on S. 1920, the Omnibus Budget Reconciliation Act of 1987, an explanation of the legislative history of those provisions and an expression of the committee's intent with respect to those provisions is in order.

The Energy and Natural Resources Committee provisions constitute title II of S. 1920. Subtitle A is the Nuclear Waste Policy Act Amendments Act of 1987. Subtitle A was also reported separately as S. 1668 (S. Rep. 100-159). The committee intends for the contents of that report to be incorporated by reference. Since S. 1668 and subtitle A of S. 1920 were reported, the Senate adopted the nuclear waste provisions contained in H.R. 2700, the energy and water development appropriation bill for fiscal year 1988. At the appropriate time I will offer the nuclear waste provisions passed by the Senate, and included in H.R. 2700, as an amendment to subtitle A.

Subtitle B is the Federal Onshore Competitive Oil and Gas Leasing Act of 1987. Subtitle B was also reported separately as S. 1730 (S. Rep. 100-188). The committee intends for the contents of that report to be incorporated by reference.

Subtitle C is the Land and Water Conservation Fund Act Amendments of 1987. Subtitle C includes the text of H.R. 1320, as amended and reported (S. Rep. 100-86). The committee intends for the contents of that report to be incorporated by reference. The only difference between H.R. 1320, as amended and reported, and subtitle C, is a new section 2202(c) to make the recreation fee revenues subject to appropriation for fiscal years 1988, 1989, and 1990. Thereafter fee revenues would be made available without appropriation.

Subtitle D makes the Tongass timber supply fund subject to appropriation for fiscal years 1988 and 1989. The committee's action is for 2 years only and is taken solely for budget reconciliation purposes during that period. It does not constitute an expression by the committee for or against legislation concerning section 705 of the Alaska National Interest Lands Conservation Act of 1980 or the Tongass National Forest which now is or may come before the committee. At the time the committee acted on subtitle D it had held no hearings on the Tongass and section 705 of ANILCA and said that to make such an expression for or against such legislation would be premature.

THE TEXTILE AND APPAREL TRADE AGREEMENT WITH THE SOVIET UNION

Mr. THURMOND. Mr. President, I rise to voice my strong opposition to the recent textile and apparel trade agreement entered into with the Soviet Union. The agreement allows the Soviet Union to export to the United States 23.5-million square yards in textile products. This figure represents a drastic increase from the limits imposed last year. The increase comes at a time when our textile and apparel industry is experiencing grave difficulties due to the great influx of foreign textile imports.

Mr. President, a viable textile and apparel industry is absolutely essential to the economy, defense, and national security of this Nation. Although seriously threatened, and already heavily impacted by massive imports, this vital industry still provides employment nationwide for more than 2 million Americans. One out of every 10 manufacturing jobs is a textile and apparel-created job. Moreover, more people depend upon the textile and apparel industry for their livelihoods than the steel and auto industries combined. However, if the current trend in job losses persists due to textile import penetration, massive economic hardship will continue to impact harshly upon those who depend upon this industy for their livelihoods.

In carrying out this agreement, vital American jobs will soon become Soviet jobs. There is no plausible reason to finance the Soviet agenda at the expense of American employment.

The worst aspect of the recent agreement is what will transpire in the future. The Soviets are now provided with a large base from which they can bargain for annual increases. If the same proportionate increase that took place with this agreement occurs in next year's agreement, the domestic textile market will be dealt a devastating blow.

In closing, I would like to quote a verse from St. Matthew which I feel applies to this crisis: For wide is the gate, and broad is the way, that leadeth to destruction, and many enter through it. (Matthew 7:13). Under this administration we have seen the gate opened wide for the flood of foreign textile imports. If this practice is not reversed we may eventually see the elimination of our textile industry.

Mr. President, I urge my colleagues to heed this warning.

THE RETIREMENT OF WILLIAM G. BOWEN FROM THE POSITION OF PRESIDENT OF PRINCETON UNIVERSITY

Mr. BRADLEY. Mr. President, today in my home State of New Jersey the trustees of Princeton University are honoring William G. Bowen, who is stepping down as president of the university, a position he has held since 1972.

Bill Bowen's commitment to higher education in general and to Princeton specifically is unsurpassed. A generation of Princeton specifically is unsurpassed. A generation of Princeton students has crossed Cannon Green after long nights in Firestone Library and seen the lights burning in 1 Nassau Hall. This dedication combined with his unwillingness to accept less than excellence in his own work has inspired students, faculty, and alumni to reach higher and accomplish more than most could have imagined.

Under Bill Bowen's careful guidance, Princeton made the important transition to coeducation, restructured undergraduate residential life, and added departments and programs in comparative literature, women's studies, molecular biology, computer science, and electrical engineering, among others.

His academic work and annual reports have helped to shape the national debate on such important topics as the economics of education, the role of student aid, and the need for basic research.

But President Bowen's perspective on the challenges facing our Nation's educational system never overshadowed Professor Bowen's commitment to educating our Nation's young people. Year after year, freshmen and sophomores marveled at their good fortune when they found that the president of the university would lead their section of economics 101.

In 1981 he reminded the entering class that:

> Learning pursued for its own sake—and not merely as a means to some more prosaic end—can be a source of great enjoyment and personal satisfaction; it can also serve as the soundest preparation for citizenship and for what I hope will be lives lived generously, in service to others. It is this kind of learning that we are here to promote.

And so now Bill Bowen will continue to take the advice he has given so many students—to pursue new challenges, to open up to new experiences, to serve others, and to capture the pleasure and joy of learning.

Princeton will forever bear the mark of Bill Bowen and he will be sorely missed. But I wish him well with the one word valediction he has given to thousands of graduating students: "Onward!"

MARY SLATER

Mr. BURDICK. Mr. President, North Dakota's best resource is its people. Many North Dakotans have gone on to become leaders in the corporate world, government agencies, entertainment industry, and military.

Mary Slater was none of those, yet she was one of North Dakota's best. She went on from being salutatorian of her high school class in Minot, ND, to get a master's in psychology and a doctoral degree in philosophy. Her specialty was mental retardation. She did important work in developing methods for raising the IQ and enhancing the future of brain-injured, handicapped, and retarded children. As her superior at Texas Tech Health Sciences Center said, "she was our shining star."

She and several colleagues from Texas Tech were doing research in Africa when their charter flight crashed, killing everyone aboard. Her publications survive to remind us all of her generosity and her gifts to those less fortunate.

Mr. President, I ask unanimous consent that Mary Slater's obituary from the Minot Daily News and a eulogy by Dr. Tom Hale be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MARY SLATER

There will be a memorial service Wednesday at 10:30 a.m. in St. Leo's Catholic Church, Minot, for Mary Slater, 37, formerly of Minot, who was one of 13 victims aboard a Cessna 404 that crashed Thursday near the Rwandan village of Kanama in Africa. A gathering of family and friends will follow in the church basement.

Slater was one of a group of professional staff members of Texas Tech Health Sciences Center and Medical School in Amarillo who had gone to Africa on a research and photography tour. They were en route back to Nairobi in Kenya from a chartered plane trip to Zaire at the time of the plane crash. There were no survivors aboard the plane that exploded and burned following the crash.

She was born May 5, 1950, in Minot, a daughter of William and Dorothy Slater, 504 9th Avenue SE. Raised in Minot, she was salutatorian of the 1968 graduation class at Ryan High School, and the recipient of the Monsignor Hogan Award there. She earned a bachelor of science degree at Marquette University in Milwaukee, graduating cum laude in 1972.

She went on to earn master's and Ph.D. degrees in clinical psychology at the University of Wisconsin in Madison. She was the assistant administrator in the program at the university's Waisman Center until going to Amarillo 3½ years ago.

The dissertation for her doctorate was on retarded mothers and their children up to age 5, and the focus of her work had continued in that field and in research on the prevention of retardation in premature babies.

Surviving are her parents, and sisters, Helen Moon, Schenectady, NY, and Frances Johannes, Milwaukee.

EULOGY BY DR. TOM HALE, TEXAS TECH HEALTH SCIENCES CENTER

I've been asked to tell you about our Mary. Mary was my friend, she was my compatriot. And I grieve that I lack the eloquence to do her memory justice, but in reality, Mary was elegance in persona and to those of us who knew her. I will not fail.

Mary Alice Slater, Master of Psychology, Doctor of Philosophy, was born in Minot, North Dakota, May 5, 1950, she was 37 years old. She was the baby of the family, somewhat spoiled she told me. She was the daughter of Dorothy and William Slater. Her two older sisters were Francis and Helen.

She graduated Salutatorian from Bishop Ryan High school and received the Monsignor Hogan Award as best all around Student. She then graduated from Marquette University—1972, Cum Laude. She earned her masters and Doctor of Philosophy Degree from the University of Wisconsin in 1980.

Mary then joined what is considered the Premier institute for research in Mental Retardation, The Waisman Institute on Mental Retardation and Human Development in Wisconsin and soon became the assistant to the director and worked at this institute from 1976 to 1984 when through a stroke of magnificient fortune, she joined our department of Pediatrics.

Mary, when she came to our department was like a breath of fresh air, bubbly, enormously energetic, likeable, entertaining, driven. She was our shining star.

She soon started pouring out grants, papers and book chapters one after another until she had all the secretaries in the department overburdened. Mary was unbelievably prolific.

During her brief lifetime, she was principal investigator, or coinvestigator on more than 3.8 million dollars in grants, an immense achievement in any area of science.

Mary was a thoroughbred race horse, who made her race fast, but all too short.

Mary was not excentric, she was simply brilliant and all of us knew it. She was our pushy little northern girl whom we all loved.

Once or twice in a life time as a scientist you encounter one whom you consider truly gifted, that has an enormous insight into the problem, and how to resolve it, Mary was my encounter and that of many of us in our department.

Mary's expertise was in developing methods for raising the IQ and enhancing the future of brain injured children, and in children born with handicaps or retardation.

She worked tirelessly, to see that her scientific concepts were proven. And let me tell you now, having personally seen her results, Mary was right, completely.

In that vein, she had written over 12 publications, and 11 chapters in books. She consulted world wide, from Sweden to Alaska. Her work was recognized by all the leading authorities in her profession. Her concepts were all so well conceived, and written, that even today, we hope to continue her work.

She presently had four articles almost ready for publication. We, her colleagues will see those published, not for Mary's benefit, but for our sake.

To those of us to grieve her passing, remember the good things about Mary, because there were no bad, her bubbly but shy personality, her humor, her love for one another, her passion for sick infants, her expressive hands, and best of all, her finger in your face. That's all we have left, but it's enough.

She once told me she wanted to work ten years, publish all the works possible, get all the grant money possible, and retire distinuguished. She has retired distinguished.

I'd like to say goodbye to Mary, but not to her memory, with a poem written by Henry Wadsworth Longfellow,

There is a Reaper, whose name is Death
and with his Sickle Keen
He reaps the bearded grain at a breath
and the flowers that grow between.

Mary was our flower. She blossomed in our spring, and all too soon, withered from our grasp.

BICENTENNIAL MINUTE

DECEMBER 11, 1833: FIGHT OVER EXECUTIVE PRIVILEGE

Mr. DOLE. Mr. President, 154 years ago today, on December 11, 1833, a great constitutional issue was brewing as the U.S. Senate challenged President Andrew Jackson over what we call executive privilege.

The Senate and President were locked in combat over Jackson's refusal to recharter the Bank of the United States. Prominent Whigs like Henry Clay, Daniel Webster, and John C. Calhoun supported the Bank, but had been unable to override the President's veto. Nevertheless, when the Jackson administration began withdrawing Federal funds from the Bank, the Senate demanded to see the paper he had read to his Cabinet on this issue. On December 11, 1833, the Senate voted 23 to 18 in favor of Senator Henry Clay's resolution that the President turn over this document.

The following day, the Senate received this message from President Jackson: "The Executive is a co-ordinate and independent branch of the Government equally with the Senate, and I have yet to learn under what constitutional authority that branch of the Legislature has a right to require of me an account of any communication, either verbally or in writing, made to the heads of departments acting as a cabinet council."

This marked the first time that a President had denied records that Congress requested. An outraged Senate then censured President Andrew Jackson, but they could not make the iron-willed chief executive back down. Jackson, of course, continued to provide Congress with information on other executive branch activities and initiatives, and pledged his willingness to explain his policies to the American people. But the stand he took has enabled his successors to insist that their conversations with Cabinet members are privileged.

DECEMBER 16, AN EPIC DATE IN KOREAN HISTORY

Mr. MURKOWSKI. Mr. President, next Wednesday, December 16, 1987, will be one of the most momentous dates in the entire 5,000-year history of the Korean people. On this date, the citizens of the Republic of Korea will conduct an election for the office of President. This election promises the first peaceful change of power in the 42-year history of the Republic. It will be carried out under the mandate of the new Korean Constitution, put in place this fall at the instigation of the Korean people.

ELECTION RESULTS FROM LAST SUMMER'S DEMONSTRATIONS

Last summer, in an unprecedented outpouring of sentiment from Koreans of all classes, the streets of Korea's major cities were filled, day after day, with demonstrators demanding free elections. Those demands were answered. The Government and the opposition were able to work out a new constitution and elections were scheduled.

VIGOROUS CAMPAIGN WITH FOUR MAJOR CANDIDATES

The Presidential candidates have conducted a vigorous campaign over the past month. The campaign has had its share of violence, but the issues have been addressed and the differences between the four major candidates have become clear. It is now time for the election.

AMERICA WATCHES THIS ELECTION WITH GREAT INTEREST

Those of us in the United States will watch this election with great interest and concern. The United States is one of Korea's oldest friends. The soil of Korea is stained with the blood of American and Korean fighting men who fell in the Korean war; men who gave their lives in the successful crusade to prevent communism from dominating the entire peninsula.

Since the Korean war, the United States Armed Forces, along with their Korean counterparts have continued the defense of South Korea from repeated examples of the treachery of the North Koreans. The United States-South Korean military alliance is not only one of the strongest in the world but one of the most successful as well. Freedom in Korea has been bought with the aid of American blood. Now democracy, bought with the courage and persistence of the Korean people, is at hand.

ELECTION MUST BE FAIR

It is absolutely essential that the election be conducted in a fair and honest manner. Emotions are high in Korea and our concern is great.

ELECTION PROCESS MUST BE HONEST

The campaign process and the election itself must be free from manipulation from any quarter. The politicians must face their task in an honest way. They must live up to their reponsibility to the Korean people and to history. There must be no effort to influence the voters in an illegitimate way.

ELECTION RESULTS MUST BE CREDIBLE

Great care must be taken to see to it that the balloting process is free from influence and error. The ballots must be protected and the voters must be free from intimidation as they exercise their franchise.

NATIONAL INSTITUTIONS MUST STAY NEUTRAL

It is essential that national institutions, which have no proper political role to play, stay neutral. The greatest contribution that true Korean patriots can make is to assure the sanctity and fairness of the election.

In any democracy, the people govern and the Korean people are clearly ready to express their will.

WHEN THE ELECTION IS OVER, IF IT IS FAIR, THE RESULTS MUST BE ACCEPTED

This election is both the end of a critical time for Korea and the beginning of another crucial stage in the nation's history. Much tension and some bloodshed has gone into arriving at this moment, but the task of converting the republic into a democracy is only just beginning. The winner of this election will face an enormous challenge.

AMERICANS CAN WATCH WITH CONCERN BUT WE CANNOT INFLUENCE THE POSTELECTION PROCESS

I was pleased to learn of the excellent speech which Dr. Gaston Sigur, the Assistant Secretary of State for East Asian and Pacific Affairs delivered on December 9, expressing the administration's concern that the election process in Korea be fair, honest, and unimpeded. Dr. Sigur said "We support no candidate or party; these choices are for the Koreans to make." All Americans must concur in these sentiments.

UNITED STATES CAN DO LITTLE BUT URGE HONEST ELECTION AND LEND SYMPATHY TO THE DULY ELECTED GOVERNMENT

Korea is a sovereign nation. The Government and the people of the United States will watch the unfolding election process in Korea with concern. We can urge fairness, but we cannot and must not directly influence either the process or the outcome. It is essential that we remain neutral among the candidates; but it is also essential that we continue to urge fairness. Without that, it will be impossible to have a credible result.

DEMOCRACY WILL PREVAIL

The Korean people have an ancient and rich culture, the hope for democracy has been strong in their hearts for many, many years. I am convinced that the depth of that feeling for democracy will be enough to meet the challenge.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Emery, one of his secretaries.

S. 1941. A bill to provide an eight-month extension of sanctions under the Clean Air Act; referred to the Committee on Environment and Public Works.

CLEAN AIR ACT EXTENSION

● Mr. MITCHELL. Mr. President, today I and Senators Bentsen, Lautenberg, Burdick, Stafford, Chafee, Baucus, Durenberger, Graham, Reid, Cranston, Rudman, Kerry, Dodd, Wirth, Mikulski, and Humphrey are introducing legislation to provide for a limited, short-term extension of the Clean Air Act sanctions, including those required for failure to attain the health-based air quality standards by the statutory deadline at the end of this year. The Clean Air Act requires all areas of the country to be in compliance with standards for ozone and carbon monoxide by December 31, 1987. The Environmental Protection Agency [EPA] estimates that over 70 areas, with a population of approximately 100 million people, will not meet this deadline. The act currently provides for the application of sanctions to those areas.

While the Environment and Public Works Committee has already reported substantive amendments to the Clean Air Act, which we hope the Senate will soon consider, the House Energy and Commerce Committee has yet to act. Therefore, a short-term extension appears necessary in order to provide time for Congress to make the needed decisions on the best way to assure national attainment of the air quality standards. These decisions require legislative changes; regulatory proposals will not suffice.

The House adopted language that delays the imposition of sanctions until August 31, 1988. The legislation I and my colleagues are introducing today provides an 8-month extension of the sanctions. In that respect, this extension is identical to legislation adopted by the House. It differs in only one respect. The House bill not only prohibits sanctions from being imposed during the extension, but also eliminates sanctions previously imposed and are unrelated to the extension. Our bill keeps in place sanctions that are currently in effect for failure to comply with the law.

During the effective period of the extension, no new sanctions could be imposed. This extension, which lasts until August 31, 1988, provides sufficient time for Congress to consider and enact amendments to the Clean Air Act while avoiding the imposition of new sanctions in the absence of a sound strategy for dealing with our Nation's air quality problems.

Until now, I have supported an extension for less than 8 months. But I am now convinced that, in view of the prior House action, an extension for 8 months is the most sensible course to take. But I will press for Senate consideration of Clean Air Act amendments as soon as possible next year. I urge our House colleagues to act as expeditiously as possible to assure enactment by this deadline. It is worth emphasizing that by August 31, 1988, both the House and the Senate must have passed legislation, we must have successfully resolved our differences in conference, and the President must have signed the legislation in order to meet this commitment. This is a substantial amount of work to be accomplished, but the deadline can be met.

This bill is supported by the National Governors Association, the Conference of Mayors, the National Association of Counties, the National Conference of State Legislators, the National Clean Air Coalition, the American Lung Association, the National Resources Defense Council, and the Sierra Club.

I am pleased to be joined by my colleagues today in introducing this legislation and I look forward to working with all Members in the near future on this important public health issue. I ask unanimous consent that the bill be printed in the Record.

There being no objection, the bill was ordered to be printed in the Record, as follows:

S. 1941

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That

SECTION 1. EXTENSION OF NONATTAINMENT SANCTIONS.

(a) Nonattainment Areas for Ozone or Carbon Monoxide.—No restriction or prohibition on construction, permitting, or funding under section 110(a)(2)(I), 173(4), 176(a), 176(b), or 316 of the Clean Air Act shall be imposed or take effect during the period prior to August 31, 1988, by reason of (1) the failure of any nonattainment area to attain the national primary ambient air quality standard under the Clean Air Act for photochemical oxidants (ozone) or carbon monoxide (or both) by December 31, 1987, (2) the failure of any State to adopt and submit to the Administrator of the Environmental Protection Agency an implementation plan that meets the requirements of part D of title I of such Act and provides for attainment of such standards by December 31, 1987, (3) the failure of any State or designated local government to implement the applicable implementation plan, or (4) any combination of the foregoing. During such period and consistent with the preceeding sentence, the issuance of a permit (including required offsets) under section 173 of such Act for the construction or modification of a source in a nonattainment area shall not be denied solely or partially by reason of the reference contained in section 171(1) of such Act to the applicable date established in section 172(a). This subsection shall not apply to any restriction or prohibition in effect under section 110(a)(2)(I), 173(4), 176(a), 176(b), or 316 of such Act prior to the enactment of this section.

(b) Evaluations and Designations.—Prior to August 31, 1988, the Administrator of the Environmental Protection Agency shall evaluate air quality data and make determinations with respect to which areas throughout the nation have attained, or failed to attain, either or both of the national primary ambient air quality standards referred to in subsection (a) and shall take appropriate steps to designate those areas failing to attain either or both of such standards as nonattainment areas within the meaning of part D of title I of the Clean Air Act.

Mr. BENTSEN. I want to commend my distinguished colleague from Maine for his leadership on this issue, and his willingness to agree to an extension. This 8 month extension shows a sensitivity to the problems faced by areas like some of those in my State, and across the Nation, and gives them somewhat of a reprieve from the threat of sanctions. I wonder if the Senator would clarify the effect of this provision for the benefit of all our colleagues. Does this extension clearly provide that the areas proposed by the Environmental Protection Agency on July 14 of this year for possible sanctions, such as Dallas-Fort Worth, will not be sanctioned while this legislation is in effect?

Mr. MITCHELL. That is both the intent and effect of this provision. Staff at the Environmental Protection Agency assure me that this interpretation is consistent with their own. Those areas identified by EPA as candidates for sanctions are protected from them by this amendment.

Mr. BENTSEN. I thank the Senator for his forthright response. If he would indulge me for a minute longer, I would appreciate it. As the Senate is aware, the House last week expressed its preference for a similar extension. To my knowledge, though, the House has not advanced as far in its deliberations on clean air legislation as has the Senate. We are all hopeful that more progress will be made in the House to develop clean air legislation that fairly and responsibly addresses air pollution problems.

The Senate bill, S. 1894, requires more emissions controls than current law in order to achieve attainment. There are those who are concerned about some of the provisions of S. 1894, including myself, and who will likely want to discuss modifications to this bill with you.

My concern, and I am certain the distinguished Senator shares it, is what happens if the Congress fails to enact clean air legislation during this short-term extension? That is a possible scenario, and I would not want to see the various nonattainment areas penalized for our failure to act. What I am asking is will the Senator be willing to seek another short-term extension during this Congress with the same protection from sanctions as this extension provides, so that we will have a full opportunity to consider clean air legislation?

Mr. MITCHELL. The distinguished Senator from Texas has identified an issue that I know is of great concern to him. The problem I have had with an extension all along is that it may have the unintended effect of slowing down congressional progress to enact clean legislation. I know that is not the intent of my colleagues from Texas in pushing for an extension. He just wants to offer maximum assistance to the areas in his State not in compliance, and to protect them from sanctions. I do have an equally serious concern, however, that we not misinterpret the reason for this extension. As much as it offers a reprieve to the areas under immediate threat of sanctions, its primary purpose is to give Congress a needed opportunity to complete work on clean air legislation, hopefully in this Congress.

But in direct answer to the Senator's question, yes, I will be willing to seek another short-term extension this Congress should the pending extension expire before comprehensive legislation has been fully considered and passed by Congress. The terms of any further extension may differ from those in this amendment. But I certainly hope it does not come to that. I also hope that the distinguished Senator will actively work with me and other interested Members in developing acceptable Clean Air Act amendments for the Senate to debate in this Congress. I know that my distinguished colleague and others may have some concerns about portions of S. 1894, but I hope the Senator will work with me and the Committee on Environment and Public Works to improve the legislation, as he has done so ably in the past on other important environmental matters such as Superfund.

Mr. BENTSEN. I certainly will be pleased to work with you to develop an acceptable package of amendments. I do have some misgivings about the bill reported out of committee, but I do not have a closed mind and I would be willing to work with you and the staff and other Members to try to produce a workable bill.

Mr. MITCHELL. I thank the distinguished Senator for his assurances and for his efforts in developing this extension legislation.●

By Mr. MOYNIHAN (for himself, Mr. BRADLEY, Mr. CRANSTON, Mr. DIXON, Mr. SIMON, Mr. RIEGLE, and Mr. D'AMATO):

S. 1942. A bill to amend title 13, United States Code, to remedy the historic undercount of the poor and minorities in the decennial census of population and to otherwise improve the overall accuracy of the population data collected in the decennial census by directing the use of appropriate statistical adjustment procedures; and for other purposes; to the Committee on Governmental Affairs.

DECENNIAL CENSUS IMPROVEMENT ACT

● Mr. MOYNIHAN. Mr. President, today I am introducing the Decennial Census Improvement Act of 1987. This legislation will ensure the "fair representation of the people,"[1] Edmund Randolph's words, in the House of Representatives, and the equitable distribution of Federal funds based on population.

EQUAL REPRESENTATION AND THE CENSUS

Article I, section 2, clause 3 of the Constitution requires the Federal Government to conduct a decennial census. With the States anything but disinterested observers, a national census was necessary to implement the terms of the "Great Compromise," which, for all practical purposes, based the allocation of Congressmen in the House of Representatives solely on population. Indeed, only an accurate and honest census could accomplish this goal. As the Supreme Court stated in Wesberry versus Sanders (1964):

> While it may not be possible to draw congressional districts with mathematical precision, that is no excuse for ignoring our Constitution's plain objective of making equal representation for equal numbers of people the fundamental goal for the House of Representatives.[2]

Otherwise, the weight of each citizen's vote is diluted just as effectively as if one is prohibited from voting at all.

THE UNDERCOUNT

A census is never exact. Invariably, some persons are missed. An undercount is, to some degree or other, inevitable. Nonetheless, the Census Bureau has made considerable progress in reducing it over the years. In 1940, for example, the undercount for the population as a whole was 5.6 percent; by 1980, the total undercount had been reduced to between 1.4 and 1.6 percent. Despite this improvement, the Bureau of the Census continues to miss a significant portion of the population, particularly the nonwhite population, and those living in central cities across the United States. The wide discrepancy that exists in the enumeration of whites versus nonwhites, as a proportion of the population, is referred to as the "differential undercount."

In 1955 the demographer Ansley J. Coale established that the 1950 census missed a substantial proportion of the black population.[3] Subsequently, Jacob Siegel, senior demographic statistician at the Census Bureau, estimated the minority undercount for the 1950 census at 11.5 percent. Though the 1960 census did somewhat better, Siegel has concluded that 9.5 percent of blacks were missed and that the differential between whites and blacks remained pronounced.[4]

In 1966 when I became director of the Joint Center for Urban Studies at MIT and Harvard I asked Prof. David Heer of the Harvard School of Public Health to work with me in planning a conference to publicize the nonwhite undercount in the 1960 census and to foster concern about the problem of obtaining a full enumeration, especially of the urban poor. It was our hope that the public airing of this issue would lead to greater public support for the Census Bureau to obtain the resources to deal with this problem in the 1970 census.

In his introduction to the published report of the conference, "Social Statistics and the City (1968)," Professor Heer described our planning:

> Daniel P. Moynihan, then Assistant Secretary of Labor, became aware of the findings concerning the undernumeration of nonwhites in the census while preparing his now famous report "The Negro Family: The Case for National Action," which was published in 1965.[5] In the fall of 1966 Moynihan became director of the Joint Center for Urban Studies of the Massachusetts Institute of Technology and Harvard University. In December of that year he asked me if I would plan a conference that would (1) publicize the fact that many Negroes had not been counted in the 1960 Census and (2) attempt to arouse national concern about the matter. In further discussion we decided that the proposed conference should be broadened to include not only census underenumeration of Negroes but the adequacy of all official social statistics for Negroes, Puerto Ricans and Mexicans in the United States. In January 1967 the Carnegie Corporation of New York informed us that it was willing to provide financial support for the conference.
>
> A prime aim of the conference was to stimulate public interest in the importance of social statistics for Negroes, Puerto Ricans and Mexicans so that the chief agencies concerned with gathering such statistics—the U.S. Bureau of the Census and the National Center for Health Statistics—might obtain a more adequate budget from Congress to improve the quality and quantity of data for these groups. With this goal in mind we decided that the conference would have to be held before the fall of 1967, since the Bureau of the Budget was to decide upon the recommended appropriations for the 1970 Decennial Census at that time. The final dates established were June 22 and 23, 1967, and the conference was to be held in Washington, D.C.
>
> Among those providing invaluable assistance in planning the conference were Dr. A. Ross Eckler, Director of the U.S. Bureau of the Census; Dr. Conrad Taeuber, Assistant Director for Demographic Fields, U.S. Bureau of the Census; and Dr. Anders Lunde, Assistant Director of the Division of Vital Statistics, National Center for Health Statistics, U.S. Public Health Service. It was decided that six papers should be presented on the first day of the conference. On the morning of the second day, the participants would divide into three workshops to discuss recommendations with respect to each of the following topics: (1) ways of improving coverage of Negroes, Puerto Ricans, and Mexicans in the census, (2) ways of improving vital statistics for these groups, and (3) needed additions in available social statistics for the three groups. On the afternoon of the second day, the rapporteurs from each of the morning sessions would report the recommendations of their respective panels, and the conference as a whole would then adopt a general series of recommendations.

Since the report was published, the decline in the undercount of minorities has continued. Still, in 1980 it remained disproportionately high. While the undercount for whites and nonblacks in 1980 was an estimated 0.7 percent, a much higher 5.9 percent of all blacks were not counted. (Other estimates of the black undercount are even higher.) In the last census, the Bureau estimates it missed some 1.5 million whites and 1.67 million blacks. Thus, in 1980, blacks constituted 53 percent of all people missed in the census, even though they made up less than 12 percent of the total population. Moreover, 1980 was the first time in the history of the census that more blacks than whites were missed.

Some estimates also indicate that perhaps 5.9 percent of all Hispanics are not being counted. And the undercount rates among our central city population are estimated to be the highest. Possibly 6 percent of all central city inhabitants were missed in the 1980 count; 11.3 percentage of black central city residents, and 10.3 percent of such Hispanic residents.

Merely increasing the resources available to the Census Bureau is not likely to remedy this differential undercount. During the 1980 census, the Bureau hired almost 300,000 temporary employees, but as Prof. Eugene Ericksen of Temple University testified before the Senate Governmental Affairs Committee on September 4, 1986, finding people qualified to go into some urban areas remains a difficult problem. In addition, there is little time or money available to train this veritable army of enumerators.[7]

Indeed, the costs of doing so could be prohibitive. The 1980 census was the most expensive ever. According to the General Accounting Office, in constant dollars the cost of counting one person in 1980 ($4.72) was more than double the 1960 cost ($2.30). And the National Academy of Sciences has determined that further coverage improvement programs are likely to be extremely expensive, costing as much as $75 per capita.

Prof. Everett S. Lee of the University of Massachusetts forecast this situation when he wrote in our 1968 conference report, "Social Statistics and the City" that:

> [M]ore money will not in itself greatly improve the situation. Traditional census procedures, while highly effective, cannot be expected to provide the additional or better data needed in our effort to deal with the numerous problems posed by the disadvantaged. The Census Bureau has gone about as far as it can go with traditional procedures.[8]

Some analysts even suggest that increasing resources can actually worsen the differential undercount. For example, in 1980, additional resources helped to increase the count of whites more than the count of minorities, thus exacerbating the differential. At a conference held on the 1980 census post enumeration program in October 1980, Bureau Director Vincent Barabba admitted "[y]ou could reduce the 1970 undercoverage level [by augmenting resources], but perhaps increase the differential." [9] At the same conference, Prof. Nathan Keyfitz of Harvard University also stated:

> [A]s the census pushes harder and reduces the undercount it is almost certain to increase the differential of the undercount.[10]

Finally, Jacob Siegel, who also participated in our 1967 conference, remarked:

> Don't be surprised if you get something like an overcount of whites and an undercount of blacks with therefore an impossible-to-compute differential except in absolute terms or something that might go far beyond the 4 to 1 of 1970.[11]

IMPACT OF THE UNDERCOUNT

Estimates vary as to the impact of past undercounts on various communities, and there are divergent views about how an adjustment of the undercount would benefit different areas. But scholars agree that those people which tend to be undercounted—namely, minorities, the poor, and the homeless—generally reside in the largest cities, and in poor or remote rural areas.

New York State officials estimate that the 1980 census left between 500,000 and 860,000 New Yorkers uncounted; others estimate that a large undercount in New York City was mitigated by a substantial overcount in other parts of the State, leaving a net undercount of some 250,000 people. (Double counting of students, individuals with two homes, residential mobility, and so forth, all contribute to the overcount, which is most likely to occur in rural and more affluent areas.)

There is general agreement, however, that New York City suffered a substantial undercount—of at least a half million people—and lost one congressional seat as a result.

City officials, extrapolating from 1980 Census Bureau data, estimate the total city undercount at 7.4 percent, with the worst discrepancies in the black and Hispanic counts; 15.2 percent of black New Yorkers were missed, and 12.4 percent of Hispanics in the city may have been missed.

After the 1980 census the city and State of New York obtained a court order requiring the Census Bureau to accept "Were you Counted?" forms, distributed by the Census Bureau but not received within the Bureau's deadline. City officials claim that as a result of this action somewhere between 12,000 and 20,000 additional individuals were included in the final count. This balance, said city officials, saved a congressional seat for New York. Correction of the undercount does matter.

In addition to almost losing a second seat in Congress, city officials believe New York loses annually between $26 and $52 million in Federal and State dollars distributed on the basis of population. Among other cities, Chicago, Detroit, Kansas City and Los Angeles have each alleged substantial undercounts in the 1980 census, with resulting loss of Federal aid and representation in Congress.

FEASIBILITY OF ADJUSTMENT

Statistical adjustments to remedy this situation are quite feasible. For example, in 1970, the Bureau of the Census imputed almost 5 million additional people to the count. Yet, the Department of Commerce—with jurisdiction over the Census Bureau—has decided not to adjust the 1990 census for the undercount. Announcing the Department's decision, Dr. Robert Ortner, Under Secretary for Economic Affairs, stated this past October 30:

> Adjustment would be controversial, even among statisticians. Techniques are available to adjust, but there are questions about the validity of their results * * * Different statisticians would employ different models and get different results.[12]

Notwithstanding the Department's official position, the Census Bureau's Associate Director for Statistical Standards and Methodology, Barbara Bailar, in her capacity as president of the American Statistical Association, recently stated that:

> [T]he consensus of the statisticians—statisticians from government, industries, and academia, statisticians who have carefully reviewed all the work in this area—is that an adjustment will provide more accurate data on the size, location, and demography of the minority population in this country. It's time to get on with the job.[13]

Moreover, a panel of five census statisticians (Dan Childers, Gregg Diffendal, Howard Hogan, Nathanial Schenker, and Kirk Wolter) recently published a monograph titled "The Technical Feasibility of Correcting the 1990 Census," substantiating Bailar's view that adjustment is feasible. Expressing their collective views, and not those of the Census Bureau per se, they concluded:

> [A coverage measurement program exists] in which some weaknesses remain and must be addressed * * *. However, none of the weaknesses or errors are so large as to invalidate the adjustment * * *. On this basis, we conclude that it is technically feasible to correct the 1990 census for differential coverage.[14]

A CONSTITUTIONAL OBLIGATION

Since the feasibility of adjustment is widely admitted, the Bureau really does not have a choice about whether to undertake it. In 1967, I wrote in the foreword to "Social Statistics and the City" that:

> [T]he full enumeration of the American population is not simply an optional public service provided by the government for the use of sales managers, sociologists, and regional planners. It is, rather, the constitutionally mandated process whereby political representation in the Congress is distributed as between different areas of the nation. It is a matter not of convenience but of the highest seriousness, affecting the very foundations of sovereignty. That being the case there is no lawful course but to provide the Bureau with whatever resources are necessary to obtain a full enumeration.[15]

After the 1980 census some 50 lawsuits were filed challenging its validity, primarily on the basis of the undercount. The Bureau argued that the words "actual enumeration" restricted it to a literal headcount. Though the Supreme Court has not yet had the opportunity to address the issue, these lower court cases clearly establish, assuming technical feasibility, the constitutional permissibility, if not requirement, of utilizing statistical adjustments to improve the accuracy of census figures used for both apportionment and funding purposes. As the Federal district court in Michigan stated in Young versus Klutznick (1980):

> With the modern knowledge and the scientific techniques available to adjust for the known undercount differentials, and to bring about official population counts that are closer to the truth than those derived from the raw, unadjusted headcount, surely the framers of the Constitution would have intended that such an adjustment be made.[16]

The district court in Young further noted that if an adjustment is necessary in order to obtain a figure that more accurately reflects the actual population, article I of the Constitution and the 14th amendment would mandate such an adjustment. Thus, in response to the question of whether a headcount unadjusted for an acknowledged undercount could be used for apportionment and distribution of Federal funds, the district court stated, "The answer is clearly no" and ordered the 1990 census figures to be adjusted.

In 1981, the Sixth Circuit Court of Appeals reversed this decision for unrelated procedural reasons. However, as Judge Keith of the sixth circuit emphasized in his dissent, the district court's "formulation of the law governing this controversy is unassailable." He further noted that:

> Since the sole constitutional function of the decennial census is to provide a population base for reapportionment of Congressional districts, the Census Bureau is bound by the Constitution to count people as accurately as possible.[17]

In Carey versus Klutznick (1980), the Federal District Court for the Southern District of New York held that statistical adjustments to improve the accuracy of the count were:

> [R]equired to prevent an unwarranted dilution of the votes of New York City and New York State residents. *The Constitution requires no less.* (emphasis supplied).[18]

The second circuit reversed the district court on procedural grounds, but in so doing stated "we also agree with the district court that the appellees [the city and State of New York] have demonstrated a likelihood of success on the merits."[19] Specifically, the second circuit affirmed that the Constitution required the Bureau to determine the population as accurately as possible and that statistical adjustments were not prohibited. In so doing, the court restated a principle laid down in 1832 by Daniel Webster in discussing the subject of apportionment:

> That which cannot be done perfectly, must be done in a manner as near perfection as can be. If exactness cannot, from the nature of things, be attained, then the greatest practicable approach to exactness ought to be made.[20]

The Constitution provides that the census shall be made "in such manner as [Congress] shall by law direct." If Congress does not exercise its constitutional responsibility, the courts will be forced to resolve the undercount problem. However, prospect of another 50-plus lawsuits challenging the 1990 census is not likely to satisfy either the Bureau or its critics. As the Federal district court in City of Philadelphia versus Klutznick (1980) observed, allowing the courts to address this issue on an ad hoc basis "sacrifice [s] the national [census] program to the exact dangers of local manipulation and bias, no matter how well intentioned, the framers sought to avoid."[21]

Earlier this week, Judge E. Sprizzo ruled against the city and State of New York in Carey v. Klutznick, sub. nom, Cuomo v. Baldridge, 80 Civ. 4550 (S.D.N.Y.), which the court of appeals had remanded to the district court for further factual inquiry regarding the technical feasibility of adjustment. Based on the facts as they existed at the time of the lawsuit in 1980, Judge Sprizzo agreed with the Bureau's contention that it could not be sure of making an accurate adjustment for the whole country. He ruled simply on the facts, not the law. And as the testimony of many statisticians and demographers, including the Census Bureau's own top statistician, Barbara Bailar, reveals, the facts have since changed.

THE NEED FOR LEGISLATION

We in Congress and city and State officials concerned about the national undercount were hoping this problem could be resolved without Federal legislation. Once the 1980 undercount levels were determined, the Census Bureau agreed to study the possibility of undertaking an automatic adjustment of the 1990 census to correct for the inevitable undercount.

In congressional testimony this summer, the Bureau committed to undertaking a postenumeration survey [PES], used to estimate the size of the undercount. However, it would not agree to actually adjust the count, based on the PES findings. Finally, in his statement on October 31, Dr. Ortner announced officially that Census will not adjust the 1990 census for any undercount.

Thus, we see no alternative but to mandate a correction through statute. The legislation I offer today was introduced this October in the House by Representative MERVYN DYMALLY, the distinguished chairman of the Subcommittee on Census and Population, and a bipartisan group of his colleagues. Its purpose is most straightforward: to improve the overall accuracy of the population data collected in the decennial census. It would require the Secretary of Commerce to adjust all subsequent decennial censuses to correct for any undercounts or overcounts, using "the most accurate methods available." This corrected data will be the only set of census data, and will be used for all purposes for which such data are needed. As such, this data will be the basis for apportionment of seats in Congress, as well as distribution of Federal aid based on population. The Secretary would be required to notify Congress of his or her plans to adjust at least 1 year prior to each decennial census.

It is up to Congress. A constitutional obligation exists, and the methodology is sufficiently understood. Will we meet this challenge and ensure that each and every citizen receives equal representation and a fair share of Federal funds, or will we allow the courts to do this for us?

I urge the support of my colleagues in this important matter of fairness and equity as provided by our Constitution.

SOCIAL STATISTICS AND THE CITY

(By Daniel Patrick Moynihan)

FOREWORD

At one point in the course of the 1950's John Kenneth Galbraith observed that it is the statisticians, as much as any single group, who shape public policy, for the simple reason that societies never really become effectively concerned with social problems until they learn to measure them. An unassuming truth, perhaps, but a mighty one, and one that did more than he may know to sustain morale in a number of Washington bureaucracies (hateful word!) during a period when the relevant cabinet officers had on their own reached very much the same conclusion—and distrusted their charges all the more in consequence. For it is one of the ironies of American government that individuals and groups that have been most resistant to liberal social change have quite accurately perceived that social statistics are all too readily transformed into political dynamite, whilst in a curious way the reform temperament has tended to view the whole statistical process as plodding, overcautious, and somehow a brake on progress. (Why must every statistic be accompanied by detailed notes about the size of the "standard error"?)

The answer, of course, is that this is what must be done if the fact is to be accurately stated, and ultimately accepted. But, given this atmosphere of suspicion on the one hand and impatience on the other, it is something of a wonder that the statistical officers of the federal government have with such fortitude and fairness remained faithful to a high intellectual calling, and an even more demanding public trust.

There is no agency of which this is more true than the Bureau of the Census, the first, and still the most important, information-gathering agency of the federal government. For getting on, now, for two centuries, the Census has collected and compiled the essential facts of the American experience. Of late the ten-year cycle has begun to modulate somewhat, and as more and more current reports have been forthcoming, the Census has been quietly transforming itself into a continuously flowing source of information about the American people. In turn, American society has become more and more dependent on it. It would be difficult to find an aspect of public or private life not touched and somehow shaped by Census information. And yet for all this, it is somehow ignored. To declare that the Census is without friends would be absurd. But partisans? When Census appropriations are cut, who bleeds on Capitol Hill or in the Executive Office of the President? The answer is almost everyone in general, and therefore no one in particular. But the result, too often, is the neglect, even the abuse, of an indispensable public institution, which often of late has served better than it has been served.

The papers in this collection, as Professor Heer's introduction explains, were presented at a conference held in June 1967 with the avowed purpose of arousing a measure of public concern about the difficulties encountered by the Census in obtaining a full count of the urban poor, especially perhaps the Negro poor. It became apparent, for example, that in 1960 one-fifth of nonwhite males aged 25-29 had in effect disappeared and had been left out of the Census count altogether. Invisible men. Altogether, one-tenth of the nonwhite population had been "missed." The ramifications of this fact were considerable, and its implications will suggest themselves immediately. It was hoped that a public airing of the issue might lead to greater public support to ensure that the Census would have the resources in 1970 to do what is, after all, its fundamental job, that of counting all the American people.

As the reader will see, the scholarly case for providing this support was made with considerable energy and candor. But perhaps the most compelling argument arose from a chance remark by a conference participant to the effect that if the decennial census were not required by the Constitution, the Bureau would doubtless never have survived the economy drives of the nineteenth century. The thought flashed: the full enumeration of the American population is not simply an optional public service provided by government for the use of sales managers, sociologists, and regional planners. It is, rather, the constitutionally mandated process whereby political representation in the Congress is distributed as between different areas of the nation. It is a matter not of convenience but of the highest seriousness, affecting the very foundations of sovereignty. That being the case, there is no lawful course but to provide the Bureau with whatever resources are necessary to obtain a full enumeration.

Inasmuch as Negroes and other "minorities" are concentrated in specific urban locations, to undercount significantly the population in those areas is to deny residents their rights under Article I, Section 3 of the Constitution, as well, no doubt, as under Section 1 of the Fourteenth Amendment. Given the further, more recent practice of distributing federal, state, and local categorical aid on the basis not only of the number but also social and economic characteristics of local populations, the constitutional case for full enumeration would seem to be further strengthened.

A sound legal case? Others will judge; and possibly one day the courts will decide. But of one thing the conference had no doubt: the common-sense case is irrefutable. America needs to count all its people (And reciprocally, all its people need to make themselves available to be counted.) But if the legal case adds any strength to the common-sense argument, it remains only to add that should either of the arguments bring some improvement in the future, it will be but another instance of the generosity of the Carnegie Corporation, which provided funds for the conference and for this publication.●

By Mr. KENNEDY (for himself, Mr. INOUYE, Mr. BRADLEY, Mr. STAFFORD, Mr. LAUTENBERG, Mr. HARKIN, Mr. DODD, and Mr. MATSUNAGA):

S. 1943. A bill to amend the Public Health Service Act to revise and extend the authority of the Administrator of the Alcohol, Drug Abuse, and Mental Health Administration, including revising and extending the program of block grants for the provision of services with respect to mental health and alcohol and drug abuse; to the Committee on Labor and Human Resources.

COMPREHENSIVE ALCOHOL ABUSE, DRUG ABUSE, AND MENTAL HEALTH AMENDMENTS ACT

● Mr. KENNEDY. Mr. President, I rise today to introduce the Comprehensive Alcohol Abuse, Drug Abuse, and Mental Health Amendments Act of 1987. The major components of this bill are the reauthorization of the block grants to the States for alcohol and drug abuse and mental health services, the reauthorization of research funding for the National Institutes of Drug Abuse and of Alcohol Abuse and Alcoholism; and the maintenance and expansion of mental health and alcohol and drug treatment demonstration programs.

This bill continues the Federal Government's long standing commitment to support research and service efforts in these important health care areas. Unfortunately, in spite of our past support, mental illness and alcohol and drug abuse and dependency remain major public health problems in our Nation.

Too many Americans who are seriously mentally ill are still without appropriate or adequate mental health services. In addition, there remain many unanswered questions about the etiology of a number of mental disorders and about the most effective methods of treatment of these disorders.

In any given period, between 30 and 45 million Americans—nearly 1 in 5 individuals—are suffering from some form of mental illness that requires professional treatment. Of this number, the National Institute of Mental health estimates that 1.5 million suffer from schizophrenic disorders and more than 9 million from manic-depression and other depressive disorders. Of the 1 in 5 individuals suffering from mental illness, only 1 in 5 seeks treatment, in spite of the fact that at least some degree of effective treatment is available or possible.

Among our elderly citizens, it is projected that one-fourth of those diagnosed as senile are actually suffering from a treatable mental illness. Suicide continues to be a tragic and desperate alternative to the unanswered pain of growing numbers of our elderly over 65 as well as of our young people between the ages of 15 and 24.

In a recent study, the Office of Technology Assessment estimates that between 7.5 to 9.5 million children suffer from emotional or related problems and that only 20 to 30 percent of these children receive the mental health services that they need. To put this issue in focus, we can contrast our progress with emotionally disturbed children with our progress with the physically handicapped. Seventy-four percent of our Nation's 7.6 million physically handicapped youth receive care, and we consider this record far less than perfect.

Alcohol and drug abuse and depenency also continue to plague the lives of Americans. The National Institute on Alcohol Abuse and Alcoholism estimates that 18 million adults over the age of 18 have alcohol related problems. Of this number, NIAAA estimates that 10.6 million are alcoholics and 7 to 8 million abuse alcohol. There are also almost 5 million adolescents who are problem drinkers. The Institute reports that cirrhosis of the liver, the major disease consequent of alcohol abuse, was the ninth leading cause of death at all ages in the United States in 1983. Nearly half of the violent deaths reported are alcohol related, and alcohol abuse during pregnancy is still one of the leading causes of mental retardation.

There are currently over 18 million users of marijuana and although there is a gradual decline in the use of marijuana, it is still, according to the National Institute on Drug Abuse, the most extensively used illicit drug. Cocaine use shows a higher rate of increase than any other abused drug and currently there are about 6 million users of cocaine. NIDA also reports that deaths related to drug use are still higher for narcotics such as heroin than for any other category of drug. In addition, almost 25 percent of all AIDS cases and over 60 percent of the cases of pediatric AIDS are related to intravenous drug use.

The toll extracted by mental illness and substance abuse in terms of dollars is significant. Direct costs of mental illness are estimated to be $20.9 billion per year. Direct costs of substance abuse disorders are estimated to be $109 billion a year. When approximated indirect costs for both mental illness and substance abuse are added, the total cost is more than doubled.

More important even than these astronomical financial costs is the heavy toll paid by individuals and the Nation in terms of human potential and human accomplishment. This toll is more tragic and more costly than we should dare allow. The bill that I introduce today is one positive step toward reducing this toll.

One of the major components of this bill is the revision and extension of the alcohol and drug abuse and mental health services block grant to the States. This includes a change in the method used for the distribution of the grants. The change proposed in this bill for fiscal year 1989 is an attempt to balance the conflicting demands from the States for equity. States whose current per capita share of funding is low consider the present formula unfair and have requested a new formula based on population. Other States that would experience funding cuts if a population-based formula were adopted have claimed that any such cuts would be equally unfair.

The allocation method proposed in this bill attempts to mediate these two claims. It would allocate less than half of the money authorized for appropriation on the basis of a State's 1984 proportionate share of block grant funding. The remainder of the appropriation would be distributed on the basis of a new formula. This new formula includes two major factors, the population in need of services in a State and the fiscal capacity of a State. A minimum level of funding for small States is also included.

The bill also consolidates, beginning in fiscal year 1989, the special alcohol and drug abuse block grant created by the Anti-Drug Abuse Act of 1986 with the basic block grant. To cushion the negative impact of this formula change on those States receiving a lower proportionate share, an increase in appropriation for the block grant will be imperative. The implementation of the change in allocation method is authorized for fiscal year 1989 at $745 million.

Within the block grant, one important set-aside has been retained and two new funding priorities have been proposed. The current 5-percent set-aside for alcohol abuse treatment programs designed specifically for women has been extended. With regard to mental health services and programs, the bill requires that by 1990, a State must expend at least 55 percent of its mental health allocation for new or expanded services or programs. In addition, a 10-percent set-aside of mental health service funds is required for programs for seriously emotionally disturbed children and adolescents. One-half of this amount must be used for new services or programs.

This bill will extend the block grant program for the seriously mentally ill homeless, originally authorized by the Stewart B. McKinney Homeless Act, through fiscal year 1989, The bill also includes a new State grant program for the prevention of AIDS among intravenous drug users. This $75 million a year program allocates funds to the States for outreach, information and treatment activities for intravenous drug users at risk of contracting AIDS.

In addition to these new or extended block grant programs, the bill reauthorizes the demonstration grant program for the seriously mentally ill elderly and homeless and for seriously emotionally disturbed children and adolescents. A new prevention demonstration program is also authorized along with individual grant programs for rural mental health, youth suicide, depressive disorders, post legal adoption services, and the elderly. The bill authorizes a total of $50.8 million for these demonstration grants in fiscal year 1988.

With regard to alcohol and drug abuse programming, the bill authorizes funding for the continuation of the Office of Substance Abuse and for the grants for the development of model projects for the prevention, treatment, and rehabilitation of youth at high risk of substance abuse. Most importantly, funding for the research activities of the National Institute on Alcohol Abuse and Alcoholism and the National Institute on Drug Abuse is authorized in this bill. The funding level authorized for both of the Institutes reflects our conviction that they along with the National Institute of Mental Health must be provided with greater resources in order to increase the current momentum they have developed in the discovery of the causes, consequences, and effective methods for the prevention and treatment of alcohol and drug abuse. We cannot forget that the scientific answers that these Institutes seek through their research are responses to questions that originate in human tragedy.

Helping to reduce the toll of the tragedy of mental illness and alcohol and drug abuse, both in the present and for the future, is the goal of this legislation.●

By Mr. JOHNSTON:

S. 1944. A bill to provide for the unitization of common hydrocarbon-bearing areas, and for other purposes; to the Committee on Energy and Natural Resources.

OUTER CONTINENTAL SHELF LEASING AMENDMENTS ACT

● Mr. JOHNSTON. Mr. President, today I am introducing legislation that will assure that modern conservation practices are applied to the development of those oil and gas reserves that underlie both Federal and State lands on the Outer Continental Shelf. This legislation amends section 5 of the Outer Continental Shelf Lands Act to provide a process for independent fact finding and unitization of such jointly held natural resources. Under the legislation, the coastal States, the Federal Government, and the affected State and Federal lessees will have a full opportunity to participate in this unitization process.

Mr. President, I am a strong supporter of the development of our Nation's offshore oil and gas resources—but that development must proceed both with fairness toward the rights of the coastal States and the Federal Government and in an environmentally responsible manner. In the early days of oil and gas development in this country, the law of capture was the rule of the day. Under this legal regime, oil producers raced to draw as much oil as possible to the surface before the oil reserve was drained by a competitor. The result was forests of oil rigs standing foot to foot and oil dumped into streams and earthen ponds until tanks could be built to accommodate the volume of production. The ultimate result was a badly scarred environment, reservoir damage that left unproducible portions of our Nation's oil reserves and general chaos in the oil fields.

Over time, our States and the Federal Government moved away from the wasteful and discredited law of capture to a system of modern conservation laws. One of the cornerstones of these modern conservation laws is the concept of unitizing jointly held oil and gas reserves. Under unitization, an independent third party fact finder—when the parties cannot agree—determines whether the oil or gas reserve is commonly held, whether the reservoir should be developed pursuant to a coordinated plan and also allocates the costs and benefits of such development among the various parties holding the rights to develop the natural resource. The objectives of unitization are to prevent both the economic and physical waste of the natural resource, to conserve our natural resources and to protect the rights of the various parties.

The Congress long ago directed the Secretary of the Interior, through section 5 of the Outer Continental Shelf Lands Act, to develop the Federal portion of the Outer Continental Shelf pursuant to modern conservation practices. In addition, section 5 directs the Secretary to cooperate with the coastal States in the enforcement of conservation laws and regulations.

The State of Louisiana also long ago adopted modern conservation law and practices and established the Louisiana Conservation Commission as the independent fact finder and enforcer of this law. Thus, Louisiana State law provides modern conservation practices on the State portion of the Outer Continental Shelf; the Outer Continental Shelf Lands Act provides modern conservation practices on the Federal OCS; and the Secretary is directed to cooperate in the enforcement of the State's modern conservation practices. The historical result has been cooperation between the Federal and State governments in the development of jointly held oil and gas reserves. Over 140 cooperative arrangements have been voluntarily entered into between the State of Louisiana and the Federal Government for the development of jointly held oil and gas reserves.

Unfortunately, this spirit of cooperation has begun to break down recently. The State of Louisiana and the Federal Government are now locked in a controversy over the unitization of a jointly held gas field. If this controversy is not resolved, the result will be a return to the chaotic law of capture in such situations which could, in turn, result in the drilling of a number of unnecessary wells, the waste of the natural resource, and a lack of protection for the rights of the State and its lessees. I might add that this return to the law of capture in relationships between the Federal Government and the States could just as easily in the next fact situation be equally disadvantageous to the Federal Government and its lessees.

Mr. President, I have discussed this problem at length with the Secretary of the Interior. The problem is the lack of a process in current law for the resolution of these difficulties in situations where the Federal Government and the State cannot agree to a cooperative development plan. The Secretary and I are hopeful that a nonlegislative solution can be reached that will resolve both the current conflict between the State of Louisiana and the Federal Government and the more general process problem.

Mr. President, I ask unanimous consent that a section-by-section summary of this legislation and the legislation itself be printed in the CONGRESSIONAL RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1944

Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled, That this Act may be referred to as the "Outer Continental Shelf Leasing Amendments Act".

SEC. 2. Section 5 of the Outer Continental Shelf Lands Act, as amended (43 U.S.C. Sec. 1334), is amended by adding a new subsection (j) as follows:

(j) UNITIZATION OF COMMON HYDROCARBON-BEARING AREA—

(1) FINDINGS AND POLICY OF THE UNITED STATES:

(A) The Congress of the United States finds that the unrestrained competitive production of hydrocarbons from a common hydrocarbon-bearing geological area may result in a number of harmful national effects, including:

(I) the drilling of unnecessary wells, the installation of unnecessary facilities and other imprudent operating practices that result in economic waste, environmental damage, and damage to life and property;

(II) the physical waste of hydrocarbons and an unnecessary reduction in the amount of hydrocarbons that can be produced from certain hydrocarbon-bearing areas; and

(III) the impairment of correlative rights which can result in the reduced value of national hydrocarbon resources and disorder in the leasing of United States and State resources.

(B) It is the policy of the United States, as set forth in Section 5(a) of this Act, to prevent the harmful effects of unrestrained competitive production of hydrocarbons from a common hydrocarbon-bearing area by applying modern conservation practices at the earliest reasonable time in the exploration and development of common hydrocarbon-bearing areas.

(2) DEFINITIONS.—Whenever used in this subsection—

(A) "Arbitrator" means that individual who has been appointed to act as a federal officer to hear and decide disputes between the United States and affected coastal States pursuant to the process set forth in this subsection.

(B) "Common hydrocarbon-bearing area" means an offshore hydrocarbon-bearing geologically identifiable area that: (i) underlies the Federal and States offshore boundary; and (ii) is being, or is susceptible to being, produced by the United States and the affected coastal State or their designees, lessees, or permittees. The term hydrocarbon-bearing area includes any stratigraphic interval or group of intervals located between identifiable geologic markers even though there may be total or partial separation of some portions of the area.

(C) "Lessee" means the party authorized by a lease, joint operating agreement, or other contractual agreement, issued or entered into by the United States or an affected coastal State, or an approved assignment thereof, to explore for and develop and produce hydrocarbons in accordance with applicable law. The term includes all parties holding that authority by or through the lessee.

(D) "Unit agreement" means an agreement providing for the exploration for and development and production of minerals in a common hydrocarbon-bearing area or portion thereof, as a single consolidated entity without regard to separate ownerships and the allocation of costs and benefits on a basis defined in the agreement.

(E) "Unitization" means the combining or consolidating of separately owned leasehold or other interests for the joint exploration or development of a common hydrocarbon-bearing area or portion thereof, under the terms of a unit agreement.

(3) PROCESS FOR UNITIZATION:

(A) NEED FOR UNIT AGREEMENT.—Whenever there exists a common hydrocarbon-bearing area, the Secretary and the Governor of the affected coastal State shall agree to the unitization of such an area or portion thereof.

(B) NOTICE.—Whenever the Secretary or the Governor of the affected coastal State determines that there exists a common potentially hydrocarbon-bearing area, the party making such determination shall immediately notify the other party in writing of such determination. Such notice shall also be sent to the last known address of all affected lessees of record of such State and the United States. After any such notification is received by the Secretary or the Governor, the Secretary and the Governor shall, within thirty (30) days, after reviewing any data and information made available to each by the other party or its lessees, determine whether there exists a common hydrocarbon-bearing area.

(C) UNITIZATION BY SECRETARY AND GOVERNOR.—If the Secretary and the Governor determine that there is a common hydrocarbon-bearing area, the Secretary and the Governor shall have thirty (30) days from the date of such determination to: (I) establish a unitization plan which conforms to the model unit agreement referenced in the regulations promulgated under this Act, unless good cause exists for variation from the model agreement and the reasons for the variation are stated in writing; (II) serve notice on all lessees of the proposed unit area with a copy of the proposed unit agreement or unitization plan and a statement of reasons for the proposed unitization.

(D) NOTICE TO LESSEES.—The Secretary and the Governor may not require unitization pursuant to a unitization plan unless they have first provided reasonable notice and an opportunity for all lessees of the proposed unit area to submit views in writing to the Secretary and the Governor. Any lessee of the proposed unit area may submit its written views within thirty (30) days of service of notice by the Secretary or Governor of a proposed unit agreement or unitization plan.

(E) ARBITRATION—

(I) NOTICE OF INTENT TO SEEK ARBITRATION.—If, after the time specified in subparagraph j(3)(B) or j(3)(C), the Secretary and the Governor of the coastal State are unable to agree on the existence of a common hydrocarbon-bearing area or on any other matter concerning the unitization of the leases, either the Secretary or the Governor may notify the other party, in writing, that the disputed matter must be submitted to arbitration and that a mutually agreed upon arbitrator be appointed.

(II) SELECTION OF AN ARBITRATOR.—If the Secretary and the Governor are unable to agree upon an arbitrator within thirty (30) days after such request for arbitration, either party may petition the United States District Court for the district nearest to the affected area for the appointment of an arbitrator. The arbitration shall be governed by the applicable provisions of 9 U.S.C. Sec. 1 through 14, to the extent not inconsistent with this subsection.

(III) COMPENSATION OF ARBITRATOR.—The arbitrator shall, when acting pursuant to this subsection, be deemed to be an officer of the United States and shall receive fair and reasonable compensation. The Secretary shall pay such compensation out of the operating funds of the Department of the Interior.

(IV) DUTIES AND RESPONSIBILITIES OF ARBITRATOR—

(a) Within ninety (90) days of the appointment of the arbitrator, the arbitrator shall: (i) determine whether there exists a common hydrocarbon-bearing area; (ii) determine the extent of any common hydrocarbon-bearing area or portion thereof that is to be included in the unit; (iii) determine the fair allocation of the hydrocarbons produced from the area included in a unit agreement, using a volumetric method of allocation to equitably apportion the hydrocarbon reserves in place as of the effective date for the unit; (iv) establish the effective date for the unit; (v) establish a unitization plan for a common hydrocarbon-bearing area or portion thereof pursuant to paragraphs (b) and (c); and (vi) decide any other matter necessary in order to avoid economic waste or physical waste of recoverable hydrocarbons, to achieve conservation, or to protect correlative rights.

(b) For a common hydrocarbon-bearing area or portion thereof, the arbitrator shall establish a unitization plan which conforms to the model unit agreement referenced in the regulations promulgated under this Act, unless good cause exists for variation from the proposed unit agreement and the reasons for the variation are set forth in the findings of the arbitrator.

(c) The arbitrator may not require unitization until the affected coastal State, the United States, and all lessees of the proposed unit area are sent reasonable notice and given an opportunity for a hearing. No such hearing may be held until written notice has been sent to the last known address of all lessees of record which would be made subject to the unit agreement at least thirty (30) days in advance of the hearing. The arbitrator shall afford the affected coastal State, the United States, and all lessees of the proposed unit area, an opportunity to submit views orally and in writing and to question both those supporting and those opposing unitization. Adjudicatory procedures are not required, but the decision of the arbitrator shall be based upon a record of the hearing including any written information made a part of the record. By Mr. BINGAMAN (for himself and Mr. DOMENICI).

S. 1945. A bill to amend the Second Supplemental Appropriation Act, 1961, relating to the lease of certain lands from the Isleta Indian Tribe for a seismological laboratory; to the Select Committee on Indian Affairs.

LEASE OF CERTAIN INDIAN LANDS FOR A SEISMOLOGICAL LABORATORY

● Mr. BINGAMAN. Mr. President, I rise today on behalf of myself and Senator DOMENICI to introduce legislation relating to the lease of lands from the Isleta Pueblo in New Mexico.

The Second Supplemental Appropriations Act, 1961 (Public Law 86-722; 74 Stat. 821), authorized construction and equipment of a seismological laboratory on a site leased from the Isleta Pueblo in Bernalillo County, NM. The law authorized leasing of the tribal lands for a minimum of 25 years with provisions for renewal. Any lease entered into under Public Law 86-722 is required to provide for an annual rent not in excess of $1,200, as well as prescribe the terms and conditions under which the tribe can jointly use land not specifically needed for the laboratory.

The Federal Government entered into a 25-year lease in September 1960 for 673.36 acres of tribal land located on the Isleta Indian Reservation. The rental under this lease was $1,027.35 per year. The laboratory was subsequently constructed on approximately 10 acres of leased land. The remainder of the acreage was reserved as a buffer zone to avoid blasting, drilling or any other activity that would raise the ambient noise level or that would interfere with the functioning of laboratory instruments within the laboratory. Certain laboratory operations have been located in the buffer zone outside of the ten acre laboratory area for the purpose of gathering seismological data.

Upon expiration of the 1960 lease in September 1985, the U.S. Geological Survey [USGS], which assumed responsibility for the management of the laboratory by interagency agreement in 1973, entered into a 3-year interim lease for the subject tract at a rental of $1,200 per year. The interim lease was negotiated with the understanding that this Department would seek legislation to permit payment of the adjusted fair market value rental as determined by an independent appraiser, with an additional payment to be retroactive to September 1985.

My legislation would amend Public Law 86-722 to first, remove the $1,200 annual rental limitation; second, permit payment of the current (1985) fair market value of the leased land; and third, provide for periodic review and adjustment of the rental thereafter based on an approved reappraisal.

I understand the Office of Management and Budget has advised that there is no objection to the submission of this proposed legislation by the administration.

The legislation will ensure that the Isleta Indians are justly compensated for the use of their lands by the USGS. I think it is only fair that the Federal Government be required to pay fair market value for the use of these lands. The Pueblo of Isleta has expressed their strong support for this legislation.

I urge my colleagues to support this legislation.●

(b) It is the sense of the Congress that, in order to share a portion of the burden of the protection services provided for commercial shipping in the Persian Gulf by the United States Armed Forces—

(1) countries which directly benefit from the United States policy of providing military protection to reflagged Kuwaiti vessels and maintaining freedom of navigation in the Persian Gulf should share in the burdens incurred by the United States Armed Forces in providing such protection;

KARNES AMENDMENT NO. 1335

(Ordered to lie on the table.)

Mr. KARNES submitted an amendment intended to be proposed by him to the joint resolution (H.J. Res. 395), supra; as follows:

At the appropriate place in the resolution, insert the following:

"The Secretary of Agriculture shall make available generic commodity certificates in the amount of $132,000 to defray costs associated with the emergency repair of severe storm damage to cooperatively-owned farm irrigation canals near Scottsbluff, Nebraska."

● Mr. KARNES. Mr. President, I have sent an amendment to the desk that would address a major problem for many of the farmers in and around Scottsbluff, NE. The problem is severe damage to irrigation canals in the Scottsbluff area caused by what Jacquie Long, a reporter for the Scottsbluff Star-Herald, called "one of the most devastating storms experienced here."

In early August, storms hit the Scottsbluff area with heavy rains and high winds. The storm damage was astounding and widespread. I spent many days in the stricken area, surveying the damage and listening to local residents' accounts of how the storm had affected crops and property. I have worked very hard with the local residents to make sure that all emergency assistance programs are made available to the full extent of the law to help them rebuild their losses. We have not been able to make all the assistance available that I would have liked due to restrictions on such assistance enacted in recent years. But I believe we have mobilized as much assistance as we can at this time. I will keep looking for ways to help reduce the burden that people in Scottsbluff are having to bear due to nothing more than bad luck.

My amendment today is an important part of my commitment to the people of western Nebraska. The storm caused great damage to the Tri-State Irrigation Canal near Highland School, causing a flash flood north of Minatare, NE. The flash flood posed a real threat to people and property in the area. Local emergency rescue and law enforcement officials were called in to restore order to the situation, but not before the violent rains had broken the canal.

According to Wes Sell, manager of the Farmers' Irrigation District, the break in the canal was "the largest break I've seen in the 38 years I've been with the company," as he told the Star-Herald. The damage turned a country road and farm fields into a river, destroying farm equipment and cutting a widening swath outside the canal banks. One family had to be evacuated from their homes and other houses were being threatened when district officials moved in to repair the break.

Due to the swift and effective action of the Irrigation District officials and other assistance, the canal was repaired and further threats to life and limb were avoided. However, these emergency procedures were not without cost. Floyd Sauer, president of the Farmers Irrigation District, sent me a letter and the breakdown of the costs incurred in the emergency repair of the canal. I am submitting a copy of Mr. Sauer's letter to be included in the CONGRESSIONAL RECORD along with my statement.

Mr. President, it cost the district nearly $132,000 to make these emergency repairs. Local residents had no choice but to act, and act quickly to avoid further devastation from the canal break. There was no time to lose, and certainly no time to think of alternate ways to finance the emergency work. Now that the repairs have been made, the local residents have no readily available means for paying for these costs. They have asked for help.

Their requests are reasonable, and we should respond to their requests.

The amendment I am introducing today would make available to the district generic commodity certificates worth $132,000. The district will be able to redeem these certificates for cash in order to defray the costs the district members incurred making the emergency repairs. This relief will go a long way toward making sure that both the canal, and the district's financial condition, are restored to their predisaster condition.

Mr. President, I have made my colleagues in the Senate aware of my strong support for the people affected by the storm in western Nebraska. I am aware that the parliamentary situation currently existing in the Senate reduces my chances for receiving immediate approval of my amendment at this time. However, I feel it is vitally important to pursue this matter. For that reason, I have been engaged with negotiations to allow my provision to be added to the bill at a later date.

Following discussions with the Agricultural Appropriations Subcommittee, prior to the completion of the continuing resolution, it was agreed that an effort would be made by conferees during the conference to give special funding consideration to emergency irrigation canal damage caused by recent severe storms in Scotts Bluff County Nebraska as more completely referenced in the following proposed amendment to the continuing appropriations bill for fiscal year 1988, and for which no emergency program funding is specifically available.

It is my hope that these efforts, with the cooperation of the conferees on the continuing resolution for fiscal year 1988, will be successful in providing relief for the irrigators near Scottsbluff. They need it, they deserve it, and I will keep my commitment to local residents that I will do all I can to secure funds to help them.

I ask that a number of documents relating to the Scottsbluff Canal damage be made a part of the RECORD immediately following my statement.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FARMERS IRRIGATION DISTRICT,
Scottsbluff, NE, September 2, 1987.

The enclosed work sheets cover the repair costs the Farmers Irrigation District received from the two major storms of May 23 and August 3 and 4, 1987 and the subsequent flood damage.

The cost of repair figures on the Nine-Mile Drain work sheet is an estimate of cost since we are unable to commence work on the drain until we receive our 404 permit from the Corps of Engineers.

The District suffered additional flood damages to the system and none of these costs are included in the enclosed information. One example of these additional damages is an underdrain structure on the Leavitt Drain, this structure will cost approximately $30,000.00 to replace.

Due to the depressed economic condition of agriculture the Districts budget for the past several years has not included any funds for emergencies such as major flood damage. When such emergencies do arise it creates a real financial burden on the District and the farmer who must pay the taxes.

If there are emergency federal grants or low interest funds available for irrigation districts we would appreciate your help in obtaining such information.

Your assistance will be greatly appreciated.

Sincerely,

FLOYD H. SAUER,
President.

STORM LEAVES DESTRUCTION

(By Jacquie Long)

SCOTTS BLUFF.—One of the most devastating storms experienced here swept through the Panhandle Monday night and early Tuesday, leaving a path of destruction that included several injuries and millions of dollars in crop and property damage.

The storm hit a strip of land at least 20–25 miles long and nearly 12 miles wide near midnight Monday and early Tuesday, shredding the majority of crops in Scotts Bluff County and ravaging parts of surrounding counties. Scattered parts of the southern and northern Panhandle also were victim to high winds, hail and torrential rains.

The Tri-State Irrigation Canal broke 1.5 miles northeast of Hessler's Corner near the Highland School at about 2 a.m., fueling flash flooding in the Nine Mile Creek area north of Minatare that stranded some area residents.

The Civil Air Patrol, emergency rescue squads and several fire department and law enforcement agencies were called to help in separate flooding and emergency incidents throughout the area.

The storm apparently swept through the area diagonally from the northwest part of Scotts Bluff and Sioux counties north of Mitchell to southwest Minatare and Bayard. The strip was at least 20 miles long and ranged from 8 to 12 miles wide, authorities said.

The irrigation canal break was "the largest break I've seen in the 38 years I've been with the company," Wes Sell, manager of the Farmers Irrigation District, said. Sell declined to estimate the amount of dirt that broke loose, saying more continued tumbling into the spilling water Tuesday and would be loosened for at least another two days.

The break created a river where a county road and farm fields existed before, sweeping a cattle trailer, a small grain bin, irrigation pipes and other debris into the swirling water before it flowed into Nine Mile Creek about ¾ mile south and southeast of the break.

Members of the Civil Air Patrol evacuated a family of three from their home near the water as it overflowed and began buckling the walls of their house, according to a patrol report.

Two houses owned by the irrigation district were in danger of being pulled into the water as it continued cutting away dirt to the east of where the road had been, Sell said.

Crop damage in Scotts Bluff and surrounding counties was estimated at "somewhere in the millions" by several crop experts surveying the aftermath Tuesday. All noted that it was the most widespread and thorough mowing of cropland they had seen from a storm.

Stan Haas, communications specialist for the University of Nebraska Panhandle Research and Extension Center, estimated that 30,000-40,000 acres of cropland were pummeled in the storm, with damage ranging from moderate shredding to total destruction.

"It was the combination of high winds and hail that did it," Haas said. Alone, those elements wouldn't do much, but we got a lot of both real fast."●

SEC. 2. FINDINGS.

Congress finds that—

(1) United States agricultural exports declined by more than 37 percent since 1981, from $43.8 billion per year to $27.5 billion per year;

(2) the United States' market share of agricultural commodities and products has dropped worldwide by 28 percent during the last 5 years;

(3) for the first time in 15 years, the United States incurred monthly agricultural trade deficits in 1986;

(4) the loss of $1 billion in United States agricultural exports causes the loss of 35,000 agricultural jobs and the loss of 60,000 nonagricultural jobs;

(5) the loss of agricultural exports threatens family farms, and the economic well-being of rural America;

(6) in order to reverse the decline of agricultural exports and improve prices for the farmers and ranchers of the United States, it is necessary that all agricultural export programs of the United States be used in an expeditious manner, including such programs established under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.), the Commodity Credit Corporation Charter Act (15 U.S.C. 714 et seq.), and section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431);

(7) greater use should be made by the Secretary of Agriculture of the authority established under section 4(b) of the Food for Peace Act of 1966 (7 U.S.C. 1707a et seq.) to provide intermediate credit financing for the establishment of facilities in importing countries—

(A) to improve the handling, marketing, processing, storage, and distribution of imported agricultural commodities and products; and

(B) to increase livestock production in order to enhance the demand for United States feed grains;

(8) food aid and export assistance programs can stimulate economic activity in developing countries and, as incomes improve, diets improve and the demand for and ability to purchase food increases;

(9) private voluntary organizations and cooperatives are important and successful partners in our food aid and development programs;

(10) in addition to meeting humanitarian needs, food aid used in sales and barter programs by private voluntary organizations and cooperatives can—

(A) provide communities with health care, credit systems, and tools for development; and

(B) establish the infrastructure that is essential to the expansion of markets for United States agricultural commodities and products; and

(11) greater support by the United States government for the development activities of private voluntary organizations and cooperatives is in the interest of the United States and our farmers and ranchers.

ADDITIONAL STATEMENTS

SMALL BUSINESS TIMBER SET-ASIDE REGULATIONS

● Mr. BUMPERS. Mr. President, the Department of Agriculture published a proposed rule in the September 25, 1987, Federal Register affecting the Forest Service's small business timber set-aside program. As many of my colleagues know, the Small Business Act (15 U.S.C. 631) directs that the Government ensure a fair proportion of the total sales of Government property, such as timber from the national forests, be made to small business firms. The recently proposed rule has generated a substantial amount of controversy among small timber operators.

As chairman of the Small Business Committee, I wrote to the Forest Service and requested an extension of the comment period for 45 days. Many interested parties have taken advantage of this extended comment period which expires on December 24. However, the interest generated by this proposal is sufficiently intense and the issues involved sufficiently complex that I believe a further delay in the promulgation of the final regulations is warranted. The Small Business Committee, for one, plans to hold oversight hearings on the proposed regulations early next session.

I had prepared an amendment to the continuing resolution to prevent the promulgation of the regulations during fiscal year 1988. During the past few days, however, I have discussed alternative approaches with Department of Agriculture officials. We have reached an agreement which I believe will accommodate the interests of the Small Business Committee and other interested committees or Members of Congress. The Forest Service will delay the final rulemaking until such time as the Small Business Committee, or any other committee, holds hearings on the issue or until April 1, 1988. The agreement does not restrict the rights of any Member to seek legislation on the small business timber set-aside issue if their concerns cannot be resolved through this procedure.

Mr. President, I ask that copies of two letters to me from George Dunlop, Assistant Secretary for Natural Resources and Environment of the Department of Agriculture, detailing this agreement be printed in the RECORD following my remarks. I further request that a colloquoy between myself and the Senator from Arizona be printed in the RECORD.

The material follows:

DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
Washington, DC, December 8, 1987.

Hon. DALE L. BUMPERS,
U.S. Senate,
Washington, DC.

DEAR SENATOR BUMPERS: It has just come to my attention that you have special concerns regarding the proposed rule recently published in the FEDERAL REGISTER affecting the Forest Service's Small Business Timber Program.

It goes without saying that I would be more than happy to meet with you at any time to discuss these proposed changes, and, indeed, am eager to do so.

Knowing of your deep interest in this issue, and in consideration of your position as Chairman of the Committee on Small Business, I am also prepared, if you so request, to direct a delay an implementation of a final rule until we have had an opportunity to brief the Committee on Small Business on the proposed changes.

I give you my personal assurance and commitment that USDA will take into consideration all comments received at such a briefing, as well as other comments received from the public on the proposed rule. Also, I commit to meet with you prior to publishing any final rule on this program to share our thoughts as to the procedural changes, if any, that might be contained in a final rule to seek your views on the approach we are contemplating for addressing identified issues.

I hope you find these suggestions to be expressions of good faith on our part to resolve problems associated with the management of the small business timber set-aside program.

Many thanks, and kindest regards.

Sincerely,

GEORGE S. DUNLOP,
Assistant Secretary,
Natural Resources and Environment.

DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
Washington, DC, December 11, 1987.

Hon. DALE L. BUMPERS,
U.S. Senate,
Washington, DC.

DEAR SENATOR BUMPERS: In reference to our letter of December 8, regarding the proposed rule recently published in the Federal Register affecting the Forest Service's Small Business Timber Program, permit me to share our thinking in further detail.

The Forest Service will delay the final rulemaking regarding the Small Business Timber Program until such time as the Small Business Committee, or any other committees as appropriate, holds hearings on the issue or until April 1, 1988. The Forest Service will take into consideration during this period all of the written comments received, as well as the testimony presented at such hearings before issuing the final rules. As we stated earlier, the final rule will be thoroughly reviewed with you prior to publication to seek your views on our approach for addressing the identified issues.

We want to assure you of our good faith in working with you and your committee in an attempt to resolve the complicated problems associated with the management of the Small Business timber sale set-aside program.

Many thanks, and kindest regards.

Sincerely,

GEORGE S. DUNLOP,
Assistant Secretary,
Natural Resources and Environment.

COLLOQUY

Mr. DECONCINI. Mr. President, I would like to ask my distinguished colleague, Senator BUMPERS, the Chairman of the Small Business Committee, if it is his intent to hold oversight hearings on the matter of Small Business Timber Set Asides early next year?

Mr. BUMPERS. The Senator is correct.

Mr. DECONCINI. Is it the Senator's intent to review all of the issues relevant to the proposed regulations, and the most effective and equitable means to implement the program throughout the various regions of the country?

Mr. BUMPERS. That is correct.

Mr. DECONCINI. I thank the Senator and ask that small, medium sized, and larger timber companies from my region of the country, the Southwest, be given an opportunity to participate in the review of the proposed regulations, and in the hearings as witnesses, or in some manner that will help establish the most equitable means to protect a small business market share, as well as the most effective policies to achieve the goals of the Forest Service Timber management program.

Mr. BUMPERS. The Senator can be assured that the Southwest, as well as other regions of the country will be given ample opportunity to participate.

Mr. DECONCINI. I thank my distinguished colleague.●

INF AND OUR CRUISE MISSILE FUTURE

● Mr. QUAYLE. Mr. President, last Friday I spoke at great length about four concerns I had about the INF agreement signed by the United States and the Soviet Union. Prominent on that list was my concern about the bad precedent I believe INF has established on limiting conventional long-range cruise missiles.

Having actually seen a copy of the treaty, I still am worried. Under the agreement all ground-launched cruise missiles, nuclear and conventional, with a range over 500 kilometers are banned.

Frankly, I considered this provision to have been a mistake. General Galvin, the supreme NATO commander, in fact, was about to issue a requirement for such missiles when the administration announced that we had agreed to ban them.

Such missiles would have helped Galvin build up NATO's capability to delay and disrupt a Soviet attack using conventional weapons. Survivable and highly accurate versions of these missiles could block a Soviet offensive at key Warsaw Pact choke points such as train lines, bridges, tunnels, and the like. All of this would make Soviet war planners think twice about launching an attack in the first place.

These same conventional missiles, moreover, could be used to substitute for many nuclear weapons we currently have trained on targets in the Soviet Union. Rather than destabilize, these weapons could strengthen our ability to deter both nuclear and nonnuclear conflicts.

Of course, many might argue that we can still develop these weapons in sea and air-launched versions. The problem is air and sea launched cruise missiles are not as useful to NATO as ground-launched versions. Unlike mobile, ground-launched missiles, air launched cruise missiles are as vulnerable as the few NATO air bases on which we'd be based. Also, unlike many dual-capable aircraft that must be held back in reserve for possible nuclear use, mobile ground-based missile launchers are survivable enough to be used to deliver conventional munitions and can be easily switched over, if need be, to deliver nuclear warheads.

As for sea-launched cruise missiles, NATO has already raised doubts if the U.S. Navy would risk launching these and has rightly questioned if these missiles would have the range to reach their targets.

More important, the Soviets have already made it plain that they would like to ban long-range conventional sea and air-launched cruise missiles in START.

To block this move, we will have to challenge arguments that without a ban we would be stuck with the tough verification task of trying to tell the difference between a nuclear and a nonnuclear missile. Certainly, the problems associated with verifying the difference between a nuclear and nonnuclear cruise missile are hardly trivial, but as Gorbachev himself announced yesterday, they are not insurmountable.

They are no tougher, certainly, than verifying the INF range limit of 500 kilometers on cruise missiles or trying to verify how many missiles the Soviets have already produced and stored away. We could, for example, designate bases at which only conventional cruise missiles would be deployed and use INF-like verification procedures to assure that no nuclear weapons were on base.

In any case, we ought not to ban or limit the very conventional weapons we will be relying on more once nuclear reductions are made. This point is especially relevant not only in regard to any START agreement we might reach, but with regard to our interpretation of the INF agreement as it might apply to cruise missiles that we have not yet deployed.

The INF Treaty, after all, does not specify what specific future ground-launched cruise missiles will be allowed under the treaty. There are bound to be disputes. Might a missile with a 499-kilometer range be suspect? What about a cruise missile we or the Soviets claim is dedicated to surveillance tasks? Might this be challenged or banned as a potential weapons carrier? What about commitments not to circumvent the treaty? Do any such pledges exist? How might they chill efforts to deploy long range air and sea launched cruise missiles? How are we to interpret such commitments—narrowly or broadly? How are such issues to be resolved?

Mr. President, all of these questions need to be answered. As to the significance of conventional long-range cruise missiles, there can be no doubt. Recently, columns by Seymour Weiss, Richard Brody, Brian Chow, and Richard Halloran have appeared in the Wall Street Journal, the New York Times, and the Los Angeles Times clarifying how important are and will be to our security. In hopes that wider distribution of these articles will increase appreciation for these weapons systems' importance in INF and future arms negotiations, I ask that their full texts be entered in the RECORD.

CRUISE MISSILE BAN SKEWS GROUND FORCES' BALANCE

(By Richard Brody and Brian G. Chow)

President Reagan and Soviet leader Mikhail S. Gorbachev soon will sign a treaty to eliminate their countries' intermediate-range nuclear force (INF) missiles. How could the treaty, which will trade fewer than 500 warheads for more than 2,000, be bad for us?

The problem is that the INF treaty is fundamentally flawed. It would ban all intermediate-range ground-launched cruise missiles, conventional as well as nuclear. Yet future NATO defense and deterrence are asymmetrically dependent on these missiles. That the INF treaty is intrinsically unverifiable makes matters worse. While NATO forgoes the use of ground-launched cruise missiles, the Soviets could well stockpile them under the guise of sea-launched cruise missiles, which could easily be ground-launched.

Unfortunately, public debate seems to have focused on the weakening of our nuclear deterrent and verification difficulties. These divert attention from the critical potential contribution of conventional ground-launched cruise missiles to North Atlantic alliance security.

Soviet strategy stresses surprise and quick victory. Moscow would use forward troops to force NATO to commit its in-place armies, pinning them while threatening multiple penetrations. Rear-echelon Warsaw Pact forces would then rejuvenate the front, concentrating at selected points to exploit key breakthroughs. Taking advantage of superior forces and rapid reinforcement, the Soviets would attempt to win the battle for Central Europe before NATO's counter-mobilization could be mounted.

NATO has long recognized the necessity to delay and disrupt follow-on Soviet reinforcements, and in the late 1970s developed the "follow-on force attack" concept to implement this deep-strike operation.

Cruise missiles are well suited for delivering strikes deep behind enemy lines, for three reasons:

Greatly improved Warsaw Pact air defenses have made bomber raids unacceptably hazardous in many areas, especially around high-value targets. While "stealth" technology may help aircraft to penetrate, it will do little to protect them on the ground. Improving Soviet precision-strike capability makes it increasingly uncertain whether aircraft on airfields can survive. On the other hand, ground-launched cruise missile launchers can use mobility and camouflage to avoid Soviet targeting.

High-tech allows much better target acquisition and long-range delivery with great precision. While the Soviets have an enduring advantage in massing large armies, high-tech electronics can give the West a much needed compensating advantage. Deep strike is a key means for NATO to use it.

NATO is a defensive alliance. While an aggressor can afford to concentrate his forces, a defender traditionally needs to spread his across the range of possible points of attack. The defender thus would then be too late to concentrate his forces at the actual point of attack. Long-range strike permits counterfire to be concentrated immediately.

Thus, an effective conventional strike capability offers a rare opportunity for NATO to reduce reliance on nuclear weapons and raise the nuclear threshold. But the proposed treaty, which bans conventional ground-launched cruise missiles, would seriously degrade that opportunity.

What if we instead use air- and sea-launched cruise missiles not banned by the treaty?

It should be noted first that the INF treaty does relatively little to reduce the threat to the bulk of NATO's air bases and air defense. The missiles to be banned would have ranges between 300 and 3,000 miles. The Soviets could still build land-based 299-mile ballistic missiles that could reach all of West Germany and most of Belgium and the Netherlands.

Even with the treaty, airplanes carrying cruise missiles will continue to be vulnerable on the ground to ballistic missiles and Soviet aircraft. Surface ships that carry cruise missiles also are vulnerable to a great variety of threats. Submarines may be much less vulnerable, but an effective conventional missile force needs an inventory measured in thousands for attacks and reattacks. Submarine-launched cruise missiles simply price themselves out of the market in a Central European battle. Thus, the treaty forecloses the most promising avenue to increase the robustness of NATO's conventional defense through improved deep strike capability.

Yet a treaty that eliminates theater ballistic (but not cruise) missiles for some foreseeable period, say 10 years from *both* sides could be quite useful. Their fast speed make these missiles especially potent in a sudden surprise attack.

If we go ahead with an INF treaty that bans ground-launched cruise missiles, the Soviets will have traded a small part of their current nuclear arsenal for a major constraint on future NATO conventional defenses. NATO would continue to rely much more on nuclear weapons than it should. The debate over this treaty should focus as much on long-term consequences for the conventional balance as on any short-term nuclear benefits.

INF Pact Limits Our Conventional "Smarts" as Well

(By Seymour Weiss)

Now that Mikhail Gorbachev has condescended to meet at the summit, we shall finally be permitted to sign another very bad arms-control agreement.

We shall soon be faced with an agreement on INF (intermediate-range nuclear forces) that, contrary to administration claims will not be highly verifiable and that will be politically disruptive and strategically unsound. Were that not bad enough, this agreement purportedly designed to limit nuclear forces—thus having the effect of reducing the deterrent to Soviet conventional aggression—will also, as incredible as it may sound, impair Western conventional defenses.

How did this come about? In a supremely illogically logical decision, it was decided to make an agreement of inherently low verifiability slightly more verifiable by banning conventional warheads for ground-launched cruise missiles (on the grounds that it is not possible to tell nuclear warheads from conventional ones). Why illogical? Because in taking this step we once again placed the value of an arms-control agreement with the Soviets, as an end in itself, above U.S. security interests. And there is good reason to believe that the Russians laid a trap into which the administration fell.

For some time now the Soviets have evidenced great discomfort over strides being made in the West in advanced conventional-weapons systems. These systems of so-called "smart weapons" hold promise of delivering conventional warheads at great distances with incredible accuracy. Should the promise be fulfilled, then the brute-force approach used by the Soviets of throwing vast numbers of men and tanks into battle will be neutralized.

ADVANCED TECHNOLOGY GAP

Soviet literature has provided ample evidence that the Soviets understand this revolution in warfare and fear its consequences. They know they cannot match the West in developing and fielding advanced technology (much of it dependent upon computers, where the Soviets lag far behind the West), so what better way to meet the threat to their existing conventional military dominance than to constrain the West through arms control. Enter the INF pact, ostensibly designed to limit nuclear systems but in fact limiting conventional, ground-launched cruise missiles as well.

How serious in this development? If the President paid attention to his own words he might conclude it is very serious. In a little noted passage in his March 1983 address that first laid out the advantages of a strategic nuclear defense, Mr. Reagan also noted that: "America does possess, now, the technologies to attain very significant improvements in the effectiveness of our conventional, non-nuclear forces. Proceeding boldly with these technologies, we can significantly reduce any incentive . . . to threaten attack against the United States and its allies."

The Defense Science Board, a prestigious group of experts that advises the Defense Department on a wide range of scientific and technological issues, recently reported that the promise of this new technology was very high, that it might help to deter war and that should war come, it might help to inhibit rapid escalation to nuclear war. The board did not claim that dependence on this new technology could solve all our security problems, but surely deterrence of war or, failing that, inhibiting its escalation to the use of nuclear weapons are not trival benefits to the nation. Thus the board cautioned against this new conventional technology being "captured" in arms-control agreements designed to limit nuclear, even strategic nuclear, weapons.

According to press reports, then Defense Secretary Caspar Weinberger tried valiantly to get the point across to the White House but failed. Apparently nothing was to be permitted to interfere with an arms-control agreement with the Soviets even if it tended to foreclose technologies that might reduce incentives to "attack against the United States and its allies," to quote Mr. Reagan.

There is no justification for our having been caught off guard. In a book co-authored in 1981 with recently retired Secretary of the Navy John Lehman, I wrote: ". . . most important of all, the Soviets would have us severely restrain the cruise missile. This system with its potential for creating a more stable military balance in Europe is a major target be Soviet arms-control strategy. Precisely because they understand its theater potential would they like to limit if not preclude it. Moreover, they recognize full well that to do so would also have a major political impact: it would through bilateral U.S.-Soviet agreement, foreclose or substantially impair the utility of a system that our allies are increasingly comprehending could be of great importance to their own security."

GOING CARTER ONE BETTER

That was in 1981 and the book was a critique of Carter administration Salt II arms-control policy. At the time it would have defied credulity to believe that the Reagan administration would go the Carter administration one better!

One might hope that an agreement "flawed" in so many respects—of questionable verifiability, imperiling the nuclear deterrent, politically disruptive with our allies and one that even impairs our conventional defense—would not be ratified by the Senate. It is difficult, however, to imagine a Senate dominated by pro-arms control Democrats rejecting any arms-control agreement, and it is equally difficult for Senate Republicans to abandon their President. Or is it? It will not be easy for the Senate to ignore the fundamental deficiencies in this agreement if the Oct. 28 debate among GOP presidential aspirants is any guide: Only one such aspirant was unequivocal in his support for INF, Vice President George Bush. Senate majority leader Robert Dole was cautious and the other four were outspokenly opposed. Perhaps we will be saved from ourselves.

Cruise Missiles: A Wider Range and a Narrower Aim

(By Richard Halloran)

During a voyage off the Soviet Union's east coast last year, the battleship New Jersey and other ships simulated launching more than 300 cruise missiles at Soviet targets. With computers and crew drills, the battle group pretended to fire at the aircraft carrier Minsk and 26 other warships, at Soviet ports and airfields on the Sea of Japan, the Sea of Okhotsk and the Bering Sea, and at command posts, communication centers and munitions depots well inland.

Officers in the New Jersey battle group reported to Washington that they believed the Russians never detected their ships and, had the launchings been real, they would never have known what had hit them.

Cruise missiles, none of which have yet been fired in anger, are the most lethal of a new and potentially revolutionary category of arms called standoff weapons. Basically, standoff weapons can be slung at a target from so far away that the launch platform, which could be a submarine, ship, airplane or ground base, is not exposed to fire from the target.

It is the ground-launched version of the cruise missile, along with the Pershing 2 medium-range ballistic missile, that would be banned under the arms control treaty President Reagan and the Soviet leader, Mikhail S. Gorbachev, are scheduled to sign Tuesday.

But ground-launched types are but a small portion of the American arsenal of cruise missiles. Sea-based cruise missiles with conventional, high-explosive warheads are aboard American warships near the Persian Gulf today and could be used to destroy refineries, naval bases or military command centers in Iran. If the treaty takes effect, B-52 bombers carrying air-launched cruise missiles with nuclear warheads may go on alert in the United States to take up the deterrent role now played by ground-launched missiles in Western Europe.

The Soviet Union had sea-launched cruise missiles and is building air-launched versions, but they are not believed to be as accurate or consistent as those of the United

States. The Russians have concentrated more on building and improving ballistic missiles of all ranges.

However launched, the Pentagon's cruise missile is a $2-million flying torpedo with brains. It is powered by a small engine, its 20-foot frame kept aloft with stubby wings, and it finds its way with advanced navigation, keen sensors and a map programmed into its computer. Generally, these missiles can be fired 1,500 miles from a target and strike within 20 to 30 feet of it. The Navy has scored 64 hits in 76 test shots.

A cruise missile fired from a submarine off the coast of Newfoundland in Canada, for instance, could be programmed to cross the beach just north of Cape Ann, Mass., curve west to slip over the Berkshire Mountains, turn south along the Hudson River, pop up over the Palisades, glide between the goal posts at Giants Stadium in the Meadowlands and explode over the 50 yard line. The flight would take about an hour.

Because they fly just 30 or 40 feet above the ground, they are extremely difficult to track by radar. At 550 miles an hour, they move in and out of anti-aircraft missile range before gunners can fire at them. They can be instructed to attack from any direction. In short, defenses against cruise missiles are largely nonexistent.

FLYING FARTHER, HITTING CLOSER

Under development are cruise missiles with a 3,000-mile range, double that of today's missiles; at least one has been fired from a submarine, though it is expected to take more than five years to produce operational versions.

A still more important development is a laser guidance system that will enable a missile to hit within inches of the target. The missile that can thread the goal posts today would be able to hit the crossbar tomorrow. That precision is not especially important for cruise missiles armed with nuclear warheads, but pinpoint accuracy can make a missile with a nonnuclear warhead effective against many targets.

The Air Force has so far stuck with nuclear warheads. But the navy is concentrating on cruise missiles with conventional warheads. This will most likely complicate future arms control negotiations, because only a specialist up close can tell the difference between a nuclear and a conventional cruise missile.

The Navy has been arming ships and submarines with Tomahawk cruise missiles since 1983; it began deploying them with conventional warheads two years later. By the end of the 1987 fiscal year Sept. 30, the Navy had bought 338 cruise missiles with nuclear warheads and almost 700 with conventional warheads. In the current fiscal year, the Navy plans to buy only 19 nuclear cruise missiles but 456 carrying high explosives.

The reason? Navy officers say the nuclear missiles aren't useful except as a deterrent while those with high-explosive warheads may well be needed. One submarine armed with Tomahawk cruise missiles, they say, could have mounted the 1986 raid on Libya, which took dozens of Navy and Air Force planes, one of which was shot down.

"Cruise missiles," said one officer, "don't get pilots killed or captured."●

VICTOR FAERMARK AND ANDREA WINE

● **Mr. BRADLEY.** Mr. President, I rise today on behalf of all the divided spouses who have been refused permission to emigrate from the Soviet Union and join their loved ones in the West. The needless suffering of United States spouses divided from their husbands or wives in the Soviet Union continues to offend the sensibilities of concerned Americans.

I am very pleased that Victor Faermark has been granted permission to emigrate from the Soviet Union and join his wife Andrea in the West. This truly is a triumph for all who work to secure the human rights of those whose basic rights have been denied. However, the unnecessary suffering and pain that Andrea and Victor have endured can not be dismissed. Their pleas and others in similar plights repeatedly fell on unsympathetic ears. Too many requests continue to be ignored by the Soviet authorities. We must continue to ask the Soviets to recognize the struggle of those who are denied the basic right to live where they choose.

I am hopeful that the new Soviet policies of glasnost and peristroika will open the door which has been long closed and reunite all the families who are divided. Americans are deeply suspicious of a nation that keeps families divided, that denies loved ones the right to even visit. This may seem minor compared to regional conflicts and nuclear weapons. But to many Americans, permitting Soviet-Western families to unite is a basic requirement for membership in the international community. Repression and insensitivity to human rights do not produce greater understanding between the United States and the Soviet Union.

There are many important matters competing for our countries to resolve. Clearly the issue of divided spouses and families must remain a major concern. We cannot forget those who suffered the agony of separation for far too long.●

TRIBUTE TO FRANK ANDERSON

● **Mr. HEINZ.** Mr. President, I rise to offer congratulations and accolades to a newspaperman's newspaperman, Frank Anderson.

On January 14, the Valley News Dispatch and the Alle-Kiski Valley in my home State of Pennsylvania are honoring Frank Anderson. Frank has been a central figure at the Valley News Dispatch and its predecessor, the Daily Dispatch, for more than 40 years. After a most distinguished career in journalism, Frank is retiring this month.

Over the course of those 40 years, Frank has been one of the most perceptive newsmen I have ever run across. He has provided a voice to both the exalted and humble in his community. He has been a model of accuracy, quickness, and fairness. He has indeed been a newspaperman's newspaperman.

A native of Brackenridge and a lifelong resident of the Arnold-Lower Burrell area, Frank Anderson entered his chosen profession of journalism on June 1, 1947. At the time, he had a degree from Penn State and 3 years in the Navy during World War II under his belt. The "lede" to Frank's career was his first job at the former New Kensington Daily Dispatch, where he served as sports editor until 1957.

From there, Frank joined the Valley Daily News, where he became the New Kensington editor. He climbed the ladder to managing editor of the Daily Dispatch after the paper's purchase by the News in 1960. Later, he served as associate editor of the Valley News Dispatch.

Frank has become a legend of the area through his writing. A Frank Anderson column is always a favorite topic of conservation in the Valley. It seems like everybody reads the Stroller, the Back Home column and Frank's editorials. And Frank has become synonymous with characters such as Fat Frank, TV Tony, and the Old Geezer.

Frank's columns are alternately funny, blunt, and poignant. Frank made sure that no one serving the public was insulated from public criticism. He has a thorough understanding of the role of a free press.

In fact, Frank Anderson is practically synonymous with the Valley itself. He is a long-time member of the New Kensington Salvation Army Advisory Board. He has chaired the Allegheny Valley Employ the Handicapped Committee and served on the Westmoreland County Redevelopment Authority.

It has been a busy and accomplished career, and now Frank has decided to give up the hubbub of the newsroom. That's probably good news to his wife, Marge, and their two children and two grandchildren. They'll still get to enjoy the wit and wisdom of Frank Anderson on a daily basis.

For the rest of us, however, Frank will not be a part of every day any more. We will miss him. We wish him well.●

THE MILITARY CHARTER PROGRAM 2 YEARS AFTER THE GANDER CRASH

● **Mr. FORD.** Mr. President, 2 years ago tomorrow on December 12, 1985, a chartered aircraft operated by Arrow Air crashed at Gander, Newfoundland, killing 248 military personnel en route home to Fort Campbell, KY. Even though the infantry battalion that lost nearly a third of its soldiers has been rebuilt and the 101st Airborne Division has healed its wounds, we remember the men who gave their lives in service to their country, and the families and friends who lost their loved ones on that cruel day. We cannot bring our soldiers back, but we can try to ensure that such a tragic accident never happens again.

As a result of intensive investigation, legislation generated by the House Armed Services Committee, and the recommendations of the Wade Commission, the Department of the Air Force and the Federal Aviation Administration have made important revisions to the Military Charter Program and to their internal organizations, changes which I firmly believe will save both military and civilian lives.

Now a part of the Military Airlift Command [MAC] at Scott Air Force Base is the Air Carrier Survey and Analysis Office. This Office was created to survey, analyze, and recommend carrier suitability to perform airlift service for the Department of Defense. Whereas prior to Gander there was almost total reliance upon FAA data—which was often stale and sporadic, now MAC is able to conduct a vigorous precontract safety survey, an in-depth biennial technical safety evaluation, and a comprehensive biannual air carrier performance evaluation of every commercial carrier with which it does business either for the purpose of chartering or for individual travel. MAC currently has such high minimum standards that frequently carriers are placed into nonuse status by the Air Force but continue to operate under FAA regulations.

MAC's new foray into air carrier safety has been a bonus for the FAA in that MAC has provided it with an extra pair of eyes, supplementing the FAA's existing data base with its own inspection information. Under this new cooperative relationship, safety information has begun to flow continuously and often between the two organizations, an arrangement which has only the most positive implications for the future of aviation safety. Of special interest to me is the Air Carrier Analysis System [ACAS] being developed at Scott and into which all inspection data is fed. By assigning a particular index value to the performance level of a carrier, in time ACAS will provide an up-to-date snap shot of a carrier's status and will be an invaluable management tool not only for MAC but also for the FAA and the Office of the Secretary of Transportation, Air Carrier Fitness Division.

I had hoped that the Aviation Subcommittee of the Committee on Commerce, Science, and Transportation would be able to hold an oversight hearing this fall to discuss changes in the military charter program and the benefits of MAC's upgraded safety inspection program. Unfortunately, twice a scheduled hearing had to be postponed and now the end of the year is upon us.

Nevertheless I would like to share with my colleagues testimony that would have been presented had a hearing gone forward. The first is from Maj. Gen. William E. Overacker, Chief of Staff of the Military Airlift Command. The second is from Mr. Anthony J. Broderick, Associate Administrator for Aviation Standards, Federal Aviation Administration. Taken together they provide an excellent picture of the Air Force's new approach to military travel and of the exciting new relationship between MAC and the FAA—one which, again, promises great things for safer air travel.

In closing, I would like to commend the Military Airlift Command for the extraordinary steps it has taken to prevent a Gander-type accident from ever happening again. It is rare that a Government entity responds as quickly and as thoroughly as has MAC, and I think it deserves our deepest thanks for the outstanding efforts it has made to protect the lives of our servicemen and their families.

I ask that the statements of General Overacker and Mr. Broderick be printed in the RECORD.

The statements follow:

STATEMENT OF MAJOR GENERAL WILLIAM E. OVERACKER

Mr. Chairman and members of the subcommittee, I am Major General William E. Overacker, Chief of Staff for the Military Airlift Command (MAC). In that capacity, I am responsible for the day-to-day operations of Headquarters MAC, and I am the third senior officer in the command. Also with me is Col. Earl Boyanton, Deputy Chief of Staff, Air Transportation. Col. Boyanton is among other things responsible for our air carrier oversight programs and for procuring some $600 million annually in airlift for the DOD. I appreciate the opportunity to discuss with you our relationship with air carriers providing airlift services to the Department of Defense.

The Department of Defense arranges with commercial airlines for the travel of approximately six million passengers and over 60,000 tons of cargo annually at an approximate cost of one and a half billion dollars. This transportation is provided by 161 commercial carriers. As one of the country's major users of commercial aviation, it is in our interest to ensure safe, quality air service. I will outline those methods we use to ensure that type of air service to the Department of Defense. I will address the surveillance process provided by the DOD Air Carrier Survey and Analysis Office, to include on-site surveys, ramp inspections, cockpit observations, contractor inspections, and a comprehensive, automated analysis system. Central to this effort is the cooperation between the Department of Defense (DOD) and the Department of Transportation (DOT), more specifically the Federal Aviation Administration within DOT.

Under the law and as a matter of longstanding practice, the basic responsibility for ensuring all carriers operate to the highest standards of safety rests with the air carriers themselves, with oversight and enforcement by the FAA. The Military Airlift Command works with the FAA to help ensure the safety and quality of commercial airlift purchased by the Department of Defense. In effect, military members are ordered to fly on carriers whose services have been procured by the Department. Therefore, when we and other DOD agencies buy commercial passenger services for the directed movement of our people and their families, we must, to the best of our ability, assure their safe travel. The priorities underlying the management of our commercial airlift program are to contract with carriers which strive to operate to the highest possible levels of safety, meet our often unique and demanding military requirements, and have the capability to provide appropriate levels of service to our people. Congress agrees with this philosophy, as was made clear to us in the resolution passed during hearings conducted by the House Armed Services Committee's Investigative Subcommittee in February, March, and June 1986. Additionally, we must ensure that air carriers who provide airlift services to the DOD are qualified, safe, and reliable in accordance with DOD guidelines (DOD Directive 4500.53), which are derived from the FY87 Authorization Act or PL 99-661. The US commercial air carriers provide essential transportation services supporting our nation's security commitments worldwide. In fact, those carriers participating in the Civil Reserve Air Fleet (CRAF) provide over 50 percent of our wartime airlift capability.

Our capability to monitor DOD air carriers, and our use of this capability, has increased dramatically since you last conducted hearings on this subject. Our central activity is the DOD Air Carrier Survey Office.

The Air Carrier Survey and Analysis Office was an outgrowth of recommendations contained in the DOD Passenger Airlift Policies and Procedures Review, which was conducted following the Arrow Air crash in Gander, Canada, that killed 248 military members. This office was created to survey, analyze, and recommend carrier suitability to perform airlift services for the Department of Defense. The office is part of Headquarters Military Airlift Command at Scott Air Force Base IL. It will soon be augmented by the addition of Army personnel. The people who make up the office are responsible for the validation of safe operations and quality service for the same 161 air carriers who do business with the DOD. There are actually two divisions to this office—Survey and Analysis.

The Survey Division is organized with teams which conduct on-site capability surveys of air carriers proposing to provide or currently providing service to the DOD. Each team, and there are five, consists of one MAC pilot and one MAC maintenance technician. These personnel are uniquely qualified in both military and civilian aviation. The Air Force pilots, for the most part, are former flight examiner pilots with worldwide experience who also hold the FAA Air Transport Pilot rating. The maintenance people are all highly experienced in Air Force aviation maintenance, including direct supervision of hands-on maintenance and duty as Air Force maintenance standardization and evaluation team members with oversight of numerous maintenance organizations. They also have excellent civilian credentials, including FAA Airplane and Powerplant ratings and experience in managing repair stations in civilian aviation. Many of our pilots and maintenance experts have attended the FAA Airworthiness and Operations Indoctrination courses.

Following is how the typical survey is conducted.

The survey begins with a visit to the local FAA Flight Standards District Office where an exchange of information takes place. This free flow of information is codified in an agreement between the Military Airlift Command and the Federal Aviation Administration's Office of Flight Standards. The local FAA personnel are advised of the MAC team's requirements. The FAA, in turn, provides the team with information about applicable aircraft accidents, incidents, enforcement actions, and any changes in the carrier's operation that could affect its Federal Aviation Regulation compliance posture. We make a point of inviting the FAA inspectors to accompany us on the survey.

The capability survey is a broad-based review of all the fundamental operations and maintenance programs, choosing selected key areas for indepth review. The typical survey takes 5-6 days to plan, carry out, and write up. We normally spend 2-3 days at the company facilities and the local FAA office. The survey always begins with a review of the company's operations manuals. We then look into several key areas of operations, including certification, dispatch procedures, facilities, marketing plans, training programs, and records. The team uses a comprehensive, tailored checklist derived from their intensive inspection experience in the Military Airlift Command. In maintenance, we are concerned with areas such as the aircraft inspection programs, maintenance documentation, quality assurance programs, and tooling/expansion capability. The survey is completed with a return visit to the FAA, where we directly report significant findings. We usually receive a followup report from the FAA.

The secret to a favorable conclusion to one of our surveys is evidence of systemic emphasis on quality and safety throughout the carrier's operations and maintenance functions. We look for company policies and procedures which implement the Federal Aviation Regulations and which are rigorously enforced by the company itself.

Since January of 1986, shortly after the Gander crash, we have conducted 124 such surveys. Some of these were the biennial surveys required by law, some were preaward qualification surveys required by our procurement regulations, and some visits were generated by unusual circumstances. Sixteen surveys found companies deficient in safety or operational practices. The other 108 companies were considered to be operating in a safe, reliable manner in accordance with their own procedures and Federal requirements.

In addition to our in-depth capability surveys, we continually physically monitor the carriers through ramp inspections and cockpit observations. Ramp inspections, or safety preflights, are conducted by experienced aircraft maintenance technicians from the Military Airlift Command worldwide.

Although we've been doing ramp inspections for years, we increased the frequency last year to include the appropriate international and domestic charter flights now required by law and DOD directive. A new comprehensive, standardized MAC-MTMC checklist is being used.

Ramp inspections, or preflight inspections as they are called in PL 99-661, are accomplished on each scheduled international charter passenger mission within 72 hours of departure and periodically on stateside charter missions. We accomplished 433 inspections on international flights and 133 on domestic flights between March and August of 1987. These inspections enabled us to potentially identify slipping maintenance standards, ensure compliance with minimum equipment lists, and judge overall aircraft appearance. The visible presence of an Air Force ramp inspector is an important factor in establishing a high level of passenger confidence in our carriers. In addition, it is a signal to the carrier of our ongoing scrutiny of daily operations. Should our inspectors uncover a safety-of-flight deficiency, it would be brought to the attention of the aircrew. If it were not satisfactorily resolved at that time, the nearest FAA office would be notified. Furthermore, the commander of troops in a unit movement has the prerogative to refuse to board his people on an aircraft he deems to be unfit.

Another key component in monitoring air carrier performance is our cockpit observations program, in which our pilots sit in the cockpit and observe operations.

The cockpit observation program was mandated in the recommendations of the DOD Review and in PL 99-661. In this program, we observe crew safety awareness, cockpit management practices, aircraft conditions, ground handling services, and the quality of in-flight service. This gives us one more means of getting a feeling for the quality of the carrier's operations, and again signals the carrier our continuing scrutiny of daily operations throughout the world.

We have designated 16 of the most highly experienced examiner pilots in the Military Airlift Command to conduct these operations. They possess the FAA flight deck authorization required by the Federal Aviation Regulations. To date, we have conducted over 100 observations. Access to the cockpit, however, still requires the approval of the company and the captain. Our concern doesn't stop with the cockpit; we also use contracting specialists to monitor the inflight service on DOD international charter flights.

These contracting officers, known as "Range Riders," provide a quality control of the carrier's contract compliance in the service area. MTMC conducts a parallel program on domestic flights. While a direct relationship to safety may not be readily apparent, we believe attention to detail in passenger service and compliance with our contracts is indicative of the carrier's organization, management, and discipline. Furthermore, shoddy service and appearance and a marginal operation could indicate a problem in the financial stability of the company.

We are expanding our role in the collection and analysis of aviation industry data. We feel access to this data will assist in the identification of those areas that could impact safety. This is the role of the Analysis Office.

The Air Carrier Analysis Office is operational. We are phasing staff growth to keep pace with computer capability. We are "on plan" at a level of 60 percent staffed as of September 1987, and all essential analysts (maintenance, operations, safety, and financial) are in place and at work. The automated air carrier management information and decision support system used by the analysts is called the Air Carrier Analysis System, or ACAS. ACAS is now functional as a prototype system. The primary function of ACAS is to focus our attention and limited staff resources on those carriers in greatest need of close observation. The following provides a summary of the origin and development of ACAS:

First, the DOD, together with the Department of Transportation and the FAA, settled on five functional areas (safety, operations, maintenance, service quality and finance) in which lack of successful management attention could impact the safety of the commercial air carrier's operations. To acquire, store, and process the information within those initial functional areas, the DOT's Transportation Systems Center (TSC) in Cambridge, Massachusetts, began developing ACAS in November 1986. In July 1987, TSC delivered a functional ACAS prototype to MAC, MTMC, DOT, and the FAA for initial testing, evaluation, and limited use. This system is solely in use as a prototype and presently cannot fully analyze and rate each of the commercial air carriers in all five functional areas until its full development is completed in July 1988.

While the ACAS grows into a fully developed, comprehensive analysis system, the Analysis Officer gathers the bulk of its data manually for performance evaluations. FAA Principal Inspectors are the chief source of up-to-date operations, maintenance, and safety data. The carriers themselves are contacted to update financial and management personnel information. And, finally, we refer to numerous publications, to include Aviation On-Line, the Wall Street Journal, Dun and Bradstreet, and Value Line, to name a few, for additional data.

The ACAS is designed to become a comprehensive decision-support and information system. It will bring critical information, primarily from MAC, MTMC, FAA, and OST data bases, to bear in each of the five analysis areas. MAC's input includes the results of all surveys, ramp inspections, and other physical assessments. A major milestone will be the melding of the FAA's Aviation Safety Analysis System, or ASAS, under the ACAS umbrella. This process, started this July and continuing over the next 2 years, will provide for access and analysis to the majority of the volumes of FAA-collected data in the areas of accidents/incidents, enforcement actions, exemptions, and specific air carrier operations. All ACAS information will then be distilled into a quantity of weighted performance submeasures within each of the five areas, into overall area indicators (weighted), and finally into an aggregate indicator which merges the five areas. The ACAS is designed for three levels of scrutiny, from an overall review to the most detailed analysis. The steps from normal to most detailed scrutiny are triggered by system-generated "flags" to the analysts, or by the analysts themselves based on new events not yet in the system. The ACAS does not make any decisions. What it will do whem completed is put comprehensive, decision-support information at our fingertips, thus quickly directing our attention to air carriers needing closer observation.

As the scope of the ACAS information analysis system grows, so will its value as a timely source of civilian aviation information. In addition, ACAS will become the central depository for all the DOD/DOT collected data on our contracted commercial carriers. For example, the aircraft maintenance ramp inspection results are projected for data input from the maintenance community. Passenger comments and contractor evaluations will be included in the quality of service indicators.

At this time, ACAS includes the preliminary data for the 161 DOD commercial carriers. Just over $1 million has been spent for the development and delivery of the ACAS prototype, which represents the completion for Phases I and II effort. An additional $4,850,000 is projected for the implementation of the final two phases of the system. Approximately $750,000 to $1 million each year will be required to support the system. The Department of the Army, through its Military Traffic Management Command (MTMC), has agreed to fund half of the system's development and maintenance costs, with the Air Force funding the other half. The FAA has initially contributed $100,000 to research and development.

Also, the FAA has been helpful in design critique, support, and providing access to their extensive ASAS data bases. All of the aircraft/incident data now in the ACAS has been obtained from FAA sources. In addition, the Eastern Region of the FAA will continue to keep us abreast of their efforts to automate all FAA National Inspection Team findings.

Additionally, the Fitness Division within the Office of the Secretary of Transportation has provided invaluable financial and service quality information, advice, and constructive criticism. They've played a significant positive role in ACAS development.

When all information and indicators are accumulated, there are specific procedures for approval or disqualification of carriers. These procedures are contained in Attachment 1. Basically, information received from analysis, survey, or incidents is reviewed by the Air Carrier Analysis and Survey Office and is forwarded to the Air Carrier Review Committee, a group chaired by the Deputy Chief of Staff, Air Transportation at the Military Airlift Command Headquarters. This body is composed of military officers and civilian employees from such varied disciplines as flight standardization, contracting, law, and aircraft maintenance. The Review Committee can determine the carrier is capable of providing services to the DOD or, if evidence dictates, can recommend nonuse to the next level of review, the Joint Transportation Operating Agency Commercial Review Board (JTOACARB). This board consists of two general officers, one each from MAC and MTMC, along with two other representatives from each command. The board also receives information and recommendations from the MAC Airlift Contracting Office and Military Traffic Management Command's Passenger Review Board. The JTOACARB is empowered to issue letters of warning and show cause; to place carriers in nonuse pending suspension proceedings; to suspend carriers, and/or to subsequently reinstate them. The board may also elevate a suspension or reinstatment decision to the commanders of the Military Airlift Command and the Army's Military Traffic Management Command. They, in turn, may act along the same lines as described above for the JTOACARB, or they may defer decision to the DOD Commercial Airlift Review Authority, a Pentagon-level group of senior military and civilian officials chaired by the Deputy Assistant Secretary of Defense for Logistics. Although we have purposely created a deliberate process, in the case of a fatal accident involving a DOD air carrier, the JTOACARB will make an immediate determination on whether or not to suspend the carrier.

For reinstatement after suspension, the carrier must submit clear and convincing evidence that it has established its capability to serve the DOD. A hearing could take place at the option of the JTOACARB. The carrier must show to the satisfaction of the board that deficiencies that led to suspension have been corrected and that actions have been implemented to preclude the recurrence of similar deficiencies.

As you can see throughout the whole survey and analysis process, we work in concert with the FAA. To enchance this cooperation, we have a liaison officer, a highly skilled pilot, Lt. Col. (colonel select) Ron Priddy, in FAA headquarters. The FAA, in turn, has assigned a liaison officer, Mr. Jerry Nuby, to our staff. We enjoy a healthy, mutually beneficial relationship.

We have a responsibility to military travelers and their families to work jointly with the FAA and the air carrier industry to enhance safe and reliable air transportation for the DOD traveler. As a surrogate for our travelers in selecting the carriers they will fly aboard, we are an informed and critical consumer of air transportation services. Our Air Carrier Survey and Analysis Office, with its functions of capability surveys, cockpit observations, ramp inspections, and in-depth analysis, is the nerve center of our oversight process.

Finally, MAC is not only attempting to assure the daily safe and reliable purchase of commercial airlift for the Department of Defense, but also to foster a more stable CRAF, ready to provide this country's wartime surge capability from a strong commercial aviaiton industry. I would caution, however, that all of the measures we have taken still cannot guarantee there will not be another Arrow or Delta or Northwest type accident. But we believe our efforts will enhance safe and reliable service to the Department of Defense.

STATEMENT OF ANTHONY J. BRODERICK

Mr. Chairman and Members of the Subcommittee:

I welcome this opportunity to appear before the Subcommittee today to discuss Department of Transportation and FAA measures to ensure the safety of air carriers involved in the transportation of military personnel, as well as cooperative efforts to exchange safety related and other information with the Department of Defense and the Military Airlift Command (MAC). The Subcommittee's interest in this matter, and indeed the level of cooperation today, are the result of the tragic December 1985 crash of an Arrow Air DC-8, in Gander, Newfoundland.

As you have heard in the previous testimony from the Department of Defense, there are a number of very positive initiatives between the Department of Transportation, FAA, and the Department of Defense (DOD) to ensure the safety of military personnel being transported onboard civil air carriers. Frankly, a year ago, we had a lot of questions as to how that relationship might develop. Today, there is no question that our cooperative relationship has improved air carrier safety. The FAA welcomes the extra pair of eyes and different perspective DOD brings to air carrier safety. Safety information flows daily between the two agencies. Not just between headquarters, but between field organizations as well. We welcome this cooperative effort between the FAA and DOD agencies.

In early 1986, the FAA initiated an extensive National Aviation Safety Inspection Program. This plan called for special, in-depth inspections of all air carriers as well as FAA certified engine repair stations. The inspection methodology for this program follows that which was developed for the 1984 National Air Transportation Inspection Program (NATI), or white gloves inspection, ordered by Secretary Dole.

However, in 1986, there were two specially targeted areas of emphasis: (1) inspection of Federal Aviation Regulation (FAR) Part 121 air carriers which derive significant income from military charter flights, and (2) inspection of certified turbine engine repair stations. FAR Part 121, as modified by Special Federal Aviation Regulation 38 (SFAR 38), governs air carriers conducting scheduled and non-scheduled (charter) operations with aircraft having a seating capacity of more than 30 seats or a payload capacity of more than 7,500 pounds. The decision to select repair facilities that perform maintenance on and alterations of (1) large turbine engines used in air carrier service and (2) some smaller engines used on commuter aircraft, resulted from a concern over a significant number of engine service difficulties. Improper maintenance practices appear to have been particularly related to the engine service difficulties with certain types of jet engines.

In 1987, this program continues to emphasize military charter carriers, but was expanded to include commuter carriers also. In addition, the FAA expanded our emphasis to include FAR Part 141 pilot schools and FAR Part 145 repair stations. In the coming fiscal year, we will continue to emphasize carriers that derive income from military operations, as well as other areas in our nation's aviation industry that appear to need specific emphasis.

This program has had a significant, positive influence on air carrier safety. That positive influence is not just limited to the aircraft. Indeed the entire industry has been put on notice. Administrator McArtor recently announced his intention to meet with the air carrier CEO's to seek from them the same degree of accountability and care which goes into their company financial statements, in their aircraft maintenance and operations programs. They have been made aware that we are raising our standards and expect them to raise theirs in a commensurate manner.

The FAA has established other initiatives to improve the cooperation and information exchange with DOD. The FAA liaison to MAC is in position at Scott AFB, Illinois, helping the Department of Defense on their survey and analysis program and keeping the FAA informed of DOD findings and issues.

The military liaison to FAA, a United States Air Force Lieutenant Colonel, works within the Office of Flight Standards, which reports directly to me. Specifically, he is on the Evaluation Staff that plans all our major inspections. He is asked to participate in quarterly Flight Standards Managers Conferences, which puts him in contact with flight standards managers throughout the FAA. He periodically visits our regional headquarters for review of major initiatives at the regional and district office level. Throughout our major inspections, he is kept abreast of all major issues or concerns being found by the inspection teams. When our inspection teams debrief an air carrier engaged in military charter operations, the MAC liaison attends the briefing and receives a copy of the inspection report at the same time the air carrier does.

We are proud to be involved in the Air Carrier Analysis System (ACAS) program presented earlier by MAC. We are dedicated to making this a national information sharing effort.

That completes my prepared statement, Mr. Chairman. I would be pleased to respond to questions you may have at this time.●

KIMBERLY CHHIM POWERS—AMERICAN CITIZEN

● Ms. MIKULSKI. Mr. President, today is a very special day, and I would like the Senate to be aware of its significance.

Today, my Cambodian niece Kimberly Chhim Powers will formally take the oath of allegiance and become an American citizen.

I first met Kim in a refugee camp in Thailand 8 years ago. I asked her how I could help her, and she replied "Take me back with you."

And now today, she will complete the journey that began that day. I wish I could be with her today.

Kim's story is a remarkable one. I am full of admiration for and pride in how she has made this country her own.

We all take pride in the fact that so many people every year seek to become Americans. It verifies our faith and belief in our system. But it takes a story such as this to make the dry statistics of refugees and immigration come alive.

When Kim was taking her citizenship test, she was asked to name her two Senators. "Paul Sarbanes and my Aunt Barb" was her speedy reply. She passed the test.

Mr. President, I congratulate Kim, and ask unanimous consent to add at the end of these remarks the text of an article from the Prince George's Journal of June 15, 1987, about Kim's graduation from high school.

MIKULSKI'S 1979 VOW ENDS IN CAMBODIAN GIRL'S GRADUATION

(By Tracy A. Reeves)

OXON HILL.—Kimberly Chhim Powers remembers the day eight years ago as if it were yesterday.

The Vietnam War was over. She was sitting crunched between other children in a Cambodian refugee camp in Thailand when an American politician noticed the tears in her eyes and asked the question that would change Powers life.

"Is there anything I can do for you?" asked the politician.

Feeling scared and desperate. Powers, who could not speak English responded through a translator.

"Take me back with you," she said.

U.S. Sen. Barbara M. Mikulski said those words stuck in her memory. She felt compelled to find Powers a home in America. And she succeeded.

Powers, 18, now lives in Oxon Hill, where she graduated from Friendly High School on Tuesday.

Mikulski, D-Md., told Powers story to Friendly graduates, their parents and friends at the outdoor commencement exercises at the school.

Mikulski was asked to give the graduation speech by seniors who had learned early in the year that one of their own classmates had a personal relationship with the senator.

In her brief remarks, Mikulski urged the 395 graduates to use their educations to better themselves and their country.

"Each of you in your own way has the ability to move us into the next century." Mikulski said.

Mikulski also told the crowd she was especially proud of Powers, whom she calls her niece. Powers refers to Mikulski as "Aunte Barb."

"I can't wait to give her a big hug," said Mikulski, who later presented Powers and the other graduates with their diplomas.

"I would not be here if it weren't for Barbara," said Powers who plans to go to cosmetology school and ultimately earn a business degree.

"She gave me a home and a new life and I love my parents for what they've done for me." Powers said.

Mikulski's relationship with Powers began in late 1979 when she was a member of the U.S. House of Representatives. She and other members of Congress went to Thailand that year to learn more about how money sent from the United States was being used in the refugee camps.

Mikulski said she found that the money was being spent well, but that the conditions of the camps were still sad.

"I saw people living under the most horrendous conditions and here was this little girl begging for someone to take her away," she said.

Mikulski said she learned through translators at the camp that Powers had been separated from her parents and siblings. Powers has not seen them since.

Months later, with the help of several Washington social service and religious agencies, Powers was in the Tantallon home of Phorn and Samantha Powers, who had wanted to adopt a girl.

"She is wonderful. From the day I saw her, I loved her like she was my own daughter," said Samantha Powers, who with her husband also has a 17-year-old son, Tipp.

Powers began her education in the county public school system as a fifth-grader and with the help of the English for Speakers of other Languages Program learned to speak read and write in her adopted language.

Mikulski talks to her weekly on the telephone.●

PUBLIC COMMENTS ON CASH PROFIT-SHARING LEGISLATION

● Mr. BUMPERS. Mr. President, on April 7, 1987, I introduced S. 932, a bill to provide a modest tax incentive for cash profit-sharing plans.

S. 932 is premised on the work of a number of prominent economists, including Prof. Martin Weitzman of MIT, who argue that firms with cash profit-sharing plans are more likely to hire additional employees during times of economic growth and, even more important, less likely to fire them when there are downturns in the economy. The potential impact of profit-sharing plans on productivity is an added rationale for the tax incentive, but the key issue addressed by S. 932 is the level of employment and unemployment in the economy.

On October 8 I spoke to the Senate regarding the adoption of a strikingly similar tax proposal in Great Britain—113 CONGRESSIONAL RECORD S13881-S13882 (October 8, 1987). The action of Great Britain gives us a laboratory to determine whether cash profit-sharing plans do, in fact, have a positive impact on both productivity and employment.

In this statement I would like to focus on the many public comments which I have received from American firms and experts on my proposal.

Because S. 932 is an original proposal, I have been anxious to have it evaluated by business executives, economists, and employee representatives. In May and June I sent letters to solicit comments on S. 932 and the issues it raises. I sent these inquiries to a wide range of groups, including groups I thought might be skeptical of S. 932, such as labor unions and some groups involved in promoting productivity incentives other than profit sharing.

At this point in consideration of S. 932 I am just as interested to hear skeptical comments about S. 932 as to hear praise for it. I recognized that the "burden of proof" is on the proponents of any new legislative proposal. S. 932 does reduce Government revenue and, particularly in the current budget climate, I must be able to demonstrate that this expenditure of Government revenue is worthwhile.

I believe strongly that in our system of government, all interested groups should be invited—not just permitted—to participate. We need the benefit of their expert advice before we take actions which affect them.

I know that the Congress is not yet ready to take action on S. 932 because of its impact on Government revenues. The issue not being debated in Congress is how to raise new revenue, not provide new tax incentives which reduce revenue. In addition, the principal issue addressed by S. 932—employment and unemployment—is not high on the legislative agenda.

It is clear to me, however, that the issue of employment and unemployment will rise to the top of the legislative agenda when the economy next goes into a recession. I fear that the next recession may well be a deep one, with painfully high unemployment. If that is true, then Congress would be receptive to initiatives such as S. 932 which address an underlying cause of unemployment and the Congress should be willing to take actions which reduce Government tax receipts and which, thereby, stimulate economic growth. This is when S. 932 will be given serious consideration.

In the meantime I will continue to solicit comments from a broad range of groups and will continue to research the issues raised by S. 932. The next recession is not upon us yet—at least most economists do not believe it is—and we have time to consider S. 932 in depth.

PRODUCTIVITY AND EMPLOYMENT

S. 932 is based on the premise that cash profit-sharing plans have a positive impact both on employee productivity and on employment.

The impact of profit sharing on employee productivity comes because employees are rewarded when the firm is profitable and they must sacrifice when it is not. Profit sharing focuses the attention of all the employees of a firm on the bottom-line, profitability.

The potential impact of profit sharing on employment is the subject of Prof. Martin L. Weitzman's much heralded and discussed book, "The Share Economy." In this book, Professor Weitzman argues that if enough firms tied enough of the pay of their workers to the profitability of the firm, employment would increase more during times of economic growth and unemployment would be less during recessions.

This impact on employment occurs because profit sharing automatically adjusts the compensation of employees—and the costs of the firm—when the firm's profitability rises or falls.

In good times, this means that employees receive a full share of the increases in profitability. Managers of firms need to recognize that profits arise from the effort of the employees of the firm and that the employees should be rewarded when the firm prospers. Just as important, the firm has a special incentive to hire additional workers because the marginal cost of hiring additional workers is less because each additional worker who is hired is paid in part from a fixed fund of the shared profits.

In difficult times, profit sharing means that employees make defined and limited sacrifices to help the firm regain its profitability. Because with profit sharing the firm's costs automatically decline when its profits decline, the firm has less need to cut costs by firing or laying off employees—which unfortunately is the course it normally would have to follow. The marginal cost to the firm of retaining workers declines as the profitability of the firm declines.

When a firm is less likely to need to lay off or fire employees during difficult times, it may be more willing to hire additional workers in prosperous times. It will know that its investment in the training of these employees is less likely to be wasted through layoffs and firings. A firm will invest more in its employees and employees will be more loyal to the firm, all of which should help increase productivity.

Some of the comments I have received focus on whether widespread adoption of cash profit-sharing plans would have a positive impact on productivity and/or employment. Others focus on whether profit sharing is a fair and equitable form of compensation. Still others focus on whether it is appropriate for the Federal Government to provide an incentive in favor of cash profit-sharing plans and whether the terms of S. 932 are appropriate.

In short the comments I have received focus on issues of microeconomic and macroeconomic policy, labor-management relations, and tax policy.

RANGE OF VIEWS RECEIVED

Overall I am encouraged by the comments I have received on S. 932. I introduced S. 932 in order to stimulate debate on the issue of flexible compensation and pay-for-performance. The comments I have received reinforce my belief that this is an issue well worth debating.

It is not surprising to me that there is a wide range of views on the potential impact of cash profit-sharing plans on employment and productivity. Any time one discusses wages, hours, and working conditions, the opinions which are expressed tend to be strong and personal. Compensation is not an easy subject to negotiate, let alone to address in legislation.

S. 932 simply provides an incentive for cash profit sharing. It does not require any company or employee to agree to a profit-sharing plan. Despite this fact, S. 932 may have an influence on employer-employee negotiations and the comments I have received assume that it will have some influence.

The comments I have received run the gamut. Some commentators strongly agree with the premise of the legislation and others strongly dispute them. From among the comments I have received, there are 21 which represent a cross-section of views. The groups and persons who have submitted these comments include the following:

Associations: The Profit Sharing Council of America, the Employee Stock Ownership Association, and the National Center for Employee Ownership;

Corporations: Worthington Industries, Steelcase, Michigan Wheel Corp., the Lincoln-Electric Co., and Andersen Corp.;

Labor unions: The AFL-CIO, the United Brotherhood of Carpenters & Joiners, and the Airline Pilots Association;

Professors and consultants: Martin L. Weitzman of MIT, Myron Roomkin of Northwestern, Michael Carter of Hay Management, Linda Washburn of Arthur Associates, and Robert Doyle; and

Institutes: The W.E. Upjohn Institute for Employment Research, the Employee Benefit Research Institute, the Bowling Green Productivity and Gainsharing Institute, the Work in America Institute, and the American Productivity Center.

I do not have time here to review all of the written and oral comments I have received regarding S. 932. The ones I cite here, however, cover the full range of the issues which have been raised.

I am very appreciative of the assistance I have received from all of these groups and the others who have responded to my requests for comments. I am sure that other groups and persons can contribute to this debate on profit sharing and I am continuing to solicit comments on S. 932 and the issues it raises. I am sure that many of the groups and persons who already have commented will be interested in reacting to the comments of others.

OUTLINE OF COMMENTS

It is difficult to summarize the detailed comments I have received in just a few minutes. Those who have submitted comments have taken a great deal of time and care in analyzing the issues raised by S. 932 and their letters often run to five pages or more. The full text of their comments should be read by anyone interested in fully understanding their views. But, I would like here to very briefly summarize the views of these groups and individuals:

David L. Wray, president, Profit Sharing Council of America: It should not be surprising that the PSCA "strongly endorses" S. 932 and believes that it is "good public policy to encourage profit sharing." The council defines profit sharing as a system whereby "employees receive a share of the profits in addition to prevailing rates of pay." It cautions that it "in our present economic climate" is "doubtful if employees would be willing to give up part of a fixed wage in return for the promise of a portion of an uncertain profit." It expresses concern that the uniform rules of capitalization adopted in the tax reform legislation are a "disincentive" to the adoption of profit-sharing plans. It cites a number of studies which indicate that profit sharing has "improved company results."

David Binns, executive director, the Employee Stock Ownership Association: The ESOP Association "endorses the central focus of the bill which is to tie the financial interests of workers to the performance of their employer to provide for greater incentives for productivity gains as well as increased opportunities for financial remuneration for rank and file employees." Shared ownership and shared profits are "distinct in several ways" and the association supports "incorporating employee ownership into S. 932."

Cory Rosen, executive director, the National Center for Employee Ownership: Mr. Rosen states that "the bill would spur a very modest increase in profit sharing, but perhaps not enough to test Weitzman's theories." The tax deduction "would not * * * be enough to offset the additional uncertainty which profit sharing creates." Even if the bill stimulates the growth of profit-sharing plans, such plans "would encourage companies to focus on profits, not growth and market penetration (which) is very dangerous" and a "serious mistake." A "more balanced approach would encourage a mix of both equity and profit compensation * * *."

Joseph Stegmayer, vice president and chief financial officer, Worthington Industries, Inc.: "Unquestionably, our profit-sharing plan has been a vital element" in the fact that Worthington Industries sales and productivity have increased dramatically and that it has "never laid off a permanent employee." It "strongly supports the concept" of the proposal.

Robert C. Pew, chairman and chief executive officer, Steelcase, Inc.: Mr. Pew believes "that profit sharing does all the things that you state it does." However, he "really (has) trouble with using the Internal Revenue Code as a vehicle for promoting good ideas." He does not "understand what the risk is all about for either the employer or the employee * * * if there are no profits there may be no business or jobs."

Charles Dykstra, president, Michigan Wheel Corp.: Mr. Dykstra believes that profit sharing "tends to reduce the layoff possibilities" during recessions although the firm's "payroll does decline in an effort to protect" the profit-sharing plan. Profit sharing "is not without risks to all of our employees since profitability, tied to a PS figure, can significantly reduce one's annual earnings * * * (this) places a significant amount of pressure on management, and the attention it pays to wise inventory management, superior employee relations, communications, and the openness and accessibility of employees to planning processes."

George E. Willis, chairman and chief executive officer, the Lincoln-Electric Co.: Mr. Willis states that the profit-sharing bonus at Lincoln-Electric has been paid "each year since 1934 * * * (and it) has been extremely effective in improving continually our productivity with the result that today (Lincoln-Electric is) somewhere between two and three times as productive as our competitors." He "agrees in principal" with the bill but the experience at Lincoln-Electric finds that a "flexible formula is most effective" and that a formula which gives an "increased incentive to * * * middle and top management" should be allowed.

Ross A. Dahlin, manager, Andersen Corp.: Mr. Dahlin offers his "strong support to S. 932" because it would "enhance" the benefits which are received under Andersen's profit-sharing plan, which has been in effect since 1914.

Rudy Oswald, director, Department of Economic Research, the AFL-CIO: The AFL-CIO has "strong reservations concerning S. 932" but there is "no single 'labor' position for or against profit sharing." It agrees with the "goal of increasing productivity and maximizing the number of workers hired by firms during economic recoveries and recessions * * * (b)ut, we do not feel that the measure would accomplish such goals." The experience with profit-sharing plans is "mixed" and there is "no evidence that profit sharing has led to employment increase or productivity improvements." Profit sharing has been used "in some cases to undercut unions * * *."

Wayne Pierce, general treasurer and legislative director, the United Brotherhood of Carpenters & Joiners: The United Brotherhood has "serious reservations" about the bill. "It is unlikely that a small share of profits will, by itself, change workers' attitudes toward a company or the way they perform their jobs." It's experience has been that profit-sharing plans are "more often (proposed by) a company that has not acted in good faith in the past and will propose a profit-sharing plan when it is losing money as a quick-fix solution to fundamental business problems and as a way to avoid its obligations to pay decent wages and benefits. There is less "mistrust toward gainsharing plans." "It does not seem fair to us that (firms with no profits) should pay what could amount to substantially lower wages because of a profit-sharing plan."

Henry A. Duffy, president, the Airline Pilots Association: The bill is "appealing" and, "as (a pilot) is already sharing the risk of the marketplace, we concur in your belief that he is entitled to share in the rewards." Mr. Duffy expresses concern that firms which have profits might time "purchases of equipment * * * to correspond to a period of substantial profitability in order to keep wages depressed." He is concerned that the antidiscrimination provisions of the bill is not strong enough.

Martin L. Weitzman, MIT Department of Economics: Professor Weitzman finds the bill to be an "imaginative piece of legislation attempting to deal seriously with two major economic problems of our time—how to improve competitiveness and productivity, and how to improve the unemployment-inflation tradeoff." He states that profit sharing is "not an economic panacea * * * but (it) can help promote (a) commonality of interest" between employees and employers. Profit sharing should be singled-out for "special preference" because "profits are the bottom line, the best, really the only, comprehensive signal of the success of a commercial enterprise and the security of jobs in it." "If people will face up to the uncertainty, and if everyone accepts some small part of it, then society as a whole will end up with higher income and less uncertainty overall."

Myron J. Roomkin, Northwestern J.L. Kellogg Graduate School of Management: Professor Roomkin makes a series of observations about profit sharing plans. They work "best where (they are) a part of an overall approach to employee relations backed by an appropriate managerial philosophy." The "motivational value of profit sharing declines as one moves to lower levels of the organization * * *"

Employees are "understandably suspicious of the way profits are calculated." Profit sharing "requires trust" which can only happen if there is a "mechanism for employees to participate in decisionmaking and governance." The "volatility of profits in some industries will increase employee resistance to profit sharing, even with tax incentives." He suggests a "new variety of profit sharing between deferred and cash programs."

Michael Carter, senior vice president, Hay Management Consultants: Profit-sharing plans "do motivate better performance and better identification with the company's goals and profitability." By providing tax incentives for profit sharing, S. 932 makes a profit-sharing plan "a stronger motivator of performance." In times of economic distress "management can avoid or lessen reduction in force" with a combination of fixed wages and contingent pay, such as profit sharing. There is some potential for employers with consistent profits to manipulate their reward systems to gain the favorable tax treatment for their employees. "S. 932 would promote improved productivity and lower unemployment, probably without a reduction in tax revenues."

Linda Washburn, Arthur Associates: the bill "is a most interesting, and perhaps unique approach * * * (and), in principle, seems viable." Ms. Washburn raises a number of issues concerning the terms of the bill. Profit sharing, or gain-sharing programs, must involve trust between management and labor and without this trust these programs will "not reach (their) full potential, and at its worst, (may) fail."

Robert Doyle, management consultant: Mr. Doyle "strongly agree(s) with the spirit of this proposal * * *" Some profit-sharing plans "have indeed been effective in stimulating productivity." "When employees put some of their pay at risk they must, in fairness, be given greater influence over their work." "In those plans where management provides the complete program of influence sharing and profit sharing, we see solid improvement in productivity, profitability, competitive strength, and also in the security of employment and investment." "Productivity improvement will only cause reduced unemployment in the U.S. * * *" Providing a tax incentive for profit sharing is a "stronger" strategy than an educational effort, but the "proposed incentive is not strong enough to be effective." The issues raised by S. 932 are "very complicated and (he) recommend(s) that more fact gathering, debate and reflection be done."

Robert G. Spiegelman, executive director, the W.E. Upjohn Institute for Employment Research: Mr. Spiegelman "agree(s) in principle with the analysis" provided in support of S. 932. It should "increase the spirit of cooperation between management and labor," "smooth out employment cycle, that is, reduce the tendency for layoffs during downturns," and "encourage workers to strive to increase company profits through increased productivity." There may be a need for experimenting with "a temporary program of subsidization" with a tax incentive to overcome "institutional inhibitions" against profit sharing. "The structure of the program provided in S. 932 seems quite satisfactory." S. 932 "would make a contribution to the goal of increasing American competitiveness * * *."

Dallas L. Salisbury, the Employee Benefit Research Institute: "Existing research does indicate that tying a portion of total compensation to the profits of the firm can have a positive impact on productivity." Whether profit sharing will enhance employment "would depend upon * * * guaranteed cash compensation being reduced when the cash profit-sharing plan is introduced." The bill "would likely prove most attractive in the small business sector." The tax incentive might "well be expected to achieve a (30 percent) level of utilization" of profit sharing plans. The 5 percent "floor" is "likely to be too high to attract (large numbers of employers) in." Nondiscrimination rules also will deter some small businesses from adopting plans.

Timothy L. Ross, director, the Bowling Green Productivity and Gainsharing Institute: The bill "is a good start since, if nothing else, it will develop an awareness of the (competitiveness) problem." The use of "contingent or variable compensation * * * is probably the greatest reason why interest in gainsharing is growing." The "concept (of profit sharing) is fraught with many potential difficulties," including accounting issues and union opposition. "Some people say that employees cannot relate to such things as profit sharing which is ridiculous if you spend time at the educational process."

Jerome M. Rosow, president, Work in America Institute, Inc.: Mr. Rosow "endorse(s the) legislative effort" as "laudable." He then makes a series of observations about profit sharing. "(T)he degree of risk in trading wages for a share of fluctuating profits is highly uneven." Profits are "not necessarily the best reflection of the economic performance of the corporation." "The lure of profit sharing rarely fulfills the expectations because the formulas do not provide for a large distribution as a percentage of pay of the average American worker." "Profit sharing is vulnerable to economic conditions, industry competition, tax policy, interest rates and other critical variables often outside the control of management itself." He does not believe that there is any evidence to support Prof. Martin Weitzman's statement that profit sharing acts as a shock absorber to personnel layoffs." He does not believe that the tax incentive is great enough to "offset the risk to employees if they must engage the risk by sacrificing part of their regular wages in order to participate in a plan that is highly variable and vulnerable to external conditions."

Carl G. Thor, the American Productivity Center: The center "strongly oppose(s) the intent of the bill to single out 'profit-sharing' plans for favorable treatment at the expense of gain-sharing plans and other related approaches." "Profit sharing is not an effective motivator for most employees in a large organization." There is difficulty in defining the term "profits." Gain sharing is becoming very popular and "it would be very counterproductive from the point of view of the Nation to nip gain sharing in the bud and get everyone oriented on an obscure and arbitrary short-term profit calculation."

RESPONSE TO COMMENTS

As my colleagues can see, the range of views on S. 932 is broad. There are many disagreements over factual as well as policy issues. Some of the comments are enthusiastic and others are quite negative.

As I said earlier, it is not surprising that responses to S. 932 are mixed. It deals with an important and personal issue—the compensation of individual workers. The potential impact of profit sharing on productivity is difficult to study with precision. It is impossible to directly measure the potential impact of profit sharing on the Nation's employment or unemployment.

I have not provided responses to the negative comments on the bill. Those who have raised questions about S. 932 raise legitimate issues. In time I will address all of the issues which they have raised, indeed, I addressed many of them in my introductory statement on S. 932 of April 7.

I must say that these same issues were raised in the House of Commons in Great Britain when it debated a proposal to provide a tax incentive for cash profit sharing. As I said, the House of Commons proceeded to adopt the proposal and it is now law.

Here I am trying to set the agenda for the debate and the research that needs to be done. The ball is in my court as the proponent of this approach to our competitiveness challenge. I have my work cut out for myself. But, the issues are important enough to justify the effort.

The issues here are fundamental to the competitiveness challenge we face. What policies will improve productivity? How can we increase employment and reduce unemployment? How can we protect the right of workers?

These are not simple issues and the analysis of these issues is both controversial and complex.

By introducing S. 932 I am helping to focus the debate on a concrete proposal to take action. There may be other approaches to the same issues and I hope that Members will advance them so that they can be analyzed along with S. 932. I doubt that any of them will raise such interesting issues about how our economic system functions and how it can be made to be more effective in protecting the dignity and prosperity of our people.

AVAILABILITY OF MATERIALS

To save on the expense for printing the CONGRESSIONAL RECORD, I will not ask that the text of these comments be printed at the conclusion of my remarks, but I wish to announce that I have compiled a compendium of these 21 comments. This compendium is entitled "Sample of Public Comments on S. 932, the Profit Sharing Incentive Act."

The compendium is available to interested Members, staff and the public upon request from my staff counsel, Charles Ludlam, c/o Senate Small Business Committee, 428 Russell Building, Washington, DC 20510.

In addition, I have prepared six other compendium of materials on S. 932, cash profit sharing, Professor Weitzman's thesis, and the recently enacted tax incentive for cash profit sharing in Great Britain.

These seven compendium are as follows:

TRIBUTE TO ANITA M. HARDESTY

● Mr. ROCKEFELLER. Mr. President, I rise today to pay tribute to Anita M. Hardesty of Mineral County, WV, who has been honored as one of America's 50 outstanding teachers. Ms. Hardesty's dedication to her students and to her community should serve as an inspiration to teachers in West Virginia and across the country.

Ms. Hardesty has taught vocational home economics at Keyser Middle School for 12 of her 16 years in this distinguished profession. She earned bachelor and masters degrees from West Virginia University in home economics, vocational and middle schools education, and nutrition.

Prior to being recognized by the "Honor of Excellence Program," which is the only national program that salutes both outstanding teachers and principals, Ms. Hardesty was named outstanding Middle Childhood Teacher by the West Virginia Association in 1983. She has also been honored as Mineral County Teacher of the Year.

America's future depends on investing in our education system. This country needs more individuals like Ms. Hardesty who commit themselves to a career in teaching. We must encourage the best and the brightest to once again consider a lifelong commitment to education.

I am proud to draw my colleagues' attention to Anita M. Hardesty and her dedication to our younger generation. Her contributions deserve this special honor. I commend Ms. Hardesty for her exemplary public service.●

PROPOSED ARMS SALE

● Mr. PELL. Mr. President, section 36(b)(1) of the Arms Export Control Act requires that Congress receive formal notification of proposed arms sales under the act in excess of $50 million, or, in the case of major defense equipment as defined in the act, those in excess of $14 million. Upon receipt of such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Foreign Relations Committee.

In keeping with my intention to see that such information is available to the full Senate, I ask to have printed in the RECORD at this point the notifications I have received. The classified annex referred to in one of the notifications is available to Senators at the Foreign Relations Committee.

Brazil will have no difficulty absorbing these articles into its armed forces.

The sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Honeywell, Incorporated of Minneapolis, Minnesota.

Implementation of this sale will not require assignment to Brazil of any additional U.S. Government personnel or contractor representatives.

There will be no adverse impact on U.S. defense readiness as a result of this sale.

DR. JERRY C. LEE

● Mr. INOUYE. President Jerry C. Lee of Gallaudet University has announced that he will soon leave the university and Washington, DC. The 3 years that Dr. Lee has served as president of Gallaudet have been clearly marked by his dedicated and brilliant service. He has led the institution from college to university status, has broadened its programs and advocated effectively before Congress on behalf of his students and faculty. He has greatly enriched Gallaudet University as a national resource. Deaf and hearing impaired individuals in every State have benefited from his efforts.

I am pleased to express my special appreciation for the attention that Dr. Lee has given the peoples of Hawaii and the Pacific. His concern is reflected in the new Gallaudet University-University of Hawaii Center on Deafness that is scheduled to open in January. The center will give Hawaii and the Pacific Basin the benefit of Gallaudet University's strength and expertise in education of the deaf, sign language interpreter training, and community outreach.

The Center on Deafness in Hawaii will commemorate Dr. Lee's many impressive accomplishments as president of Gallaudet University by facilitating the full participation of deaf and hearing impaired individuals in the life of their communities. The center has already demonstrated Dr. Lee's talented leadership, genuine commitment and effectiveness.

With deep respect and gratitude, I wish Dr. Lee continued success in his new position. I am certain that in the corporate world, he will continue to contribute importantly to the public good.●

THE INF TREATY

● Mr. DASCHLE. Mr. President, the Rapid City Journal is western South Dakota's largest newspaper. It provides a commonsense editorial voice for the independent thinking ranchers and business people who live in that part of my State.

The Journal, like the people it writes for, does not trust the Russians. It puts its faith in the kind of peace through strength embodied in the missiles at Ellsworth Air Force Base just outside of town.

That's why I was struck to read today that the Rapid City Journal favors President Reagan's INF Treaty.

The Journal says the treaty "makes good sense." They call it "a tiny but significant first step."

Their editorial is tight. It is thoughtful. It repeatedly emphasizes the stiff verification provisions in the INF pact and argues that even the most ardent cold warriors cannot honestly claim the treaty will alter the existing balance of power.

In the shadow of Mount Rushmore, the tough-minded editors of the Rapid City, SD, Journal believe the INF Treaty is "worth a try."

I commend their superb editorial to my colleagues.

And I must add that, while this Senator intends to examine the INF proposal very carefully, he is hard pressed to imagine that Ronald Reagan and the editorial board of the Rapid City Journal have both bought a treaty that goes soft on the Communist.

[From the Rapid City Journal, Dec. 8, 1987]

MISSILE TREATY MAKES GOOD SENSE FOR U.S.

President Ronald Reagan is seeking support for the Intermediate Nuclear Force (INF) treaty with the Soviet Union. Americans should give him that support.

Reagan has said that the purpose for his military buildup is to reduce the risk of war. He cites the current willingness of the Soviets to sign INF as proof his policy is working.

The pact makes good sense.

The ban on short- and medium-range missiles in Europe may leave the West militarily weaker than the Soviet Bloc. But that changes nothing.

The Soviets already have stronger conventional forces in Europe than do the Allies. They also have a stronger nuclear force. The United States and NATO rely on the threat of nuclear retaliation to keep both those military forces at bay. There is no reason to suppose that will change with INF.

INF will remove only some nuclear warheads. Those remaining are quite sufficient for effective deterrence. Nothing will really change—except, possibly, the attitude that the number of warheads in existence must continually increase and nothing can be done to change that arms race.

INF is a tiny but significant first step. Under its terms, missiles and launchers will be destroyed within three years of the pact's ratification. The U.S. will remove 396 nuclear warheads from Europe. The Soviet Union will remove 1,595 warheads.

About 4,300 American nuclear warheads will remain in Europe. The nuclear forces of Great Britain and France will not lose a single warhead. About 7,500 warheads will remain in the Eastern Bloc.

Verification begins 60 days after Senate ratification of the treaty. It continues for 13 years, with each side allowed 20 snap inspections on nine-hours notice per year for the first three years. During the subsequent 10 years, each side gets 15 annual surprise inspections; for the last five years, 10 annual surprise inspections.

And if either side catches the other cheating, it can withdraw from the treaty. There is a handy escape clause for either side.

The treaty may lead to further reductions, or it may lead to further proof the Soviets can't be trusted. It won't significantly alter the balance-of-terror. The Soviets will not be tempted to attack West Germany or Italy. There is plenty of deterrent left on the shelf. Reagan and his team are not the kind of people to lightly trust the Soviets.

The treaty is worth a try. It poses little risk, and offers hope for—someday, far in the future—a meaningful decrease in the insane number of nuclear weapons in existence.●

A SPECIAL GENESEE COUNTY CHRISTMAS

● Mr. RIEGLE. Mr. President, I rise to pay tribute to the dedicated efforts of the Genesee County Third District Democratic Club, and the East Side Teen Center, as they prepare for their 1987 "Children's Christmas Party" on December 13.

This party has been the club's primary community project ever since they began in 1982. The budget for the party has grown from $1,300 in 1982, to over $5,000 this year, raised by a special bingo game held weekly at the club. Since 1982, over 2,500 children have enjoyed these parties.

Many of these children come from economically disadvantaged homes, and are referred to the club by community service groups and churches. The party is a chance for these children to share in the joy of the holiday season in a way they may have never known. Every child who attends the party receives a gift, and over $7,000 worth of gifts have been given since its inception.

I am pleased that the East Side Teen Center has become associated with the party this year. The teen center is a place that young people can call their own. It provides for a positive social atmosphere to mix with peers, as well as a variety of educational programs on important issues facing teens. I am encouraged by the sense of community that is forged by this party, which inspires teenagers to see the rewards of serving those less fortunate than themselves. These teenagers learn from the example set by the adults at the center and the third district club. They then set an example for the children at the party who look up to them.

Mr. President, I would like to commend the leadership of the Third District Democratic Club for their continuing efforts to provide a special day for some special kids. Let me also add my appreciation for the dedicated volunteers who have carried out the vision through the years. I expect they will keep up the good work, and take pride knowing the joy they are bringing the community.●

AMENDMENT TO DENY PAY RAISES TO SENIOR FEDERAL EMPLOYEES

● Mr. RUDMAN. Mr. President, the Senate last night completed action on H.R. 3545, the fiscal year 1988 budget reconciliation bill. Prior to passage of the bill, I was pleased to see the Senate adopt an amendment I offered which provided that all senior Federal employees, including Members of Congress, will not get a cost-of-living raise on January 1.

As proposed, the leadership amendment to the reconciliation bill denied the 2-percent raise to Members of Congress, but permitted it for other senior officials of the Federal Government. The effect of my amendment was to retain the historic linkage on pay between the branches and to conform the reconciliation bill to the House-passed and Senate Appropriations Committee-reported versions of the continuing resolution.

Mr. President, the traditional linkage in compensation for high-level positions in the three branches is no accident. On the contrary, it is a reflection of the philosophy that, since the three branches of Government are equal in power, their compensation should be considered equitably. These pay levels were recently brought back into parity as a result of the findings of the 1986 Commission on Executive, Legislative, and Judicial Salaries and the President's January recommendation which rectified pay imbalances reaching back to 1980. As the Commission stated in its December, 1986 report:

> The Founding Fathers intended Members of Congress to be equal to the other branches in status, prestige, ability and integrity. Setting Congress adrift on the pay issue is politically impractical and will not serve the national interest well. Therefore, we have concluded that parity between Level II (executives), Congress and judges on the Circuit Court is important and should be maintained.

The Commission's view on this issue is not shared by this Senator alone. In fact, when the Senate last considered separating congressional pay from the other branches on January 29, 1987, the Senate approved linkage by a vote of 66 to 27.

The adoption of my amendment served other important purposes. First, according to the Congressional Budget Office, the amendment would save about $8 million in fiscal year 1988. While this is a small amount, it still represents a saving. In addition, as previously noted, the adoption of my amendment conformed the reconciliation bill to the House position as well as that recommended by the Senate Appropriations Committee.

Mr. President, in conclusion, I would like to thank the floor managers of the reconciliation bill, the Senator from Florida and the Senator from New Mexico, as well as the chairman of the Governmental Affairs Committee for their cooperation on this amendment.●

TESTIMONY OF NORBERT McCRADY OF INDEPENDENT BANKERS OF MINNESOTA

● Mr. DURENBERGER. Mr. President, on Wednesday, December 9, 1987, my good friend Norb McCrady of the Independent Bankers of Minnesota, testified before the Senate Banking, Housing, and Urban Affairs Committee. The issue before the committee that day was S. 1886, the Financial Modernization Act of 1987.

This proposal, which provides for the reform of our Nation's banking system, is a very complicated issue. Although I do not endorse all of the concerns highlighted in Mr. McCrady's statement, I do believe that it is a thoughtful discussion of a complex issue and deserving of my colleagues attention. Therefore, Mr. President I ask that Mr. McCrady's statement be printed in the RECORD.

The statement follows:

TESTIMONY BY NORBERT MCCRADY, EXECUTIVE DIRECTOR FOR STATE AND NATIONAL AFFAIRS, INDEPENDENT BANKERS OF MINNESOTA

Mr. Chairman and Members of the Committee: My name is Norbert McCrady. I am Executive Director for State and National Affairs, Independent Bankers of Minnesota.

Today I am here to speak in opposition to the proposed repeal of Sections 20 and 32 of the Glass Steagall Act and to comment on the related issues before your committee. Until minutes before my departure for this hearing, Mr. Chairman, I was authorized to speak for the same four state independent bankers associations that met with you to discuss our opposition to your proposal nearly three months ago. At this point I am representing three of those four—they being North Dakota, South Dakota and Minnesota.

I don't enjoy appearing in opposition to a proposal put forth by you, Mr. Chairman, because we have always found you to be a champion of small business, including small banks, with regards to previous legislation.

We don't have such a short memory that we have forgotten the find support forthcoming from the Senate in enacting secondary market, debt amortization and loophole closing legislation. We appreciated the concern and support of Senate members then and we express that appreciation again at this time. Nonetheless, I appear before this committee today to state our strong and clearcut opposition to the proposed changes contemplated by your legislation, as well as the bill introduced by Senator Wirth and Senator Graham, and by Senators D'Amato and Cranston. One can hardly be accused of taking the path of least resistance under these circumstances.

Today, bankers throughout our nation have had the opportunity to hear the pros and cons of these proposals many times over. As a result, there are very few who have not made up their minds as to whether they are for it or against it.

The bankers we speak for here today are convinced this tampering with the Glass-Steagall Act would result in an acceleration of the already serious concentration threat. This would lead to more money being controlled by fewer banks and bank holding companies with the trend toward concentration being both hard to deny and impossible to reverse. Try as one may, there are virtually no beneficial offsets in these proposals that could be put to use in helping communities and community banks in their struggle for survival.

Inasmuch as the nation's money supply is considered to be finite, it stands to reason that as laws are changed permitting more banks to become bigger and bigger banks to become more powerful, the real losers are not only small and medium sized banks, but small and medium sized businesses, and farmers and main street merchants and the unorganized members of our society who are helpless to fight back.

We have all heard the assurances that we needn't worry about concentration. However, for several years now, we have seen merger, after merger, after merger, without objection by this Administration. The product of this merger activity has not been more jobs or profits. Rather it has been layoffs, shutdowns and the selling off of assets.

The airline industry is a prime example of the deregulated industry that was to have stimulated competition and avoided concentration. But today, after a spate of mergers, that industry is greatly more concentrated than it was before deregulation and virtual monopolies dominate most airports.

Realistically, Mr. Chairman and members of the committee, there is not going to be any "opening of the gate" for the banks that have their eyes on the securities industry without that "gate" staying open until the securities industry collects a trophy of equal rank from the banking industry.

We already have a problem in the lesser populated communities and in the rural sector of our nation as the result of the mass exodus from those parts of the nation by our largest regional and money center banks. Like a giant yo-yo, these visitors from metropolia come and they go. They come when the going is good and they go when the going gets tough. To some, that may sound like "good business." To the many communities that have suffered that indignity during this most recent economic downturn, it stinks. When the big sprawling giants pull out, it isn't as though the situation is all that inviting for a new bank to start up de novo. Remember how history repeats itself. About the time the economy begins to recover and the new bank is just getting on its feet, in comes the big bank once more, to undercut the business relationships between the new bank and its best customers. Distant boardroom policies never vary to any great degree: "Go after the good loan business and leave the rest for the local lenders." This of course spells trouble for local lenders and ultimately for the community.

Earlier testimony made it sound as though this legislation would benefit small banks if "they thought hard enough." Let me identify what we call a small bank out in the midwest. The average size of our member banks in Minnesota is $19 million. They serve communities that are a vital part of our broad and diverse society. There are several thousand such banks throughout the Midwest and as others have testified before me, it will take more than powers to solve their problems.

Profitability of small banks is greatly affected by the management of the economy by those in charge of our government. Today our banks have been hard hit by a farm depression and an energy depression. I think we can place a fair share of the cause of these depressions on Government policies that didn't work.

Despite this, our bankers believe they can continue to provide the banking services that our customers need if Congress deals with problems cause by the automobile industry for instance that advertises 2.9 percent financing while they are paying 7 percent, or more, for those funds.

Mr. Chairman, if there is any 2.9 percent money out there, the Federal government should be the first in line to borrow all they can get their hands on to service our national debt.

Further damage to small banks is caused when thrift institutions pay deposit rates well in excess of what safety and soundness considerations would permit. This leads to imprudent loan decisions and I need not tell you the condition this has resulted in for that industry. Thrift industry regulators have not dealt firmly with these practices and the distortion of interest yields and of loan rates has caused havoc throughout the financial institutions industry.

Yesterday's American Banker reports an example of the kind of pressures facing independent banks—the Chicago price and premium wars.

These institutions are paying more to attract deposits than they can justify on the basis of what they can hope to earn in their local marketplace.

Regulators need a legislative directive from Congress to assure that stability of the banking system is not threatened by allowing such pricing practices being indulged in by auto giants and banking giants and the thrift industry.

Financial giants that engage in other lines of business to push the small banks out of business deserve a penalty; not a reward.

Facts and figures show that our small businesses in this country support creativity and innovation and provide the working capital that keep our economy growing. A vast majority of the new jobs created each year are jobs in the small business sector. Small business is largely financed by small community banks.

When lending decisions are made at a distance, by money center or regional banks, small businesses are greatly disadvantaged. We work closely with small businesses in Minnesota and they are not clamoring for the right to have banks issue commercial paper. They continue to need traditional banking services; working capital loans, short term financings. In those instances where it makes economic sense to go public, there are underwriters ready to provide that sevice. The proliferation of banks or bank-like offices that would result from securities industry banking would be devastating to the small banks of this nation.

The remedy for these problems is not dealt with by this legislation. Repeal of Glass-Steagall would intensify the problems, not resolve them.

Congress has heard testimony from a number of people who admit that obtaining new powers isn't really going to help solve the profitability problems of the large banks. The commercial paper market operates on paper thin margins which means that banks cannot seriously look to that activity as a means of replacing lost profits. Chairman Greenspan appears to concur with that opinion in his testimony.

Let me say that if this legislation is not going to solve the problems of the large banks, it certainly will not help small banks. And it is a matter of urgency that find remedies that will enable small banks to continue in their important community role.

I have reviewed the testimony given by the consumer organizations before the House Banking Committee. They fail to see where any benefits for consumers will result from the repeal of Glass-Steagall. Data from the seven county metropolitan area in Minnesota will bear them out. At the end of 1982, Minnesota regional giants, First Bank and Norwest, booked consumer loans for only 22 and 26 percent, respectively, of total loans. In contrast, independent banks, with total lending of about the same magnitide as Norwest banks ($3.7 billion), had 53% in consumer loans. Independent banks are highly responsive to consumer needs.

I fail to experience shock or even surprise over the fact that all the Federal regulators agree that Glass-Steagall should be repealed. It would be naive to expect anything different of these appointees of the present Administration. The creation of megabanks and the drastic reduction in the number of small banks is the policy that became operative when this Administration took office and nothing has changed.

The three proposals on your table do nothing to help small banks survive. In essence what these bills will do, in varying degrees, is to bring back under a different guise, the nonbank bank. We have consistently opposed nonbank banks. We thought we had put them to rest with the enactment of H.R. 27.

Earlier testimony before this committee made it sound as though the position of the IBAA and the proponents of the Glass-Steagall repeal were only inches apart. This is absolutely not the position of our members, let me assure you. Earlier this year when the suggestion was made that powers should be expanded to permit bank holding companies to engage in the sale of municipal revenue bonds, mortgage backed securities, commercial paper and mutual funds, we found that there was some, but not much, interest among our members in Minnesota. I think our situation was quite typical of most other states. We were able to go on record in support of these proposed expansion measures, however, because there was also no great expression of opposition. Closing the nonbank bank loophole was the most important factor in the legislative proposal before Congress at the time.

Now, as the question becomes that of repealing Glass-Steagall, a very vocal body of opposition has developed and those who would have you believe otherwise are either badly informed or are purposely ignoring the viewpoints of those who disagree with them.

While this may sound selfish or trite—or both—we who represent the smaller, independent, community banks would like it to be known that "we weren't born yesterday" and furthermore, we are intent on fighting to make certain we aren't dead tomorrow.

There are things in this legislative proposal that might, under some circumstances, be used by a limited number of our members. None would carry sufficient weight to merit any substantial tradeoffs. Certainly there is going to be no acquiescence on the proposed repeal of Glass-Steagall. We stand ready to carry out the expansion of powers as originally set forth in S. 790. Any legislation that goes beyond that will meet our firm opposition.

I thank you, Mr. Chairman and members of the committee for this opportunity to address the committee.●

● Mr. DECONCINI. Mr. President, in Bangladesh there is a bank which does not donate or give away money to poor families, does not adhere to the traditional rules of banking and international lending, and does not ignore women. Conversely, this bank lends money and charges interest at a commercial rate, it loans on an average of $60, and it concentrates on women, which is rare in an Islamic society. The Grameen Bank insists that the borrowers use the money to generate income. Despite the conventional wisdom, the Grameen Bank has one of the lowest loan default rates in the world and there are a number of organizations hoping to emulate them around the world.

This Grameen Bank concept should be supported and implemented around the world. That does not mean it will work in exactly the same form everywhere, but the idea should be applied and given a chance. Eight months ago, I introduced a bill entitled the Micro Enterprise Loans for the Poor Act with six Democratic and Republican colleagues. This act has been based on the Grameen Bank and provides $50 million in current funds for loans to the poor. Currently, this act has been successfully attached to the foreign operations appropriations bill and has 56 cosponsors.

Mr. President, I am hopeful and optimistic that this legislation will soon be signed by the President. This will provide a historic opportunity for truly poor people around the world to transform their own lives. If this passes, they will have the resources. I hope my colleagues will carefully monitor the progress of microenterprise loans, for it is an idea that is growing within the United States. An article written in the Los Angeles Times points out some of the highlights of the Grameen Bank and I recommend it to my colleagues.

Mr. President, I ask that a copy of this article be included in the RECORD.

The article follows:

BANGLADESH: A BANK JUST FOR THE POOR

(By Rone Tempest)

JAGIR MEGH SHIMUL, BANGLADESH.—Tota Bibi stood triumphantly in the doorway of her new home.

Like most village houses in Bangladesh, it had a mud floor. But its walls were much more substantial—planks of wood instead of woven reeds, reinforced concrete pillars instead of bamboo poles.

And the crowning glory, the joy of Tota Bibi and the pride of this tiny village in one of the poorest countries in the world, was the roof—corrugated metal that the rains could never penetrate and the winds could never move.

SYMBOL OF RICH

In Bangladesh, such a roof has always been the symbol of the rich families, the money lenders and the *zamindar*—landlords. Now it belonged to an almost giddy Tota Bibi, a 50-year-old widow from the poorest, landless class of Bangladesh society.

"My father, my grandfather, all of my forefathers, no one ever lived under an iron roof," she said. Tota Bibi, whose name in the Bengali language means "parrot," paid for the new home herself with a loan from the local branch of a bank that may be part of the most successful development project in the Third World.

The Grameen (meaning "rural" or "countryside") Bank breaks many rules of banking and international development. Yet it has one of the lowest loan default rates in the world and already has imitators in more than a dozen countries, including the United States, where Grameen-inspired programs are being tested in Arkansas, the south side of Chicago and among the Cherokee Indians of Oklahoma.

ROLES CHALLENGED

In Bangladesh, the Grameen also challenges the traditional role of women in an Islamic society and the vestiges of the feudal landowning system.

Its customers—more than 310,000 Bangladesh families already, with an additional 8,000 families joining each month—are all from the poorest economic stratum: landless rural peasants. Nearly 80% are women. Most are illiterate. City dwellers and families with substantial property are not accepted as bank member-customers.

The bank does not donate money to the poor families. It lends them money and charges interest at commercial rates. The average loan is the equivalent of about $60, the smallest about $1.

The bank's only lending rule (except for housing loans) is that the borrowers use the money to generate income. So far, these loans have financed such diverse occupations as making Popsicle sticks from bamboo strips, manufacturing musical instruments from conch shells, processing animal entrails and brewing perfume.

More typical loans are for dairy cows, honey bees, chickens, barber shop equipment and rickshaws.

Ali Azam, 30, has been a member of the Grameen Bank for two years in the Dhakuli area 37 miles northwest of Dhaka, the capital. Azam is a bicycle rickshaw driver. His first loan was for 3,000 takas ($90) to buy his own rickshaw.

Previously, he had leased one of the three-wheeled vehicles from a fleet owner for about 14 takas (42 cents) a day, about half of his expected daily earnings. But now he has used his earnings to pay off the loan in a matter of months.

His second loan was for $120 to buy a milk cow. The cow gave nearly nine pounds of milk a day, and he sold the milk to pay off the loan.

SELLING FOR SACRIFICE

The cow has calved twice. He plans to sell the bull calves for sacrifice during the annual *kurbani* religious festival in July when they will bring the best price.

Meanwhile, he took a third loan from the Grameen Bank to buy a small parcel of land on which he plans to build a house with a corrugated iron roof like Tota Bibi's in nearby Jagir Megh Shimul. He has already used some of his savings in the bank to buy wood for the house. For the concrete pillars and roof he will borrow 7,000 takas ($212).

Two years ago, Azam and his wife and their two children lived with her parents. Now he has his own land. In two years, he has gone from a man with no property to one who owns a rickshaw, a cow, two calves, four chickens and three goats.

Doing a little rough calculation at the side of the road on a recent afternoon, with two passengers patiently waiting in the rickshaw, Azam figured his estate is now worth about 17,000 takas, about $520.

The annual per capita income in Bangladesh is only $140.

"Before the bank I could not save anything," Azam said. "Whatever I earned I spent almost all on food and daily needs."

Mohammed Kalam Azad, 28, manages the Dhakuli branch of the Grameen Bank where Azam got his loans. "Before I started working at the bank," he said, "I did not realize poverty in all its dimensions. These are good people, hard-working people who could not transform their lives because they did not have resources. If they have resources, these people can change their lives in the shortest amount of time."

4,000 ON PAYROLL

Perhaps the most remarkable aspect of the Grameen banking operation—which has grown in just five years to more than 360 branches serving 6,000 villages—is that for all its loans to some of the poorest people on earth, the bank has a default rate of less than 2%.

In other words, 98% of the loans are repaid in full and on time. Such a low default rate is unheard of in banking. Chase Manhattan and Bank of America would love to have similar rates.

The bank, incorporated in 1982, now lends $2 million a month to its customers, meets a payroll of 4,000 employees paid at standard civil service rates and makes a profit.

The Grameen Bank provides a stunning contrast to the experiences of the large international banks that have done business in Bangladesh. Two of these institutions, the World Bank and the Asian Development Bank, have lent more than $500 million to businesses through government banks.

Only about 10% has been paid back, and consultants and middlemen have become rich through corruption in government that some assert is unrivaled except for Africa.

The Grameen Bank has received $37 million in loans from the International Fund for Agricultural Development, a U.N. agency based in Rome, and from Norwegian and Swedish aide agencies. The Ford Foundation has made a small grant to help computerize its central records.

The bank has repaid the $37 million loan and has been approved for another $125 million from the International Fund for Agricultural Development.

"We borrow the money at 2% and loan it out at 16%, said Grameen Bank managing director and founder Mohammed Yunus.

The bank has generally been critical of big aid projects and foreign consultants. The Grameen Bank remains one of the few development projects in the Third World that has never had foreign consultants.

"Consultants are the creation of aid bureaucracy," Yunus wrote in an article for the Washington Quarterly. "The assumption behind consultants is that the recipient countries need to be guided in every step."

NEW PLANS FOR AID

Yunus and other Grameen officials contend that aid programs to poor countries such as Bangladesh should be redirected, away from the big-ticket projects like dams and industrial development to programs for the bottom half of society.

The old system of aid, argued Yunus, who has a Ph.D in economics from Vanderbilt University in Nashville, Tenn., "was designed years ago when it was believed that a magic quantum of investment would generate enough economic activities to eliminate hunger and poverty."

Similarly, several huge foreign aid schemes—fertilizer plants, fisheries developments and rural development projects—have faltered or failed with enormous waste.

Bangladesh—100 million people crammed into a country the size of Wisconsin—has received billions of dollars in foreign aid since winning independence from Pakistan in 1971. Its future once looked so bleak that former Secretary of State Henry A. Kissinger termed it "an international basket case" that would forever be dependent on foreign help.

Indeed, Bangladesh this year will receive $2 billion in foreign assistance, mainly from Japan, West Germany, Canada, the United States and the Scandinavian countries. The aid accounts for 40% of the government's income and 80% of its development budget.

Yet like some giant black hole of poverty, the country has absorbed the aid with very little improvement in the lives of most of its citizens.

In recent years, Bangladesh has had an annual growth rate of about 4%, improving the lives of residents of the capital and winning praise from some international organizations such as the World Bank.

But little of the gains appear to have trickled down to the poor. In fact, there is evidence that the standard of living for the lower half of the population may actually be falling. The three main measures of poverty—infant mortality, literacy and caloric intake—have all shown negative trends. A recent Canadian report said infant mortality had increased from 101 deaths per 1,000 births in 1980 to more than 121 in 1985.

The Grameen Bank is a bright spot in this otherwise gloomy picture, and it may bring about a change in poverty assistance elsewhere.

Similar programs are being developed in Malaysia, Indonesia, Rwanda, Kenya, Sri Lanka, Pakistan, Egypt and, perhaps most surprisingly, the United States. The two most advanced U.S. projects are the neighborhood South Shore Bank in Chicago and the new "good faith fund" in rural Arkansas. Other Grameen-style programs have been introduced in Minnesota and among the Cherokee Indians of Talequah, Okla.

"The Grameen Bank is a case of reverse technology transfer," said Tom Kissinger, an official with the Ford Foundation in New Delhi, Bangladesh, he said, is teaching the developed world how to combat poverty using Western-style economic incentives.

The Grameen Bank model works with peer pressure and support. Borrowers must first assemble 50 people from different families to form a "center" in their town or village. (In Bangladesh, the centers are divided by gender into "landless male" and "landless female" categories).

The centers are divided into 10 groups of five borrowers each. The groups first discuss loans and ideas for making money. Then the two poorest borrowers are given the first loans. Only when those loans are repaid do the second set of two borrowers get loans. When those loans are repaid the fifth member of the group gets his or her loan.

The system fosters remarkable solidarity and a sense a community. The weekly meetings are part banking and part rally. Members greet each other on the roads of Bangladesh with crisp military-style salutes instead of the obsequious bows—the *salams*—that were the traditional greetings here.

"The salute was started by one of our bank managers who decided people had been salaaming too long in Bangladesh," said Mozammel Haq, a University of Michigan graduate who is national director of training for Grameen Bank. "He told the people not to bow but to look him straight in the eye and salute. At the same time it is a way for the people to make fun of the military by showing anyone can salute."

Rahela Begum is the center chief for the village of Jagir Megh Shimul. Since her center began two years ago, there has not been one default or late payment on a loan.

She said that during that time six families had troubles when, for example, the cow they had purchased stopped giving milk or someone in the family fell ill or their property was damaged in a flood. But the Grameen Bank centers have emergency funds for such crises and in each case other members were able to chip in until the members with problems got back on their feet.

This self-sufficiency has begun to make radical social changes in the areas where the Grameen Bank operates. (It has been given permission by the government to operate in five of the country's 20 districts.) Compared to a national growth rate of 4%, the collective incomes of Grameen Bank members have increased by more than 30%, according to Yunus.

Significantly, Grameen Bank members are no longer tied like serfs to village landlords and money lenders. Traditionally, the wealthier members of a community could expect to hire landless peasants to do their household chores for a bowl of rice.

Now, said Mozammel Haq, they are having difficulty finding domestic servants and have begun to complain that field workers' wages have increased as a result of the bank. In addition, the well-to-do have lost the role of benefactor in times of need that earned them respect in the community.

"Before the bank," said Rahela Begum, "I had to go to the rich people for help. I borrowed money from the asgar [money lender] when the children were sick. Now I don't have to go to these people, and that is the main difference."

Left unsaid by the tiny, tough, smiling woman (who drew the edge of her sari across her face when she laughed) was that the bank has elevated women like her to prominence in the community. Because she is center chief in the village, she enjoys status at least equal to that of a male elder.

She smiled at the memory of how she told the elders of her plans to form a female bank center in the community. At first they objected, saying that borrowing and handling money was not something for a woman in an Islamic country.

"Then I said OK—you lend us money at 16% interest," she recalled. The elders decided the female bank center was a good idea after all.

From the beginning, the bank has concentrated on women as borrowers, arguing that their interest in family stability is greater than that of males.

"A man gets money," said Mozammel Haq, "and he tends to show off. A woman contributes to the security of the family."

The first recipient of a loan from what eventually became Grameen Bank was a woman.

In 1976, Mohammed Yunus was a professor at Chittagong University in southeast Bangladesh. A woman named Sophia Khatoon came to him for help in getting a small bank loan.

The woman made small stools from bamboo, and was dependent on dealers for the bamboo. This meant that she was forced to sell to the dealer for almost any price he set. She wanted to buy her own bamboo and sell her stools to the person who would pay the most. For this she needed 50 thakas, about $2.

Yunus and a student went to her small village, and made a list of 42 village women who were self-employed in some craft and needed a small amount of money to supply themselves.

The total amount needed was only $28, but when Yunus went to the bank, "they laughed at me," he said. So he paid the money himself and vowed to create a permanent source of money for poor people such as Sophia Khatoon.

"I was trying to find out why people could not change their lives," Yunus said. "I got fed up. I decided people should found their own economies."

Although he faced opposition and even ridicule from bankers and government development workers, Yunus pushed his program, first as the "Grameen Bank project" and, finally, in 1983, as an independent bank.

Since then, the bank has branched out into some larger efforts such as community, cooperative rice mills. In one case, it took over a Dutch-funded fisheries project that had been a dismal failure and turned it around.

The goal, said Mozammel Haq, is to reach a point where the bank is adding 30,000 new members a month by 1992.

It is not difficult to see that such growth, coupled with the community development, could easily lead to broader political changes in Bangladesh.

"[It is] one of the most significant development initiatives for social justice taking place in the world today," two Norwegian researchers said of the bank.

Indeed, a visit to the Grameen Bank district reveals much more than banking. The small offices are jammed with polyvinyl chloride pipes for clean water projects, vegetable seed packets for kitchen garden and nutrition projects, iron rods for reinforced concrete pillars used in new homes.

Every meeting of Grameen Bank members includes the reading of "the 16 decisions." All members are encouraged to memorize the 16 decisions like passages from the Koran. Recitation contests are held.

The decisions apply to all members and cover sensitive topics such as birth control—"We shall plan to keep our families small"—and marriage—"We shall not take dowry for our sons' weddings. We shall keep the center free from the curse of dowry. We shall not practice child marriage."

They also deal with more mundane subjects such as sanitation—"We shall build and use pit latrines"—and nutrition—"We shall grow vegetables all year round. We shall eat plenty and sell the surplus."

But the bottom line of the 16 decisions and the Grameen Bank is pride. At its heart, the Grameen plan is to restore pride to some of the poorest people on Earth. "Discipline, unity, courage and hard work. We shall follow and advance in all walks of our lives," are the four "principles" of the Grameen Bank outlined in the first of the 16 decisions.

The renewed pride of the Bangladesh poor is palpable in Grameen villages. It was reflected in Tota Bibi when she showed off her new home here with the corrugated iron roof.

Her old hut, she said, "was not worth 10 takas." When her new home was finished, she dismantled the bamboo-and-reed structure and broke it into small pieces.

"We shall not live in dilapidated houses," says No. 3 of the 16 decisions.

Then, Tota Bibi said, with the obvious satisfaction of someone discarding the remnants of an unhappy life, "I took the pieces, set them on fire and used them to cook my rice."●

FEDERAL EMPLOYEE MORALE

● Mr. INOUYE. Mr. President, this year I returned as chairman of the Subcommittee on Foreign Operations, Committee on Appropriations. I have been concerned with the effect of budget reductions on the morale and welfare of U.S. Government employees who serve overseas. Therefore, I want to insert this letter in the RECORD.

The letter follows:

CHAIRMAN'S LETTER TO FEDERAL EMPLOYEES

I have served on the Foreign Operations Subcommittee of the Committee on Appropriations for over 16 years. I am privileged to once again serve as chairman of this important subcommittee this year. As chairman, I understand fully the problems created for programs and personnel as a result of reduced funding for the International Affairs budget category.

Budget realities resulting from the Federal deficit have meant that we have had to cut many important programs over the past several years. In making these reductions, however, I have consistently tried to keep in mind how they affect Federal personnel serving in the agencies concerned.

I am acutely aware that there are many dedicated employees in the Federal Government carrying out programs for which funds are appropriated in this bill. From Peace Corps volunteers living in primitive environments, to AID personnel stationed in countries where you and your families are daily subjected to harsh climate, unsanitary living conditions, or terrorist threats, to military personnel carrying out security assistance programs in a politically unstable world, you are individuals who are daily struggling with the harsh realities of life in developing countries.

I recognize that budget reductions cannot help but have an adverse impact on employee morale. But I want you to know that we have worked hard to preserve the institutions in which you serve. I and other members of this subcommittee believe that those of you who are carrying out our foreign assistance programs, particularly those of you who serve overseas, are engaged in an important mission on behalf of the American people and the Government of the United States. You may be assured that your work does not go unappreciated by those of us in Congress responsible for overseeing funding for your programs, even though we may not be able to fund all programs at the level they deserved.

Respectfully,

DANIEL K. INOUYE,
Chairman, Foreign Operations Appropriations Subcommittee.●

OMNIBUS BUDGET RECONCILIATION ACT OF 1987

(Yesterday, December 11, 1987, the Senate passed H.R. 3545, the Omnibus Budget Reconciliation Act of 1987, as amended by S. 1920, as amended. The text of the bill, as amended, as passed by the Senate follows:)

H.R. 3545

Resolved, That the bill from the House of Representatives (H.R. 3545) entitled "An Act to provide for reconciliation pursuant to section 4 of the concurrent resolution on the budget for the fiscal year 1988", do pass with the following amendment:

Strike out all after the enacting clause and insert:

TITLE I—SHORT TITLE

SEC. 1001. SHORT TITLE.

This Act may be cited as the "Omnibus Budget Reconciliation Act of 1987".

TITLE II—COMMITTEE ON ENERGY AND NATURAL RESOURCES

Subtitle A—Nuclear Waste

SEC. 2001. That this subtitle may be cited as the "Nuclear Waste Policy Act Amendments Act of 1987".

PROGRAM REDIRECTION

SEC. 2002. The Nuclear Waste Policy Act of 1982 is amended at the end by adding a new title IV to read as follows:

"TITLE IV—PROGRAM REDIRECTION

"FINDINGS, PURPOSE AND DEFINITIONS

"SEC. 401. FINDINGS.—(a) Congress finds that—

"(1) redirection of the program under titles I and II of this Act to provide for the sequential characterization of repository sites and the construction of a monitored retrievable storage facility as part of an integrated nuclear waste management system will result in significant Federal budget savings in fiscal years 1988, 1989, and 1990;

"(2) such a redirection is required if the Secretary of Energy is to carry out in a timely fashion his responsibility under this Act to provide for the permanent disposal of spent nuclear fuel and high-level radioactive waste in a manner that protects the public health and safety and the environment; and

"(3) it is appropriate that the Federal Government provide payments to Indian tribes, States and affected units of local government within whose reservation or jurisdiction, as the case may be, a repository or monitored retrievable storage facility will be cited under this title.

"(b) PURPOSE.—It is the purpose of this title to—

"(1) direct the Secretary of Energy to select a single site that is suitable for characterization for the first repository and to proceed with characterization of that site;

"(2) direct the Secretary to proceed with the construction of a monitored retrievable storage facility as part of an integrated nuclear waste management system; and

"(3) provide for benefits payments from the Waste Fund to any Indian tribe, State or unit of local government within whose reservation or jurisdiction, as the case may be, a repository or a monitored retrievable storage facility may be sited under this title.

"(c) DEFINITION.—For the purposes of this title the term 'affected unit of local government' means the unit of local government with jurisdiction over the site of a repository or a monitored retrievable storage facility. Such term may, at the discretion of the Secretary, include units of local government that are contiguous with such unit.

"FIRST REPOSITORY SITE CHARACTERIZATION

"SEC. 402. (a)(1) On or before January 1, 1989, the Secretary shall select as the preferred site for the first repository one of the sites previously selected for characterization as candidate sites for the first repository that the Secretary determines on the basis of available information to be the most suitable for characterization as a repository. In selecting the preferred site under this subsection, the Secretary shall give primary consideration to—

"(A) prospects for successfully licensing a repository at such site;

"(B) potentially disqualifying factors at the site;

"(C) potentially adverse impacts on the public health and safety and the environment of locating a repository at such site; and

"(D) the estimated cost of characterization, development and operation of a repository at such site.

"(2) In the period between the date of the enactment of this section and January 1, 1989, the Secretary shall carry out at the sites previously selected for characterization as candidate sites for the first repository such activities as the Secretary determines would provide information useful in making the selection required under this subsection, including information on potentially disqualifying factors, except that the Secretary shall not initiate construction of an exploratory shaft facility until such time as a preferred site is selected under this subsection.

"(b)(1) Effective on the date of selection of a preferred site for the first repository under subsection (a), the Secretary shall take all those actions required or contemplated under this Act to assure that a repository will be constructed and operated at such site at the earliest practicable date.

"(2) Effective on such date of selection of a preferred site, the Secretary shall suspend work at other sites selected for characterization as candidate sites for the first repository.

"(c) If the Secretary determines that the preferred site for the first repository selected under subsection (a) is not suitable for a repository, the Secretary shall—

"(1) immediately notify interested States and Indian tribes and Congress of such determination;

"(2) suspend all future benefits payments under this title with respect to such site; and

"(3) within 6 months after such determination select a new site as the preferred site for the first repository from the sites remaining of those considered under subsection (a).

"(d) Effective on the date of selection under this section of any site as the preferred site for the first repository, the State in which the site is located shall be eligible to enter into a benefits agreement with the Secretary under section 404.

"(e)(1) Any decision by the Secretary under subsection (a), paragraph (b)(2), or subsection (c) shall be in writing, shall be available to Congress and the public, and is not subject to judicial review except as provided in this subsection.

"(2) Any action for review of a decision by the Secretary may only be brought within 30 days after public notice of the decision.

"(3) The Temporary Emergency Court of Appeals shall have exclusive jurisdiction to review any action brought under this subsection. In reviewing any such action the court shall render its decision within 60 days from the date that the action is filed unless the court determines good cause exists for an extension. In such case the court may extend the time for its decision by not more than 30 days, and such extension may be renewed no more than 2 times.

"(4) In review of any decision under this subsection, the scope of review shall be governed by the provisions of section 706 of title 5 of the United States Code, except that subparagraphs (E) and (F) of paragraph (2) of such section 706 shall not apply.

"(5) Any person entitled to judicial review under the provisions of section 702 of title 5 of the United States Code may bring an action under this subsection.

"(f)(1) The decision of the Secretary to select a preferred site for a first repository under subsection (a) shall include a detailed statement of the basis for such decision and shall be accompanied by an environmental evaluation, as required herein. The environmental evaluation shall include—

"(A) a detailed analysis by the Secretary of the criteria required to be considered under subsection (a);

"(B) a comparative evaluation of the preferred site with the other sites previously selected for characterization as candidate sites for the first repository;

"(C) a description of the decision process by which the preferred site was selected; and

"(D) a summary of, and response to, comment received.

"(2) Before preparing the environmental evaluation, the Secretary shall—

"(A) solicit the comments of the National Academy of Sciences; and

"(B) provide an opportunity for comment by the public.

"(3) For a period of 2 years after the selection of a preferred site under this section the Secretary shall preserve all writings, records of meetings, draft reports and studies, and other documents and recordings prepared by or for employees of the Department of Energy or by or for persons under contract to such Department, relating to the selection of such preferred site and the completion of the environmental evaluation with respect to such selection. Subject to existing law, the Secretary shall make these documents available for inspection by any person requesting to review the documents, at a reasonable time and place. The Secretary shall provide for the photocopying of any such documents at a reasonable fee.

"(g) Nothing in this section affects judicial review of actions of the Secretary, the President, or the Commission taken under titles I or III prior to or subsequent to a decision of the Secretary under subsection (a), paragraph (b)(2), or subsection (c).

"(h) Within 1 year after the selection of any site as a preferred site for the first repository under subsection (a), the Secretary shall report to Congress on the potential impacts of locating a repository at such site, including the recommendations of the Secretary for mitigation of such impacts and a statement of which impacts should be dealt with by the Federal Government, which should be dealt with by the State with State resources, including the benefits payments under section 404, and which should be a joint Federal-State responsibility. The report under this subsection shall include the analysis of the Secretary of the authorities available to mitigate these impacts and the appropriate sources of funds for such mitigation. Potential impacts to be addressed in the report under this subsection shall include impacts on—

"(1) education, including facilities and personnel for elementary and secondary schools, community colleges, vocational and technical schools and universities;

"(2) public health, including the facilities and personnel for treatment and distribution of water, the treatment of sewage, the control of pests and the disposal of solid waste;

"(3) law enforcement, including facilities and personnel for the courts, police and sheriff's departments, district attorneys and public defenders and prisons;

"(4) fire protection, including personnel, the construction of fire stations and the acquisition of equipment;

"(5) medical care, including emergency services and hospitals;

"(6) cultural and recreational needs, including facilities and personnel for libraries and museums and the acquisition and expansion of parks;

"(7) distribution of public lands to allow for the timely expansion of existing or creation of new communities and the construction of necessary residential and commercial facilities;

"(8) vocational training and employment services;

"(9) social services, including public assistance programs, vocational and physical rehabilitation programs, mental health services and programs relating to the abuse of alcohol and controlled substances;

"(10) transportation, including any roads, terminals, airports, bridges or railways associated with the facility and the repair and maintenance of roads, terminals, airports, bridges or railways damaged as a result of the construction, operation and closure of the facility;

"(11) equipment and training for State and local personnel in the management of accidents involving high-level radioactive waste;

"(12) availability of energy;

"(13) tourism and economic development, including the potential loss of revenue and future economic growth; and

"(14) other needs of the State and local governments that would not have arisen but for the characterization of the site and the construction, operation and eventual closure of the facility.

"(i)(1) The Secretary, or his designee, shall value land for leasehold or ownership title for purposes of site characterization and repository development in a manner that, in the opinion of the Secretary or such designee, addresses the unique geophysical attributes causing such land to be selected as a candidate site for deep geologic disposal for high-level radioactive waste and spent nuclear fuel.

"(2)(A) The Secretary, in acquiring private land for site characterization and repository development under this Act, shall, to the extent practicable—

"(i) acquire such private land only after a site characterization plan has been issued under section 113; and

"(ii) minimize the disruption of private use of lands in the vicinity of those acquired.

"(B) Nothing in subparagraph (A) affects the authority of the Secretary to secure a leasehold interest, easement, or right of way that the Secretary determines is necessary to carry out the purposes of subsection (a)(2).

"(3) The Secretary shall offer any landowner, or his heirs, first right to repurchase any land previously secured from such landowner for site characterization or repository development, should the site found unsuitable, and after the site has been fully reclaimed as required under section 113.

"SITING OF MONITORED RETRIEVABLE STORAGE FACILITIES

"SEC. 403. (a) The proposal of the Secretary (EC-1022, 100th Congress) to locate a monitored retrievable storage facility at a site on the Clinch River in the Roane County portion of Oak Ridge, Tennessee, with alternative sites on the Oak Ridge Reservation of the Department of Energy and on the former site of a proposed nuclear powerplant in Hartsville, Tennessee, is hereby annulled and revoked. In carrying out the provisions of this section the Secretary shall make no presumption or preference to such sites by reason of their previous selection.

"(b) During the period between the date of the enactment of this section and January 1, 1989, the Secretary shall conduct a survey and evaluation of three potentially suitable sites in not less than 2 States for a monitored retrievable storage facility. In conducting such survey and evaluation, the Secretary shall consider the extent to which siting a monitored retrievable storage facility at each site surveyed would—

"(1) enhance the reliability and flexibility of the system for the disposal of spent nuclear fuel and high-level radioactive waste established under this Act;

"(2) minimize the impacts of transportation and handling of such fuel and waste;

"(3) provide for public confidence in the ability of such system to safely dispose of the fuel and waste;

"(4) impose minimal adverse effects on the local community and the local environment;

"(5) provide a high probability that the facility will meet applicable environmental, health, and safety requirements in a timely fashion; and

"(6) provide such other benefits to the system for the disposal of spent nuclear fuel and high-level radioactive waste as the Secretary deems appropriate.

"(c)(1) The Secretary may, on or before January 1, 1989, select as the site for a monitored retrievable storage facility any site that—

"(A) the Secretary determines to be suitable for a monitored retrievable storage facility; and

"(B)(i) is located in a State where the Governor and the legislature of such State request in writing such selection; or

"(ii) is located on the reservation of an Indian tribe where the governing body of such tribe requests in writing such selection.

"(2) The Secretary may make grants to any State, Indian tribe or unit of local government to support an assessment of the feasibility of siting a monitored retrievable storage facility under this section at a site under the jurisdiction of such State, tribe, or government.

"(3) The Secretary shall make every reasonable effort making use of authority under this title and under other law to encourage requests and to secure a site under this subsection.

"(d)(1) If the Secretary selects a site for a monitored retrievable storage facility under subsection (c), the Secretary, consistent with section 141, shall construct and operate such facility as part of an integrated nuclear waste management system and in accordance with applicable agreements under this Act affecting such facility.

"(2) Except as provided in subsection (e), if the Secretary does not select a site under subsection (c), the Secretary, not earlier than January 1, 1989, but not later than October 1, 1989, shall select the site evaluated under subsection (b) that the Secretary determines on the basis of available information to be the most suitable for a monitored retrievable storage facility that is an integral part of the system for the disposal of spent nuclear fuel and high-level radioactive waste established under this Act. The Secretary shall promptly notify Congress and the appropriate State or Indian tribe of the selection under this paragraph. Such notification shall be accompanied by a report setting forth the Secretary's reasons for selecting the site.

"(e)(1) The selection of a site under subsection (d)(2) shall be effective at the end of the 60-day period beginning on the date of notification under such subsection, unless the governing body of the Indian tribe on whose reservation such site is located, or, if the site is not a reservation, the Governor and the legislature of the State in which the site is located, has submitted to Congress a notice of disapproval with respect to such site. If any such notice of disapproval has been submitted under this subsection, the selection of the site under subsection (d)(2) shall not be effective except as provided under subsection 115(c).

"(2) For purposes of carrying out the provisions of this subsection, references in section 115(c) to a repository shall be considered to refer to a monitored retrievable storage facility and references to a notice of disapproval of a repository site designation under subsection 116(b) or 118(a) shall be considered to refer to a notice of disapproval under this section.

"(3) Once the selection of a site for a monitored retrievable storage facility is effective under this subsection, the Secretary, consistent with section 141, shall construct and operate such facility as part of an integrated nuclear waste management system and in accordance with applicable agreements under this Act affecting such facility.

"(f)(1) The Secretary shall study the need for and feasibility of 1 or more monitored retrievable storage facilities in addition to the facility authorized in this section. Such study shall examine the desirability of collocating the site of a monitored retrievable storage facility for spent nuclear fuel from civilian nuclear activities with a site at which substantial volumes of high-level radioactive waste generated from atomic energy defense activities are located. Such study shall also include the development of a plan for the management of such high-level radioactive waste in a system that includes 1 or more monitored retrievable storage facilities capable of storing both high-level radioactive waste and spent nuclear fuel. The Secretary shall report to Congress by April 1, 1989, on the results of the study under this paragraph.

"(2) If the Secretary determines, on the basis of the study under paragraph (1), that 1 or more additional monitored retrievable storage facilities are in the public interest and are needed to fulfill the responsibilities of the Secretary under this Act, the Secretary shall notify Congress and potentially interested States and Indian tribes of such determination and shall submit to Congress site-specific proposals for the construction of the needed monitored retrievable storage facilities in accordance with the provisions of section 141 of this Act.

"(g) Once selection of a site for a monitored retrievable storage facility is made under subsection (c) or is effective under subsection (e) or upon authorization by Congress of 1 or more sites for monitored retrievable storage facilities under subsection (f), the Indian tribe on whose reservation the site is located, or, in the case that the site is not located on a reservation, the State in which the site is located, shall be eligible to enter into a benefits agreement with the Secretary under section 404.

"(h) The provisions of section 116(c) or 118(b) with respect to grants, technical assistance, and other financial assistance shall apply to the State, to affected Indian tribes and to affected units of local government in the case of a monitored retrievable storage facility in the same manner as for a repository.

"(i)(1) During the period between the date of the enactment of this subsection and October 1, 1988, the Secretary shall conduct a study and evaluation of the use of dry cask storage technology at the sites of civilian nuclear power reactors for the temporary storage of spent nuclear fuel until such time as a permanent geologic repository has been constructed and licensed by the Commission and is capable of receiving spent nuclear fuel. The Secretary shall report to Congress on the study under this paragraph by October 1, 1988.

"(2) In conducting the study under paragraph (1) the Secretary shall—

"(A) consider the costs of dry cask storage technology, the extent to which dry cask storage on the site of civilian nuclear power reactors will affect human health and the environment, the extent to which storage on the sites of civilian nuclear power reactors affects the costs and risks of transporting spent nuclear fuel to a central facility such as a monitored retrievable storage facility, and any other factors the Secretary considers appropriate;

"(B) consider the extent to which amounts in the Waste Fund can be used, and should be used, to provide funds to construct, operate, maintain, and safeguard spent nuclear fuel in dry cask storage at the sites of civilian nuclear power reactors;

"(C) consult with the Commission and include the views of the Commission in the report under paragraph (1); and

"(D) solicit the views of State and local governments and the public.

"(j)(1) By April 1, 1989, the Secretary shall submit to Congress a report that describes the benefits of storing for at least 50 years spent nuclear fuel compared to the current system design allowing such fuel to age for 10 years prior to emplacement in a repository. Such report shall describe—

"(A) the changes in design of an integrated nuclear waste management system;

"(B) the effect on cost caused by implementing such long-term storage compared to the present system;

"(C) the effect of long-term storage on the current schedule of the repository program calling for the acceptance of spent fuel in a repository by 2003;

"(D) the increase in repository capacity as a result of reduced thermal load and the possibility of disposing the spent nuclear fuel likely to be produced in the foreseeable future in a single repository;

"(E) the increase in assurance that transportation of aged spent nuclear fuel can be carried out safely; and

"(F) the relative impact on public health and safety and the environment.

"(2) In developing the report under paragraph (1), the Secretary shall consider the long-term storage and disposal practices for spent nuclear fuel and high-level radioactive waste of other nations that generate such fuel or waste.

"(3) The Secretary shall seek public comment on the report under paragraph (1) and shall submit any written comments to Congress as part of the report.

"(k) For purposes of this section 'monitored retrievable storage facility' means a facility described in section 141(b)(1).

"(l)(1)(A) There is established a MRS Review Commission (hereinafter in this subsection referred to as the 'MRS Commission'), which shall consist of three members who shall be appointed by and serve at the pleasure of the President pro tempore of the Senate and the Speaker of the House of Representatives.

"(B) Members of the MRS Commission shall be appointed not later than thirty days after the date of the enactment of this subsection from among persons who as a result of training, experience and attainments are exceptionally well qualified to evaluate the need for a monitored retrievable storage facility as a part of the Nation's nuclear waste management system.

"(C) The MRS Commission shall prepare a report on the need for a monitored retrievable storage facility as a part of a national nuclear waste management system that achieves the purposes of this Act. In preparing the report under this paragraph, the MRS Commission shall—

"(i) review the status and adequacy of the Department's evaluation of the systems advantages and disadvantages of bringing such a facility into the national radioactive waste disposal system;

"(ii) obtain comment and available data on the subject from affected parties, including States containing potentially acceptable sites;

"(iii) evaluate the utility of such a facility from a technical perspective; and

"(iv) make a recommendation to Congress as to whether such a facility should be included in the national nuclear waste management system in order to achieve the purposes of this Act, including meeting needs for packaging and handling of spent nuclear fuel, improving the flexibility of the repository development schedule, and providing temporary storage of spent nuclear fuel accepted for disposal.

"(2) In preparing the report and making its recommendation under paragraph (1) the MRS Commission shall compare such a facility to the alternative of at-reactor storage of spent nuclear fuel prior to disposal of such fuel in a repository under this Act. Such comparison shall take into consideration the impact on—

"(A) repository design and construction;

"(B) waste package design, fabrication and standardization;

"(C) waste preparation;

"(D) the waste transportation system;

"(i) Except as otherwise specifically provided by law, all receipts from fees collected pursuant to this section by any Federal agency (or by any public or private entity under contract with a Federal agency) shall be covered into a special account for that agency established in the Treasury of the United States. "(4) The amount allocated to each unit under this paragraph for each fiscal year shall be a fraction of the total allocation to all units under this paragraph. The fraction for each unit shall be determined by dividing the user fees and admission fees collected under this section at that unit during the prior fiscal year by the total of user fees and admission fees collected under this section at all units during the prior fiscal year.

"(k) When authorized by the head of the collecting agency, volunteers at designated areas may sell permits and collect fees authorized or established pursuant to this section. The head of such agency shall insure that such volunteers have adequate training regarding (1) the sale of permits and the collection of fees, (2) the purposes and resources of the areas in which they are assigned, and (3) the provision of assistance and information to visitors to the designated area. The Secretary shall require a surety bond for any such volunteer performing services under this subsection. Funds available to the collecting agency may be used to cover the cost of any such surety bond. The head of the collecting agency may enter into arrangements with qualified public or private entities pursuant to which such entities may sell (without cost to the United States) annual admission permits (including Golden Eagle Passports) at any appropriate location. Such arrangements shall require each such entity to reimburse the United States for the full amount to be received from the sale of such permits at or before the agency delivers the permits to such entity for sale.

Fifty per centum of the amount retained shall be expended only for maintenance of transportation systems at the unit where the charge was imposed. The remaining 50 per centum of the retained amount shall be expended only for activities related to resource protection at such units.

"(m) Where the primary public access to a unit of the National Park System is provided by a concessioner, the Secretary may charge an admission fee at such units only to the extent that the total of the fee charged by the concessioner for access to the unit and the admission fee does not exceed the maximum amount of the admission fee which could otherwise be imposed under subsection (a).".

(f)(1) The Secretary of the Interior shall assess the extent to which traffic congestion and overcrowding occurs at certain park system units during times of seasonally high usage and shall conduct a study of the following:

For purposes of such pilot project, the Secretary may reduce the fees for admission of various classes or categories of visitors to Yosemite National Park and may reduce the admission fees imposed at the park during seasons with low visitation. "(IV) any other sanction designated by the Secretary.

"(iii) The Secretary shall develop and implement specific criteria as to when and how each of these intermediate sanctions is to be applied, the amounts of any fines, and the severity of each of these penalties. These criteria shall be designed so as to minimize the time between identification of violations and final imposition of these sanctions and shall provide for the imposition of incrementally more severe penalties for repeated or uncorrected deficiencies. In accordance with such criteria, the Secretary may impose any such sanction in lieu of, or in addition to, imposing the sanction otherwise provided under paragraph (1).

"(B) In any case where intermediate sanctions imposed by a State pursuant to section 1902(i)(4) are in effect with respect to a facility, the Secretary shall review periodically (not less than once every 3 months) the effectiveness of such sanctions in promoting the correction of the deficiencies involved and shall withhold action under this subsection unless the Secretary determines that such sanctions are ineffective or that the facility's deficiencies immediately jeopardize the health and safety of its patients.

"(5)(A) In any case where the Secretary determines that a skilled nursing facility is chronically failing to meet substantially the requirements of section 1861(j) or of the provider agreement, or determines that the facility's deficiencies immediately jeopardize the health and safety of its patients—

"(i) the Secretary shall give public notice of such determination, and

"(ii) in the case of a skilled nursing facility that is not in a period of State-ordered receivership (as defined in subparagraph (C)), the Secretary may appoint a receiver to—

"(III) assure the health and safety of the facility's patients during the receivership period.

"(B) Subject to paragraph (1), payment shall be made under this title with respect to any services furnished by any such facility to patients who remain in such facility during any period of receivership ordered by the Secretary or the State with respect to such facility.

"(C) For purposes of this paragraph, a period of State-ordered receivership with respect to a facility is a period during which—

"(i) the State has appointed a receiver to oversee the operation of the facility;

"(ii) the State has in effect a correction plan to bring the facility into compliance with the applicable requirements of the State plan, this title, title XIX, and State licensing requirements by a date set forth in the correction plan; and

"(iii) the State has taken measures to assure the health and safety of the facility's patients during the period.

"(4)(A) If a State determines that a skilled nursing facility or intermediate care facility (other than a facility providing services described in section 1905(d)) that is certified for participation under its plan no longer meets the applicable requirements of section 1861(j) and further determines that the facility's deficiencies do not immediately jeopardize the health and safety of its residents, the State may, instead of terminating the facility's participation under the plan, impose one or more of the sanctions developed in accordance with subparagraph (B).

"(B)(i) The State shall develop and implement a range of intermediate sanctions to apply to facilities that have been determined to meet the conditions described in (1)(B). Such sanctions shall include—

"(III) withholding or reducing amounts otherwise payable to a facility, and

"(IV) any other sanction designated or approved by the Secretary.

"(iii) The State shall develop and implement specific criteria as to when and how each of these intermediate sanctions is to be applied, the amounts of any fines, and the severity of each of these penalties. These criteria shall be designed so as to minimize the time between identification of violations and final imposition of these sanctions and shall provide for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. In accordance with such criteria, the State may impose any such sanction in lieu of, or in addition to, imposing the sanction otherwise provided under paragraph (1).

"(5)(A) In any case where a State determines that a skilled nursing facility or an intermediate care facility (other than a facility providing services described in section 1905(d)) that is certified for participation under its plan is chronically failing to meet substantially the applicable requirements of section 1861(j) or of its agreement with the State, or determines that the facility's deficiencies immediately jeopardize the health and safety of its patients—

"(i) the State shall give public notice of such determination, and

"(ii) the State may appoint a receiver to—

"(I) oversee the operation of the facility;

"(II) establish and oversee the implementation of a correction plan to bring the facility into compliance with the applicable requirements of the title XIX, the State plan, section 1861(j), and State licensing requirements by a date set forth in the correction plan; and

"(III) assure the health and safety of the facility's patients during the receivership period.

(D) For purposes of subparagraph (C), the term "adjusted average per capita cost" means the average per capita amount that the Secretary estimates in advance (on the basis of actual experience, or retrospective actuarial equivalent based upon an adequate sample and other information and data, in a geographic area served by an eligible organization or in a similar area, with appropriate adjustments to assure actuarial equivalence) would be payable in any contract year for those services covered under parts A and B of title XVIII of the Social Security Act and types of expenses otherwise reimbursable under such parts A and B which are described in subparagraphs (A) through (G) of subsection (b)(1) (including administrative costs incurred by organizations described in sections 1816 and 1842 of such Act), if the services were to be furnished by other than an eligible organization.

(B) The amount of payment under paragraph (2) or (3) may be retroactively adjusted to take into account any difference between the actual number of individuals enrolled in the plan under this section and the number of such individuals estimated to be so enrolled in determining the amount of the advance payment.

(5) The payment to an eligible organization under this section for individuals enrolled under this section with the organization and entitled to benefits under part A and enrolled under part B of the Social Security Act shall be made from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund established under such Act in such proportions from each such trust fund as the Secretary deems to be fair and equitable taking into consideration benefits attributable to such parts A and B, respectively.

(e) RESTRICTION ON PREMIUMS, DEDUCTIBLES, COPAYMENTS, AND COINSURANCE.—

(1) In no case may the portion of an eligible organization's premium rate and the actuarial value of its deductibles, coinsurance, and copayments charged (with respect to community nursing and ambulatory care) to individuals who are enrolled under this section with the organization, exceed the actuarial value of the coinsurance and deductibles that would be applicable on the average to individuals enrolled under this section with the organization (or, if the Secretary finds that adequate data are not available to determine that actuarial value, the actuarial value of the coinsurance and deductibles applicable on the average to individuals in the area, in the State, or in the United States, eligible to enroll under this section with the organization, or other appropriate data) and entitled to benefits under part A and enrolled under part B of the Social Security Act, if they were not members of an eligible organization.

In no case may the sum of—

(A) the portion of such organization's premium rate charged, with respect to such additional services, to members enrolled under this section, and

(B) the actuarial value of its deductibles, coinsurance, and copayments charged, with respect to such services to such members

exceed the adjusted community rate for such services (as defined in section 1876(e)(3) of the Social Security Act).

(3)(A) Subject to subparagraphs (B) and (C), each agreement to conduct a demon-

stration project under this section shall provide that if—

is less than

(ii) the average of the per capita rates of payment to be made under subsection (d)(1) at the beginning of the 12-month period (as determined on such basis as the Secretary determines appropriate) described in such subsection for members enrolled under this section with the organization,

the eligible organization shall provide to such members the additional benefits described in section 1876(g)(3) of the Social Security Act which are selected by the eligible organization and which the Secretary finds are at least equal in value to the difference between that average per capita payment and the adjusted community rate (as so reduced).

(B) Subparagraph (A) shall not apply with respect to any organization which elects to receive a lesser payment to the extent that there is no longer a difference between the average per capita payment and adjusted community rate (as so reduced).

(C) An organization conducting a demonstration project under this section may provide (with the approval of the Secretary) that a part of the value of such additional benefits under subparagraph (A) be withheld and reserved by the Secretary as provided in section 1876(g)(5) of the Social Security Act.

(4) The provisions of paragraphs (3), (5), and (6) of section 1876(g) of the Social Security Act shall apply in the same manner to agreements under this section as they apply to risk-sharing contracts under section 1876 of such Act, and, for this purpose, any reference in such paragraphs to paragraph (2) is deemed a reference to paragraph (3) of this subsection.

(B) by inserting after subsection (c) the following new subsection:

"(d)(1) Subject to paragraph (2), the Secretary shall grant a waiver to provide that a State plan approved under this title shall include as 'medical assistance' under such plan payment for part or all of the cost of home or community-based services (other than room and board) which are provided pursuant to a written plan of care to individuals 65 years of age or older with respect to whom there has been a determination that but for the provision of such services the individuals would be likely to require the level of care provided in a skilled nursing facility or intermediate care facility the cost of which could be reimbursed under the State plan.

"(2) A waiver shall not be granted under this subsection unless the State provides assurances satisfactory to the Secretary that—

"(A) necessary safeguards (including adequate standards for provider participation) have been taken to protect the health and welfare of individuals provided services under the waiver and to assure financial accountability for funds expended with respect to such services;

"(B) with respect to individuals 65 years of age or older who—

"(i) are entitled to medical assistance for skilled nursing or intermediate care facility services under the State plan,

"(ii) may require such services, and

"(iii) may be eligible for such home or community-based services under such waiver,

the State will provide for an evaluation of the need for such skilled nursing facility or intermediate care facility services;

"(C) such individuals who are determined to be likely to require the level of care provided in a skilled nursing facility or intermediate care facility are informed of the feasible alternatives to the provision of skilled nursing facility or intermediate care facility services, which such individuals may choose if available under the waiver; and

Each State with a waiver under this subsection shall provide to the Secretary annually, consistent with a reasonable data collection plan designed by the Secretary, information on the impact of the waiver granted under this subsection on the type and amount of medical assistance provided under the State plan and on the health and welfare of recipients.

"(3) A waiver granted under this subsection may include a waiver of the requirements of section 1902(a)(1) (relating to statewideness), section 1902(a)(10)(B) (relating to comparability), and section 1902(a)(10)(C)(i)(III) (relating to income and resource rules applicable in the community). "(4) A waiver under this subsection may, consistent with paragraph (2)—

"(A) limit the individuals provided benefits under such waiver to individuals with respect to whom the State has determined that there is a reasonable expectation that the amount of medical assistance provided with respect to the individual under such waiver will not exceed the amount of such medical assistance provided for such individual if the waiver did not apply, and

"(B) provide medical assistance to individuals for case management services, homemaker/home health aide services and personal care services, adult day health services, respite care, and other medical and social services that can contribute to the health and well-being of individuals and their ability to reside in a community-based care setting.

"(B) For purposes of subparagraph (A), the projected amount under this subparagraph is the sum of the following:

"(i) The aggregate amount of the State's medical assistance under this title for skilled nursing facility services and interme-

diate care facility services furnished to individuals who have attained the age of 65 for the base year increased by a percentage which is equal to the lesser of 7 percent times the number of years beginning after the baseyear and ending before the waiver year involved or the sum of—

"(I) the percentage increase (based on an appropriate market-basket index representing the costs of elements of such services) between the base year and the waiver year involved, plus

"(II) the percentage increase between the base year and the waiver year involved in the number of residents in the State who have attained the age of 65, plus

"(III) 2 percent for each year beginning after the base year and ending before the waiver year.

"(I) the percentage increase (based on an appropriate market-basket index representing the costs of elements of such services) between the base year and the waiver year involved, plus

"(II) the percentage increase between the base year and the waiver year involved in the number of residents in the State who have attained the age of 65, plus

"(III) 2 percent for each year beginning after the base year and ending before the waiver year.

In the case of a State that does not report actual final expenditures under this title to the Secretary on the basis of the age categories described in this subparagraph for a year ending before the date of the enactment of this subsection, such State (in order to be granted a waiver under this subsection for any waiver year with respect to which this subparagraph applies) must report such expenditures on such basis with respect to each fiscal year beginning on or after October 1, 1988.

"(C) In this paragraph:

"(i) The term 'home and community-based services' includes services described in sections 1905(a)(7) and 1905(a)(8), services described in paragraph (4)(B), personal care services, and services furnished pursuant to a waiver under subsection (c).

"(ii)(I) Subject to subclause (II), the term 'base year' means the most recent year (ending before the date of the enactment of this subsection) for which actual final expenditures under this title have been reported to, and accepted by, the Secretary.

"(II) For purposes of subparagraph (C), in the case of a State that does not report expenditures on the basis of the age categories described in such subparagraph for a year ending before the date of the enactment of this subsection, the term 'base year' means fiscal year 1989.

"(iii) The term 'intermediate care facility services' does not include services in an institution for mental diseases.

"(6)(A) A determination by the Secretary to deny a request for a waiver (or extension of waiver) under this subsection shall be subject to review to the extent provided under section 1116(b).

"(B) Notwithstanding any other provision of this Act, if the Secretary denies a request of the State for an extension of a waiver under this subsection, any waiver under this subsection in effect on the date such request is made shall remain in effect for a period of not less than 90 days after the date on which the Secretary denies such request (or, if the State seeks review of such determination in accordance with subparagraph (A), the date on which a final determination is made with respect to such review).".

(C) in no case shall the work and training aspect of the Program be mandated in any county where the unemployment level is at least twice the State average; and

(e) EVALUATION.—The State must satisfy the Secretary that the program will be evaluated using a reasonable methodology.

(f) DURATION OF PROJECT.—

(B) The criteria used by the Secretary in evaluating the program and the projects thereunder shall not be limited to those which would normally be used in evaluating programs and activities of the kind involved, but shall fully take into account the special circumstances of the homeless and their need for personalized attention and follow-through assistance, and shall emphasize the extent to which the procedures and assistance made available to applicants under such projects are recognizing those circumstances and meeting that need.

(1) Each State that enters into an agreement under this section shall carry out an evaluation of its activities under this section. Such evaluation shall be based on a treatment group and a control group with not more than one-half of the individuals receiving assistance at any one time being assigned to the treatment group.

(ii) such repayment would be contrary to equity and good conscience.

(B) No repayment shall be required under subparagraph (A) until a determination has been made, notice thereof and an opportunity for a fair hearing has been given to the person, and the determination has become final. "(3) MINIMUM BENEFIT SECURITY LEVEL.—The term 'minimum benefit security level' has the meaning provided in section 414(u).

"(4) CORRECTION.—The term 'correction' means, with respect to a withdrawal of plan assets, placing the plan in a financial position not worse than that in which the plan would be if the amount of the withdrawal had not been in excess of the permissible amount as of immediately before the withdrawal.".

"(2) DISTRIBUTION OF ASSETS ATTRIBUTABLE TO EMPLOYEE CONTRIBUTIONS.—

"(A) IN GENERAL.—The remaining assets of the plan which are attributable to employee contributions shall be equitably distributed to the participants who made such contributions or their beneficiaries (including alternate payees, within the meaning of section 206(d)(3)(K)).

"(B) PORTION OF ASSETS ATTRIBUTABLE TO EMPLOYEE CONTRIBUTIONS.—For purposes of subparagraph (A), the portion of the remaining assets which are attributable to employee contributions shall be an amount equal to the product derived by multiplying—

"(i) the market value of total remaining assets, by

"(ii) a fraction—

"(I) the numerator of which is the present value of all portions of the accrued benefits with respect to participants which are derived from participants' mandatory contributions (referred to in subsection (a)(2)), and

"(II) the denominator of which is the present value of all benefits (or portions thereof) with respect to which assets are allocated under paragraphs (2) through (6) of subsection (a).

"(C) PARTICIPANTS AND BENEFICIARIES.—For purposes of this paragraph and paragraph (3), each person who is, as of the termination date—

"(i) a participant under the plan,

"(ii) an individual who has received, during the 3-year period ending with the termination date—

"(I) a distribution from the plan of such individual's entire nonforfeitable benefit in the form of a single sum distribution in accordance with section 203(e), or

"(II) a distribution from the plan in the form of irrevocable commitments purchased by the plan from an insurer to provide such nonforfeitable benefit,

shall be treated as a participant with respect to the termination, if all or part of the nonforfeitable benefit with respect to such person is or was attributable to employee contributions.

"(3) DISTRIBUTION OF ASSETS TO PARTICIPANTS AND BENEFICIARIES.—

"(A) IN GENERAL.—The remaining assets of the plan which are not required to be distributed under paragraph (2) shall be distributed among participants or beneficiaries (including alternate payees, within the meaning of section 206(d)(3)(K)) with respect to the termination to the extent provided in subparagraph (B) and in the manner provided in subparagraph (C).

"(II) the sum of plan assets allocated under subsection (a) and plan assets distributed under paragraph (2).

"(C) MANNER OF DISTRIBUTION.—The amount distributed under this paragraph shall be distributed among the participants or beneficiaries (including alternate payees, within the meaning of section 206(d)(3)(K)) with respect to the termination so that each such participant and beneficiary receives an equal amount.

"(4) DISTRIBUTION TO EMPLOYER.—

"(A) IN GENERAL.—The remaining assets of the plan which are not required to be distributed under paragraphs (2) and (3) may be distributed to the employer if—

"(i) the distribution to the employer does not contravene any applicable provision of law,

"(ii) the plan provides for such distribution, subject to the requirements of subparagraph (B), and

"(iii) the employer, and each member of a controlled group including the employer, has not terminated a plan described in section 4021 with assets insufficient to satisfy all benefit liabilities, except that this clause shall not apply in any case in which the participants of such earlier terminated plan and the corporation have been placed in a financial position that is not worse than that in which the participants would have been placed had the earlier plan terminated with sufficient assets to meet benefit liabilities.

"(B) SPECIAL RULE FOR RECENTLY AMENDED PLANS.—

"(i) IN GENERAL.—In determining the extent to which a plan provides for the distribution of plan assets to the employer for purposes of this paragraph, any such provision, and any amendment increasing the amount which may be distributed to the employer, shall not be treated as effective before the end of the fifth calendar year following the date of the adoption of such provision or amendment.

"(ii) RECENTLY ESTABLISHED PLANS.—A distribution to the employer from a plan shall not be treated as failing to satisfy the requirements of this subparagraph if the plan has been in effect for fewer than 5 years and the plan has provided for such a distribution since the effective date of the plan.

"(iii) TREATMENT OF PLANS AFTER MERGERS, CONSOLIDATIONS, AND TRANSFERS.—Except as otherwise provided in regulations of the Secretary of the Treasury, in any case in which a transaction described in section 208 occurs, clause (i) shall continue to apply separately with respect to the amount of any assets transferred in such transaction.

"(5) DISTRIBUTION IN ABSENCE OF DISTRIBUTION TO EMPLOYER.—Except as otherwise provided in the terms of the plan or in any other document under which the plan is maintained or operated, assets of the plan which remain after distributions in accordance with paragraphs (2) and (3) and which are not distributed as provided in paragraph (4) shall be distributed to the participants and beneficiaries in the same proportions as assets of the plan are allocated under subsection (a).

"(6) GENERAL QUALIFICATION REQUIREMENTS.—If the Secretary of the Treasury determines that any distribution made pursuant to this subsection (without regard to this paragraph) results in discrimination prohibited by section 401(a)(4) of the Internal Revenue Code of 1986 or a violation of section 415 of such Code, then the distribution may be revised to prevent discrimination under section 401(a) or 403(b) of such Code or a violation of section 415 of such Code".

"SEC. 302A. DETERMINATION OF CHARGES TO FUNDING STANDARD ACCOUNT ARISING FROM CERTAIN EMPLOYER DISTRIBUTIONS IN STANDARD TERMINATIONS OR CERTAIN TRANSACTIONS ADVERSELY AFFECTING PLAN ASSET SECURITY.

"(a) ADDITIONAL CHARGE TO FUNDING STANDARD ACCOUNT FOR ALLOCATED TERMINATION FUNDING SHORTFALL.—

"(1) APPLICABILITY OF ADDITIONAL CHARGE.—In the case of a standard termination of a single-employer plan under section 4041(b) in which occurs an employer distribution adversely affecting the plan asset security of a funded plan, if the amount of the assets of the funded plan is (as of immediately after the employer distribution) less than the lesser of—

"(A) the minimum benefit security level of the funded plan (determined as of immediately after the employer distribution), or

"(B) the amount of assets (determined as of immediately after the employer distribution) which the funded plan would need to hold so that the funded ratio with respect to such plan would equal the controlled group funded ratio with respect to such plan (determined as of immediately before the employer distribution),

an allocated termination funding shortfall for the funded plan shall be determined under this subsection with respect to the plan year in which the employer distribution occurs.

"(2) EMPLOYER DISTRIBUTION ADVERSELY AFFECTING PLAN ASSET SECURITY.—For purposes of this subsection, an employer distribution adversely affects plan asset security with respect to a funded plan if (at the time of the distribution) the employer receiving the distribution—

"(A) is the employer maintaining the funded plan, or

"(B) is included in the controlled group including the employer maintaining the funded plan.

"(3) ALLOCATED TERMINATION FUNDING SHORTFALL.—For purposes of this subsection—

"(A) IN GENERAL.—The allocated termination funding shortfall for a funded plan is the portion of the aggregate termination funding shortfall (determined under paragraph (4)) allocated to the funded plan under this paragraph.

"(B) PLANS AMONG WHICH ALLOCATION IS MADE.—The aggregate termination funding shortfall is allocated under this paragraph by apportioning such amount (in the manner and to the extent provided in subparagraph (C)) among all single-employer plans, each of which—

"(i) is maintained (at the time of the employer distribution) by the employer who maintains the funded plan (or by any other person in the controlled group including such employer), and

"(ii) holds (as of immediately after the transaction) a total amount of assets which is less than the lesser of—

"(I) the minimum benefit security level of the funded plan (determined as of immediately after the employer distribution), or

"(II) the amount of assets (determined as of immediately after the employer distribution) which the funded plan would need to hold so that the funded ratio with respect to such plan would equal the controlled group funded ratio with respect to such plan (determined as of immediately before the employer distribution).

"(C) MANNER OF ALLOCATION.—The aggregate termination funding shortfall shall be allocated in its entirety among all the plans described in subparagraph (B) in relation to the respective funded ratios with respect to such plans, in accordance with regulations of the Secretary of the Treasury, in such manner as to ensure that (as of immediately after the distribution)—

"(i) the funded ratios with respect to all such plans (taking into account amounts so allocated) are—

"(I) equivalent, and

"(II) not less than the highest of the funded ratios with respect to such plans, or

"(ii) if the total amount to be allocated is insufficient to satisfy the requirements of clause (i), the funded ratios with respect to those plans described in subparagraph (B) with the lowest funded ratios are, to the maximum extent practicable, increased to the same funded ratio (taking into account amounts so allocated)—

"(I) commencing the allocation with the plan with the lowest funded ratio (before taking into account amounts so allocated),

"(II) proceeding with allocations to such plans in ascending order of the funded ratios with respect to such plans, and

"(III) ensuring that no amount is so allocated to any such plan if the funded ratio with respect to another such plan is lower (taking into account amounts so allocated).

"(4) AGGREGATE TERMINATION FUNDING SHORTFALL.—For purposes of this subsection, the term 'aggregate termination funding shortfall' means an amount (determined as of immediately after the distribution) equal to the lesser of—

"(i) the lesser of—

"(I) the minimum benefit security level of such plan (determined as of immediately after the employer distribution), or

"(II) the amount of assets (determined as of immediately after the employer distribution) which the funded plan would need to hold so that the funded ratio with respect to such plan would equal the controlled group funded ratio with respect to such plan (determined as of immediately before the transaction),

over

"(ii) the amount of the assets of such plan.

"(C) CONTROLLED GROUP FUNDED RATIO.—The term 'controlled group funded ratio' with respect to a plan means the ratio of—

"(i) the total amount of the assets held by the funded plan and the assets held by all of the other single-employer plans maintained by the employer who maintains the funded plan (or by any other person in the controlled group including the employer), to

"(ii) the total of the benefit liabilities of all plans referred to in clause (i).

"(G) TREATMENT OF MULTIPLE-EMPLOYER PLANS.—For purposes of subparagraph (C) and paragraph (3)(B), multiple-employer plans shall be disregarded except to such extent as may be prescribed in regulations of the Secretary of the Treasury referred to in section 302(c)(11).

"(H) ALTERNATIVE VALUATION DATES.—

"(i) IN GENERAL.—Except to the extent prescribed in such regulations as may be prescribed under clause (iii), at the election of the employer maintaining the funded plan—

"(I) amounts which are (but for this subparagraph) required to be determined as of immediately before an employer distribution shall be determined as of the beginning of the plan year preceding the plan year for which the charge under section 302(b)(2)(E) is made, except that, if the employer distribution occurs on the first day of such plan *year, such amount shall, pursuant to any such election, be determined as of the beginning of the plan year for which the charge is made, and*

"(II) in the case of an amount otherwise required to be determined as of immediately after the employer distribution, as of the beginning of the plan year for which the charge under section 302(b)(2)(E) is made.

"(ii) CERTIFICATION REQUIREMENTS.—This subparagraph shall permit a valuation with respect to any plan as of an alternative time only if the employer maintaining the funded plan certifies that—

"(I) in the case of an alternative time under clause (i)(I), as of immediately before the time of the employer distribution, there has been no material change in asset valuations (under the plan with respect to which the valuation is being made) or in the funded ratio (of such plan) since the alternative time for valuation, and

"(II) in the case of an alternative time under clause (i)(II), as of the alternative time for valuation, there has been no material change in asset valuations (under the plan with respect to which the valuation is being made) or in the funded ratio (of such plan) since immediately after the distribution.

"(iii) REGULATIONS.—The Secretary of the Treasury may by regulation provide for other times as alternative times for valuations to the extent consistent with the purposes of this subsection.

"(6) SECURITY FOR AMORTIZATION OF CHARGE.—

"(A) IN GENERAL.—Under regulations of the Secretary prescribed in consultation with the Secretary of the Treasury, the requirements of section 302 shall not be treated as satisfied with respect to the charge determined under this subsection unless, not later than the time of the employer distribution, the employer maintaining the funded plan, or any other person who is in the controlled group including the employer, provides to the plan security described in subparagraph (B) at the time of the employer distribution. Such security shall be payable on the 15th day of the third month following the third plan year to the extent of any outstanding balance of such charge as of such date. The security shall be released (and any amounts thereunder refunded with accrued interest) to the extent of any amount of such charge amortized as of the day specified in the preceding sentence.

"(B) NATURE OF SECURITY.—Security described in this subparagraph constitutes—

"(i) a bond issued by a corporate surety company that is an acceptable surety for purposes of section 412, or

"(ii) cash, or United States obligations which mature in 3 years or less, held in escrow by a bank or similar financial institution,

"(C) PAYMENT OF SECURITY UPON NONPAYMENT OF AMORTIZATION AMOUNT.—The security described in subparagraph (B) shall be paid to the funded plan if—

"(i) any payment required in the amortization, pursuant to section 302(b)(2)(E), of the charge determined under this subsection is not made when due, or

"(ii) the Secretary determines that the amortization, pursuant to section 302(b)(2)(E), of the charge determined under this subsection has not been, or cannot be, accomplished by reason of termination of the funded plan or a subsequent transaction adversely affecting plan asset security with respect to the funded plan (within the meaning of subsection (b)(2)),

"(D) PAYMENT OF SECURITY NECESSARY FOR MEETING MINIMUM FUNDING STANDARD.—In any case in which security is payable under the requirements of this paragraph, the requirements of section 302 shall not be treated as satisfied to the extent that such security is not paid or that payment of such security does not amortize in full the outstanding balance of the charge remaining under section 302(b)(2)(E).

"(b) ADDITIONAL CHARGE TO FUNDING STANDARD ACCOUNT FOR ALLOCATED TRANSACTION FUNDING SHORTFALL.—

"(1) APPLICABILITY OF ADDITIONAL CHARGE.—In the case of a transaction adversely affecting the plan asset security of a funded plan, if the amount of the assets of the funded plan (determined as of immediately after the transaction) is less than the lesser of—

"(3) ALLOCATED TRANSACTION FUNDING SHORTFALL.—For purposes of this subsection—

"(A) IN GENERAL.—The allocated transaction funding shortfall for a funded plan is the portion of the aggregate transaction funding shortfall (determined under paragraph (4)) allocated to the funded plan under this paragraph.

"(i) is maintained (as of immediately before the transaction) by the employer who maintains the funded plan (or by any other person in the controlled group including such employer), and

"(I) the minimum benefit security level of the funded plan (determined as of immediately after the transaction), or

"(II) the amount of assets (determined as of immediately after the transaction) which the funded plan would need to hold so that the funded ratio with respect to such plan would equal the controlled group funded ratio with respect to such plan (determined as of immediately before the transaction).

"(C) MANNER OF ALLOCATION.—The aggregate transaction funding shortfall shall be allocated in its entirety among all the plans described in subparagraph (B) in relation to the respective funded ratios with respect to such plans, in accordance with regulations of the Secretary of the Treasury, in such manner as to ensure that (as of immediately after the transaction)—

"(i) the funded ratios with respect to all such plans (taking into account amounts so allocated) are—

"(I) equivalent, and

"(II) not less than the highest of the funded ratios with respect to such plans, or

"(ii) if the total amount to be allocated is insufficient to satisfy the requirements of clause (i), the funded ratios with respect to those plans described in subparagraph (B) with the lowest funded ratios are, to the maximum extent practicable, increased to the same funded ratio (taking into account amounts so allocated)—

"(I) commencing the allocation with the plan with the lowest funded ratio (before taking into account amounts so allocated),

"(II) proceeding with allocations to such plans in ascending order of the funded ratios with respect to such plans, and

"(ii) the controlled group assets available for allocation, as determined under subparagraph (B).

"(B) EXCESS CONTROLLED GROUP ASSETS AVAILABLE FOR ALLOCATION.—For purposes of subparagraph (A)(ii), the amount of controlled group assets available for allocation is an amount equal to the lesser of—

"(i) the sum of the amounts, determined with respect to the funded plan and each other single-employer plan maintained (as of immediately before the transaction) by the employer then maintaining the funded plan (or by any person who is then in the controlled group including the employer), equal to the excess (not less than zero) of—

"(I) the amount of the assets of such plan (as of immediately before the transaction), over

"(II) the amount of the benefit liabilities of such plan, or

"(ii) the sum of the amounts, determined with respect to each plan referred to in clause (i), equal to the excess (not less than zero) of—

"(I) the amount of the assets of such plan (as of immediately before the transaction), over

"(II) the amount of assets (determined as of immediately after the transaction) which such plan would need to hold so that the funded ratio with respect to such plan would equal the controlled group funded ratio with respect to such plan (determined as of immediately before the transaction).

"(5) REDUCTION IN ADDITIONAL CHARGE WHEN FUNDED PLAN IS TRANSFERRED TO A CONTROLLED GROUP WITH EXCESS ASSETS.—

"(A) IN GENERAL.—In any case in which, in an allocation described in subparagraph (B), an amount is allocated to the funded plan, the amount of the allocated transaction funding shortfall determined under this subsection is the excess of—

"(ii) CERTIFICATION REQUIREMENTS.—This subparagraph shall permit a valuation with respect to any plan as of an alternative time only if the employer maintaining the funded plan certifies that—

"(I) in the case of an alternative time under clause (i)(I), as of immediately before the time of the transaction, there has been no material change in asset valuations (under the plan with respect to which the valuation is being made) or in the funded ratio (of such plan) since the alternative time for valuation, and

"(II) in the case of an alternative time under clause (i)(II), as of the alternative time for valuation, there has been no material change in asset valuations (under the plan with respect to which the valuation is being made) or in the funded ratio (of such plan) since immediately after the transaction.

"(7) SECURITY FOR AMORTIZATION OF CHARGE.—

"(A) IN GENERAL.—Under regulations of the Secretary prescribed in consultation with the Secretary of the Treasury, the requirements of section 302 shall not be treated as satisfied with respect to the charge determined under this subsection unless, not later than the time of the transaction, the employer maintaining the funded plan, or any other person who is in the controlled group including the employer, provides to the plan security described in subparagraph (B) at the time of the transaction. Such security shall be payable on the 15th day of the third month following the third plan year to the extent of any outstanding balance of such charge as of such day. The security shall be released (and any amounts thereunder with accrued interest) to the extent of any amount of such charge amortized as of the day specified in the preceding sentence.

"(B) NATURE OF SECURITY.—Security described in this subparagraph constitutes—

"(i) a bond issued by a corporate surety company that is an acceptable surety for purposes of section 412, or

"(A) the minimum benefit security level of the funded plan (determined as of immediately after the employer distribution), or

"(B) the amount of assets (determined as of immediately after the employer distribution) which the funded plan would need to hold so that the funded ratio with respect to such plan would equal the controlled group funded ratio with respect to such plan (determined as of immediately before the employer distribution),

an allocated termination funding shortfall for the funded plan shall be determined under this subsection with respect to the plan year in which the employer distribution occurs.

"(2) EMPLOYER DISTRIBUTION ADVERSELY AFFECTING PLAN ASSET SECURITY.—For purposes of this subsection, an employer distribution adversely affects plan asset security with respect to a funded plan if (at the time of the distribution) the employer receiving the distribution—

"(B) is included in the controlled group including the employer maintaining the funded plan.

"(3) ALLOCATED TERMINATION FUNDING SHORTFALL.—For purposes of this subsection—

"(A) IN GENERAL.—The allocated termination funding shortfall for a funded plan is the portion of the aggregate termination funding shortfall (determined under paragraph (4)) allocated to the funded plan under this paragraph.

"(C) MANNER OF ALLOCATION.—The aggregate termination funding shortfall shall be allocated in its entirety among all the plans described in subparagraph (B) in relation to the respective funded ratios with respect to such plans, in accordance with regulations of the Secretary, in such manner as to ensure that (as of immediately after the distribution)—

"(i) the funded ratios with respect to all such plans (taking into account amounts so allocated) are—

"(I) equivalent, and

"(II) not less than the highest of the funded ratios with respect to such plans, or

"(ii) if the total amount to be allocated is insufficient to satisfy the requirements of clause (i), the funded ratios with respect to those plans described in subparagraph (B) with the lowest funded ratios are, to the maximum extent practicable, increased to the same funded ratio (taking into account amounts so allocated)—

"(I) commencing the allocation with the plan with the lowest funded ratio (before taking into account amounts so allocated),

"(II) proceeding with allocations to such plans in ascending order of the funded ratios with respect to such plans, and

"(III) ensuring that no amount is so allocated to any such plan if the funded ratio with respect to another such plan is lower (taking into account amounts so allocated).

"(II) the amount of assets (determined as of immediately after the employer distribution) which the funded plan would need to hold so that the funded ratio with respect to such plan would equal the controlled group funded ratio with respect to such plan (determined as of immediately before the employer distribution),

over

"(ii) the amount of the assets of such plan.

"(C) CONTROLLED GROUP FUNDED RATIO.—The term 'controlled group funded ratio' with respect to a plan means the ratio of—

"(II) in the case of an amount otherwise required to be determined as of immediately after the employer distribution, as of the beginning of the plan year for which the charge under section 412(b)(2)(E) is made.

"(ii) CERTIFICATION REQUIREMENTS.—This subparagraph shall permit a valuation with respect to any plan as of an alternative time only if the employer maintaining the funded plan certifies that—

"(I) in the case of an alternative time under clause (i)(I), as of immediately before the time of the employer distribution, there has been no material change in asset valuations (under the plan with respect to which the valuation is being made) or in the funded ratio (of such plan) since the alternative time for valuation, and

"(II) in the case of an alternative time under clause (i)(II), as of the alternative time for valuation, there has been no material change in asset valuations (under the plan with respect to which the valuation is being made) or in the funded ratio (of such plan) since immediately after the distribution.

"(6) SECURITY FOR AMORTIZATION OF CHARGE.—

"(A) IN GENERAL.—Under regulations of the Secretary of Labor prescribed in consultation with the Secretary, the requirements of section 412 shall not be treated as satisfied with respect to the charge determined under this subsection unless, not later than the time of the employer distribution, the employer maintaining the funded plan, or any other person who is in the controlled group including the employer, provides to the plan security described in subparagraph (B) at the time of the employer distribution. Such security shall be payable on the 15th day of the third month following the third plan year to the extent of any outstanding balance of such charge as of such day. The security shall be released (and any amounts thereunder refunded with accrued interest) to the extent of any amount of such charge amortized as of the day specified in the preceding sentence.

"(B) NATURE OF SECURITY.—Security described in this subparagraph constitutes—

"(C) PAYMENT OF SECURITY UPON NONPAYMENT OF AMORTIZATION AMOUNT.—The security described in subparagraph (B) shall be paid to the funded plan if—

"(i) any payment required in the amortization, pursuant to section 412(b)(2)(E), of the charge determined under this subsection is not made when due, or

"(i) the funded ratios with respect to all such plans (taking into account amounts so allocated) are—

"(I) equivalent, and

"(II) not less than the highest of the funded ratios with respect to such plans, or

(a) Findings.—Congress finds that—

(1) the United States is dependent for a large and growing share of its energy needs on the Middle East at a time when world petroleum reserves are declining;

(3) ethanol can be blended with gasoline to produce a cleaner source of fuel;

(4) ethanol can be produced from grain, a renewable resource that is in considerable surplus in the United States;

(5) the conversion of grain into ethanol would reduce farm program costs and grain surpluses; and

(6) increasing the quantity of motor fuels that contain at least 10 percent ethanol from current levels to 50 percent by 1992 would create thousands of new jobs in ethanol production facilities.

(b) Sense of Congress.—It is the sense of Congress that the Administrator of the Environmental Protection Agency should use authority provided under the Clean Air Act (42 U.S.C. 7401 et seq.) to require greater use of ethanol as motor fuel.

SEC. 8309. DEMONSTRATION OF FAMILY INDEPENDENCE PROGRAM.

(a) In general.—Upon written application of the State of Washington (in this section referred to as the "State") and after the approval of such application by the Secretary, the State may conduct a Family Independence Demonstration Project (in this section referred to as the "Project") in all or in part of the State in accordance with this section to determine whether the Project, as an alternative to providing benefits under the food stamp program, would more effectively break the cycle of poverty and would provide families with opportunities for economic independence and strengthened family functioning.

(b) Nature of Project.—In an application submitted under subsection (a), the State shall provide the following:

(1) Except as provided in this section, the provisions of chapter 434 of the 1987 Washington Laws, as enacted in May 1987, shall apply to the operation of the Project.

(2) All of the following terms and conditions shall be in effect under the Project:

(A)(i) Except as provided in clause (ii), individuals with respect to whom benefits may be paid under part A of title IV of the Social Security Act, and such other individuals as are included in the Project pursuant to chapter 434 of the 1987 Washington Laws, as enacted in May 1987, shall be eligible to participate in the Project in lieu of receiving benefits under the food stamp program and cash assistance under any other Federal program covered by the Project.

(ii) Individuals who receive only child care or medical benefits under the Project shall not be eligible to receive food assistance under the Project. Such individuals may receive coupons under the food stamp program if eligible.

(B) Individuals who participate in the Project shall receive for each month an amount of cash assistance that is not less than the total value of the assistance such individuals would otherwise receive, in the aggregate, under the food stamp program and any cash-assistance Federal program covered by the Project for such month, including income and resource exclusions and deductions, and benefit levels.

(C)(i) The State may provide a standard benefit for food assistance under the Project, except that individuals who participate in the Project shall receive as food assistance for a month an amount of cash that is not less than the value of the assistance such individuals would otherwise receive under the food stamp program.

(ii) The State may provide a cash benefit for food assistance equal to the value of the thrifty food plan.

(D) Each month participants in the Project shall be notified by the State of the amount of Project individual that is provided as food assistance for such month.

(E) The State shall have a program to require participants to engage in employment and training activities carried out under chapter 434 of the 1987 Washington Laws, as enacted in May, 1987.

(F) Food assistance shall be provided under the Project—

(i) to any individual who is accepted for participation in the program, not later than 30 days after such individual applies to participate in the Project;

(ii) to any participation for the period that begins on the date such participant applies to participate in the Project, except that the amount of such assistance shall be reduced to reflect the pro rata value of any coupons received under the food stamp program for such period for the benefit of such participant; and

(iii) until—

(I) the participant's cash assistance under the Project is terminated;

(II) such participant is informed of such termination and is advised of the eligibility requirements for participation in the food stamp program;

(III) the State determines whether such participant will be eligible to receive coupons as a member of a household under the food stamp program; and

(IV) coupons under the food stamp program are received by such participant if such participant will be eligible to receive coupons as a member of a household under the food stamp program.

(H)(i) Paragraphs (1)(B), (8), (10), and (19) of section 11(e) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)) shall apply with respect to the participants in the Project in the same manner as such paragraphs apply with respect to participants in the food stamp program.

(ii) Each individual who contacts the State in person during office hours to make what may reasonably be interpreted as an oral or written request to participate in the Project shall receive and shall be permitted to file on the same day that such contact is first made, an application form to participate in the Project.

(iii) The Project shall provide for telephone contact by, mail delivery of forms to and mail return of forms by, and subsequent home or telephone interview with, the elderly, physically or mentally handicapped, and persons otherwise unable, solely because of transportation difficulties and similar hardships, to appear in person.

(iv) An individual who applies to participate in the Project may be represented by another person in the review process if the other person has been clearly designated as the representative of such individual for that purpose, by such individual or the spouse of such individual, and, if the application review process is concerned, the representative is an adult who is sufficiently aware of relevant circumstances, except that the State may—

(I) restrict the number of individuals which may be represented by such person; and

(II) otherwise establish criteria and verification standards for representation under this clause.

(v) The State shall provide a method reviewing applications to participate in the Project submitted by, and distributing food assistance under the Project to, individuals who do not reside in permanent dwellings or who have no fixed mailing address. In carrying out the preceding sentence, the State shall take such steps as are necessary to ensure that participation in the Project is limited to eligible individuals.

(3) An assurance that the State will allow any individual to apply to participate in the food stamp program without applying to participate in the Project.

(4) An assurance that the cost of food assistance provided under the Project will not be such that the aggregate amount of payments made under this section by the Secretary to the State over the period of the Project will exceed the sum of—

(A) the anticipated aggregate value of the coupons that would have been distributed under the food stamp program if the individuals who participate in the Project had participated instead in the food stamp program; and

(B) the portion of the administrative costs for which the State would have received reimbursement under—

(i) subsections (a) and (g) of section 16 of this Act (without regard to the first proviso to such subsection (g)) if the individuals who participated in the Project had participated instead in the food stamp program; and

(ii) section 16(h) of this Act if the individuals who participated in the Project had participated in an employment and training program under section 6(d)(4) of this Act;

except that this paragraph shall not be construed to prevent the State from claiming payments for additional households that would qualify for benefits under the food stamp program in the absence of a cash out of such benefits as a result of changes in economic, demographic, and other conditions in the State and subsequent changes in benefit levels approved by the State legislature.

(5) An assurance that the State will continue to carry out the food stamp program while the State carries out the Project.

(6) If there is a change in existing State law that would eliminate guaranteed benefits or reduce the rights of applicants or enrollees under this section during, or as a result of participation in, the Project, the Project shall be terminated.

(7) The Project shall include procedures and due process guarantees no less beneficial than those which are available under Federal law and under State law to participants in the food stamp program.

(8)(A) An assurance that, except as provided in subparagraph (B), the State will carry out the Project during a 5-year period beginning on the date the first individual is approved for participation in the Project; and

(B) The project may be terminated 180 days after—

(i) the State gives notice to the Secretary that it intends to terminate the Project; or

(ii) the Secretary, after notice and an opportunity for a hearing, determines that the State materially failed to comply with this section.

(c) FUNDING.—If an application submitted under subsection (a) by the State complies with the requirements specified in subsection (b), then the Secretary shall—

(1) approve such application; and

(2) from funds appropriated under this Act, pay the State for—

(A) the actual cost of the food assistance provided under the Project; and

(B) the percentage of the administrative costs incurred by the State to provide food assistance under the Project that is equal to the percentage of the State's aggregate administrative costs incurred in operating the food stamp program in the most recent fiscal year for which data are available, which was paid under subsections (a), (g), and (h) of section 16 of this Act.

(d)(1) PROJECT APPLICATION.—Unless and until an application to participation in the Project is approved, and food assistance under the Project is made available to the applicant, such application shall—

(A) also be treated as an application to participate in the food stamp program; and

(B) section 11(e)(9) shall apply with respect to such application.

(2) Coupons provided under the food stamp program with respect to an individual who—

(A) is participating in such program; and

(B) applies to participate in the Project; may not be reduced or terminated because such individual applies to participate in the Project.

(3) For purposes of the food stamp program, individuals who participate in the Project shall not be considered to be members of a household during the period of such participation.

(e) WAIVER.—The Secretary shall (with respect to the Project) waive compliance with any requirement contained in the Food Stamp Act of 1977 (other than this section) which (if applied) would prevent the State from carrying out the Project or effectively achieving its purpose.

(f) CONSTRUCTION.—For purposes of any other Federal, State or local law—

(1) cash assistance provided under the Project that represents food assistance shall be treated in the same manner as coupons provided under the food stamp program are treated; and

(2) participants in the program who receive food assistance under the Project shall be treated in the same manner as recipients of coupons under the food stamp program are treated.

(g) PROJECT AUDITS.—The Comptroller General of the United States shall—

(1) conduct periodic audits of the operation of the Project to verify the amounts payable to the State from time to time under subsection (b)(4); and

(2) submit to the Secretary of Agriculture, the Secretary of Health and Human Services, the Committee on Agriculture of the House of Representatives, and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report describing the results of each such audit.

(h) EVALUATION.—With funds appropriated under section 18(a)(1), the Secretary shall conduct, in consultation with the Secretary of Health and Human Services, an evaluation of the Project.

THANKS TO SENATOR GRAHAM

Mr. BYRD. Mr. President, I wish to thank the distinguished Senator from Florida [Mr. GRAHAM] who has presided over the Senate during this hectic day with a degree of skill, professionalism, dignity, poise, and fairness that we should all try to emulate. He has presided 6 hours during this day. I congratulate him and I thank him. It is not an easy job sitting in the chair.

Does the distinguished Republican whip have anything further he would like to say or any business to transact?

Mr. SIMPSON. Mr. President, I do want to commend the occupant of the chair.

My father was a Governor and came to the U.S. Senate and he said to me presiding is much more tedious than being Governor.

I think as I look at the occupant of the chair he would concur in that statement.

So I do thank you for your courtesies to all of us and say, too, I commend the managers of the bill.

I am not going to take any more time as the staff suffers when we do this.

SUPERB LEADERSHIP

Mr. SIMPSON. Mr. President, I want to commend the majority leader for something this morning at the White House.

I have been doing that for several years now. It is some superb reference to our President, and the summit, and it was very, very impressive what you shared with the President and those of us who were there in a most generous extraordinary genuine way.

I say that and I have been waiting through the course of the day, but I did not want to interfere with that juggernaut that was put together and I think I have never seen anything quite like the reconciliation and the CR. I have never done that before. I think that is a tribute to your leadership and we are happy to assist.

With that, with rosy-fingered dawn creeping over the eastern hills, I do not want to get going. I give up.

Mr. BYRD. Mr. President, the West Virginia hills.

Mr. SIMPSON. Ah.

Mr. BYRD. Mr. President, I thank the distinguished Senator for his most gracious remarks, very typical of him, and I am deeply appreciative.

CONFERENCES

Mr. BYRD. Mr. President, once again may I say that the conference on the reconciliation bill will hold its first meeting on Monday at 11 a.m. There are 55 Senate conferees on the measure, and similarly there will be a lot of work for the conferees on the continuing resolution. They must finish the conference on 13 appropriations bills before next Wednesday to meet the deadline.

So even though the Senate will not be in session on Monday, work on these two important conferences must begin and the sooner the conferences can reach agreement the sooner we can adjourn the first session.

I hope that my colleagues who are members of these conferences will keep their conference appointments in mind as they plan their schedules for next week.

ORDERS FOR TUESDAY, DECEMBER 15, 1987

ADJOURNMENT UNTIL 11 A.M.

Mr. BYRD. Mr. President, I ask unanimous consent that when the Senate completes its business today it stand in adjournment until the hour of 11 a.m. on Tuesday next.

The PRESIDING OFFICER. Without objection, it is so ordered.

MOTIONS AND RESOLUTIONS

Mr. BYRD. Mr. President, I ask unanimous consent that on Tuesday next no resolutions, and motions over under the rule, come over and that the call of the calendar under rule 8 be waived.

MORNING BUSINESS

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, I ask unanimous consent that after the two leaders are recognized under the standing order on Tuesday next there be a period for morning business for not to exceed 30 minutes and that Senators may speak therein for not to exceed 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. BYRD. Mr. President, as to the business week, it will be confined mostly to work on conference reports and on matters that have been cleared by unanimous consent. Conceivably there could be a Presidential veto override. I am in no position to determine that at the moment.

I would urge Senators to stay around and so many Senators are going to be engaged in the conferences that I am sure that we are going to have a good-sized quorum at any time. But the work is not done and will not be done until final action on the conference reports.

I would suggest that Senators not leave town thinking that the conference reports will be adopted by voice vote. This may not occur.

Mr. President, if the distinguished Republican leader has anything further?

NOMINATION HEARING

Mr. SIMPSON. Mr. President, I just add one item. The Judiciary Committee will be considering the nomination of Anthony Kennedy beginning Monday morning at 10 o'clock and that will be a consuming thing for about 3 days.

Mr. BYRD. Mr. President, I thank the distinguished Senator from Wyoming, the Republican whip for that observation. That was a timely one and will be in the RECORD for Senators and staffs to note.

ADJOURNMENT UNTIL 11 A.M., TUESDAY, DECEMBER 15, 1987

Mr. BYRD. Mr. President, if there be no further business at the hour of 3:18 a.m., on this morning, I move, in accordance with the order previously entered, that the Senate stand in adjournment until the hour of 11 o'clock on Tuesday next.

The motion was agreed to, and at 3:18 a.m., the Senate adjourned until Tuesday, December 15, 1987, at 11 a.m.

EXTENSIONS OF REMARKS

TRIBUTE TO THE HONORABLE AUGUSTUS HAWKINS

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. LEVINE of California. Mr. Speaker, I would like to share with my colleagues an article which recently appeared in the Los Angeles Times regarding our colleague AUGUSTUS HAWKINS. GUS HAWKINS' 53 year career in government has included 28 years in the California State Legislature and membership in this body for the last 25 years. During his long tenure as a legislator, GUS HAWKINS has earned the respect of Members on both sides of the aisle. In both of these highly partisan legislative bodies, GUS HAWKINS demonstrated an outstanding ability to bring both sides together in a bipartisan consensus. As this article repeatedly points out, it has been his quiet persistence and his reputation for fairness that have been the keys to his remarkable record of achievement. I recommend to my colleagues the following Los Angeles Times article on the career of this outstanding leader.

[From the Los Angeles Times, Nov. 30, 1987]

AT 80, REPRESENTATIVE HAWKINS FINDS CHALLENGES KEEP HIM ACTIVE

(By Kenneth Reich)

When Rep. Augustus F. Hawkins, dean of the nation's black elected officials, was voted into the state Assembly 53 years ago this month, he became the only black member of the California Legislature.

"I remember driving from Los Angeles to Sacramento and seeing big signs on the way, 'No Negroes Admitted Here,' 'We Do Not Solicit the Negro Trade,'" recalls the South Los Angeles Democrat who now has longer continuous service in state-elected offices than any other Californian.

When Hawkins arrived in the state capital, he remembers, "I went to some functions that I did not realize blacks had not gone to. We were not expected to accept some invitations."

$100-A-PLATE DINNER

He has come a long way since then. A still-vigorous 80, Hawkins will be honored at a special $100-a-plate dinner at the Bonaventure on Wednesday celebrating his 25 years in Congress. Scores of political dignitaries, as well as about 1,500 of his supporters, are expected to attend the affair.

Far from announcing retirement plans that night, Hawkins—senior member of the Congressional Black Caucus—will probably talk about his 1988 reelection campaign.

Expressing a desire to serve under a Democratic president after next year's elections, he said in an interview last week:

"New challenges keep me quite busy. . . . I try to be very active. I play golf. I spend 30 minutes each morning walking briskly to work. I follow a very bland diet, avoid highly seasoned foods. I don't recall ever missing a day of work."

Hawkins is at the peak of his political power. Elected to Congress in 1962 when he became the first black elected to the House from a state west of the Mississippi, he has now amassed important seniority. Since 1984 he has been chairman of the House Education and Labor committee.

He was a political success, for that matter, even before going to Congress. During an era far less congenial to minority politicians, he spent 28 years in the state Assembly, becoming chairman of the influential Rules Committee, and in 1959, he missed becoming Speaker by two votes.

Although black lawmakers are shown considerable deference these days, Hawkins contends that, for the nation's black population in general, conditions have not changed as much as many think.

"I feel the changes have been to a large extent somewhat artificial," he said in an interview last week. "In terms of employment and education, the gap [between the races] is still very wide. That worries me. While we have made progress and changes have occurred, there's too wide a gap still remaining. . . .

"I find some of the same problems, in a more subtle way, as I found 50 years ago."

'NOT RACIALLY ORIENTED'

That pessimistic assessment, coming from Hawkins, probably means more than if it came from most minority spokesmen in or out of government, for the congressman long ago won a Statehouse and U.S. Capitol reputation for being soft-spoken and circumspect and not particularly racial in his political approach.

The ranking Republican on the Education and Labor Committee, Rep. James M. Jeffords of Vermont, said last week: "He is a black man, and he certainly represents the people of his district and blacks very effectively. But he never gives the opinion that's a factor to be considered. He never talks of it. He always thinks in general terms of people who need help. He is not racially oriented."

Much of the same point was made by Rep. Julian C. Dixon (D-Los Angeles), who represents a district neighboring Hawkins'.

"I think Gus has prided himself on a technique of speaking for disadvantaged people but has never characterized them as being entirely black," Dixon said. "There are a lot of communities who have whites who have a need for public money. . . . He has never focused on race only. That brings him a great degree of credibility."

Congressional Quarterly's book, "Politics in America, The 100th Congress," begins its four-page essay on the congressman with this observation: "While other black political leaders have made fiery speeches and demonstrated for civil rights, gentle Gus Hawkins has plodded along, working through the legislative system for jobs, equal opportunity and education."

Hawkins himself once remarked, "Racializing an issue defeats my purpose—which is to get people on my side.

It's a view he has long held. Even during the 1960s, when a series of bloody riots erupted in his own district and other black communities around the country, Hawkins declared, "We need clearer thinking and fewer exhibitionists in the civil rights movement."

Another Republican colleague, Rep. Bill Goodling of Pennsylvania, says the congressman reflects such views in running the Education and Labor Committee. He described Hawkins as "an outstanding leader in a very quiet sort of way. Not a wheeler and dealer. He's not a shouter. He lets us know in committee that we'll do our fighting there and there'll be nothing said on the [House] floor."

Hawkins in last week's interview said he decided early in his career that "there's no point in going around with a chip on one's shoulder, saying no one can be converted. Often, they can be converted. . . ."

"In Congress, you soon find out that there are others that know something too," he said. "You try to get things accomplished through negotiations. . . . When seniority and leadership bring certain responsibilities, you're at the top and not trying to establish any sensational new records.

"I try to get bipartisan support. . . . I could make a lot more noise as a Democrat, but I wouldn't be successful in getting things through and getting them signed."

One result is that Hawkins has had an impressive record of accomplishment, even though his name identification with the public has not been that high.

In the Legislature, he authored bills establishing a low-cost housing program in the state, putting domestic employees under the workmen's compensation system and, in 1959, he sponsored the California Fair Employment Practices Act. He also had key roles in the establishment of the UCLA law and medical schools, Los Angeles Trade-Technical College and the Los Angeles Sports Arena.

MINIMUM WAGE BILL

In Congress, Hawkins co-authored the Humphrey-Hawkins Full Employment and Balanced Growth Act, and authored the Comprehensive Employment and Training Act (CETA), the Job Training Partnership Act, the Youth Employment and Demonstration Projects Act and the Pregnancy Disability Act. He has recently been active sponsoring a bill to increase the minimum wage.

Often, however, he has had to compromise, and sometimes the compromises were emasculations.

For example, after Sen. Hubert H. Humphrey's death, Hawkins, in order to secure passage of the Humphrey-Hawkins Act, settled in 1978 for a much-watered-down version in negotiations with the Carter Administration.

The act, as it emerged, was stripped of several major provisions including a requirement that, if need be, the government would serve as the employer of last resort to ensure attainment of a 4% unemployment goal.

By the following year, Hawkins was so disgusted with what he felt was the Carter Administration's failure to enforce the provi-

sions left in the bill that he issued a nine-point "indictment" of alleged violations of it. It got little publicity, and the Administration scarcely bothered to respond.

REAGAN YEARS NOT EASY

Even today, Hawkins is bitter about what happened to Humphrey-Hawkins, not only in the Carter years but also under the Reagan Administration.

"Even if it was watered down, if that act could be enforced, it would have solved a lot of problems," he said last week. "We wouldn't have the deficits had we invested the money in creating jobs. We would have a growth economy and not have used high unemployment as a means of fighting inflation."

The Reagan years have not been easy for those who, like Hawkins, believe in the power of big government to solve people's problems.

Rep. Tony Coelho (D-Merced), observes: "It was easy to espouse Gus's causes prior to 1980. It may be easy in the '90s to do it again. In the '80s, however, it's been tough to find people, even among the black leaders, who are willing, as Gus is, to persevere."

Locally, in contrast with his frequently quiet, behind-the-scenes approach in the Legislature and Congress, Hawkins has occasionally expressed himself clearly, even militantly, about the racial situation.

On the Watts riot, for example, he said, in 1965: "In Los Angeles, there is police brutality, the same as in Selma [Alabama], and there is segregation just about as bad as in Selma. There are better schools, but they are certainly segregated. . . . [The police have been] abusive and arrogant and have attempted to control things by force, not by more modern methods of control. . . . Race relations have broken down completely."

And, writing in The Times, in 1976, during the dispute over busing for integration in the sprawling Los Angeles Unified School District, Hawkins declared:

"It would be foolhardy to expect voluntary measures alone to ensure compliance with the mandate of Brown vs. Board of Education. That decision charted a clear course. All Americans must share equal access to educational facilities, and 'all deliberate speed' is required to reach that destination. Take away busing as a tool for getting there, and you seriously jeopardize the whole trip."

By taking care to be sufficiently militant when it counts and making sure that he is attentive to the needs of his district. Hawkins has managed to avoid election challenges over the years from any of the numerous ambitious, black Democrats in his district.

Hawkins, of moderate weight, is only 5 feet, 5 inches tall. He retains, even at 80, an energy that belies his years, remaining capable, as he has demonstrated at recent public hearings, of incisive questioning of witnesses. He has an excellent, precise memory.

Hawkins, born in Shreveport, La., on Aug. 31, 1907, concluded at a very early age that racial segregation was ridiculous. So light-skinned that he frequently passed on first meeting for white, Hawkins often found streetcar conductors moving the segregation signs splitting the cars between black and white behind him, so he would be in the white section. "I got so angry with the whole thing and embarrassed that I would just walk," he once recalled.

At the age of 11, he moved to Los Angeles. He attended Jefferson High School and received his AB degree at UCLA in 1931. Even with a college degree, he was only able to land a job as a soda jerk in that Depression year.

Eventually, he got into the real estate business and in 1934, at the age of 27, was elected to the state Assembly to replace Republican Fred Roberts, the only black then serving there.

Hawkins, married in 1941 to Pegae A. Smith, quickly proved himself an effective legislator.

"Gus is very bright," explains his friend, Assemblyman Tom Bane (D-Tarzana). "He is a master of the political tools, including working with legislators personally and working on legislation."

In the early days in Sacramento, Hawkins recalls, some of the other Assembly members made off-color racial remarks to him.

"I felt much more embarassed for others than I did for myself," he said. "As time went on, they became very apologetic. No longer did individuals openly express such feelings.

"We would simply try to educate and constructively change some of the policies without openly challenging some of the individuals that espoused them. When they became better acquainted with our style, they became in some cases strong exponents of our views."

Said Bane: "Gus Hawkins, with his appearance and coloring could have passed the color line a long time ago. He didn't choose to do that. He chose to work for the black people, and I always respected him for that."

His popularity and the respect in which he was held helped Hawkins break out of racial isolation in the Legislature. In the reapportionment that followed the 1960 Census, a congressional district was specifically fashioned for him.

Elected to Congress in 1962, Hawkins accumulated the seniority needed to be eligible for committee chairmanships. Before becoming head of the Education and Labor Committee, he chaired the House Administration Committee, which oversees the expenses and perks of all House members. Hawkins was so fair to the Republican members in this job that he drew fire from some Democrats.

Pegae, his wife of 25 years, died in 1966. They had no children. In 1977, he married a member of his staff, Elsie Taylor, who has three children.

Hawkins' political life has been untainted by public scandal. "He's Mr. Clean incarnate," says Rep. John Conyers Jr. (D-Mich.) today. "His enemies don't even think up a rumor to lay on him."

Long described as the blackest and poorest in California, Hawkins' congressional district is changing in some respects. Centered in Watts, the eastern portion of the district—across Alameda Street in such suburbs as Huntington Park and South Gate—has undergone a transition from working-class white to Latino. Even so, half of the district still is black, and its political center of gravity remains in Watts.

"I represent a large number of blacks who are confined to the ghetto," Hawkins says. "As individuals improve their economic status, they move out. . . . With the exception of a few old-timers, I represent the individuals who can't afford to move out."

URANIUM STATEMENT

HON. BILL RICHARDSON

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 10, 1987

Mr. RICHARDSON. Mr. Speaker, I rise to offer an amendment clarifying the intent of Congress with respect to language in the Anti-Apartheid Act barring importation into the United States of uranium origination in South Africa. When we adopted the Anti-Apartheid Act, our intent was to signal firm displeasure with the current apartheid regime in South Africa by barring importation of a variety of the products of that regime. Two key products were gold and uranium. These two commodities are generally produced in South Africa by the same segregated work force from the same ore in the same mines, and they serve as major, perhaps as the major, economic pillars of the apartheid system.

Unfortunately, we used the terms "uranium ore" and "uranium oxide" in section 309 of the Anti-Apartheid Act. While we clearly meant by those terms both unprocessed and processed uranium, the Treasury Department and the Nuclear Regulatory Commission, contrary to our intent, are allowing in processed uranium of South African origin as long as it is in some form other than oxide. In its October 1987 report of implementation of the Anti-Apartheid Act, the General Accounting Office noted that an Energy Department official said that:

> The banning of uranium ore and oxide, without explicitly banning uranium hexafluoride, hurt the U.S. (uranium) conversion industry without reducing the amount of South African uranium entering the United States.

If we are going to have sanctions, they should be meaningful and not just a facade to circumvent. Here, they are not only a facade but are being interpreted in a way which harms an otherwise competitive domestic industry. While this result will hopefully be resolved in a sensible fashion in the courts, I am reluctant to wait indefinitely, nor do I believe should this legislative body. I, accordingly, am proposing an amendment expressing the sense of Congress that section 309 of the Anti-Apartheid Act applies to uranium hexafluoride as well as other forms of processed uranium. I urge my collegues to support it.

MALTA: AN OPPORTUNITY FOR THE UNITED STATES IN THE CENTRAL MEDITERRANEAN

HON. EDWARD F. FEIGHAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. FEIGHAN. Mr. Speaker, I recently returned from a fact-finding study mission to the Republic of Malta. This official trip confirmed my view that the people of Malta have a good feeling about the future of their country and genuinely believe that their political destiny lies with the West. A good example of this is Malta's long-established cooperation with the

European Economic Community through an agreement of association. The new Government of Malta feels that now is the time to enhance that association by becoming full members of the community.

There has been a renewed sense of interest in improving ties with Malta. In July, Herbert Okun, U.S. Deputy Ambassador to the United Nations visited with Maltese leaders to discuss a range of issues before that body. Following my visit, Under Secretary of State Edward Derwinski met at length with government and opposition officials to obtain an assessment of political and economic developments in Malta. Most significant, was the recent tour of the United States and Canada by Prime Minister Edward Fenech Adami and a high-level delegation of Maltese officials and the September meeting between Foreign Minister Censu Tabone and Secretary of State Shultz in New York.

Mr. Speaker, while these visits are important and indeed symbolize a new, developing relationship between the United States and Malta, another step must be taken to complete this process. Dr. Fenech Adami, as the new Prime Minister, indicated to me that he would welcome a meeting with President Reagan. This meeting between himself and the leader of the free world will confirm Malta's commitment to establishing closer ties with the West and the United States. We need to do more than ask the people of Malta what they are doing to establish closer ties with the United States; we must ask ourselves what steps this country can take to guarantee that Malta's commitment to the West is the right decision for the Maltese.

Mr. Speaker, I have urged the State Department and our new Ambassador to Malta, the Honorable Peter Sommer, to press forward and arrange a meeting with the President and the Prime Minister early in 1988. Because of Malta's importance to the security of the United States—and the strategic need to maintain peace and stability in the Mediterranean—these two heads of state should formally meet.

A TRIBUTE TO HAROLD SHAPIRO

HON. CARL D. PURSELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. PURSELL. Mr. Speaker, I rise today with mixed emotions, to pay tribute to a personal friend and constituent, Dr. Harold Shapiro, president of the University of Michigan. Dr. Shapiro will be resigning his position at the University of Michigan to accept the presidency at Princeton University.

While I am delighted for Dr. Shapiro, who received his master's and doctoral degrees in economics from Princeton in 1964, I am equally disappointed that the University of Michigan will lose his diverse skills, wisdom, and sincere dedication.

Under Dr. Shapiro's leadership, the University of Michigan has been recognized as one of our Nation's premier institutions of higher education. Not only has he maintained the university's distinguished standard of excellence, but he has raised it to new heights.

University regents have called Dr. Shapiro a strong and even-tempered leader—"Just the kind of person needed at the University of Michigan." They tried in vain to persuade Dr. Shapiro to change his mind. But after years of service to the University of Michigan, he was ready to move on—to the Ivy League—to Princeton, his alma mater.

Named president of the University of Michigan in 1980, Dr. Shapiro, 51, is a Montreal native. He earned a bachelor's degree from Montreal's McGill University in 1956 prior to his masters and doctoral work at Princeton.

Starting his 23-year tenure at the University of Michigan as an assistant professor of economics, Dr. Shapiro became a full professor in 1970. He later was a research director and scientist in quantitative economics, labor, and industrial relations.

Prior to becoming the University of Michigan's 10th president, Dr. Shapiro was chairman of the economics department and served as vice president for academic affairs.

As president, Dr. Shapiro devised an innovative 5-year plan that lifted the University of Michigan from financial crises to a prosperous institution loaded with new research facilities. He accomplished this by increasing private funding and reducing the role of some departments while reallocating funds to more prominent and income-generating academic and research programs.

I value the opportunity to know and work with Harold Shapiro. He is an inspiration for all Americans to reach as high and climb as far as their God-given talents will take them. His success demonstrates the value of hard work, honesty, and the dedication to the principles that have made America great.

Mr. Speaker, Harold Shapiro will assume duties at Princeton University on January 1, 1988. I ask my colleagues in the U.S. House of Representatives to join me in offering him the warmest wishes for continued good health and success in his new position and all his future endeavors.

HON. HAROLD WASHINGTON

HON. WILLIAM J. HUGHES

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 2, 1987

Mr. HUGHES. Mr. Speaker, I want to take this opportunity to add a few brief words to those that have already been invoked in the memory of our late colleague, Harold Washington.

Of course, it was the city of Chicago that nurtured and first recognized the considerable talents that Harold Washington would bring to bear on the problems facing that great metropolis. But I would like to focus on the Harold Washington I came to know as an able and effective Member of this body.

I had the opportunity to work with Harold during his tenure on the Judiciary Committee, and I have no doubt that, had he chosen to make a long career of service here, he would have left an indelible mark on the life of this institution. Although a freshman Congressman, he was one of the floor leaders in support of the legislation that extended the provisions of the Federal Voting Rights Act, a major achievement in helping to eliminate the vestiges of racial discrimination in this country.

During his time in the Congress, Harold Washington impressed me as a man of great principle and determination, who fought long and hard for what he thought was right. But he was also a person of eminent consideration and fairness—one who was always willing to listen to another point of view with an open mind.

Perhaps it was inevitable that a man with so much to offer in the way of leadership and political skills would one day leave this House to pursue other challenges. This body's loss, however, redounded to the benefit of the people of Chicago, and to the national dialog on domestic affairs to which Harold Washington so eloquently contributed.

Let me join then with my colleagues in extending our heartfelt condolences to the family and friends of Harold Washington, and to the people of the city of Chicago. A man of his many abilities could have been a success in any job. We should be grateful that Harold Washington chose public service, a career that he ennobled, and one that allowed him to touch the lives of millions.

IN HONOR OF IRVING TERRY

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. LEVINE of California. Mr. Speaker, I rise today to pay tribute to a fine man, Irving Terry, as he is honored by the Los Angeles Men's ORT as 1987 Man of the Year. Recipients of this prestigious annual award consistently demonstrate outstanding achievements on behalf of others. Irving Terry is richly deserving of this honor as he has given freely of himself to a myriad of community and philanthropic causes throughout his life.

Irving Terry has been an avid supporter of ORT and firmly believes in the ORT credo which is, "Give a man a fish and he will have a meal, teach a man to fish and he will feed himself and others for a lifetime." Each ORT international educational program teaches vocational and technical skills to over 210,000 students in Israel and 26 other countries throughout the world. Their education gives students the opportunity to become self-sufficient and productive adults.

Born in Omaha, NE, Irving Terry spent his boyhood in the Boyle Heights region of Los Angeles. He graduated from Roosevelt High School in 1929 and attended Los Angeles City College. Mr. Terry became an independent truck operator for food condiments from the years 1935 through 1944. At that time with a partner, Arthur H. Kaplan, he opened the largest pickle plant in southern California. That business was sold in 1948 and Irving Terry retired for a brief 2 years. Unable to remain idle, Wilkins Regulator Co., manufacturing brass valves, was started. Selling that business in 1972, Mr. Terry devoted his interests to investing in and developing several apartment buildings which were eventually sold. In 1976 Terry Oil Co. was formed to develop crude oil production in California, Oklahoma, and Texas. Irving Terry is the owner and developer of Terry-Commerce Park, an industrial complex in the City of Commerce.

Irving Terry has an impressive background of philanthropic, civic, and professional accomplishments. He is a former Transportation Commissioner for the city of Los Angeles. He served as a member of the National Democratic Finance Committee. He has held membership in many organizations, including: University of Judaism; United Jewish Welfare Fund; Board of Directors of the Jewish Federation Council; and Board of Directors of the Stephen S. Wise Temple.

Mr. Terry's current charitable affiliations are as a member of the Board of Trustees for the City of Hope; member, Board of Resources of the City of Hope; and as a member of the Board of Governors of Haifa University. Irving Terry is also an active participant with the United Jewish Appeal, the Conference for Christians and Jews, and on the Board of the Friar's Club.

Throughout his endeavors, Irving Terry has enjoyed the love and support of his family, including his wife, Esther, and his four daughters, Kayla Kantrowitz, Maidy Dreyfus, Shane Cronenweth, and Lauri Erlendsson.

It is a pleasure to share Irving Terry's accomplishments with my colleagues in the U.S. House of Representatives.

RICHARDSON POW/MIA AMENDMENT

HON. BILL RICHARDSON

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 10, 1987

Mr. RICHARDSON. Mr. Chairman, I am introducing an amendment to the foreign aid authorizations bill that would accelerate efforts to resolve the fate of 549 American prisoners of war and missing in action still unaccounted for in the country of Laos.

I wish to amend title IX, section 910, which states the sense of Congress that the President should provide up to $200,000 each fiscal year 1988 and 1989 for support of humanitarian projects in Laos directly associated with cooperative efforts to resolve questions concerning American prisoners and missing in action.

My amendment would strengthen this language. It would require the administration to inform the appropriate oversight committees of all progress made in POW/MIA cases in Laos and to inform the appropriate committees of any United States expenditures it may approve for projects associated with POW/MIA cases in Laos. It would send a clear signal that the United States Government is following Laotian efforts to resolve POW/MIA cases with great interest and optimism.

My amendment is supported by the National Security Council, Office of Asian Affairs, who headed a delegation to Vientiane to meet with Lao officials. During the negotiations, the Lao Government agreed to resume humanitarian cooperation with the United States on the issue of Americans still missing and unaccounted for in Lao territory. The United States Government acknowledged the humanitarian problems of Laos and agreed to work within its capability to respond to them. I offer my amendment in this cooperative spirit to increase mutual understanding and resolve POW/MIA cases in Laos. I urge the support of my colleagues.

CABLE TELEVISION: "A TIME OF TURMOIL AND A TIME OF TRIUMPH"

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. WAXMAN. Mr. Speaker, recently Ralph Baruch, former chairman of Viacom International Inc., and chairman of the board of governors of the National Academy of Cable Programming, addressed the Washington Metropolitan Cable Club on the past—and future—of cable television and its distinctive programming. Mr. Baruch is renowned for his many achievements in his career as a broadcast and cable executive, and is a leading force in educating Congress and the public to the need to bring cable's promise to reality. His remarks were very informative, and provide an excellent perspective on these issues, and I am pleased to share them with my colleagues:

ADDRESS BY RALPH M. BARUCH, DECEMBER 9, 1987

A TIME OF TURMOIL AND A TIME OF TRIUMPH

Many years ago, at a time of turmoil in France, a leader came forth and led France to victory. Along the way he coined a phrase, now part of the language: He said, "war is too important to be left to the generals." I would like to adapt it for the opening of my remarks today to "television is too important to be left to the broadcasters."

Well, it hasn't been.

Why do I say this? Today we are witnessing and even participating in a period of unparalleled turmoil and upheaval in the television industry. We watch as the television networks abdicate their traditional roles in television programming, programming innovation, development and program experimentation. At the same time, a new force has seized upon this opportunity to fill a television program void: That new force, of course, is cable television.

Cable has taken advantage of the existing chaos in commercial television broadcasting and is rapidly amassing new talent, new ideas and new program concepts, and cable programs are taking more and more viewers away from conventional television.

What does all this mean? Over the past 40 years, television has been the mirror of American society: scientifically, aesthetically, and commercially. Television has had an unprecedented and tremendous influence in shaping that society, impacting on every aspect of American life: Television impacts our economy and our ability to market and distribute goods. Television impacts our politics and the policies which shape the Nation and the rest of the world.

Cable television programming will continue to play an ever-greater part in this communications revolution helping to shape our country.

But bear with me as we go back to the beginning and look at a couple of basic television concepts:

The conventional networks really had two fundamental bases which they seized upon to establish and consolidate their position:

First, the ill-advised FCC frequency allocation system of the early 1950's created a three-network oligopoly and made it difficult, if not impossible, for new networks to enter the business and compete on a level playing-field; and

Second, network program distribution, 20 hours a day, 365 days a year, through inordinately expensive conventional AT&T terrestrial lines, was so costly that no one else could afford to duplicate the system controlled by ABC, CBS, and NBC.

Now there is nothing wrong with their having been in this enviable position. They did what they could, and if I had been in their position, I would have done exactly the same thing.

Two events, however, changed all of this forever. The first, which came about to a great extent as a result of the earlier FCC frequency allocation decision, was the advent of cable television, which offered viewers a much greater abundance and variety of television fare.

In its early years, cable television's function was to overcome the lack of receivable stations and with it improve reception. Cable became both a qualitative and a quantitative factor in the availability of television signals.

The second event, of equal importance, was the launching of the first commercial television satellite, which bypassed the conventional networks' stranglehold on national television distribution facilities. No longer was it necessary to buy AT&T's terrestrial distribution. Cable could now bypass all of it and use this new, economically viable satellite technology to instantaneously reach every cable head-end equipped with a receiving dish.

I well recall, not so long ago, attending a broadcast network affiliates meeting at which a very senior network executive, to my utter amazement, stated unequivocally that satellites were not part of their long range plans!

When network parent companies, which may well have thought that their huge successes in television made them infalliable, entered into the new technologies, they ventured into the realms of the wildest of blue yonders. They must have thought that their huge successes in an oligopoly business gave them the gift to divine which services would be successful. They failed in most of these new technology-driven ventures and when they wrote off developments such as CBS cable, the RCA videodisk (which could not record), ABC's telefirst, teletext, and other such projects, their losses were counted in the hundreds of millions of dollars.

But the turmoil which is affecting broadcast networks stems not just from competition or technology; much of it is of their own making. Within the very recent past, all three broadcast networks' parent companies have changed ownership, two of them by a buyout at very substantial prices which demand a return on the substantial investment made as a result of the purchase; the third through a stock buyback program which gave one major shareholder the opportunity to acquire what I will call, in nonlegal terms, a controlling interest. With these acquisitions came severe cost-cutting that affected every segment of their television organizations, and of course program development areas were not spared by these severe cost-cutting processes.

At the networks, retrenchment seems to be the watchward everywhere.

For example, when faced with an unprecedented hit like "The Cosby Show," one of the networks, for all practical purposes, abandoned the time slot by programming what I believe was a glorified newsreel, with a couple of names to host the program.

Moreover, I'd like to predict that very soon this trend will accelerate with the broadcast networks programming additional one-hour, or even 90-minute news documentary or magazine-type programs. There is a simple reason for this. It isn't the networks' concern for the public—it is simply that these days these types of programs are cheaper to produce. The financial risk factor is reduced for the networks—in addition to which there's the opportunity to lay off part of the costs through overseas sales. So expect to see a resurgence of the one-hour or 90-minute magazine shows on some of our major broadcast networks.

Programming innovation now carries an economic risk that the networks simply can't justify—or even explain—in today's ever-sterner broadcast network economic climate and ever increasing preoccupation with the bottom line.

That statesman of the broadcast industry, Dr. Frank Stanton, could not have said it better when he stated recently: "For 25 or 30 years we at the networks had a free ride, so to speak. We didn't have to deal with revolutionary new technologies and competition from outside the networks. . ."

To illustrate the turmoil, just think of this: One network parent company has had six CEO's in a little more than a decade. If you were to count up the number of network heads and the heads of programming over the last two decades, my guess is that it would approach the 100 mark.

Recently a new network has tried to enter this oligopoly but has not yet succeeded, and may never succeed. It is severely handicapped by the inability to compete on a level playing field. Why? Because most of its affiliated stations are UHF independents; there are not enough V's to give them an equal opportunity. This new network, too, has already been afflicted with some of the general turmoil, as seen in both substantial changes within its limited program schedule and personnel shifts as well.

But in the meantime, back at the cable ranch . . . While all this turmoil and upheaval is occurring in the conventional television fields, new programs, program development and experimentation have emerged . . . all initiated by the cable television industry.

One of the first of these cable program innovations removed the broadcast networks from their dominance of the news. CNN appeared, and you know the rest of that story. When urgent events occur no longer does the viewer have to wait until 6:30 or 7:00 p.m. Cable television offers the story immediately and stays with it for as long as required. Cable programming found something that sets it apart from the competition.

Sports was not far behind and along came ESPN, for example, appealing to a broad segment of the American television viewing public. All of us have seen countless examples of cable sports coverage of events ignored by conventional broadcasters. The America's Cup, Madison Square Garden, and so much more television sports programming is appearing over cable, both on a national and a regional basis. As Bill Grimes, president of ESPN, recently stated, "There is no professional sports league, nor is there any type of college sports, that is not now on cable."

With each passing day, cable is taking advantage of the decline of broadcast networks to fill the vacuum in programming content. Networks like Nickelodeon took over where conventional networks are leaving off. Isn't it regrettable that children's programming—except for the Saturday morning cartoon ghetto—has for all practical purposes disappeared from the conventional commerical broadcast networks?

Cable programming has really taken up the slack. Advertiser-supported networks such as the discovery channel, Nickelodeon and the learning channel, and pay channels such as Disney—to give you just a few examples—fill the unfulfilled needs of the young American television audience. Isn't it ironic that discussions are now taking place for adaptions of some of this new cable television developed programming on over the air television broadcasting?

And I predict that cable television programming will come up with new ideas for children's programming and continue cables historic tradition of fulfilling our obligation to the American family viewer.

Another example: C-SPAN has made its mark, not only in this country, where it shows the American public democracy in action, and where it has been quoted and excerpted by both broadcast networks and stations, but world-wide, with C-SPAN demonstrating to the nations of the world how open democracy functions. And that is just one of the many achievements cable television can point to with great pride.

The cable television industry has duplicated these examples time and again and I am particularly proud that now the industry has seen fit to recognize the best of cable television programming through the creation, by the National Cable Television Association, of the National Academy of Cable Programming. Our cable academy not only helped bring about the industry's first and highly successful National Cable Month, but, above all, in achieving magnificant coverage of the ACE awards ceremonies. These ACE awards recognize not only the vast area of programming available to the American viewing public, but today the ACE awards also recognize cable television programs for what they offer to the American public: unparalleled quality, innovation and diversity.

It is now widely recognized that cable television has taken over the role of the program innovator, finding new concepts in television programming, new talent, new ideas. Yes, cable has taken the lead in exploring or rediscovering potential audience tastes.

Today nearly 50 advertiser-supported cable networks and more than 10 pay services beam down from satellites, giving audiences a vast choice of television programming. This programming appeals to every taste, every demographic in our population.

Whether it be news, sports, minority or children's programming . . . be it movies or other established and familiar program expressions . . . be it special programming initiated by a cable network . . . or be it new talent discovered, encouraged and starring in cable programming—today cable is there to satisfy our television audiences' unending hunger for new and original ideas, as well as for established, familiar programs to meet this audience demand.

As some one said, and it bears repeating: Audiences don't watch ABC, CBS, NBC or the independent stations, nor do they watch "cable". Audiences watch programs.

Is it any wonder, then, that more and more television audiences are turning away from conventional television broadcasting and finding alternatives?

Television viewers, while watching more television, are watching less and less broadcast TV. Now undoubtedly the VCR has played a part in diminishing the role for the previously considered conventional methods of television viewing. But let's face it, over the past seven years alone cable television viewing by the American public has grown enormously.

Larry Tisch, chief executive of CBS, earlier this year said, "The audience shift has been profound, from a combined 90% prime time network share in 1980 to 73% in 1986."

For the first 8 months of 1987, that share declined further to a prime-time three network share of 71%.

Listen to this: In the first 6 months of this year in prime time, cable satellite network audiences delivered an average of 862,000 additional households, while networks and their affiliates lost 782,000 television homes. That's a swing of well over one and a half million households in just 6 months!

The numbers I have given you are in all American television households whether they subscribe to cable or not.

When you look at similar statistics in the homes subscribing to cable television, the difference becomes even more dramatic:

In the first 8 months of this year, in cable homes, the network's share in prime time dropped to a dramatic 61%! In just one year the networks lost another 6% of their audience in cable homes. In that same one year, the basic cable networks increased their audience in these homes by 21%.

Cable television, and particularly basic and pay cable networks, is being watched more and more all day long, all night long. We know it and everybody else knows it, or senses it. On a full 24-hour basis in cable homes over the first 8 months of this year, the conventional broadcast network's share declined to 51%, while basic cable network viewing has increased by 25%. Incidentally, pay network viewing increased by 10% while other viewing has remained static.

In just 5 years the time viewers in all television homes are spending watching advertiser-supported cable programming had quadrupled and in cable subscriber homes, the amount of time spent watching advertiser-supported cable networks has increased nine-fold!

There must be a reason for this. The reason, I believe, is very simple. Cable programmers have just done a better job in filling the American viewer's need for information and entertainment. The programs are better, there is a feeling of excitement in our industry to develop new forms of television programming, to find new formats, new ideas and new stars with which to better inform and entertain the American television public.

Today cable programmers are spending an estimated 2 billion dollars annually for product, and I will predict, again, that by the end of this decade, the industry will triple this amount and spend over 6 billion dollars a year to inform, to educate and to entertain the ever-growing cable television audience.

Just a few weeks ago, Nielsen announced that more than 50% of American television homes now subscribe to cable television. Some people sounded surprised, but you weren't, were you. I know that I wasn't. We give the public the programs they want in a quantity, variety and diversity never before equalled, and we shall continue to grow.

I have given you today a historical perspective on the development of television, how cable started, its achievements and its programming success.

We have reached a milestone in circulation which few predicted that cable would ever achieve, but there is a great deal more to be done. We have seen that complacency and a "business as usual" position only lead downhill, so don't look back to your past successes. Instead, you must continue to innovate and experiment, and by doing so serve the public. By continuing to take up this challenge, even greater achievements will surely follow in the years to come.

These goals are reachable—now it's up to you.

Thank you very much.

COMMITTEE STUDY OF LONG-TERM CARE INDUCED IMPOVERISHMENT

HON. EDWARD R. ROYBAL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. ROYBAL. Mr. Speaker, just 1 month ago, the House Select Committee on Aging held the first in a series of hearings to examine the personal tragedy of long-term care induced impoverishment and to launch a long overdue, bipartisan effort to put a stop to these personal tragedies. Lest any of you doubt how real this tragedy is, I ask you to consider the study I released at that hearing and am submitting for the record today.

As demonstrated by the committee study, elderly Americans are at great risk from the high cost of long-term care. Seven in ten elderly living alone find their income spent down to the Federal poverty level after only 13 weeks in a nursing home. Within 1 year of entering a nursing home, over 90 percent of these elderly are impoverished. The picture for married couples is only slightly less tragic. Looking at income only, over one-half of the couples are improverished after one spouse has spent only one-half year in a nursing home. Even when both income and financial assets are taken into account, nearly one-half of the couples are impoverished after 1 year in a nursing home.

Now some will argue that only a small number of people ever face that risk. I counter with the facts. Over 200 million Americans are underinsured for long-term care. Of those aged 65 to 69, 43 percent will be in a nursing home during their lifetime. None of us knows who of our grandmothers, mothers or ourselves will end up in a nursing home or will receive extensive home care.

Though the study's focus is on long-term care, America faces two catastrophic health problems—37 million people under age 65 who are uninsured for health and long-term care and 200 million people who are underinsured for long-term care. I would argue that the question is no longer "Should we provide health and long-term care protection?" But rather "How?" Now is the time for the private and public sectors to join forces. I call upon Congress, the administration and the private sector to immediately launch a bipartisan effort resulting in full health and long-term care protection by the end of 1988.

A few months ago, Senator PEPPER and I introduced a long-term home-care bill, H.R. 2762—now H.R. 3436. Be assured that there will be a vote on this bill, the first major step toward long-term care since the enactment of Medicaid, early in the second session of the 100th Congress. But that is not enough. Whether it be my U.S. health legislation, H.R. 200, or other legislation, we must not stop until there is full protection for Americans of all ages and incomes.

My colleagues, the question of political will has been laid before us. The American public awaits and deserves an answer.

LONG TERM CARE AND PERSONAL IMPOVERISHMENT: 7 IN 10 ELDERLY ALONE ARE AT RISK

A HOUSE SELECT COMMITTEE ON AGING STUDY OF THE RISK OF LONG TERM CARE INDUCED IMPOVERISHMENT

In examining the risks related to long term care, consideration must be given to two major factors—your risk of needing long term care and your financial risk when you use long term care. As stated in a recent study by the Department of Health and Human Services, elderly persons aged 65-69 years face about a 5 percent risk of entering a nursing home in the next five years and face a 43 percent risk of entering a nursing home during their remaining lifetime. Nearly 7 million people need long term care currently. By the year 2040, this number is projected to triple to 19 million people. (Department of Health and Human Services Task Force on Long-Term Health Care Policies, 1987.)

To document the level of long term care related financial risk faced by the elderly, the Select Committee on Aging, with the assistance of the Villers Foundation, the Urban Institute and Dr. Laurence Branch (Boston University), developed a model for estimating financial risk. This model and the resulting committee study focus on America's elderly as the population most vulnerable because of both long term care need and limited incomes. However, many of the same observations and many of the results related to personal risk apply as well to America's non-elderly. Estimates of long term care induced risk are made for 1) the proportion of the elderly at risk of impoverishment based on the number of weeks in a nursing home or receiving home care and 2) the personal risk of impoverishment based upon that individual's income and financial assets.

PROPORTION OF ELDERLY AT RISK OF IMPOVERISHMENT—NATIONAL FINDINGS

After only 13 weeks in a nursing home, 7 in 10 elderly persons living alone find their income spent down to the federal poverty level. Within one year of entering a nursing home, over 90 percent of these elderly are impoverished. Even when both income and financial assets are considered, nearly one-half (48 percent) of the elderly living alone are impoverished after only 13 weeks in a nursing home. Within one year, two-thirds of elderly living alone use up both their income and financial assets and face a second year of long term care with their life savings depleted and a limited income. (See Table I.)

While the picture for married couples is somewhat less tragic—they either have more income and financial assets or are facing long term care costs for the first time—the impact of long term care costs is still staggering for them. Looking at income only, over one-half of the couples are impoverished after one spouse has spent only one-half year in a nursing home. Even when both income and financial assets are taken into account, nearly one-half of the couples are impoverished after one year in a nursing home. (See Table 1.) This latter situation means that elderly couples face the second year with no financial assets and face the same rate of impoverishment as when income only is considered. Not only are couples at great risk, but the at-home spouses, usually the wife, face their own health and long term care needs with no financial assets and with only limited income.

Though home care is often a viable and preferred alternative to nursing home care, the risk of impoverishment remains great when extensive home care is needed. The Committee staff analysis looks to two different situations, home care provided 7 days per week and home care provided 5 day per week.

The first situation, 7-day-a-week care, would generally be home care for a person needing extensive supportive services. For example, it may be either an elderly person is living alone or an elderly couple is living alone where neither spouse is sufficiently able to be an active caregiver. In this case, home care costs, at a rate of $43 per day, could exceed $15,000 per year. As the study shows, looking at income only, nearly 90 percent of the elderly living alone and two-thirds of couples living alone are impoverished by the end of one year of 7-day-a-week home care. When both income and financial assets are considered, over 60 percent of the elederly living alone and about two-fifths of couples living alone are impoverished by the end of one year of 7-day-a-week home care. (See Table 2.)

The second situation, 5-day-a-week care, more likely describes the case where there is either a working spouse or caregiver or where there is a caregiver, possibly a spouse, who may not be completely healthy and may be able to provide only limited assistance. In this case, home care costs could easily exceed $11,000 per year. As the study shows, looking at income only, over 80 percent of the elderly living alone and over one-half of couples living alone are impoverished by the end of one year of even 5-day-a-week home care. When both income and financial assets are considered, 57 percent of the elderly living alone and one-third of couples living alone are impoverished by the end of one year of 5-day-a-week home care. (See Table 3.)

PROPORTION OF ELDERLY AT RISK OF IMPOVERISHMENT—STATE FINDINGS

While this study of long term care induced financial risk focuses on national data, the Current Population Survey sample was large enough to provide first-time insights into how the elderly fare in some of the larger States. The detailed tables for nursing home care and both 7-day-a-week and 5-day-a-week home care are contained in the original committee study documents. Different States have different percentages of impoverishment for a particular group of elderly due to differing income and financial asset levels as compared to differing costs of nursing home care. Due to the lack of detailed data on home care costs, national average home care costs are used for all States. As a result, different rates of impoverishment among States for home care primarily result from differences in elderly income and financial assets.

The larger States differ substantially with respect to rates of impoverishment. Focusing primarily on a nursing home care and looking at income only, the percentage of elderly couples impoverished after 13 weeks in a nursing home ranges from a low of 15 percent to a high of 59 percent. For the elderly living alone, the risk is much higher—from a low of 56 percent to a high of 79 percent at risk of impoverishment.

When both income and financial assets are included, the percentage of elderly living alone who are impoverished after 13 weeks in a nursing home range from a low of 29 percent to a high of 62 percent. Similarly, for couples living alone, the percentages who are impoverished range from a low of 9 percent to a high of 43 percent.

While "13 weeks in a nursing home" is one critical time period for analysis, a second critical time period is "one year in a nursing home." As elderly persons or elderly couples suffer through a full year in a nursing home and with both their income and financial assets being used up, the prospects for a second year in a nursing home are devastating. At the end of one year in a nursing home, using both the income and financial assets of couples living alone, the percentage of impoverishment in the larger States ranges from a low of 28 percent to a high of 69 percent. For the elderly living alone, the situation is substantially worse. The percentage of long term care induced impoverishment ranges from a low of 56 percent to a high of 82 percent—over 8 in 10 elderly living alone.

INDIVIDUAL RISK OF IMPOVERISHMENT BY INCOME LEVEL

The perilous state of the elderly population as a whole may seem somewhat abstract and distant from the day-to-day realities. However, another part of the analysis looks at personal risk based upon income. If you are over the age of 65, are living alone, and have an annual income between $9,700 and $15,000 (between 200 and 300 percent of the poverty level), you would be impoverished after only 17 weeks, an average, in a nursing home. However, if your annual income is between $6,000 and $10,000 (between 125 and 200 percent of the poverty level), it would take only 6 weeks, an average, in a nursing home before you would be impoverished. Even if you have the average amount of financial assets for this latter income group, your income and your financial assets would last only 32 weeks, an average, after you enter a nursing home. (See Table 4.)

Even for couples, the risk of personal impoverishment is great. Again focusing on nursing home care, couples living alone with annual incomes of less than $13,000 are impoverished after one spouse spends only 10 weeks in a nursing home. Even when both income and financial assets are included, couples with annual incomes between $8,000 and $13,000 are impoverished within 27 weeks, on average, of entering a nursing home. (See Table 4.)

Though several examples have been detailed above, the primary value of the following tables is to examine your own situation or that of your parents or grandparents. You can take your income (or your income and financial assets) and see how long your financial resources would last. If you have parents and grandparents, you can do the same for them. With this sense of the personal risk associated with your family's particular personal circumstances, you can better appreciate why elderly Americans, as well as non-elderly Americans, greatly fear not only a long term illness, such as Alzheimer's disease, but the tremendous personal financial risk that is associated with a long term illness.

BONNIE BLUEBELLS—NEW OLYMPIANS U.S.A.

HON. PAUL B. HENRY

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. HENRY. Mr. Speaker, I am pleased to rise today to recognize the accomplishments to the Bonnie BlueBells, a very talented group of 1,500 students from the State of Michigan who, under the leadership of their directors, Bonnie and Ken Hood, and head coach Mrs. Debra DeGennero, have performed in 19 different countries throughout Europe, including the Soviet Union. In the days following the summit meeting, it is particularly fitting to recognize this group of young people, who through their talents have promoted peace, friendship and understanding among each of the nations they have visited.

One of this countries top baton twirling groups, the Bonnie BlueBells have won over 500 parade awards, and held the Michigan State Championship for 14 consecutive years before retiring undefeated.

Introducing baton twirling to the Soviet Union during the summer of 1986, the Bonnie BlueBells spent 2 weeks performing on concert stages throughout the USSR to enthusiastic and appreciative audiences. As a result of this successful tour, 20 show teams from the United States were invited to participate in a goodwill tour of Russia the following year. The 1987 trip was coordinated by Bonnie Hood who personally handpicked the 1,100 young people that participated. Mrs. Hood has again been selected to issue invitations to performing groups throughout America to participate in the 1988 tour, and she herself will be teaching baton twirling at a number of clinics and seminars being held in the Soviet Union this coming summer.

Mr. Speaker, by promoting goodwill and friendship among people around the world, these young people are building a foundation for the future—the day when they, and others like them, will be the leaders of our great Nation. Doors opened through these cultural tours may well serve as a catalyst in bringing nations together, leading the way for cooperation, friendship, and harmony. Please join with me, Mr. Speaker, and colleagues, in offering our appreciation and best wishes to the Bonnie BlueBells and their leaders, Bonnie and Ken Hood and Debra DeGennero. May they continue to twirl their way into the hearts of people around the globe.

THE REAL PROBLEM: WINNING BACK THE AMERICAN MARKET

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. FLORIO. Mr. Speaker, I would like to call my colleagues' attention to an article that appeared in the November 21, 1987, edition of the National Journal, entitled "Why Trade Deficits Won't Go Away," by Jonathan Rauch.

Mr. Rauch points out very clearly that expanded economic growth in foreign markets, further decline in the value of the dollar, or even a recession in the United States will not produce any sharp turn around in the U.S. trade deficit. Instead, he says, U.S. producers of goods and services must begin to win back the U.S. market before there will be any real change in America's trade decline.

At this point, Mr. Speaker, I would like to insert this article in the RECORD, and I would urge my colleagues to read it.

The article follows:

WHY TRADE DEFICITS WON'T GO AWAY

(By Jonathan Rauch)

Like a man tied to the railroad tracks who knows that help is on the way but does not know when the train is due, observers of the jittery financial markets have reason to ask a disquieting question just now about the trade deficit: What if the long run arrives too late?

Specifically, too late to keep investors from panicking again in the face of continued disappointing trade figures, which are a strong possibility for at least another six months or so. Other things being equal, a lower dollar means that the trade deficit will shrink—eventually. But it also means, perversely, that more bad news, or at least a lack of good news, may precede progress. Judging by recent events, the markets are in no mood for bad news.

The dollar has fallen sharply since Oct. 1—by almost 10 per cent, at one point, against the Japanese yen. Over time, this will make American goods cheaper in foreign markets and foreign goods more expensive here. Americans will buy fewer imports; foreigners will buy more from us.

The problem is the now-notorious J-curve effect, which says that when the dollar falls, things get worse before they get better. The immediate effect of an increase in import prices of, say, 10 per cent is to raise the dollar value of imports by about that much, making the trade deficit that much larger. Only later do buying habits adjust as Americans cut back on imports they buy and as U.S. exports pick up. After a while, the decline in the quantity of imports, combined with a rise in exports, finally gets large enought to offset the higher prices paid for them. The trade deficit starts improving.

So far, so good. The problem is that every time the dollar drops, this cycle renews itself, potentially creating a kind of J-trap. Until the dollar finishes falling and quantities have time to catch up with prices, the trade balance keeps marching up the down escalator, and progress against the trade deficit looks frustratingly elusive just when expectations are highest.

The only way to get the trade deficit down sharply in the near future is if consumers cut back on spending in response to the stock market crash. That could break the economy out of the J-trap quickly. Unfortunately, it's also a good way to start a recession.

There's a view out there [in the financial markets] that we're going to have [monthly] trade reports below $10 billion by the end of the year, and I think that's a pipe dream," said Stephen S. Roach, the principal and senior economist at Morgan Stanley & Co. Inc. in New York. "Every time the dollar falls, you get a new J-curve type of response, and so you just get a series of J-curves on top of each other."

Just give it time, economists tell nervous investors—relief is on the way. Forget it, the stock and currency markets have been replying. On Oct. 14, when the August monthly trade report came in showing a disappointing $15.7 billion deficit, the stock market reacted with a 95-point drop in the Dow Jones industrial average and then panicked a few days later. On Nov. 12, when the September monthly report came in at a more encouraging, though hardly sterling, $14.1 billion, the Dow jumped 61 points, the seventh-largest one-day gain ever.

Despite Wall Street's seeming obsession with them, monthly trade reports don't actually say much of value about the direction of the trade deficit. They fluctuate a lot, even in the best of times. More fundamentally, they measure the trade deficit in pre-inflation dollars. That is how the J-curve hooks itself into Wall Street's tender flesh.

Measured in terms of so-called real net exports, the trade deficit has been dropping steadily and substantially since the third quarter of last year—from $162 billion (in 1982 dollars) to under $140 billion a year later. Real net exports gauge the quantity, rather than the value, of trade; the figures indicate that the deficit in goods trade is shrinking.

What hasn't yet turned around is the deficit in dollar terms. From the third quarter of 1986 to the third quarter of 1987, according to figures compiled by Roach, imports rose only about 3 percent in quantity terms. But because import prices rose almost 13 percent, the overall effect was to show a 12 percent import rise in dollar terms. The rise in import values overwhelmed a 16 percent increase in exports over the same period, mainly because the U.S. imports more than half again the amount of merchandise it exports.

So far, the big disappointment has been that Americans refuse to cut back on their import habit. Even in quantity terms, imports keep edging up. One reason is higher oil imports. Another which is more important, is that foreign manufacturers took huge profits in the past, when the dollar was high, and have been able to use those profits as a buffer against the lower dollar. They have resisted raising their prices here, thus hanging on to their markets.

That strategy has been critical. Expanding the markets for U.S. exports will certainly help the trade deficit. But the relative modesty of exports compared to imports means, Roach calculates, that even if exports grow at a strong 8 percent a year, if import volumes don't come down it will take another six years to close the merchandise trade gap.

The key to the U.S. trade problem is winning back the world's biggest market—our own—from the determined foreign competition. (See NJ, 8/15/87, p. 2087.) The Commerce Department has published a sobering statistic: To balance the U.S. trade accounts by increasing exports alone would require almost doubling the nation's share of world merchandise exports, from 11.2 percent last year to about 20 percent. To put that in perspective, in 1960, when the U.S. exerted unquestioned domination over the world exports was only 18 percent. In other words, exports won't do the job. It is crucial for price increases to start dislodging imports from the U.S. market.

As the dollar sinks, foreign producers can't hold out forever, although their tenacity so far has surprised a lot of analysts. "Our estimates suggest that foreign producers are now at the critical break-even point in their pricing of American imports," Roach said recently in congressional testimony. If he is right, it means that further declines in the dollar will evoke faster and larger import-price increases than in the past. Over the long haul, the lower the dollar gets, the more foreign manufacturers eventually have to raise their prices here, and the more competitive U.S. goods become.

There's that word "eventually" again. It's also true that every time the dollar falls, the J-curve problem fires up again. "If you want to see a contraction in the monthly nominal trade figures"—which are the ones the markets are watching so closely—"then you have to recognize it's not going to occur until the dollar stabilizes or actually appreciates above present levels," Roach said.

That may not happen soon. Indeed, he and many other economists believe that the dollar could fall another 20 per cent, which would mean, given J-curve effects, some big adjustments in trade flows would be needed just to keep the deficit from getting worse. If the financial markets panic again in the meantime, the long run might not get here before the next recession.

"What you're asking for is for prices to make the whole adjustment," said economist John H. Makin of the American Enterprise Institute for Public Policy Research. That strategy didn't work for England in the 1960s, he said, and it won't work for us unless it is accompanied by some adjustments in economic policies: either a recession here, which would knock imports back in a hurry, or—as Treasury Secretary James A. Baker III so fervently desires—stimulus from abroad, to drive up sales of U.S. exports.

Yet even such policy adjustments won't turn the trade deficit around on a dime. A recent study by the Congressional Budget Office (CBO) found that neither a permanent, 1 percentage-point increase in foreign economic growth nor a recession would produce more than small or short-lived changes in the trade balance. What would produce impressive results, the CBO found, is a rapid decline in the dollar's value, to the tune of 25 per cent by 1989. If the CBO is correct, a major improvement in the trade balance is difficult or impossible without a further large drop in the dollar.

Which brings us right back to the seemingly inescapable J-curve: A falling dollar could bring a quick reversal of the trade deficit in volume terms, but a reversal in dollar terms, which is what's needed to begin slowing U.S. indebtedness to foreigners, will be much slower. Lawrence H. Summers, a Harvard University economist, looks at all this and figures that the trade deficit probably won't drop much in the next six or eight months. "If we see anything big at all in the next 12 months, we'd be doing fine," he said.

The financial markets are doing their betting with both eyes on the trade figures that will improve least. A lot of people have high hopes that the dollar's sharp decline will produce a breakthrough on the nation's trade ledgers, but there is reason to think that reality won't change quite so fast.

The stock market crash demonstrated vividly what a financial panic can do to the world economy; an important question in the months ahead will be whether the markets will retain confidence if the long run continues to be agonizingly slow in getting here—or whether they instead conclude, with Lord Keynes, that in the long run, we're all dead.

MINING LAW OF 1872: PROGRESSIVES FAVOR CHANGE

HON. NICK JOE RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. RAHALL. Mr. Speaker, despite all of the official protestations from mining associations that no change should be made to the Mining Law of 1872, I have become increasingly aware of a progressive faction within the mining community which recognizes that this 115-year-old law is no longer conducive to the efficient exploration and extraction of hardrock minerals on public domain lands.

Recently, a mining organization called the Minerals Exploration Coalition [MEC] commissioned survey of its members in an effort to learn their views on changing the mining law of 1872. According to the company which conducted the survey, the response rate was 83 percent and six key questions reflected the membership's attitudes toward changing the law.

While the majority of the responses to these questions indicated opposition of modifying the Mining Law of 1872, it was not an overwhelming majority especially when factoring in the high percentage of neutral responses to certain questions. I believe the questions and responses to these questions are of great interest to those Members concerned with this matter and they follow:

1. I strongly support the Mining Law as written. No change is needed. 53.7 percent agree—5.5 percent neutral—40.8 percent disagree.

2. The mining Law is in need of changes or updating. 46.3 percent agree—14.8 percent neutral—38.9 percent disagree.

3. I support a legislative effort by MEC in concert with other mining associations to oppose any changes to the Mining Law. 53.7 percent agree—16.7 percent neutral—29.6 percent disagree.

4. The Mining Law may need some revision. I do not, however, support any legislative effort to revise the Mining Law because such an effort may result in changes that are not in the best interest of the mining industry. 57.4 percent agree—7.4 percent neutral—35.2 percent disagree.

5. The mining industry should initiate a legislative effort to change the Mining law so that we are defining the issues and the acceptable alternatives and are not forced to defend the industry's position against proposed changes initiated by other groups. 42.6 percent agree—5.6 neutral—51.8 percent disagree.

6. I suppport an effort whereby representatives of the mining industry and the conservation community meet and prepare a list of mutually acceptable changes to modernize the Mining Law. 31.5 percent agree—25.9 percent neutral—42.6 percent disagree.

The company which conducted the survey also compiled a summary of representative statements of opinion both pro and con regarding the Mining Law of 1872 which follow:

"I think it is foolish to argue that the 1872 law has served the country well and we should not tamper with it. Both Australia and Canada have much more modern mining laws, and perhaps incidently, much healthier mining industries than we do."

"MEC should proceed very carefully in tackling this issue. This is the most important and critical issue the mining industry has to deal with, and MEC must be aware of the risks involved."

"Obviously this is an emotional complex issue. The fact that revisions will occur seems inevitable. Aside from taking the 'no change' stand which I view as 'A head in the sand' attitude, the mining community should initiate a change. This will require first, seriously brainstorming abuses (such as assessment abuses) and coming up with productive changes. It is very important for the mining community to come up with these revisions to 'update the 1872' instead of having philosophical changes imposed by special interest groups change its basic concepts."

"I believe the 1872 Mining Law is working well. That's not to say there is no room for improvement but any changes proposed would surely result in some, if not many changes that are not needed. Even with the best intentions of the environmentalist leaders, there could still be a drastic change in their willingness to support the parts of the 1872 Mining Law that the Mining Industry wants left alone. I believe the industry would be best served by quieting the issue but be prepared to move quickly should a bill be introduced."

"The mining industry should be prepared to negotiate reasonable changes in the mining law—prepare all controversial positions clearly without initiating legislation. Mineral patent rights cannot be separated from tenure under unpatented claims—must have one or the other without further questions of tenure."

HUMPHREYS COUNTY, TN, SALUTED

HON. DON SUNDQUIST

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. SUNDQUIST. Mr. Speaker, one of the counties in my district has been taking the initiative to prepare itself to recruit and retain job-creating business and industry and has recently been recognized for its effort. Humphreys County is only the third locality in Tennessee to earn third-year recertification in the Governor's Three Star Award.

The Three Star Award recognizes communities that display the organization, attitude, facilities, and skills needed to retain the jobs they have and to attract new ones. The requirements are demanding. There is a premium placed on long-term planning and cooperation between government officials, the business community, and civic leaders.

Humphreys County, a rural county of 16,000 people, has developed such a program, under the leadership and guidance of County Executive Johnny Fortner and Billy Rice, president of the Humphreys County Area Chamber of Commerce.

The Humphreys County program includes: an award-winning video titled "Building Towards the Future" that is being used as an industrial recruitment tool, and another video, promoting Humphreys County as a tourist destination; efforts by county leaders to win the reopening of the Acme Boot Co. plant in Waverly, and the recruitment of two other manufacturers, Advanced Laundry & Research and Waverly Apparel; a countywide cleanup program; the local chamber's support for the Plant Managers Association; and the construction of a modern spec building in the Waverly Industrial Park.

These are important and positive developments in which the citizens of Humphreys County can take great pride. I applaud their spirit and civic pride and salute them on attaining the Governor's Three Star Award.

Mr. Speaker, what is happening in Humphreys County is a prime example of what American communities can accomplish when citizens are inspired and leaders are bold and forward-thinking.

THE GROWING TRADE DEFICIT

HON. JOHN J. LaFALCE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. LAFALCE. Mr. Speaker, there are two disturbing aspects to the trade deficit statistics which were released yesterday. One aspect is the immediate concern on Wall Street and in today's headlines; the second, a far less dramatic concern, continues to grow like a cancer, undermining the Nation's economic strength and living standards.

The record $17.63 billion trade deficit in October virtually assures that our trade deficit for the year will again set an all-time world record, this time of more than $170 billion. It means that the dollar, already at its weakest point since World War II, will weaken further and buy even less. It means that inflation and interest rates are very likely to raise, perhaps substantially, reducing job creation and slowing economic growth.

It is difficult to overstate the importance of these immediate concerns. While most experts still believe that a recession can be avoided in the months ahead, the odds have been significantly shortened by this latest record trade deficit.

The longer term concern, however, which yesterday's trade figure highlights, is that we are not addressing—and in fact are perpetuating—the enormous structural imbalance in the world economy. To pay for our trade deficits, the United States now owes about $400 billion to foreign lenders and investors—more than all of Latin America combined. We are now borrowing at the rate of over $3 billion per week. We have grown accustomed to our borrowing requirement—our current accounts—being less than our trade deficit. Beginning in the second quarter of this year, however, because of our net interest payments abroad, our current account deficits are now outpacing even our enormous and growing trade deficits. Even if the trade deficit declines next year, our borrowing requirements may very well increase. We could owe $1 trillion to foreign interests by 1992.

This borrowing is allowing us to consume far more than we are producing. At some point, just to service this debt, we will have to produce—competitively produce and sell in tough global markets—far more than we consume. Many of our financial writers are telling us that this will require that we consume far less. That is very likely true. But we must also produce better, more innovative products of higher quality. Yet new business investment is virtually flat over the past 7 years and despite the President's Quest for Excellence Program, we have seen very little action. The time for action is now.

ASSISTANT ATTORNEY GENERAL FOR STATE AND LOCAL LAW ENFORCEMENT MATTERS

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. RANGEL. Mr. Speaker, today I am introducing a bill to enhance cooperation among Federal, State, and local law enforcement agencies. This measure would create in the Department of Justice the position of Assistant Attorney General for State and Local Law Enforcement Matters. Just over 1 year ago the Congress enacted a historic bill entitled, "The Anti-Drug Abuse Act of 1986." This measure passed overwhelmingly with broad bipartisan support. The bill was comprehensive. It imposed more severe penalties on drug traffickers, it made money laundering a crime, it authorized additional equipment to be purchased by law enforcement officials so that they would wage the war against drug traffickers more successfully. It provided badly needed additional resources for international narcotics control programs. In addition, the bill authorized three main grant programs: A program of Federal assistance to State and local governments for narcotics law enforcement; a program of drug abuse education; and a program to enhance existing drug abuse prevention and treatment efforts.

If there is one thing that the hearings conducted by the Select Committee on Narcotics have made clear it is that drug abuse is an international problem. It is absolutely ludicrous to expect our Nation's cities and towns to make a dent in the flow of drugs into and across the United States with purely local resources.

The Anti-Drug Abuse Act authorized a 3-year grant program of assistance to State and local governments to combat narcotics trafficking with $230 million to be authorized in each of fiscal years 1987, 1988, and 1989. Fiscal year 1987 appropriations for the Department of Justice included $225 million for anti-drug abuse grants which were provided for State and local governments to develop and implement a drug control strategy. However, for fiscal year 1988, the administration proposed to eliminate funding for this program. OMB Director James Miller testified before the Select Committee on Narcotics that the administration made this proposal because "programs which primarily benefit a local community should be paid for by that community." I guess Mr. Miller does not realize that all of the heroin, cocaine, and most of the marijuana consumed in the United States is produced outside our Nation. The administration seems to take the position that once illicit drugs get past Federal interdiction agencies, like the Coast Guard and the Customs Service, they become a State and local problem.

Each month more drugs cross American Borders. State and local governments lack the manpower, resources, and intelligence-gathering capabilities to keep pace with the smugglers. The select committee estimates that in 1986, 150 tons of cocaine, 12 tons of heroin, and 30,000–60,000 tons of marijuana reached

American consumers. There are an estimated 600,000 active heroin addicts in the United States. Approximately 25 million Americans are regular users of marijuana, and surveys continue to show that use of cocaine is increasing rapidly.

Mr. Speaker, in all successful organizations there is a manager or management team, whose job it is to see that the objectives of the organization are realized. In testimony, letters, and concerns received by the Select Narcotics Committee, it is my strong belief that State and local law enforcement officials feel that they have been left out of narcotics law enforcement strategy planning. We have heard that many major cities have not received their fair share of funds under the grant program enacted last year. Many State and local law enforcement officials deride the absence of intelligence-sharing with Federal law enforcement agencies and often are confused about respective enforcement responsibilities in areas of concurrent jurisdiction with Federal authorities.

The duties of the Assistant Attorney General for State and Local Law Enforcement Matters, which the bill would create, would be to serve as an ombudsman for State and local law enforcement agencies with respect to matters involving the Department of Justice and such agencies. Specifically, this additional Assistant Attorney General would have responsibility for criminal and civil forfeiture actions involving State and local law enforcement agencies; and State and local law enforcement task force programs carried out with agencies of the Department of Justice. Additional duties of the Assistant Attorney General for State and Local Law Enforcement Matters would be to provide staff support and to coordinate the activities of the Bureau of Justice Assistance; and to perform such other duties as may be vested by law in the Assistant Attorney General for State and Local Law Enforcement Matters.

The creation of this position in the Justice Department would give State and local enforcement agencies a full-time Federal official to whom they can present their problems and concerns without being lost in the present bureaucratic maze. It will achieve a better integration of our Nations' law enforcement resources and achieve a more effective national drug enforcement strategy.

I note that Congressman BENJAMIN A. GILMAN, the ranking minority member of the select committee, as well as Congressmen FORTNEY H. "PETE" STARK, JAMES H. SCHEUER, DANIEL K. AKAKA, FRANK J. GUARINI, DANTE B. FASCELL, WALTER E. FAUNTROY, EDOLPHUS "ED" TOWNS, and JAMES A. TRAFICANT, JR., have joined me in cosponsoring this legislation.

Mr. Speaker, I ask that the complete text of the bill be entered into the CONGRESSIONAL RECORD at this point.

H.R.—

A bill to authorize the appointment of an Assistant Attorney General for State and Local Law Enforcement Matters, and for other purposes

THE SUCCESS OF LIBERTY CIRCLE

HON. HENRY J. HYDE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. HYDE. Mr. Speaker, in towns and cities across this Nation Americans are celebrating the 200th anniversary of the U.S. Constitution, an enduring and unique document enshrining the human rights and freedoms that are the envy of the civilized world.

It is with much pleasure that I congratulate the students, teachers, and parents of Fullerton School in Addison, IL, for the manner in which they celebrated this most important anniversary.

In October, a group at the school gathered to dedicate "Liberty Circle," a living tribute to the enduring work of James Madison and the other early leaders who met to draft the Constitution in Philadelphia in the summer of 1787.

A focal point of the monument is a rock symbolizing our constitutional foundation. Adjacent to the rock is planted a tree and a number of shrubs, a feature intended to symbolize the vigor and hope this document brings to successive generations of Americans.

Many people had a hand in the success of "Liberty Circle," among them were Joseph A. Patricelli, the school principal; Terry Cultra, who donated the tree; Kevin Coogan, who gave his time and talent to prepare a site, set the rock and plant the foliage; Jeff Didricksen, the student council president; the Fullerton PTA; and Janina Sather and Carol Nuzzo, without whose help the idea never may have come to fruition.

EULOGY OF HOWARD PYLE

HON. JON L. KYL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. KYL. Mr. Speaker, former Governor of Arizona Howard Pyle passed away recently. I request that the following eulogy, written by former minority leader of the House of Representatives John J. Rhodes, be inserted in the RECORD:

EULOGY OF HOWARD PYLE

Howard Pyle. Who was he? Those who did not know him might ask that question, but he would not. He knew who he was.

He knew that first he was a child of God, and that he had implicit faith in his Maker. Many of his most precious moments were spent in using his God-given eloquence to describe with deep reverence the sun rising over the Grand Canyon on many an Easter morning. That talent was shared with his fellow man in his radio portrayal of matters great and small—from his role as the sole radio reporter to describe the Japanese surrender aboard the USS Missouri to his early morning KTAR radio newscasts with which many Arizonans, including Betty and John Rhodes, started each week-day.

He knew that he loved his family of all generations. His devotion to them, and his pride in each of them, were hallmarks of his being. Next to them, he loved America and Arizona. When duty called him to serve his state and nation, he responded willingly.

Howard felt strongly that his beloved state would be better governed if it had two viable political parties. So, he became the prime mover in making that a reality, and in so doing gave our state four brilliant years as its governor. The capability and dignity with which he served as governor brought credit both to him and our state.

At the end of his tenure as Arizona's governor, he answered a call to join President Eisenhower as a key White House assistant. He was specifically charged with studying ways for decentralizing some of the functions of the Federal Government, and providing the states with the financial means to assume many tasks which they could perform better than could Washington. Much of the spade work done by Howard Pyle became a base for Federal revenue-sharing in later years. If President Eisenhower were here today, he would tell you, as he once told me, that Howard Pyle was not only extremely capable and intelligent, but was a delight to be around. He was serious when the occasion demanded seriousness, but had a ready sense of humor that brightened many otherwise dismal occasions.

Howard's presidency of the National Safety Council brought enhanced attention to the general subject of human safety. Many new and effective programs were begun during his 15 year tenure. Howard was always pleased and proud that the American industry and populace are increasingly safety conscious, due in large part to the efforts of the National Safety Council.

When Howard "retired" to Tempe, the depth of his community involvement would have been a full-time job for a lesser person. Among other activities, he continued to share his wisdom by writing a regular column for his old friend, Francis Connally, publisher of the Tempe Daily News. His last appearances on a ballot occurred when he was twice elected to the Board of Directors of the Central Arizona Water Conservation District. His industry, wisdom, and knowledge of Arizona's water history will be missed by his fellow Board members.

After the members of his family and his many friends, who will miss Howard the most? I suggest that those to whom he was a role model—the epitome of a really good man and faithful, effective citizen—will miss him most. Yet, in the hearts and minds of those people—who must number in the thousands—there will always be a bit of Howard Pyle to spark those ideals he valued so highly—that they might be passed on from generation to generation.

This, then, is the heritage Howard passes to each of us. He was a man who was respected, honored, and admired as few men are, yet he was a man who knew how to be a true friend, and to walk humbly with his God. We do not mourn his passing on to a far better place. Instead, we celebrate his life, in humble gratitude to God for this great gift shared by all of us who knew and loved our friend, Howard Pyle.

CHARLES MURCHISON AND HIS LIFE OF DYNAMIC ACHIEVEMENT

HON. CHARLES E. BENNETT

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. BENNETT. Mr. Speaker, on November 13, my dear friend Charles Murchison passed away at the age of 88. These were 88 years of optimism and dynamic leadership that inspired everyone who knew him. I submit herewith an article by Bill Foley in the Florida Times-Union which eloquently speaks of how I and my constituents feel about this truly great man.

The article follows:

CHARLES MURCHISON'S PERSPECTIVE HELPED JACKSONVILLE BECOME CITY

(By Bill Foley)

Charles Murchison never mentioned it, at least around me. Didn't have to. He carried it easy enough. Maybe it never occurred to him.

Mr. Murchison, who died Friday, Nov. 13, at 88, was one of the few who were party to the whole story of modern Jacksonville.

From right after the Great Fire to right after The Jacksonville Landing.

Other Jacksonville lives have spanned this century. But few so watched the passing parade from the very top step as Murchison. Few so closely rubbed shoulders with the marchers: the movers and shakers, the spearcarriers and the bit players, the leaders and the legends and the lost; famous persons and persons you never heard of.

Chic Acosta, John Alsop, John Matthews, Turner Butler, Tom Imeson, Ed Ball, Haydon Burns—these were people to Murchison, long before they became bridges and highways and airports and buildings and libraries.

But for each of these who became a landmark, how many more thousands of Jacksonvillians must there have been whose lives intertwined with Murchison's over the generations, who shared the common memory of the city as its history unfolded?

Murchison was of the upper strata of society. For half a century he was one of the city's most prominent attorneys. He belonged to the world of the Florida Yacht Club, the River Club and Ponte Vedra.

To me, Murchison epitomized that not-so-forgotten graceful past of Jacksonville, a time and place evoked by mention of the Windsor Hotel and Hemming Park, when it was a park; of memories of Riverside Avenue canopied by mossdraped trees and of acorn-splattered sidewalks of six-sided stones of blue and gray.

Yet for 13 years Murchison also was president of the city's Travelers Aid Society, which is not exactly downtown Rotary. For another six he was chairman of the Duval County Welfare Board. For 14 years he was on the executive board of the Community Chest.

I knew him for eight years when he was a member of the Downtown Development Authority, from 1972 to 1980.

These were desultory years for the Downtown Development Authority, of leisurely afternoon meetings when nothing much seemed to happen, even though it was during these years that everything happening in downtown Jacksonville today was made possible.

History came to life in Murchison's casual conversation during these afternoons. His remembrance was not overbearing. Just of little things that came to mind. People. Places. Passing events.

The past has a way of bouncing off people when put in common terms of wars or presidencies. Looking back at the commonplace gives a perspective to the times spanned by Murchison's full and varied life.

Consider that when Charles Holton Murchison was born in January 1899 in Greensboro, N.C., also on Friday the 13th, the first railroad sleeping car to pass through Jacksonville was the top news of the day. The city Board of Public Works voted to pave Adams Street with oyster shell.

In 1917 Murchison was graduated from Duval High School—then Jacksonville's only high school. Voters rejected annexation of Fisher's Corner, at 15th Street and what is now Phoenix Avenue. Metropolitan Opera star Geraldine Farrar sang at the Duval County Armory. Mayor J.E.T. Bowden declared war on stray dogs. The St. Johns River Bridge Association opened headquarters at the Dyal-Upchurch Building to offer "information of a correct and truthful character relative to the bridge across the river."

Murchison returned to Jacksonville in 1921 after graduation from the University of Michigan. Mayor John W. Martin ordered stray dogs shot. South Jacksonville residents held mass meetings to protest tolls on the new bridge.

In 1924, Murchison received his law degree from Harvard and helped form the Jacksonville law firm of Stockton, Ulmer and Murchison. John Alsop was in the first of his six terms as mayor. The first midnight movie was shown at the Palace Theatre. The mayor was obliged to attend. The Seminole Hotel was said to be the first Florida hostelry to offer free orange juice to guests.

The young attorney began 13 years as president of the Jacksonville Travelers Aid Society in 1926. The Carling Hotel—later named the Roosevelt—opened that year.

Jacksonville's downtown streets became one way, to the confusion of all concerned. Professional baseball returned to the city after several years' absence, with the birth of the Jacksonville Tars. The ice-less refrigerator was hailed as the greatest boon to womanhood since the invention of the sewing machine 60 years before. Sheriff W.H. Dowling appointed Pauline Wilder as Duval County's first woman deputy sheriff.

In 1933, Murchison began six years as chairman of the Duval County Welfare Board. Lane's Drug Store offered a jumbo, double-dipped ice cream soda for a dime. The Jacksonville Motor Transit Co. replaced trolley cars with motor coaches. Jax Brewing Co. produced its first draught beer in what The Florida Times-Union described as "an amber Niagara that flowed frothing and bubbling into a thousand mugs, steins and glasses." The Jacksonville Merchants Association voted to close stores Thursday afternoons during the summer.

In May 1941, Undersecretary of War Robert Patterson appointed Murchison to the War Department's Civilian Board of Review to administer the tax amortization law for defense contractors. Troops arrived at Camp Blanding. The Atlantic Coast Line Railroad unveiled the East Coast and West Coast Champions. The School Board was three weeks late paying teachers. "Portia Faces Life," the story of a beautiful, widowed mother and lawyer who fights desperately to make her way in a man's world, moved to a featured time slot on radio station WJAX.

For more than 20 years Murchison's law firm operated in Jacksonville and Washington. In the late 1940s, he became a director of Capital Airlines. In 1951, the year Jacksonville Mayor Haydon Burns was in an auto wreck that totaled his car on his way to a campaign speech and made it anyway. Murchison was elected chairman of Capital's executive committee.

In retirement, Murchison helped the Downtown Development Authority revive a town that was only being built in his young manhood. He sat one day in the DDA office on the 12th floor of the American Heritage Building and idly mentioned talking with Ed Ball, the financier, then in his 90s, about how they wished they were 55 again and knew what they knew now.

HAROLD WASHINGTON

HON. CHARLES A. HAYES

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 10, 1987

Mr. HAYES of Illinois. Mr. Speaker, for the benefit of Members unable to attend the memorial service of our former colleague Harold Washington, I am submitting for the RECORD a eulogy by Speaker JIM WRIGHT:

STATEMENT BY SPEAKER JIM WRIGHT, DECEMBER 10, 1987

Two weeks ago, our nation lost one of its great champions of justice—Harold Washington, who died at his desk working for the city that he loved. Harold Washington's election as mayor of Chicago was a vivid example of how the doors of opportunity can be opened in America. Though he displayed leadership as a young man, Harold probably never thought he would ever be a successor to the legendary Mayor Daley.

Harold Washington came to the U.S. House of Representatives in 1980 after serving 12 years in the Illinois House and four years in the Illinois Senate. As a freshman, he played a crucial role in the successful extension of the Voting Rights Act of 1982. He became a close colleague of mine in the House, and I was sorry to see him leave us in 1983 after he was elected Mayor of Chicago, the third largest city of the United States.

He narrowly won that election as an outsider, reform Democrat, taking on the political machine. But earlier this year he was reelected easily as Chicagoans sought his continued leadership. He ran a government based on the principle that "Chicago works together." That meant all races and all ethnic groups.

Harold Washington will be remembered for his great leadership. During his 55 months in office, he initiated a number of programs to make Chicago a model city, proof that an urban metropolis could achieve harmony among its diverse communities. But it is more than just his civic accomplishments that he will be remembered for. We will remember his good fellowship, his impeccable integrity, and his political bravery. And most of all, we will remember his love for his fellow man.

DR. CHALLINOR SPEAKS ON THE FEDERALIST/ANTI-FEDERALIST BALANCE

HON. DOUG WALGREN

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. WALGREN. Mr. Speaker, the United States Association of Former Members of Congress observed its 17th anniversary this fall to coincide with the bicentennial of the U.S. Constitution. As a part of their program, there was a presentation at Princeton University where several scholars spoke on the U.S. Constitution. I was particularly impressed with the presentation made by Dr. Joan R. Challinor on the role of the anti-Federalists during the debate on ratification. I want to insert her comments in the RECORD at this point and commend them to the attention of my colleagues:

On September 18, 1987, we had a document, framed by fifty-five delegates and signed by thirty-eight, ready to be presented to the people of the United States. These delegates, twenty of whom were under forty years of age, labored throughout the summer of 1787 to mold a new government. Their action differed from the charge they were given by the Continental Congress: to meet "for the sole and express purpose of revising the Articles of Confederation." Their confidence in themselves and in their ability came not from their years, which averaged forty-five, young by any standard, but from their familiarity with the political process. Since the Stamp Act of 1763, the subject of political science had been uppermost in the minds of Americans; by 1787, they had been wrestling with the most basic questions of political power and organization for twenty-four years. During that quarter of a century, a Stamp Act Congress and two Continental Congresses had been established; the Declaration of Independence and the Articles of Confederation had been written; a revolution had been successfully managed; and a most advantageous peace had been negotiated. At the Constitutional Convention, political science in its largest sense was in the delegates' blood as well as in their prepared minds.

The convention having concluded its work, the new, untried, as yet unknown Constitution was, on September 18th, presented to the country for ratification by special ratifying conventions. Remember, secrecy had prevailed during the Convention—no one but the delegates knew what the provisions of this new government were. When the news broke, never before had newspapers given so much space to a political event, never were they more eagerly read.

We had no Constitution on September 18, 1787—a document was all we possessed. And this document was as dry as the parchment on which it was written. What was needed to give it life was the people's assent—their imprimatur. This was to be no easy task, but it was to be the greatest democratic exercise of our country's founding. The ratifying conventions, as historian Linda Kerber pointed out, were far more democratic than the state legislatures and far more democratic than the Convention itself, most of whose delegates would have qualified for the "gentry" class.

We do a grave disservice to our country if we overlook the ratification process and declare the Constitution a reality in September 1787. Some people, surfeited by the Statue of Liberty celebration and the observance of the bicentennial of the framing of the Constitution, may think we are on historical "overload" and suggest that we not commemorate the bicentennial of the ratification debates. I beg to differ: I welcome the opportunity to explore the deep and searching discussions of political science which followed the signing of the Constitution in Philadelphia. These debates which followed the presentation of a new Constitution to the American public were the most penetrating and widespread since those of the English Civil War in the 1640's.

Compared to the debates during the English Civil War and during the French Revolution to come, however, the Federalist-Anti-Federalist debates were mannerly, polite, and managed within the existing political structures. The arguments took place both in the ratifying conventions and in the newspapers. The most famous writings in favor of the Constitution appeared under the pseudonym, "Publius," and are now known as the Federalist Papers, yet there were many Anti-Federalist articles embracing positions against the Constitution which were both trenchant and pointed.

During the debates, no blood was shed, no guillotine erected, no armies clashed on a battlefield. Yet the differences between the Federalists and the Anti-Federalists were real and the engagement hard fought. The importance of the encounter gives substance to the words of John Quincy Adams: The American Revolution, he wrote, "was a work of thirteen years . . . The Delcaration of Independence and the Constitution of the United States are part of one consistent whole, founded upon one and the same theory of government." If we count thirteen years from 1776, we arrive at 1789, when our new government was fully established, not 1787, when the Constitution was written.

As the country turns its attention to the aftermath of the Constitutional Convention—the ratification process—my hope is that Americans will once again listen attentively to both sides of the argument. We should try to understand both the Federalist and the Anti-Federalist view. This historical balance is one of the great advantages which can accrue from historical celebrations. At the time of victory, the winners trumpet their advantage; the losers' views are lost in the hurrahs. Shortly after a war or a great political upheaval, there is little time and less inclination for a calm, judicious evaluation of the event. For the winner, all roads lead to victory and paths not taken—discarded options, opportunities missed—are firmly put aside. Hopefully, over centuries, passions can cool; discussions can produce more light than heat; a balance between opposing views, impossible at the time of the event, can be restored, and time can do its healing work. The "losers" have their chance to be heard with attention and with scholarly regard. The "winners" can admit to failings and errors of judgment which in the heat of the event were never brought to light.

To respect and pay attention to the arguments put forward by the Anti-Federalists is not always easy. We know the outcome from our vantage point, two hundred years after the event. We know that the Constitution fashioned in Philadelphia has endured, that it has been and is durable yet resilient, energetic yet restrained. But if we think ourselves back into the year 1788 when the battle of ratification was waged, we know nothing of the future. We know only that a convention established "for the sole and express purpose of revising the Articles of Confederation" had delivered to the people for their acceptance or rejection a radically new Constitution, establishing a greatly strengthened central government with revolutionary principles untried in the United States: separation of powers, checks and balances, and federalism.

It was in the end a very close call for ratification, and those who warned, hesitated, and cautioned were men of stature, of experience, and of substance: Patrick Henry, George Mason, Elbridge Gerry, George Clinton, and others. These men were not cowardly, they were not nay-sayers; theirs was not a constricted view which prevented them from seeing the value of the proposed Constitution. Patrick Henry thundered in the Virginia debates, "Who authorizes gentlemen to speak the language of We, the people, instead of We, the states?. . . The people gave them no power to use their name." To the Anti-Federalists, the states and the powers vested in them were overriding importance. In the end, when the arguments were fully understood, theirs proved to be the weaker position. Further, because they were politically fragmented, were unable to put foward a single coherent view, were lacking the organization of the Federalists, and presented arguments which were less persuasive, they lost the battle against ratification of the new Constitution.

But the Anti-Federalists fought for aspects of government which we still hold dear today: states' rights, identification with localities, and a very healthy fear of unrestrained power in the national government. Ultimately it was their warnings, their hesitancies, and their unwillingness to vote an unambiguous "yes" for the Constitution which produced our Bill of Rights. Although the Bill of Rights, as we know it today, turned more on the individuals' rights than on the states' rights as the Anti-Federalists wished, it was their insistence that forced Madison to author and push through our Bill of Rights. To the Anti-Federalists we owe the enumeration of our basic rights without which, I think we today would all admit, our Constitution and our lives would be very much the poorer. In the end they forced the Bill of Rights on unreceptive Federalists—on towering figures like James Madison and James Wilson. A Bill of Rights was unnecessary, the Federalists claimed, because the Constitution gave the central government only delegated powers and left all other powers to the states. Why not then, asked Patrick Henry, make these rights specific—"would it," he asked, "have taken too much paper?"

The Federalists may have given us the Constitution, but the Anti-Federalists gave us our Bill of Rights. Both sides deserve our attention and our gratitude. I hope that throughout this bicentennial of ratification, discussions will clarify the position of the Anti-Federalists for millions of citizens and create a new respect for the value of opposition. Certainly George Washington well understood the importance of his Anti-Federalist adversaries. He wrote:

"Upon the whole, I doubt whether the opposition to the Constitution will not ultimately be productive of more good than evil; it has called forth, in its defence, abilities which would not perhaps have been otherwise exerted, that have thrown new light upon the science of Government, they have given the rights of man a full and fair discussion, and explained them in so clear and forcible a manner as cannot fail to make a lasting impression * * *".

Respect for opposition is as important in 1987 as it was in 1788. If we give full attention to the great ratification debates, we will undoubtedly sharpen our own skills in political science. It is a happy coincidence that 1988 is also an election year. We need our political skills not only to choose worthy candidates, but to hold the nominees to the highest standards of character, devotion to duty, love of country, and statesmanship. We are called upon to do this by the very form of government the Founders gave us—a republic.

Asked by a citizen what kind of government the Convention had proposed for the country, Franklin replied, "A republic—if you can keep it." His reply should give us pause, because Franklin was speaking metaphorically to us in 1988 as well as to the United States in 1788. To paraphrase Marshall McLuhan, we are not passengers on this voyage of the United States republic, we are the crew. You and I. On December 7, 1787, when Delaware's delegates ratified the Constitution, they stated that they did so "fully, freely & entirely." As members of the crew we must, in the same spirit as Delaware's delegates, enter into and understand the ratification debates of 1788 and the political debates of 1988 (no matter from which side), and thereby be worthy of the republic we inherited. From those to whom much is given, much is expected.

1988 provides us all with the opportunity to affirm and assent to what was done on our behalf in 1788. We cannot go back 200 years and sit in the ratifying conventions ourselves, but we can ally ourselves with what was done for us. We can cast our "aye" for the Constitution of 1787 and for the Constitution of 1987. I suggest there is no more important task and none more worthy of the great bicentennial in which we have been fortunate to participate than for us to hold, cherish, understand, and, in Franklin's phrase, to "keep" the great republic of the United States.

Thank you.

VETERANS' HEALTH CARE

HON. SOLOMON P. ORTIZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. ORTIZ. Mr. Speaker, today, I am introducing a bill that should contribute to beneficial health care provided our Nation's veterans.

This bill will authorize establishment of a veterans' hospital in south Texas. This bill will provide the Administrator of the Veterans' Administration authority to acquire and construct a medical facility on a suitable site in south Texas. I am honored that Mr. DE LA GARZA, the distinguished chairman of the Committee on Agriculture, is an original cosponsor of this bill.

My colleagues, while significant strides are being made to provide both the health care and facilities for our Nation's veterans, we still fall short of meeting the needs of this ever growing group who have dedicated their lives so that this Nation, under God, may prosper. It is not proper for our Nation to turn its back on the very men and women who enable us to enjoy the freedom we hold so dear. This feeling was expressed earlier this year as both Chambers passed a concurrent resolution, introduced by the distinguished chairman of the Committee on Veterans' Affairs, Mr. "SONNY" MONTGOMERY, expressing the opposition of Congress to budget proposals that would reduce the Veterans' Administration's capacity to provide health care to eligible veterans.

The State of Texas is home to more than 1.7 million veterans of which approximately 305,000 are over 65 years old. By the year 2000, this figure will exceed 500,000. This "graying" of the veteran population is an important consideration in the placement of facilities and health care services. Nationally, from 1980 to 1984, the veteran population aged 65 and older increased from 3.2 to 4.6 million, a 45-percent increase. By the year 2000, veterans 65 and older are expected to number about 9 million. The importance of this could not be underestimated, for the Veterans' Administration knows that the need for medical care increases with age. With this many elderly veterans, existing medical facilities will be stressed beyond capacity.

It is interesting to note from the May 1986 United States General Accounting Office Report to Congressional Requesters, "VA Health Care Allocation of Resources to Medical Facilities in the Sun Belt," (GAO/HD-86-70), that from 1981 to 1985, the veteran population in the Sun Belt increased less than 1 percent, while the veteran population in the rest of the country declined almost 4 percent. Concurrently, the demand for veteran health care increased more in the Sun Belt than elsewhere, even though the increased workload was greater in the rest of the country than for those in the Sun Belt. The Veterans' Administration explained this disparity by indicating that the financial condition, health, and the kind of care required by veterans in the North resulted in the increased workload, while migration increased the number of applications for care in the warmer climates. The veterans in south Texas feel this ever increasing migration when they go to obtain health care services at nearby Veterans' Administration medical centers, or in my district, are referred to the closest Veterans' Administration hospital in San Antonio, some 160 to 185 miles away. A number of the veterans are incapable of driving these distances and/or do not have family members able to transport them to those facilities.

Efforts between the Department of Defense and the Veterans' Administration to share health resource facilities and personnel are improving. As of June 1986, 97 Veterans' Administration medical centers had negotiated sharing agreements with over 120 of their military counterparts. At the national level, the Veterans' Administration and the Department of Defense signed an agreement this past year, that for the first time established a referral process for active-duty patients to Veterans' Administration medical centers from military or civilian hospitals. Such use of veterans' facilities, while alleviating health care access by active duty personnel and their dependents, could adversely affect health care available to veterans who, due to their category, may have a lower priority for receiving medical care.

It is for these reasons, collectively, that I offer these bills and request your favorable support.

VOTE AGAINST H.R. 3100

HON. MICHAEL BILIRAKIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. BILIRAKIS. Mr. Speaker, yesterday the House of Representatives passed H.R. 3100, the foreign aid authorization bill. I voted against final passage of that bill, and I would like to take this opportunity to explain why.

When I first came to Washington in the 98th Congress I did so partly because of a promise I made to my constituents in the Ninth District of Florida. I told them then that I wasn't a fan of foreign aid. I told them that the United States wastes—yes, wastes—a great deal of the assistance it offers to other nations because we get little in return.

I told them that U.S. aid—American tax dollars—should be given only to those countries that have proven themselves to be our friends and allies, and I promised them that I would be guided by this belief.

I stand by that promise, and I could not in good conscience vote for the foreign aid bill that passed in this Chamber yesterday having made that promise.

Omnibus spending bills with countless amendments, such as H.R. 3100, are not conducive to getting the most for our money—and Mr. Speaker, just what are we getting for our money?

During 1985, the most current data available, the United States spent $30 million in foreign assistance on Mozambique. In that same year, Mozambique's support for the United States on a survey of 10 key votes in the United Nations was exactly zero percent. The United States spent $176 million on India in that same year for zero support, $19.7 million on Madagascar for zero support, $3.9 million on Ethiopia for zero support, $2.5 million on the Seychelles for zero support and $2.1 million on Benin for zero support. I submit that this isn't a very good return for our money, and things haven't changed all that much.

For instance, the bill this Chamber passed yesterday includes a $50 million earmark for the Southern African Development Coordination Conference [SADCC]. SADCC includes, among others, Zimbabwe, Mozambique, Tanzania, Malawi, Zambia, and Angola—countries that unfailingly vote against the interests of the United States, and rarely have anything good to say about us.

Furthermore, in approving this $50 million earmark, the House waived the Brooke amendment that prohibits assistance to any country that has defaulted for more than 6 months in payment of loans made available under the Foreign Assistance Act.

Mr. Speaker, what leverage does this leave us in collection of loans outstanding to these nations that so routinely revile us?

This bill also expresses the sense of Congress that the President should encourage our European and other allies to join the United States in applying sanctions against the Republic of South Africa, sanctions that have been proven to be ineffective.

I must say that the above examples are a slap in the face to nations who have supported the United States before the world in the United Nations—nations such as Canada, France, and Israel.

I have been to Israel and seen first hand the strength and intensity of the Israeli spirit. I have seen what Israelis have done in their land—turning desert into fruitful ground; creating cities where there was nothing. I was impressed and inspired by this spirit.

For many reasons, I believe that the United States must not fail in its support of Israel. We may not see eye to eye on all issues, but not many nations do—and our differences are far outweighed by the mutual benefits of our international relationship.

Nevertheless, I felt that H.R. 3100 was so flawed that, the much better Broomfield substitute having failed, I was compelled to vote against the committee bill. This, I would hope, would demonstrate the depth of my misgivings about this bill.

Fortunately, the long-term continuing resolution has already passed the House and it includes the same amount of funding for Israel as H.R. 3100. Thus, I was able to express my profound disappointment with H.R. 3100 and not hurt one of America's staunchest allies in the United Nations and elsewhere.

Let me say in conclusion that I hope the other body will see fit to address the many wrongs in this legislation and to make of it a true instrument of a foreign policy in the best interests of this Nation.

In foreign policy there should be compassion, but there should also be justice and self-interest. It is clearly in the self-interest of the United States to get something in return for the money we spend abroad. Indeed, that money should be an investment and not just another futile giveaway program.

THE SUMMIT AND IMPROVED AGRICULTURE TRADE

HON. E de la GARZA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. DE LA GARZA. Mr. Speaker, earlier this week I had the honor of attending the state dinner at the Soviet Embassy. It was a beautiful event and a perfect capstone to the overwhelming success of this most recent summit between the world's two most important superpowers.

I had the opportunity to present General Secretary Gorbachev with a copy of "Our American Land," the 1987 Yearbook of Agriculture. I felt that this book was an appropriate gift not only because of my own position as chairman of the House Committee on Agriculture, but also because of the longstanding interest the General Secretary has had in agriculture and the management of land resources.

Like Mr. Gorbachev's own recently published book "Perestroika" which discusses the General Secretary's vision of the restructuring of Soviet society, "Our American Land" provides a superb recounting of the restructuring of our own American agricultural system over the past 200 years. I sincerely hope the General Secretary takes the time to read this excellent book and perhaps will find in it some helpful ideas for improving his own country's agricultural system. I have been assured that the book "Our American Land" will be translated for him to review.

Agriculture is a vital economic and diplomatic link between the United States and the Soviet Union. Both countries' economic progress has been closely tied to the success of their agricultural systems.

I hope this summit will lead to improved agriculture trade between our two countries. But more importantly, I, like every American citizen, hope this summit has been successful in improving the relations between our two countries for years to come, pointing the way for other nations to a secure and lasting peace, indeed allowing us "Peace on Earth."

IT IS NEVER TOO LATE TO HONOR A HERO

HON. ROBERT K. DORNAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. DORNAN of California. Mr. Speaker, the Congressional Medal of Honor is the highest award of valor our great Nation can bestow. It is awarded for acts of courage above and beyond the call of duty. On November 17, the House of Representatives passed House Joint Resolution 384 which designates February 12, 1988, as Congressional Medal of Honor Day.

While House Joint Resolution 384 gives special recognition to those individuals who have been awarded the Congressional Medal of Honor, there are countless numbers of instances where American men have selflessly risked their lives and never received recognition for their heroism. When these acts are brought to our attention, we should not hesitate to act. I would like to share with you one such act of valor that has been brought to my attention—the story of Tibor Rubin:

At the outbreak of the Korean conflict, Tibor Rubin volunteered to serve his new-found homeland. Rubin was born in Hungary and spent 14 months in a Nazi concentration camp during World War II. After the war he emigrated to the United States and began his studies to become a citizen. Within a year he was a United States Army volunteer, on his way to Korea, prepared to fight for a country not yet his own.

During the Korean conflict, Cpl. Tibor Rubin served his chosen country and his fellow soldiers well. In the field, Corporal Rubin distinguished himself with valor on more than one occasion. But it wasn't until he was wounded, and then captured by the North Korean forces, that his exemplary conduct earned him the undying respect of those who served with him. It was his courage and his dedication to the United States and his fellow soldiers during his ordeal in a North Korean POW camp that I nominate Tibor Rubin for the Congressional Medal of Honor.

Mr. Rubin spent 44 months as a prisoner of war in Korea. Though suffering innumerable indignities himself, Mr. Rubin assisted other prisoners—often risking his own life well beyond the normal call of duty. He attended wounded men by cleansing their wounds to keep infection down; he fed the men who were unable to feed themselves. Often Mr. Rubin had jeopardized his own life by stealing food from the North Koreans, not for himself, but for those who were too weak, too infirm to care for themselves. Stealing food was a "capital crime" if caught. Upon his release from the prison camp he hid the names of the men who were not yet released in his leg cast. Had this list been discovered, his own release would have been forfeited and his life imperiled. Once back in the United States, at his own expense and initiative, he personally contacted the families of those on his list. In many instances he was giving many of them their first information of the whereabouts and condition of their loved ones.

His unselfish acts were witnessed by many and only recently have their eyewitness accounts come forward. Each man believed that Corporal Rubin had already been recognized by his country for his acts of courage. It wasn't until many years later, at a gathering of ex-POW's that Rubin's former comrades learned that his deeds had gone unnoticed by all but those fortunate enough to have served with him.

Tibor Rubin received his U.S. citizenship in 1953. He was proud to be an American, and proud that he could serve his country. Tibor Rubin, without a doubt, clearly distinguished himself with gallantry and uncommon valor, at the risk of his life well above and beyond the call of duty, not once but many times over. He never asked for anything in return; he never sought recognition.

For his selfless acts of valor and risking his life for his fellow man beyond the call of duty, I have introduced legislation to waive the time limitation so that Tibor Rubin can proudly wear his country's highest award of valor—the Congressional Medal of Honor.

Mr. Speaker, I would like to share with you some of the touching letters I received and urge all our colleagues to support me in this effort:

MAY 1, 1987.

Hon. ROBERT K. DORNAN,
U.S. House of Representatives,
Washington, DC.

DEAR CONGRESSMAN DORNAN: During the late part of 1985, I received a letter from M/Sgt. Randall J.J. Briere from San Antonio, Texas, who was with me in the North Korean Prisoner of War Camp for 36 months. He found out that I live in California, and he was very happy to inform me that Tibor Rubin is alive. When I heard that, I could not believe it. We all believed that Tibor Rubin was killed by the Chinese, but thank God we were wrong. When I heard the good news, my heart started beating fast. I felt like I will faint. I started to cry from happiness, and made a thank you prayer to our Lord to let the man stay alive. The man who saved my life and the lives of so many other GI's. M/Sgt. Briere told me that Tibor Rubin is recommended for the "Medal of Honor" by some of the Ex-Pow's who found out that he is alive, and who's lives he also saved. I figured that I have to do something myself too, but how?

I have to tell you that ever since I came home, I can't talk about my life as far as the War is concerned, but especially my Prisoner of War days. I can't talk to my family or friends. I still have nightmares about the Prisoner of War Camp. I have severe panic spells. Periods of nervousness and the feeling that I must get out of a room or place. Shortness of breath, and I can't be with people. I get so nervous many times that I fear that I will go crazy. I have severe headaches, chest pains and I became like a hermit. I had a stroke in 1978, then in January 1987 I had a 5 by pass operation and because I got sick, I checked in the Long Beach Veterans Hospital the end of March 1987. I am now under group therapy as an outpatient and because I am sick physically and mentally, and my time is running out I asked the Lord to help me open up somehow to talk about the man who saved my life and the lives of many other GI's.

It took me 2½ weeks to write this letter. It was one of the hardest and most painful things I had to do in the last 35 years, but I had to do it. I had to open up even though it hurts so much. I do relive the horrors in the 36 months I spent in the Prisoner of War Camp in North Korea.

My name is Carl McClendon, and I was born in Flora, Louisiana on January 7, 1931. I joined the U.S. Army on May 28, 1948. My serial number is RA 18276659 and I stayed in the Army until February 12, 1956. Almost 8 years. I got out as a Sgt. First Class. I went to Japan and was stationed in Camp Otsu and I was in the 25th Infantry Division. Then I went to Korea July 12, 1950 and I was in the B Company 1st Batallion 35th Regiment, 25th Division. The war was very bad, but I did not know that the worst was yet to come. I was taken a Prisoner of War on Nov. 27, 1950 around Ipsop, North Korea. My life and many other GI's lives all of a sudden became a nightmare. We were not trained or prepared for such a life. We were captured in our summer uniforms and the weather was real cold. Later it became so cold that we started getting sick in no time. Our wounded did not have medical care. We hardly had any food, only a little corn twice a day. We started getting dysentery, pneumonia, later Beri-Beri and our nerves started getting bad and the real starvation started. We started to die. When we got to Camp #5, we were weak and disoriented. We never faced death like that before. Our lives became hopeless. In no time, everybody was for himself. Nobody cared, and many of our fellows started praying to ask our good Lord to let us die. Our GI's started dying at a rate of 30 fellows per day.

I am 6'1" and I weighed before capture 195 to 200 lbs. My weight started getting down. I went down to 95 to 100 lbs. in a few months. Everywhere was death. Smell, filth, lice and all kinds of sicknesses. I had dysentery, worms, Beri-Beri, night blindness, chills, fever. My nerves started to crumble. Our most important thing was food. We thought, dreamed and that's all we talked about food and food.

One night, a few weeks later in Camp #5, someone was crawling toward me and told me in very bad English to keep quiet. Then he came closer and reached in his fatigue pants and his pockets, and he started giving me some food and a few others as well. It was Rubin like we called him later, that young man, who I did not really understand his English. He first started coming every evening a few hours when it got dark. He used to bring corn, millet, barley, turnips and vegetables. He used to take care of the wounded people. He was like Santa Claus to us. When he came over, it was like Christmas to us. I asked him quite a few times, how will I ever repay you Rubin? He told us: "You can repay me, please don't tell my name to anyone." Later on we found out that his name was Tibor Rubin (PFC) Ser#RA19-363581 from I Company 8th Cavalry Regiment, 1st Cavalry Division. Even though we liked to have the food and the medical care, we knew he could not carry out those actions every day.

Unfortunately in our camp also in his squad, there were a lot of turncoats and informers and squealers. They would sell their country or fellow GI's for some extra food. Rubin used to tell the GI's, Please, don't beprofile, because if he ever got turned in to the Chinese or the North Koreans and got caught, this would be his end. He would get shot on the spot.

Every day we had to go to Communist lectures. They tried to brainwash us. They talked about war mongers and Capitalism. Rubin used to tell the GI's. Please, don't believe all that Horse Shit. They don't have anything to offer you. In the USA we were eating bacon, eggs and pancakes. These communists do not have anything to offer. In no time the Chinese found out that Rubin used to tell the GI's, Please, don't beso every day he was put on cleaning the toilets detail, carrying the buckets of waste, or he was put on 5 to 6 times a day burial detail, but nothing broke his moral. The more the enemy pushed him, the braver he became. He told us that his war was not over. We have to hit the enemy under the belly where it hurts. But we asked: "How can we do that?" or How will you do it Rubin? Well, he told us: The Chinese and the North Koreans do not have too much food for themselves. So stealing their ration more and more, will hurt them more than to kill them. So every day, when it got dark, and we went to sleep, Rubin was on his way, crawling on his stomach, jumping over fences, breaking in supply houses, while the guns were looking down on him. He tied the bottom of his fatique pants and filled up anything he could get a hold of. He crawled back and distributed the food that he had stolen and risked his life. Between the wounded, the very sick and the dying, he washed us. Took care of our wounds, force fed us. Talked to us about not giving up. We will go home he used to tell us. Our troops will liberate us. Your family is waiting for you. Please, don't give up. In day time, he carried the very sick to the toilet. Cleaned their rear from the disentery. Washed up the dying ones.

The Chinese asked him a few times to go back to Hungary. They promised him good jobs. They told him: You are a Hungarian citizen. Why do you fight the rich man's war? Rubin asked us what would some of us do. We told him: Rubin go back, get out of here, we all will end up in Siberia and die like animals. They wanted to let him go back to Hungary, when 30 to 35 guys died every day and no one knew who will be next. Rubin told us: No way will he ever go back, and leave his comrades. They needed him here. And no way would he bring shame to his family back in the good old USA.

Rubin had guts. The Chinese planted a nice victory garden in springtime 1951. Cucumbers, radishes, onions, soy beans and tomatoes. Nobody was allowed to go close to the garden. Our mouths were watering as we saw it grow. One tomato was worth a million bucks if we could have it. Well, one day Rubin told us: Carl if the good Lord helps us, tomorrow there will be harvest day. I really did not know what he was talking about. But the next day around midnight we found out. Rubin had tomatoes, onions, radishes, cucumbers and turnips. We asked Rubin: Where did you get it? He told us, the Chinese donated it to us. Well the next morning, when the Chinese woke up, they saw the damage. They probably first blamed each other, but later on the Commander Lam, a skinny fellow ran around screaming, that they knew who had done it and the people better come forward voluntarily. Rubin told us "If the fools know who did it, they would get him already."

Well, in no time we lost 1600 young American GI's. In no war did we lose so many young people as in the Korean War.

Many of us died the very dirty way that first winter. No man should die the way they did. Rubin was very proud of his accomplishment to save and try to save our lives, and when he helped some one and tried everything and lost some one, he was heart broken for weeks. When he lost Charles H. Lord, 304 W. 70th St., Jacksonville, Florida, who was from I Company, 1st Cav, one of the first ones from his Company, it was hard on him. Then he lost Frank Smolinsky, 1007 Hess Ave, Erie, PA, I Company, 1st Cavalry, he really took it hard. Then around April 1951, he lost Sgt La Rose. I don't know his address, I Company, 1st Cavalry, he really was down for awhile. To get rid of his hurt and angryness, he stole more food. That is the only way he knew to get even. One time he stole a whole bag of potatoes. Boy o Boy, did we have a Thanksgiving. I'll never forget how sad he was for weeks, when William K. Bonner died in June 1951, with Beri Beri. He was from I believe FFD #1, Sault St. Marie, Michigan. Rubin saved his life twice. He was doing O.K. and all of a sudden he got Beri Beri. He was so swollen up Rubin told us that he had to carry his testicles in his hands so he could walk. Rubin took it real hard, because he was working so hard to try to save Bonner's life, but this went on like that all the time. Later on we were separated from Rubin and I was transferred to Camp 4 in Aug. 1951.

Rubin's Sgt, Sgt Randall J. J. Briere from I Company 1st Cavalry a real anti-Communist was transferred to the reactionary Camp, where we met later on. I believe M/Sgt Briere and Rubin are the only ones who are alive today from the I Company, who spent 30 months or more as a Prisoner of War.

Now I told my story. While I was writing it I was in tears and nearly a breakdown. There is no way I can tell you what it meant to be a Prisoner of War in North Korea for 36 months. We lost 51 percent of our Comrades. It was a plain nightmare, which none of us will ever forget.

As far as Mr. Tibor Rubin, well M/Sgt Randall J. J. Briere wrote in his letter to Congressman Les Aspin on Jan. 7, 1986, that in the front lines Rubin was cited for an award. M/Sgt Briere later updated a letter on Feb 2, 1987 that Rubin was written up for a decoration for Valor above and beyond the call of duty. So Rubin was already then an outstanding soldier.

I know most of Rubin's family was killed by the Germans in WW 2 and he also was a prisoner of the Nazis. Maybe that is where he learned to be so cunning and brave. He had more courage, guts and fellowship than I ever knew any one had. I went thru the war and Prisoner of War Camp and I have to say, that I never met any one to be a better soldier than Tibor Rubin. He is the most outstanding man I ever met with a heart of gold. Tibor Rubin committed every day Bravery that boggled my mind. How he ever came home alive is a mystery to me. I wish I knew sooner that he is alive and I wish I could open up before to tell about this brave man. I thank God that the good Lord was good to me, so I can tell a little about this fine human being Mr. Tibor Rubin.

Tibor Rubin in my opinion really deserves 10 or 15 Congressional Medal of Honors for what he did for his fellow GI's under the most difficult conditions. But I know he only can receive one. I am very proud and happy to recommend Mr. Tibor Rubin: 1. "The Congressional Medal of Honor" for saving my life and at least 40 other Prisoner of War for his conspicuous gallantry and intrepidity above and byond the call of duty. 2. I recommend Tibor Rubin for the "Distinguished Service Cross" for his acts of Bravery during many months of captivity. He placed his life on the line. Not one occasion, but many times, to come to the aid and assistance of his fellow Prisoner of Wars. He clearly distinguished himself by gallantry and uncommon Valor above and beyond the call of duty, risking his own life. 3. I recommend Mr. Tibor Rubin for the Silver Star because of the code of conduct he performed while he was a member of the United States of America in an exemplary manner Article III. "If I am captured I will continue to resist by all means as possible." Well, while the enemy guns were looking down on him, he took the most precious things from the enemy, their food supply, every day, and hit them in their stomachs every day, where it really hurt them. While he did all those things, he was not born in the USA and he was not an United States Citizen.

We as a nation have to honor an Ex-Soldier like Tibor Rubin, and I pray to God that I can stay alive, so I can stand next to Mr. Tibor Rubin proudly when he receives the "Congressional Medal of Honor" and the DSC and the Silver Star from our President.

Thank you for helping us Ex-Prisoner of Wars and Ex-Korean Veterans.

Respectfully yours,

CARL MCCLENDON.

ASSOCIATION OF EX-P.O.W. OF THE KOREAN WAR, INC.,
San Antonio, TX, June 3, 1985.

Hon. BOB DORNAN,
U.S. House of Representatives, Washington, DC.

SIR: I am Randall J.J. Briere, President of the Association of Ex-P.O.W. of the Korean War, Inc., a non-profit organization chartered in the State of Iowa. I am also a member of the committee to assist in the purpose of attaining for Mr. Tibor Rubin the Congressional Medal of Honor award for his unselfish and heroic acts above and beyond the call of duty prior to and during his thirty months as a prisoner of war.

I was PFC Rubin's Sergeant in Co. I, 8th Regt., 1st Cavalry Division in Korea. He arrived there in August 1950, was wounded, went to the hospital in Japan and returned to the unit when released from the hospital.

With careless regard for his own safety, Tibor Rubin selflessly tended wounded persons during the heat of battle when no medical personnel were around, most often alongside Father Emil Kapaun. Tibor also gave moral support to young fellow soldiers, many of whom without Tibor's help most likely would not have survived.

Father Kapaun, chaplain of our unit, known as the Chaplain of Korea, had two jeeps shot from under him but still was right there to help the sick and wounded. He died in prison camp in 1951 as a result of untreated gangrene in his leg, the same type of wound suffered by Tibor Rubin. To this day Mr. Rubin has had continuing problems with his leg which has never completely healed.

As a combat pilot on numerous missions in Vietnam, you would certainly recognize extraordinary bravery when you see it and it is for this reason we ask your help.

It is my sincere belief that Mr. Rubin should receive the belated tribute due him, as evidenced by the other letters you have received from Mr. Elitto, chairman of our committee, to attain this long overdue award of honor.

This country has long helped and praised many persons of foreign countries. I feel there are many persons here also that deserve that same respect and honorable recognition, and Mr. Rubin is one that deserves such. Even after capture he gave unstintingly of himself to bolster morale of young hopeless POWs on the verge of giving up and shared his meager ration, that some lived and returned home. Many have written testimonials they would not be alive today were it not that Tibor Rubin showed that he cared.

The understanding in the Military was that an individual had to have been recommended by an officer for a medal. As in the case of prisoners of other wars, we came home, in 1953 anxious to forget what had happened, retreated into our own shells, and lost track of one another. Although I have worked on my own for ten years with no help from the Federal Government to locate all former POWs of Korea and now have 1,800 names with confirmed addresses, I thought Tibor Rubin was dead and only found him in 1980 through the American ex-Prisoner of War Organization files.

We have long and persistently attempted to have Mr. Rubin awarded this honor but were told the matter would have to have been tendered within a specific time period and that the time limit for this award was expired. This is not a valid reason as evidenced by the following.

President Carter in 1980 awarded the medal to two former WW II POWs:

Lt. Col. Matt Urban—36 years after the fact: and to Anthony Casamento—37 years after the fact.

Thirty-two years ago prisoners of war were released in Korea—five years less than time elapsed when the two cited awards were made.

Knowing Mr. Rubin as I do, I am firmly convinced that were the situation reversed and you needed his help, in his totally unselfish way he would go the last mile and strive to his utmost to have justice done for you.

In that spirit, Mr. Dornan, and with your knowledge of the Military which has shown justice is not always meted out equally, we solicit your help/support/sponsorship in a Congressional vote to award the justly deserved Congressional Medal of Honor to Tibor Rubin. It would be a very sad state of affairs should this matter continue to drag on and perhaps result one day in a posthumous award of the Medal.

We would most sincerely welcome your early reply, hopefully with the good news you will help us either to deliver the papers to the President or have a bill introduced to honor Mr. Rubin with this award.

Thank you for your time. We would very deeply appreciate the direction of your energies to see this action through.

May God bless and preserve you and your family and favor your efforts in Congress.

Very truly yours,

RANDALL J.J. BRIERE,
President, M/Sgt, US Army Ret.

OCTOBER'S TRADE DEFICIT DEMANDS SPEEDY ACTION ON TRADE BILL

HON. DON BONKER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. BONKER. Mr. Speaker, the monthly trade statistics released yesterday by the Commerce Department revealed a $17.6 billion deficit for October, a $3.5 billion increase over September's deficit. These figures paint a grim picture, and fly in the face of the administration's assurances that the falling dollar would solve our Nation's trade deficit problem.

There is no longer any doubt that this year's trade imbalance will be even higher than last year's $156 billion trade deficit—the seventh new record in 7 years.

Our trade crisis is more than just dry statistics. Behind the numbers are millions of lost jobs, continued crumbling of our industrial base, and severe economic dislocations in many local communities.

Yesterday's announcement sent stock prices plummeting to new lows in New York and London, as investors demonstrated their waning confidence in our national economy.

It is long past time to stop rationalizing and ignoring the trade deficit. It is time to act decisively on farsighted policies to put our Nation on the road to recovery.

While it appears that 1987 will post another recordbreaking trade deficit, we can and must act to lower next year's trade deficit and to halt the erosion of our economic situation. Final action on H.R. 3, the omnibus trade bill, should be our first priority in 1988.

The omnibus trade bill is the most comprehensive competitiveness package ever considered by Congress. Unfortunately, the President continues to attack the bill as protectionist, and the media has focused more on the President's attacks than the many positive features of the trade bill.

Both the House- and Senate-passed versions of H.R. 3 would increase our Nation's export promotion and export financing efforts, help break down trade barriers that hurt U.S. exporters, eliminate unnecessary export controls on our electronics manufacturers, and boost our Nation's ability to compete through improved education and training.

Currently, House and Senate conferees are meeting to hammer out the differences between the two bills. It is no easy task—both bills are roughly 1,000 pages long, and the conference involves over 200 Members. While I do not support every provision in either bill, I am confident that the final conference agreement will establish a tough, but fair trade policy for our Nation.

Apologists for the trade deficit have pointed out that a falling dollar causes the price of imports to soar temporarily, and that the month of October generally produces the highest monthly deficit figures of the year. I would argue that the dollar has been falling for 2½ years, but 1987 is still shaping up as the worst in American trade history.

Congress cannot ignore the trade deficit—we must take responsible action. A further drop in the dollar alone will not solve the crisis. Let's make passage of a sound trade bill the first item on our agenda next year.

HON. JAN MEYERS

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mrs. MEYERS of Kansas. Mr. Speaker, during consideration of H.R. 3100, International Security and Development Assistance Act, I missed three rollcall votes because I was at the White House farewell ceremony for General Secretary and Mrs. Gorbachev. Had I been present, I would have voted "yes" on rollcall 470, "no" on rollcall 471, and "yes" on rollcall 472.

A SALUTE TO DR. JERRY C. LEE, GALLAUDET UNIVERSITY'S SIXTH PRESIDENT

HON. STEVE GUNDERSON

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. GUNDERSON. Mr. Speaker, one of the best honors I have had while serving in the U.S. House of Representatives is to have been selected and appointed to serve as a congressional trustee to Gallaudet University in 1985. It has been rewarding to be associated with this fine institution and to witness its many achievements and growth over the past few years. It is appropriate to attribute many of the recent strides accomplished by this 123-year-old institution to its sixth president, Dr. Jerry C. Lee.

Regrettably, Dr. Lee soon will be returning to the private sector. Dr. Lee's tenure at Gallaudet University is truly distinguished. His valuable contributions and leadership to the unique mission of Gallaudet University over a brief period of time will be preserved in its history. Just one of the many milestones achieved in Dr. Lee's tenure is the incorporation of Gallaudet into a university.

Mr. Speaker, Gallaudet University has certainly benefited from Dr. Lee's foresight, ingenuity, and leadership over the past 3 years. Some of his many accomplished goals include, but certainly are not limited to:

Broadening academic opportunities for Gallaudet University students by establishing new degree programs including, a certificate of advanced study in gerontology, a master's degree in speech-language pathology with an emphasis on deafness, and a master's degree in mental health counseling for deaf clients.

Establishing a school of management.

Expanding additional Gallaudet University regional centers across our country to effective include 45,000 hearing-impaired individuals, their families and professionals in California, Florida, Hawaii, Kansas, Massachusetts, and Texas.

Gallaudet University, since opening its door in 1864, has grown to serve as an international symbol and resource of opportunity for hearing-impaired individuals of all ages. Dr. Lee's efforts have continued this international vision for Gallaudet University by establishing cooperative programs with Brazil, Chile, Costa Rica, and Puerto Rico.

Targeting constituencies with special attention focusing on midcareer hearing-impaired persons, international students, minority students, older hearing-impaired individuals, students from mainstream programs, and transfer students. I firmly believe this is an important initiative for Gallaudet University as demographic trends compel our universities to look beyond their traditional role and respond appropriately.

Dr. Lee and the Gallaudet University family should be commended for being distinguished as the "Best Liberal-Arts Institution in the East" in the 1987 U.S. News & World Report survey of college and university presidents. Previously, under Dr. Lee's leadership, Gallaudet College in 1985 was ranked No. 3 of "smaller comprehensive institutions." Such designation illustrates the depth and quality of the university community at Gallaudet. Gallaudet is getting better with age.

It is remarkable that Gallaudet University has expanded its focus and mission during years of Federal budget constraints, by using effective cost-saving mechanisms and reallocating existing program funds. Other entities of our Federal Government would do well to take a lesson from Gallaudet University's effective management practices.

Achievements made by Gallaudet University under the determination of its sixth president will enhance the educational future of hearing-impaired individuals for years to come. As I have shared with Dr. Lee on an earlier occasion, this has a very personal significance for me because we have in my family a hearing-impaired youngster who we sincerely hope will become not only a student but a graduate of Gallaudet University.

This evening the Gallaudet University community is hosting a tribute to honor its sixth president, Dr. Jerry C. Lee. I would personally like to extend my heartfelt appreciation to Dr. Lee for his dedicated service to Gallaudet University and to the hearing-impaired individuals of all ages who are touched by the many activities and services of this institution. Best wishes to Dr. Lee in his new endeavor, and much happiness and success to the Lee family.

TRIBUTE TO MARTIN AND SIMA JELIN AND JACK AND ERNESTINE BURSTYN

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. TORRICELLI. Mr. Speaker, it is with great pleasure and respect that I rise today to pay tribute to four outstanding citizens from my State who are to receive honorary doctoral degrees at a testimonial dinner sponsored by the Rabbinical College of America.

The Rabbinical College of America in Morris Township, NJ, is an affiliate of the worldwide Lubavitch movement and serves as its headquarters for the State of New Jersey. Founded in 1956 in the city of Newark with 10 students, it expanded in 1971 to its current 15-acre campus, where 300 students from 24 States and 10 countries are now enrolled.

Over the years, the college has gained an international reputation for scholarship and has considerably broadened the scope of its activities to include extensive communal service. Through the diverse academic program of lectures, seminars, and community affairs, the college prepares its students for careers as rabbis, teachers, and community leaders. Accredited by both the New Jersey State Board of Higher Education and the Association of Advanced Rabbinical and Talmudic Schools, graduates from the college receive a bachelor of religious studies degree.

Martin and Sima Jelin are prominent in communal activities and dedicated supporters of the Rabbinical College. They are actively involved in many social and educational institutions and exemplify commitment and civic responsibility. Martin, president of Karnak Chemical Corp., is a member of the board of trustees of the college. He is president of the Jewish Community Council of New Jersey and president of the Hebrew Youth Academy. In addition, he is vice president of the Essex County United Fund and president of the Rutgers University Hebraic Studies Department. He also sits on the board of trustees of Rutgers University. Sima, a graduate of Mount Holyoke College and vice president of Kislak Co., is one of those special few who can truly make a difference. Never indifferent to the needs of others, she serves on numerous communal organizational boards, including Newark Beth Israel Medical Center Auxiliary, the YM-YWHA of Metro New Jersey, the United Federation of Metro West and the Mount Holyoke Chair of Jewish Studies.

Jack and Ernestine Burstyn have long been known for their generosity and unswerving dedication to the concepts of humanitarianism. Jack, a highly successful real estate developer in New Jersey, New York, and Pennsylvania, is noted for his willingness to respond to the needs of a myriad of essential causes. He serves on the Board of Jewish Federation of Central New Jersey, the Central New Jersey Home for the Aged, and is honorary lifetime chairman of the YM-YWHA in Union, NJ. In addition, he is past president and presently an active honorary president of the Jewish Education Center in Elizabeth, NJ. Ernestine has long demonstrated her sense of caring, concern, and civic responsibility as a member and leader of Women's Division of Israel Bonds, Jewish Educational Center in Elizabeth, and B'nai B'rith in Springfield, NJ. She is an active and well known life member of the auxiliary of the Central New Jersey Home for the Aged. The Burstyns have most recently sponsored the creation and erection of a sculpture in Jerusalem which was dedicated to the everlasting memory of the 6 million who perished in the Holocaust.

Martin and Sima Jelin and Jack and Ernestine Burstyn are being honored for their moral and financial support of the college and for their unstinting participation in the life of their community as well as many national educational institutions. They represent the spirit and dedication of their community and their country. I am proud to join in paying tribute to their efforts.

TRIBUTE TO JOSEPH P. FILIPPONE

HON. JIM COURTER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. COURTER. Mr. Speaker, I rise today to pay tribute to Joseph P. Filippone. After 37 years of service to his country, Mr. Filippone will retire on December 12.

After graduating from St. Peter's College in Jersey City, NJ, in 1950, Mr. Filippone was hired as a pyrotechnician at Picatinny Arsenal. In 1953, the transferred to the personnel office as a position classifier. He went on to serve in most areas of personnel management at both the staff and operating levels.

Two of Mr. Filippone's assignments were overseas with the Department of the Army. He served as chief of position classification in Paris from 1963 to 1965 and as chief of recruitment and career management in Heidelberg, West Germany, from 1971 to 1975. Upon his return to the States he was named the fifth personnel officer of Picatinny Arsenal.

Mr. Filippone's dedication to his professional career is duplicated in his dedication to community service. He serves on the board of directors for the Salvation Army in Dover, NJ, and he is an adviser to the Morris Hills School Board. He has also served as an adjunct faculty member of the Florida Institute of Technology, teaching personnel management and industrial relations.

I would like to thank Mr. Filippone for his many years of service to this country, and I wish him and his wife Joan well in all future endeavors.

NOW IS THE TIME FOR TURKEY TO RESOLVE THE TRAGEDY OF CYPRUS

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. BROOMFIELD. Mr. Speaker, with elections out of the way in Turkey, now is the time for that Government to improve its international image by resolving the problems of Cyprus. A withdrawal of Turkish troops would be a welcome first step.

As we all know, Turkish voters recently elected Prime Minister Turgut Ozal to lead that country. Those of us who must run for office appreciate the amount of effort that the Prime Minister expended in his recent election victory. With this success behind him, what better time for the Turkish Government to begin to focus on the important issue of Cyprus. Time is of the essence.

While Turkey gained enhanced prestige with these first civilian-run elections since the military coup of 1980, the image of that country would improve dramatically if progress were made on the Cyprus problem.

A recent incident involving Greek Cypriot women clashing with Turkish troops on Cyprus clearly highlights the tragedy of the illegal occupation of that island. The stalemate in peace talks concerning Cyprus creates frustrations and tensions between Greece and Turkey. A future clash in the eastern Mediterranean over Cyprus will undermine NATO's vital southern flank. It will do irreparable harm to the security of the free world. Now is the time for real progress on the Cyprus problem. Turkey cannot afford to ignore the Cyprus problem any longer. A withdrawal of Turkish forces would be a prudent first step.

THE LIFE AND ACHIEVEMENTS OF HIGH CHIEF SALANOA

HON. FOFO I.F. SUNIA

OF AMERICAN SAMOA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. SUNIA. Mr. Speaker, in 1945 a young American Samoan chief circulated a petition among the chiefs and leaders in my territory, asking the Governor, who was appointed at the time, to establish a legislature for American Samoa. The Governor ignored that request, but not for very long. In February 1948, the Governor authorized the establishment of the legislature, and this young chief was elected by the village of Tula, American Samoa, as its representative to that first legislature.

He later became speaker of the house of representatives and president of the senate. In fact, his illustrious legislative career spanned 32 years. The gentleman of whom I am speaking is High Chief Salanoa S.P. Aumoelualogo, and I rise today on the floor of the U.S. House of Representatives, privileged to enter a brief mention of the life and achievements of this outstanding American into the records of Congress.

High Chief Salanoa was born in the village of Alao, American Samoa, on March 27, 1912. After attending local schools, he began his careers in education, as a teacher, in agriculture, as an extension agent, and in business, as an exporter of Samoan handicrafts. Soon after he circulated his petition, he became one of the organizers of a general assembly of the Samoan people. This body resolved to request formally the establishment of the legislature.

During his decades of dedicated public service, High Chief Salanoa demonstrated a unique ability to understand and accept changes as ways to improve the lot of the Samoan people. He was vice chairman of the First Constitutional Committee, chairman of the Second Constitutional Committee and later chairman of the Constitutional Convention. He also chaired the first and second Political Status Commissions for the territory, which produced the reports which have become the blueprints for our political development. In the course of his capacity as a legislative leader, High Chief Salanoa made frequent visits to Washington, attending hearings on subjects related to American Samoa, and, in the process, made the acquaintance of many Members of Congress who still remember him quite vividly.

As a practitioner before the High Court of American Samoa, High Chief Salanoa was known well for his legal work on matai titles and land issues. He joined other local lawyers 15 years ago to form the American Samoa Bar Association.

High Chief Salanoa is married to Fa'aalo of the village of Masefau, American Samoa, his wife of 53 years. They have 14 children, 40 grandchildren and 10 great-grandchildren. Despite his many duties and responsibilities as a territorial leader, High Chief Salanoa still found time for his village and community duties. He is presently the president of the Combined Parent and Teachers Association of Matatula and a leading member of the Tula Christian Congregational Church.

Mr. Speaker, every member of this great body is proud of constitutents like High Chief Salanoa. I am more than proud of this man; I owe him greatly for teaching me the legislative process and for leading my people. You see, Mr. Speaker, I served with him in the territorial Senate for 8 years before coming to Congress. In those years we worked together, fought each other and differed strongly on many issues, but we have remained friends through the years, and my respect for this leader of my people has never diminished.

BERNARD BARTIKOWSKY CELEBRATES 90TH BIRTHDAY

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. KANJORSKI. Mr. Speaker, I rise today to bring to your attention a very American success story from the Wyoming Valley of northeastern Pennsylvania. Bernard Bartikowsky, who will be 90 years old on January 28, is being honored by the University of Pennsylvania Alumnae Association. I am pleased to join them in paying tribute to this fine gentleman and personal friend of my family.

Bernard Bartikowsky graduated from the University of Pennsylvania Wharton School of Business in 1919. He returned to the Wyoming Valley to work with his father, Max, in the jewelry store on Main Street in Kingston. An immigrant from Lithuania, Max Bartikowsky had established the jewelry business a century ago in 1887 and operated it until his death in 1927, when Bernard took over. Under Bernard Bartikowsky's leadership, Bartikowsky Jewelers has become one of the Nation's leading diamond organizations.

Mr Bartikowsky has been a generous contributor to many worthy causes and organizations. He has maintained strong ties to the University of Pennsylvania, which several years ago presented him with the Alumnus of Merit Citation, the most prestigious award given annually by the Alumnae Association. Many local colleges and universities have benefited from his generosity. He is a member of the Century Club and President's Club of King's College, the John Wilkes Club and President's Club of Wilkes College, the President's Club and President's Circle of the University of Scranton, and has been a benefactor of Marywood College, Pennsylvania State University, Wilkes-Barre Campus, and the Jewish Theological Seminary. A charter member of Temple Israel since its founding in 1921, Mr. Bartikowsky has also been a longtime member and benefactor of the Jewish Community Center.

Mr. father was a classmate with Mr. Bartikowsky at the University of Pennsylvania, and I have known him and his family since I was a child. His name and reputation are well-known and respected throughout the Wyoming Valley. His civic leadership and pride in this family and community are trademarks of notheastern Pennsylvania, and the twinkle in his eye represents the spirit of our area.

Mr. Speaker, Bernard Bartikowsky embodies the best of the American dream. He has succeeded in his business, yet never forgot the community which fostered his success. I am pleased to bring to the attention of my colleagues in the House of Representatives this story of well-deserved success.

MAZEL TOV TO THESE FORTUNATE COUPLES

HON. E. CLAY SHAW, JR.

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. SHAW. Mr. Speaker, I rise today to honor the people of Temple Emeth, a senior citizen congregation in Delray Beach, FL, on the occasion of their third annual golden anniversary jubilee celebration. The golden anniversary celebration honors those special synagogue members who have been married 50 years or more.

On December 15, over 40 couples are expected to stand before a golden chupah and reaffirm their marriage vows. Marriage is a glorious institution and I want to take this time to recognize these special couples. Mark Twain once said, "Love seems the swiftest, but it is the slowest of all growths. No man or woman really knows what perfect love is until they have been married a quarter of a century." The couples that will be assembled at Temple Emeth are truly fortunate. These couples have experienced marriage together for half a century, twice the time parameters set by Mr. Twain.

Over 2,000 people are expected to witness and share the joy of this golden anniversary jubilee celebration. I wish to congratulate these remarkable people on this special occasion. I would also like to commend the dedicated people behind the golden anniversary celebration for honoring their fellow members and for continuing this fine tradition into its third decade.

Mazel tov to these fortunate couples.

CAPT. JOHN HUNT: A COURAGEOUS U.S. MERCHANT MARINER SERIOUSLY WOUNDED IN THE PERSIAN GULF

HON. ROY DYSON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. DYSON. Mr. Speaker, I rise in recognition of Capt. John Hunt, one of several seaman that were seriously injured during the cowardly Iranian Silkworm attack on the reflagged United States oil tanker, the *Sea Isle*

City, on October 16, 1987. Unfortunately, Captain Hunt, a distinguished member of the International Organization of Masters, Mates and Pilots, will not fully recover from eye damage he sustained during the attack.

While we all celebrate the spirit of the holiday season it is important to remember our merchant mariners who are spending their holidays in the extremely volatile Persian Gulf. It is vital that we, as Americans, reinforce the morale of these brave men who sacrifice so much in their willingness to move cargo from destination to destination, at any time, regardless of the high risks to themselves and their vessels.

It is my sincere hope that Captain Hunt continue his recovery and maintain the high spirit which personifies U.S. merchant mariners. Mr. Speaker, in closing I would like to express my deep sense of gratitude to Captain Hunt and all the U.S. merchant mariners who perform their duties under extreme conditions with much enthusiasm and great skill.

LONG-TERM CARE INCENTIVES PACKAGE

HON. DON RITTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. RITTER. Mr. Speaker, even after the catastrophic health care bill winds it way through the legislative process, senior citizens will still have big worries about long-term care. The real problem we hear about from the constituents in our districts is long-term care, not necessarily linked to illness, but stemming from medical advances and improved healthier living which grant people longer lives.

As we all know, the intentions to take the major financial worries out of the future for the elderly were not addressed by the bill which is going to conference. Since there are no provisions in it to cover long-term home care, nursing home, or other such expenses, it is imperative that we develop a variety of incentives that will take steps toward addressing the concern over the high costs with long-term care provisions. Today, I introduced legislation to provide a package of incentives to improve people's ability to plan for their own future needs for long-term care.

The long-term care incentives package recognizes the private sector's recent development of long-term insurance through a series of options presented in a nonbureaucratic framework. Instead of laying the groundwork for a new Government entitlement program that could eventually bankrupt the Medicare trust funds, this incentive package encourages markets to provide a solution which not only helps individuals protect themselves against long-term catastrophic medical care expenses, but also saves money for the Medicare trust funds. And it keeps the administration of the activities decentralized. We've all witnessed the bureaucratic nightmare of Medicare and Medicaid. A greater private initiative is in order.

The first provision would allow individuals an income tax credit of up to $100 per month for expenses incurred for maintaining a household for dependent senior citizens 65 years of age and older. I originally introduced this provision as a bill in the 97th Congress.

We all know new resources must be expended. Let's promote long-range savings to help meet these needs. Let's take advantage of the fact that the United States has an extremely high per capita square footage of housing that can be made available for seniors, particularly once children have left the nest. Let's allow for those who might wish to bring grandparents or other seniors in the home. This could mean seniors helping seniors.

The second provision, adopted from similar language in legislation introduced by Representative FRENCH SLAUGHTER of Virginia, encourages health care savings accounts by providing a 50-percent tax credit for the amounts invested—up to the amount of one's Medicare deduction—by themselves or by their employer in such private accounts.

The third provision allows for tax free assets to be transferred from IRA's and life insurance policies to pay premiums for qualified long-term care insurance and provides exclusion from taxable income for benefits received for long-term health benefits.

The fourth provision creates a federally chartered reinsurance corporation which will provide backup to insurers, helping to keep long-term insurance affordable. These provisions represent an effort on the part of Representative MATT RINALDO of New Jersey, in his work as ranking member of the Select Committee on Aging.

I am pleased to be joined by the bipartisan group of original cosponsors including Representative MADIGAN, Representative CLINGER, Representative BOEHLERT, Representative HALL of Texas, and Representative RICHARDSON.

Senior citizens and their families need and should have the sense that long-term care is being addressed. This legislation will promote a rightfully deserved security for seniors and their families.

I urge you to join with me in establishing these long-term care initiatives by cosponsoring the long-term care incentives package.

EMERGENCY LOAN EXTENSION AND ADJUSTMENT ACT OF 1987

HON. BILL SCHUETTE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. SCHUETTE. Mr. Speaker, today I am introducing no cost legislation to the 100th Congress as an important first step in reforming our Nations Federal Crop Insurance Program. For many years, Federal Crop Insurance has been virtually ignored as a risk management tool for our Nation's farmers. Not only has the program been plagued by high costs, and inaccurate claims, but participation rates average less than 5 percent across the country. In fact, in my home State of Michigan, less than 3 percent of the farmers have crop insurance.

Simply put, the Federal Crop Insurance Program is maligned, unused, and cost prohibitive. It is in need of serious and immediate attention. My bill, the Emergency Loan Extension and Adjustment Act of 1987, recognizes this fact. It is the first important step in a determined effort to create a viable, workable, and realistic crop insurance program.

Early this week, the Secretary of Agriculture declared over half of the State of Michigan a natural disaster area due to extensive drought conditions, for the 1987 crop year. Over 200 of my colleagues in this Chamber have also seen the farm families in their district experience similar conditions and hardships. Ordinarily, this designation of a natural disaster area would be great news for the Michigan farmers and other affected areas of the country. Yet, I am disheartened to say, it is not great news, Mr. Chairman. It is not great news because this announcement only allows farmers with federally subsidized crop insurance to receive FmHA loans—EM loans—to defer their losses.

This year, when over 50 percent of Michigan was affected by a devastating drought, only 2.5 percent of our farmers had crop insurance. In essence, the Secretary's disaster declaration for Michigan and for the other 38 affected States will do very little to help these farmers because less than 1 in 20 have insurance, and therefore, are not eligible for EM loans.

My request to the Secretary of Agriculture to waive this unfair requirement of having crop insurance for emergency loan eligibility has not yet been resolved. Once this waiver is obtained, the bill I am introducing today will complete this crucial first step toward making the Federal Crop Insurance Program the effective risk management tool that the Congress intended.

My bill is needed because it will prevent the minority of farmers who purchased crop insurance for the 1987 crop year from being unintentionally penalized by the Secretary's waiver. In effect, this legislation will refund crop insurance premiums paid by farmers at no cost to the Treasury. Farmers who secure FmHA loans will have their principal balance reduced by the amount they paid for their crop insurance.

This legislation is crucial to the well-being of many rural agricultural communities. I believe it may very well make the difference in survival of many farms in my State and in the 38 other States that have experienced a national disaster this year. I urge all my colleagues to support this important legislation.

THE TYRANNY OF THE MAJORITY

HON. HAL DAUB

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. DAUB. Mr. Speaker, I rise today to express my sincere disappointment with the budget reconciliation process and to urge my colleagues to vote against the Senate bill and support a motion to recommit with instructions that would provide that the tax increases proposed be substituted with additional cuts in spending. The "ad hoc" taxes reported from my committee, Ways and Means, and from the Finance Committee in the Senate, were written for the sole purpose of producing immediate revenue. They were not well thought out by the full committee and as a result they will create adverse reactions from the already fragile economy.

New taxes at this time, particularly these taxes which weigh so heavily upon business, will send a dangerous and unpredictable signal to the markets, to the business community and to foreign investors that will last for a long time to come. The sudden downturn in the market has resulted in the Congress, once again, reacting to a long-term problem with a short-term solution. These tax proposals are largely timing differences, that will result in lost revenue in the out years. We will be right back here again next year making burdensome changes in the Tax Code that no one, even the Congress, can keep up with anymore.

If our concern is truly meeting the budget mandates in Gramm-Rudman then we should allow ourselves more time by temporarily cutting our spending, which simply means a year of tightening our belts. Voting for hasty tax increases, which most Members have not yet analyzed, represents poor legislation and bad representation. The Members of this body made a promise to the American taxpayer with the passage of the 1986 Tax Reform Act and I believe this bill breaks that promise to leave the Tax Code alone for 5 years. Where did most of the tax package come from? Why, it came from the provisions that failed to pass the Ways and Means Committee in 1985. Some promise we made.

Not even a single, solitary year passed us by before my committee was again called upon by the Democratic majority leadership of Congress to begin raising taxes again. And when they did, the Democrats on the committee would not even allow the Republicans in the room. What were they so afraid of; that we could convince them that their package really did not work? That we would tell every one that they really are the "Tax and Spend Party"? Well, we didn't need to be at their caucus because it's clear from the 23 to 13 partisan vote that they are the "Tax and Spend Party." Clearly the improvement of the Senate Finance Committee's bill over the Ways and Means bill should be proof enough that never again should a political party take it upon themselves to tyrannize the minority. In a trillion dollar budget I should think we would have no problem finding $30 billion in Government waste this year, and then move forward with a truly well-thought-out, long-term, solution to our budget problems.

A TRIBUTE TO H.R. GROSS

HON. DELBERT L. LATTA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 11, 1987

Mr. LATTA. Mr. Speaker, I think one of the most pleasant aspects of my 29 years of service thus far in this body has been my association with H.R. Gross. I considered him one of the most outstanding legislators I have ever known.

H.R. was a man of honesty, conscientiousness, and independence. He was, however, best known as a champion of fiscal responsibility. His role as the watchdog of the Treasury had made him a thorn in the side of waste and extravagance but it had also earned him the respect and admiration of Members on both sides of the aisle. This role remains unparalleled to this day. He made his points without malice or vindictiveness. There was always a message in what he said and those who served with H.R. recognized the essential integrity and wisdom of his words.

If the Congress had the wisdom during the 26 years H.R. served here, there would not be the inflation we're experiencing today; there would not be the national debt; nor would there be the deficit financing that has plagued our economy. He was a man who fought the good fight against a runaway budget; a man who insisted that every dollar and cent be accounted for. He was completely nondiscriminatory in his fight against waste or misuse of funds. Always alert and courageous, he never faltered in his devotion to good government. It was a good thing for the Congress to hear then the voice of H.R. probing, delving, asking, seeking for the truths. That voice of conscientiousness, in my opinion, has never left these Chambers.

H.R. Gross also exhibited a great knowledge about every piece of legislation which came to the House. His sheer diligence and persistence marked his character. His expertise of parliamentary procedures was a great inspiration and often left his adversaries gasping and his allies smiling. He was a man who had the courage to fight for his convictions—a man who did not equivocate.

Today, as we mourn his passing, we could do H.R. Gross no greater honor than to act upon the time-tested principles for which he stood firmly and so effectively. His contributions will always be important to us and to the American people.

HOUSE OF REPRESENTATIVES—*Monday, December 14, 1987*

The House met at 12 noon.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Specially during this holy time, O God, we remember those people who face this season with anxiety or loneliness. We particularly recall the hostages who do not have the support of families that we enjoy, we remember those whose homes and lives do not know the bonds of trust and encouragement, those who are alone and whose remembrance is only of the past. May Your loving spirit, O gracious God, which is not bound by place or time or by our own frailties, reach across the barriers that separate people from each other and may that spirit fill every heart and mind with the warmth and goodness of this holy season. Amen.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER laid before the House the following communication from the Clerk of the House of Representatives:

WASHINGTON, DC,
December 11, 1987.

Hon. JIM WRIGHT,
The Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 5 of Rule III of the Rules of the U.S. House of Representatives, the Clerk received at 5:00 p.m. on Friday, December 11, 1987 the following message from the Secretary of the Senate: That the Senate passed with an amendment H.R. 3545 and requested a conference thereon.

In accordance with action taken by the House on Friday, December 11, 1987, the Clerk has notified the Senate that the House disagreed to the amendment of the Senate to H.R. 3545 and agreed to a conference thereon.

With great respect, I am,
Sincerely yours,
DONNALD K. ANDERSON,
Clerk, House of Representatives.

BAD NEWS FOR THE PEACE PROCESS IN CENTRAL AMERICA

(Mr. RICHARDSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RICHARDSON. Mr. Speaker, amidst all of this summit euphoria there is bad news for the peace process in Central America that should not be overlooked.

First, the other body, in an act of weakness, approved nearly $16 million in aid to the Contras as part of their spending bill. This is unacceptable and should be rejected by the conferees.

Second, the administration continues to trumpet the need for Contra aid as a source of pressure on the Sandinistas. The Sandinista Defense Minister, responding to this kind of pressure, announces a major arms buildup in cooperation with the Soviet Union. The Sandinista President then contradicts him, saying it is only a proposal.

The sum total is that the Sandinistas are not dearming. Cardinal Obando and the Sandinistas once again postponed their meeting and have run out of reasons for this postponement. Whatever happened to the Arias plan?

President Reagan should realize that to sell his unpopular Central American policy he must negotiate with the Congress and the American people. Mr. President, you have concluded a successful summit negotiating with the Soviet Union. How about working with us, with the Congress and the American people and negotiate a solution to Central America.

ARE THE SANDINISTAS COMMITTED TO THE PEACE PROCESS

(Mr. LAGOMARSINO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAGOMARSINO. Mr. Speaker, with all the conflicting stories coming out of Nicaragua over the weekend, the question becomes "who are we to believe?"

Are we to believe that the Sandinistas are truly interested in the peace process in Central America when the Defense Minister says Nicaragua will more than double the size of its Armed Forces to 600,000, backed by Soviet Mig fighters and new deliveries of missiles and artillery? And if the Armed Forces will more than double, does that mean the Sandinistas now have an Armed Force of more than 250,000: 5 times greater than the next largest military force in Central America?

Are we to believe the Sandinistas want peace when they cancel their participation in the peace talks with the Nicaraguan resistance? Or when they say that they would remain the true power in Nicaragua even if they were to lose an election?

Are we to believe these Sandinistas are committed to the 1987 Arias Peace plan requiring democracy, civil liberties and protection of human rights, when these Sandinistas made the same promises to the OAS in 1979?

Defense Minister Humberto Ortega says Nicaragua will militarize more; Humberto Ortega's Chief Aide Roger Miranda has told us the same thing; President Daniel Ortega, the Defense Minister's brother, says, "the government hasn't accepted the plan for greater militarization"—yet.

Who do you believe?

TRADE

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, the trade deficit for October was $17 billion, a record for this country, America's worst month of trade in our entire history. What are we doing about it down here? Absolutely nothing.

In fact, our trade, tax and investment policies in America are so misdirected if we threw them at the ground they would probably miss. That is no joke. About the only opportunity left in America is for those people who own manufacturing plants in Japan.

But while all of this is going on, there is an article in the Wall Street Journal about how Korea is enjoying tremendous trade surpluses, but they are worried. They had a $5 billion trade deficit with Japan, but their officials said thank God for America and the great surpluses we are having in America or we might even be in some trouble.

Keep in mind that when we ship a car to Japan it has a 35-percent tariff. When it comes here it has a 4-percent tariff.

I think it is time we tell the Koreans if they are going to put a 35-percent tariff on our ears, we are going to put one on theirs. Think about that for a while.

OUR WORST FEARS ABOUT THE SANDINISTA LEADERS ARE CONFIRMED

(Mr. COATS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COATS. Mr. Speaker, yesterday's Washington Post in two front page headline stories confirmed our worst fears about the Sandinista leaders and their plans for Nicaragua. In confirming the recently disclosed revelations by a top aide, Defense Minister Humberto Ortega outlined his plans to continue a 15-year military buildup begun in 1980 that includes putting 600,000 Nicaraguans under arms and equipping them with Soviet-made and supplied MiG fighters, helicopters, gunships, missiles and artillery.

Major Miranda, whom Defense Minister Ortega described as one of his closest aides, defected with copies of cooperative agreements between Nicaraguans, Cubans and Soviets. Among other things he told the Post reporters that secret military agreements have been negotiated with the Soviet Union and Cuba that call for this military buildup, that top military officers have used slush funds set up in Panama for personal expenses; that aides to Interior Minister Borge allegedly accepted bribes from drug traffickers; that contrary to the Arias peace plan, the Sandinistas continue to support leftist Salvadoran guerrillas and recently trained 15 of their men to use Soviet-made portable anti-aircraft missiles; and most importantly that top Sandinista leaders have adopted a secret strategy to turn the regional peace plan signed by Nicaragua and four other Central American countries into a "weapon" to consolidate Sandinista control over Nicaragua and to eliminate the United States backed rebels known as the Contras.

Mr. Speaker, this is sobering news. We should not point fingers at each other; we should begin serious discussions in this Congress on what we are going to do about these revelations.

LET US PREVENT THE ESTABLISHMENT OF ANOTHER CUBA ON THE ISTHMUS OF CENTRAL AMERICA

(Mr. SLATTERY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SLATTERY. Mr. Speaker, the news today that Nicaragua might be considering a Soviet-backed plan to arm one-fifth of its population by 1995—a doubling of its current Armed Forces—underscores the need for the United States to immediately begin direct negotiations with the Nicaraguan Government.

This is not the first time I have called upon the administration to begin negotiating directly with Nicaragua. When the Sandinistas agreed to negotiate on the Soviet presence in Nicaragua and the size of their military in the past, I urged that the adminstration test the Nicaraguans intentions and determine if the Nicaraguans would agree to limit the size of their military as they said they would.

Mr. Speaker, If President Reagan can sit down with Gorbachev to negotiate arms reductions in Europe, why can't he sit down with President Ortega and negotiate arms reductions in this hemisphere?

I am convinced we can achieve a negotiated agreement with Nicaragua addressing our security concerns with the support of our Central American allies without undermining the regional peace plan.

I call, once again, on this administration to begin direct negotiations with Nicaragua.

We need to get the Soviets out of Nicaragua and achieve an agreement to limit the size of the Nicaraguan military. If we do this we can prevent the establishment of another Cuba on the Isthmus of Central America.

COMMUNICATION FROM THE HONORABLE JOHN D. DINGELL, CHAIRMAN OF SUBCOMMITTEE ON OVERSIGHT AND INVESTIGATIONS OF COMMITTEE ON ENERGY AND COMMERCE

The SPEAKER laid before the House the following communication from the Honorable JOHN D. DINGELL, Chairman of the Subcommittee on Oversight and Investigations:

U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, December 3, 1987.

Hon. JIM WRIGHT,
Speaker, U.S. House of Representatives, H-204, The Capitol, Washington, DC.

DEAR MR. SPEAKER: I have previously notified you of the receipt of a subpoena issued by the United States District Court for the District of Columbia. After consultation with the General Counsel to the Clerk, pursuant to Rule L (50) of the Rules of the U.S. House of Representatives, I have determined that compliance with the subpoena would be consistent with the privileges and precedents of the House.

Sincerely,

JOHN D. DINGELL,
Chairman, Subcommittee on Oversight and Investigations.

COMMUNISTS ARE NOT ABOUT TO COMPLY WITH TREATIES

(Mr. BURTON of Indiana asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURTON of Indiana. Mr. Speaker, I led a codel down to Managua, Nicaragua over the weekend and I might add that I asked about 14 or 15 Democrats to join the 8 Republican Members of the delegation. But none of them wanted to join us. But we did extend the invitation.

During our visit we talked to mothers of political prisoners who are concerned about their sons and wives of political prisoners who are concerned about their husbands. During that meeting one of the mothers told me they were demonstrating for the freedom and the proper treatment of their husbands and sons and this one wife told me they beat her mercilessly and tore her clothes off of her on the streets of Managua because she was concerned about her husband.

She gave me the shirt that was shredded from her body by the Communist Sandinista Government and the turbas divinas. The American people need to know about that. People who are concerned about the torture being perpetrated upon their loved ones in prison are treated this way down there.

Now lest you believe what I am telling you, we had some cameramen with us from Indianapolis Channel 13. They were out on the streets taking pictures of what is going on in Managua and their film was taken from their cameras forcibly. That is freedom of the press? That is freedom of assembly? That is in compliance with the promises made at Esquipulas? I do not believe so. The Communists down there are trying to consolidate their power and buy time.

They are not about to give up the power that they took out of the barrel of the gun, they are not about to comply with the treaties that they made at Esquipulas and the promises made in 1979. The people of this body who are deciding the fate of Central America along with the people who are fighting for freedom down there need to get that message across to the American people.

TIME TO IMPROVE ECONOMIC RELATIONS WITH NICARAGUA

(Mr. BONKER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BONKER. Mr. Speaker, I rise today to introduce two bills dealing with our Nation's trade relations with Nicaragua. One bill should generate broad support within the House. The other will probably generate more controversy.

The first bill is intended to spell our congressional intent regarding economic embargoes, to allow donations of humanitarian aid to be shipped to Nicaragua and any other nation to relieve human suffering and promote development.

It is my understanding that private voluntary groups attempting to deliver shipments of seeds, agricultural manuals and other humanitarian goods to Nicaragua have been blocked by the State Department even though our government allows similar shipments to other embargoed nations such as Vietnam and Kampuchea.

The second bill would call upon the President to terminate the U.S. embargo on Nicaragua if and when the Guatemala City plan achieves its goal.

It has been now 2½ years since the President first imposed that embargo on Nicaragua. Whether or not you agree with the President's policies, the fact is that the embargo has not worked since our allies refused to participate. Indeed, Nicaragua has found other markets for its exports and other sources for its imports.

In order to lend our Nation's full support to the Central American peace process currently underway, I believe the administration should offer this incentive and prepare to restore normal economic and trade relations with Nicaragua. Both of these measures will be the subject of a hearing in the Committee on Foreign Affairs tomorrow.

AN UPDATE ON THE HOSTAGE SITUATION IN LEBANON

(Mr. DORNAN of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORNAN of California. Mr. Speaker, I dearly wanted to speak about Central America today. I was supposed to be on the Burton congressional delegation that went down over the weekend but I had to cancel at the last minute because of some obligations in my district. But I will save my thunder for tomorrow.

The beautiful opening prayer by our Chaplain brought to mind for the umpteenth time, our hostages in the near Middle East, in Beirut or there abouts.

Some of my colleagues may have noticed that I wear a "seven" on my lapel. This lapel pin was given to me by deceased Congressman George O'Brien when that seven represented a total group of persons except for two who have been hostages since the beginning. Two of the seven were murdered, one of them brutally tortured to death, three, thank God, are out, and home with their families; two remain, an additional six have been added; leaving now eight American hostages. Thirteen are from other nations ranging from Ireland to South Korea.

This is an ugly scene. As our Chaplain said beautifully this morning, that our policy has now come down to prayer. Because as a result of the so-called Iran-Contragate mess, our Government has no initiatives even at the highest level trying to get these people out. Today a British periodical said that an Iranian doctor, by name, is torturing our prisoners, by drugging them. I understand that this "doctor" is doing this to all 21 hostages from all of these nations.

I do not know what we can do in this House, but I keep pleading for my colleagues to come up with some constructive idea. I admit I do not have any. Since I had lunch with Terry Waite, it has been a year since that great worker for peace was taken prisoner himself, that giant of a man, with a giant heart to match his 6-foot, 8-inch frame.

I do not know where we are going from here, but I am awaiting novel ideas from my colleagues. I guess the least we can do after Thanskgiving and before Christmas is to pray that the torture stops. We should try to figure out some way for this great superpower to get these eight American hostages out and for all the nations who have 21 hostages represented, to figure out some way to bring some sort of sanity to these terorist groups in this tortured country of Lebanon. We have to let these terrorists know that they cannot act like barbarians.

Mr. Speaker, Here is a sad and touching letter from the sister of our longest held hostage, Mr. Terry Anderson of Associated Press. He will start a fourth year of captivity March 17, 1988, if we don't end this madness.

BATAVIA, NY,
November 12, 1987.

Hon. ROBERT K. DORNAN,
2170 Rayburn HOB,
Washington, DC.

DEAR REPRESENTATIVE DORNAN: My brother, Terry Anderson of the Associated Press, is the senior member of the group of Americans being held hostage in Lebanon. Terry will mark his one thousandth day in captivity on December 10th.

During those thousand days his Dad, Glenn Anderson Sr., and his brother, "Rich", have both passed away from cancer. Terry does not know of either death. His daughter was born and has learned to walk and talk without him. The days of his captivity have turned into weeks, weeks into months and months into years.

Terry's captivity and the holding of seven other Americans in Lebanon is no longer a political issue; it is a human rights problem; it is a moral issue; it is a humanitarian outrage.

After a year of silence during which this administration has been intensely preoccupied with sorting out the factual and legal quagmire surrounding the Iran-Contra initiative, I believe it is time to readdress this problem with a renewed sense of resolve and commitment.

I ask you to support a new initiative on behalf of these men. I ask you to support my request for a special envoy to be appointed by President Reagan to work on behalf of the hostages; a humanitarian envoy with no other mission than to work towards their release.

This envoy should have no other portfolio. He or she should not suffer the distractions of responsibility for the Middle East peace process or American policies in Central America. Instead, the President should appoint a person who can work with governments, humanitarian organizations, and religious leaders without fear of bureaucratic trespass within the administration.

Most importantly, I ask you to make the hostage situation not a political issue, but a human-rights concern. As a matter of conscience, this government cannot stand idly by while eight Americans suffer this gross violation of their rights to freedom and justice.

Historically and morally, this country has never tolerated this kind of abuse to its citizens. Our country should not be made to suffer the shame of having made an exception in the case of these men. There should be no exceptions. Ever.

Sincerely,

PEGGY SAY,
Sister of hostage Terry Anderson.

PART C—DIPLOMATIC RECIPROCITY AND SECURITY

SEC. 151. UNITED STATES-SOVIET EMBASSY AGREEMENT; PROHIBITION ON USE OF MT. ALTO SITE.

(a) Findings.—The Congress finds that—

(1) the Government of the Union of Soviet Socialist Republics has intentionally and substantially violated international agreements with the United States concerning the establishment and operation of the new United States Embassy complex in Moscow by significantly delaying progress and by constructing the premises of that Embassy so as to compromise the security of United States operations, thus rendering the premises unuseable for the primary purpose intended under those agreements;

(2) the Soviet Government's actions constitute a material violation of international law and a substantial default in performance under the contract for construction of the new United States Embassy complex, and the United States is entitled to claim appropriate compensation;

(3) due to actions of the Government of the Union of Soviet Socialist Republics, United States Government personnel cannot pursue their official duties in confidence, as the national security and diplomatic relations of the United States requires, within the new United States Embassy being constructed in Moscow;

(4) the Government of the Union of Soviet Socialist Republics has similarly taken steps to impair the full and proper use of the present United States Embassy in Moscow, to the detriment of the national security of the United States and its ability to conduct diplomatic relations;

(5) as a result of the substantial violations by the Soviet Union of these international agreements with the United States and other Soviet violations of international law, the United States is entitled to terminate, in whole or in part, those agreements;

(6) termination of such agreements may include withdrawal of rights and privileges otherwise granted to the Soviet Union concerning the establishment of a new Soviet Embassy complex in Washington, District of Columbia;

(7) the location of the new Soviet Embassy on Mount Alto creates serious concerns with respect to electronic surveillance and potential damage to the national security of the United States; and

(8) to protect the national security of the United States, therefore, the United States should exercise its right to terminate the Embassy agreements in view of the substantial and intentional Soviet breaches thereof, unless the threat to the national security posed by adherence to those agreements can be overcome.

(b) Withdrawal From Embassy Agreement.—The United States shall withdraw from the Agreement between the Government of the United States and the Government of the Union of Soviet Socialist Republics on the Reciprocal Allocation for Use Free of Charge of Plots of Land in Moscow and Washington (signed at Moscow, May 16, 1969) and related agreements, notes, and understandings unless the President makes the determinations and waiver under subsection (c).

(c) Waiver.—

(1) Presidential determinations required.—The President may waive subsection (b) if he determines that—

(A) it is vital to the national security of the United States that the United States not withdraw from the agreement (and related agreements, notes, and understandings) referred to in subsection (b);

(B) steps have been or will be taken that will ensure that the new chancery building to be occupied by the United States Embassy in Moscow can be safely and securely used for its intended purposes; and

(C) steps have been or will be taken to eliminate, no later than 2 years after the date of enactment of this Act, the damage to the national security of the United States due to electronic surveillance from Soviet facilities on Mount Alto.

(2) When determinations may be made.—The President may not make the determination and waiver permitted by paragraph (1) before the end of the 6-month period beginning on the date of enactment of this Act.

(3) Report to congress.—The waiver permitted by paragraph (1) shall not be effective until 30 days after the determinations and waiver are reported to the Congress. Any such report shall include—

(A) a detailed justification for each of the determinations;

(B) an assessment of the impact on national security of the removal of the Soviet Embassy from Mt. Alto; and

(C) specify the steps that have been or will be taken to achieve the requirements of paragraphs (1) (B) and (C).

(4) Nondelegatability.—The President may not delegate the responsibility for making the determination and waiver permitted by paragraph (1).

(d) NOTIFICATION OF UNAVAILABILITY OF MOUNT ALTO.—If the President does not waive subsection (b), the Secretary of State shall notify the Government of the Union of Soviet Socialist Republics that the Mount Alto site will cease to be available to that Government for any purpose as of the date which is 1 year and 10 days after the earliest date on which the President could make the waiver under subsection (c).

(e) PROHIBITION ON FUTURE USE OF MOUNT ALTO SITE BY FOREIGN MISSIONS.—If subsection (b) takes effect, the Mount Alto site may not be made available for use thereafter by a foreign mission for any purpose.

"(2) After the date of enactment of this subsection, real property in the United States may not be acquired (by sale, lease, or other means) by or on behalf of the foreign mission of a foreign country described in paragraph (4) if, in the judgment of the Director of the Federal Bureau of Investigation (after consultation with the Secretary of State), the acquisition of that property might substantially improve the capability of that country to engage in intelligence activities directed against the United States Government, other than the intelligence activities described in paragraph (1).

"(3) The Secretary of State shall inform the Secretary of Defense and the Director of the Federal Bureau of Investigation immediately upon notice being given pursuant to subsection (a) of this section of a proposed acquisition of real property by or on behalf of the foreign mission of a foreign country described in paragraph (4).

"(a) REQUIREMENT FOR RESTRICTIONS.—The Secretary shall apply the same generally applicable restrictions to the travel while in the United States of the individuals described in subsection (b) as are applied under this title to the members of the missions of the Soviet Union in the United States.

"(b) INDIVIDUALS SUBJECT TO RESTRICTIONS.—The restrictions required by subsection (a) shall be applied with respect to those individuals who (as determined by the Secretary) are—

"(1) the personnel of an international organization, if the individual is a national of any foreign country whose government engages in intelligence activities in the United States that are harmful to the national security of the United States;

"(2) the personnel of a mission to an international organization, if that mission is the mission of a foreign government that engages in intelligence activities in the United States that are harmful to the national security of the United States; or

"(3) the family members or dependents of an individual described in paragraphs (1) and (2);

and who are not nationals or permanent resident aliens of the United States.

"(d) REPORTS.—The Secretary shall transmit to the Select Committee on Intelligence and the Committee on Foreign Relations of the Senate, and to the Permanent Select Committee on Intelligence and the Committee on Foreign Affairs of the House of Representatives, not later than six months after the date of enactment of this section and not later than every six months thereafter, a report on the actions taken by the Secretary in carrying out this section during the previous six months.

"(e) DEFINITIONS.—For purposes of this section—

"(1) the term 'generally applicable restrictions' means any limitations on the radius within which unrestricted travel is permitted and obtaining travel services through the auspices of the Office of Foreign Missions for travel elsewhere, and does not include any restrictions which unconditionally prohibit the members of missions of the Soviet Union in the United States from traveling to designated areas of the United States and which are applied as a result of particular factors in relations between the United States and the Soviet Union.

SEC. 164. UNITED STATES EMBASSY IN HUNGARY.

(a) FINDINGS.—The Congress finds that—

(1) the full implementation of the security program of a United States diplomatic mission to a Communist country cannot be accomplished if employees of that mission who are citizens of the host country are present in the same facilities where diplomatic and consular activities of a sensitive nature are performed;

(2) the facilities currently housing the offices of the United States diplomatic mission to Hungary are totally inadequate for the proper conduct of United States diplomatic activities, and unnecessarily expose United States personnel and their activities

to the scrutiny of the intelligence services of the Government of Hungary;

(3) the presence of local citizens in a facility where sensitive activities are performed, as well as their access to certain unclassified administrative information, greatly enhances the ability of the host government's intelligence services to restrict our diplomatic activities in that country;

(4) since the United States Government owns a substantial amount of property in Budapest, it is in a unique position to build new facilities which will substantially enhance the security of the United States diplomatic mission to Hungary; and

(5) units such as the Navy Construction Battalion are uniquely qualified to construct such facilities in an eastern bloc country.

(b) STATEMENT OF POLICY.—It is the sense of the Congress that—

(1) the Department of State should proceed in a timely fashion to negotiate an agreement with the Government of Hungary to allow for the construction of new chancery facilities in Budapest which would totally segregate sensitive activities from those of an unclassified and public-oriented character; and

(2) any such agreement should ensure that the United States Government will have the right to employ only American construction personnel and materials and will have complete control over access to the chancery site from the inception of construction.

(2) the contribution of these Civil Service employees has been overlooked in the management of the Department and greater equality of promotion, training, and career enhancement opportunities should be accorded to the Civil Service employees of the Department; and

"(1) target news and features in accordance with the findings and recommendations of the Young European Survey;

"(2) conduct periodic audience evaluations and measurements; and

"(3) promote and advertise Voice of America/Europe.".

SEC. 403. CONTRACTOR REQUIREMENTS.

(a) FINDINGS.—The Congress finds that the overriding national security aspects of the $1,300,000,000 facilities modernization program of the Voice of America require the assurance of uninterrupted logistic support under all circumstances for the program. Therefore, it is in the best interests of the United States to provide a preference for United States contractors bidding on the projects of this program.

(b) RESPONSIVE BID.—A bid shall not be treated as a responsive bid for purposes of the facilities modernization program of the Voice of America unless the bidder can establish that the United States goods and services content, excluding consulting and management fees, of his proposal and the resulting contract will not be less than 55 percent of the value of his proposal and the resulting total contract.

(c) Preference for United States Contractors.—Notwithstanding any other provision of law, in any case where there are two or more qualified bidders on projects of the facilities modernization program of the Voice of America, including design and construction projects and projects with respect to transmitters, antennas, spare parts, and other technical equipment, all the responsive bids of United States persons and qualified United States joint venture persons shall be considered to be reduced by 10 percent.

(d) Exception.—

(1) Subsection (c) shall not apply with respect to any project of the facilities modernization program of the Voice of America when—

(A) precluded by the terms of an international agreement with the host foreign country;

(B) a foreign bidder can establish that he is a national of a country whose government permits United States contractors and suppliers the opportunity to bid on a competitive and nondiscriminatory basis with its national contractors and suppliers, on procurement and projects related to the construction, modernization, upgrading, or expansion of—

(i) its national public radio and television sector, or

(ii) its private radio and television sector, to the extent that such procurement or project is, in whole or in part, funded or otherwise under the control of a government agency or authority; or

(C) the Secretary of Commerce certifies (in advance of the award of the contract for that project) to the Director of the United States Information Agency that the foreign bidder is not receiving any direct subsidy from any government, the effect of which would be to disadvantage the competitive position of United States persons who also bid on the project; or

(D) the statutes of a host foreign country prohibit the use of United States contractors on such projects within that country.

(2) An exception under paragraph (1)(D) shall only become effective with respect to a foreign country 30 days after the Secretary of State certifies to the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate what specific actions the Secretary has taken to urge the foreign country to permit the use of United States contractors on such projects.

(d) Definitions.—For purposes of this section—

(1) the term "United States person" means a person that—

(A) is incorporated or otherwise legally organized under the laws of the United States, including any State (and any political subdivision thereof) and the District of Columbia;

(B) has its principal place of business in the United States;

(C) has been incorporated or otherwise legally organized in the United States for more than 5 years before the issuance date of the Invitation For Bids or the Request For Proposals with respect to a modernization project under subsection (b);

(2) the term "qualified United States joint venture person" means a joint venture in which a United States person or persons own at least 51 percent of the assets of the joint venture.

(e) Effective Date.—The provisions of this section shall apply to any project with respect to which the Request For Proposals (commonly referred to as "RFP") or the Invitation For Bids (commonly referred to as "IFB") was issued after December 28, 1986.

TITLE VI—ASIA FOUNDATION

Section 404 of the Asia Foundation Act (22 U.S.C. 4401 et seq.) is amended to read as follows:

"SEC. 404. FUNDING.

"There is authorized to be appropriated to the Secretary of State $13,700,000 for the fiscal year 1988 and $15,000,000 for the fiscal year 1989 for grants to The Asia Foundation pursuant to this title.".

TITLE VII—INTERNATIONAL ORGANIZATIONS

PART A—UNITED NATIONS

SEC. 701. PROBABLE EXEMPTIONS TO THE UNITED NATIONS EMPLOYEE HIRING FREEZE.

(a) Findings.—The Congress makes the following findings:

(1) In April 1986, the Secretary-General of the United Nations adopted a freeze on the hiring of personnel within the United Nations Secretariat.

(2) The conditions of the freeze were such that, as the terms of office for the personnel expired, replacements would not be recruited or hired to fill the vacant positions, with minor exceptions.

(3) The freeze was designed to reduce United Nations personnel by 15 percent over three years, as recommended by the Group of High-Level Intergovernmental Experts to Review the Efficiency of the Administrative and Financial Functioning of the United Nations (commonly referred to as the "Group of 18 Experts").

(4) On May 5, 1987, the Secretary-General reported to the Department of State that he was considering granting 156 exceptions to the hiring freeze.

(5) Of these 156 probable exceptions, 104 would be Soviet and Soviet-bloc nationals currently employed in the United Nations Secretariat—of 298 Soviet and Soviet-bloc nationals currently employed in the United Nations Secretariat—who would be replaced over the next 18 months.

(6) According to a report from the Select Committee on Intelligence of the Senate on "Soviet Presence in the United Nations Secretariat" (Senate Print 99-52, May 1985), approximately one-fourth of the Soviets in the United Nations Secretariat are intelligence officers, many more are co-opted by the Soviet intelligence agencies, and all Soviets in the United Nations Secretariat must respond to KGB requests for assistance.

(7) Other United States intelligence authorities estimate that as many as one-half of the Soviet and Soviet-bloc nationals in the United Nations Secretariat are officers of the KGB or the GRU.

(8) If the Secretary-General's probable exemptions are adopted, the Soviet Union will be allowed to replace retiring Soviet and Soviet-bloc personnel with new, highly skilled and well-trained intelligence officers of the KGB or the GRU.

(9) The Secretary-General's proposed exceptions would thus provide the Soviet Union with the capability to rebuild its intelligence apparatus within the United States, which was devastated in recent years when the United States ordered severe reductions in the size of the Soviet mission to the United Nations, the Soviet Embassy in Washington, District of Columbia, and the Soviet Consulate in San Francisco, California.

(10) Article 100 of the United Nations Charter calls for the establishment of an international civil service whose members are neutral and loyal only to the United Nations.

(11) Section 3 of Article 101 of the United Nations Charter calls for the appointment of individuals who are professionally qualified for the positions they are to fill and maintains that due regard shall be paid to the importance of recruiting the staff on as wide a geographical basis as possible.

(12) As of September 1985, 442 of 446 Soviet nationals employed throughout the United Nations system are "seconded", that is, serve on short, fixed-term contracts.

(13) Through the abuse of short, fixed-term contracts, the Soviet Union has maintained undue influence and control over major offices of the United Nations Secretariat, thereby effectively using the United Nations Secretariat in the conduct of its foreign relations, in clear violation of Articles 100 and 101 of the United Nations Charter.

(14) The Secretary-General's proposed exceptions to the hiring freeze (as described in paragraphs (1) through (5)) would continue the gross violations of Articles 100 and 101 of the United Nations Charter described in paragraph (13).

(15) The Secretary-General's proposed exceptions to such hiring freeze would be clearly inconsistent with the terms of the United Nation's self-imposed reform program.

(16) The United Nations has not yet achieved its reform goals and there is no indication that the United Nations can afford to make such large exceptions to such hiring freeze.

(b) REPORT TO CONGRESS.—(1) The Secretary of State shall report to the Congress not later than 90 days after the date of enactment of this Act and annually thereafter as to the status of secondment within the United Nations by the Soviet Union and Soviet-bloc member-nations.

(2) Such report shall contain as a minimum, a thorough analysis of the following issues:

(A) The number of Soviet and Soviet-bloc nationals who are currently seconded to the United Nations system on short, fixed-term contracts in New York, Geneva, Vienna, and Nairobi, and the percentage such number is to the total number of Soviet and Soviet-bloc nationals so seconded.

(B) The number of Soviet and Soviet-bloc nationals who are currently employed in the United States system on long-term contracts.

(C) The measures undertaken by the United States to persuade the United Nations Secretariat to enforce the provisions of the United Nations Charter which specifically govern the behavior and activities of United Nations employees, especially Articles 100 and 101.

(D) The measures undertaken by the United States either through bilateral or multilateral channels with the Soviet Union and other members of the Soviet-bloc to end their abuse of secondment.

(E) The measures undertaken by the United States to challenge Soviet and Soviet-bloc nationals' credentials and to deny them entry visas, in order to keep Soviet and Soviet-bloc intelligence operatives out of the United States and United Nations.

(F) The counterintelligence efforts undertaken by the United States to protect United States national security from hostile intelligence activities directed against the United States by Soviet and Soviet-bloc intelligence operatives employed by the United Nations.

(c) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) the President should take all such actions necessary to ensure compliance with the hiring freeze rule, including withholding all assessed United States contributions to the United Nations, and denying United States entry visas to Soviet and Soviet-bloc applicants coming to the United States to replace Soviet and Soviet-bloc nationals currently serving in the United Nations Secretariat;

(2) the President, through the Department of State and the United States mission to the United Nations, should express to the Secretary-General of the United Nations the insistence of the American people that the hiring freeze continue indefinitely, or until the United Nations has complied with the Group of 18 recommendations and can thus afford to make exceptions to the freeze;

(3) the Secretary-General should revoke all exceptions to the hiring freeze rule, excepting those member-nations which have 15 or fewer nationals serving in the United Nations Secretariat, or those positions not subject to geographical representation, such as those of the general service category;

(4) the long-term, flagrant violations of Articles 100 and 101 of the United Nations Charter and the abuse of secondment by the Soviet Union and Soviet-bloc member-nations are reprehensible;

(5) the United Nations should adopt the recommendations of the Group of 18 (as referred to in subsection (a)(3)) that no member-nation be allowed to have more than 50 percent of its nationals employed under fixed-term contracts;

(6) the Soviet Union is hereby condemned for—

(A) its refusal to adhere to the principles of the United Nations Charter calling for an international civil service,

(B) its abuse of secondment, and

(C) its absolute disregard of the solemn purpose of the United Nations to be an international civil service; and

(7) if the Soviet Union and the Soviet-bloc intend to remain member-nations of the United Nations, they should adhere to Articles 100, 101, and all other principles of the United Nations Charter to which every other member-nation must adhere.

(d) DEFINITION.—For the purposes of this section, the term "Soviet-bloc" means the countries of Bulgaria, Cuba, Czechoslovakia, East Germany, Hungary, Nicaragua, North Korea, Poland, and Romania.

SEC. 702. REFORM IN THE BUDGET DECISION-MAKING PROCEDURES OF THE UNITED NATIONS AND ITS SPECIALIZED AGENCIES.

(a) FINDINGS.—The Congress finds that the consensus based decision-making procedure established by General Assembly Resolution 41/213 is a significant step toward complying with the intent of section 143 of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987 (22 U.S.C. 287e note; 99 Stat. 405), as in effect before the date of enactment of this Act.

(b) REFORM.—Section 143 of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987 (22 U.S.C. 287e note; 99 Stat. 405), is amended to read as follows:

"SEC. 143. REFORM IN BUDGET DECISIONMAKING PROCEDURES OF THE UNITED NATIONS AND ITS SPECIALIZED AGENCIES.

"(a) FINANCIAL RESPONSIBILITY IN BUDGET PROCEDURES.—To achieve greater financial responsibility in preparation of the assessed budgets of the United Nations and its specialized agencies, the President should continue vigorous efforts to secure implementation by the United Nations, and adoption and implementation by its specialized agencies, of decision-making procedures on budgetary matters which assures that sufficient attention is paid to the views of the United States and other member states who are major financial contributors to such assessed budgets.

"(b) LIMITATION ON ASSESSED CONTRIBUTIONS.—

"(1) With respect to United States assessed contributions to the United Nations for each calendar year beginning with calendar year 1987—

"(A) 40 percent of the United States assessed contributions may be paid beginning on October 1 of such calendar year;

"(B) 40 percent of the United States assessed contributions may be paid when the President has determined and so reported to the Congress that—

"(i) the consensus based decision-making procedure established by General Assembly Resolution 41/213 is being implemented and its results respected by the General Assembly;

"(ii) progress is being made toward the 50 percent limitation on seconded employees of the Secretariat as called for by the Group of High Level Intergovernmental Experts to Review the Efficiency of the Administrative and Financial Functioning of the United Nations (Group of 18); and

"(iii) the 15 percent reduction in the staff of the Secretariat (recommendations 55 and 57 of the Group of 18) is being implemented and that such reduction is being equitably applied among the nationals on such staff; and

"(C) 20 percent of the United States assessed contributions may be paid beginning on a date which is 30 days after receipt by the Congress of the report described in subparagraph (B) unless the Congress within such 30-day period enacts, in accordance with subsection (c), a joint resolution prohibiting the payment of the remaining 20 percent of such funds.

"(2) In the case that the amount appropriated for United States assessed contributions to the United Nations for a calendar year is less than the full amount of such United States assessed contributions for that year, the final one-fifth of the amount appropriated may only be paid—

"(A) after the President has made the determinations and report specified in paragraph (1)(B); and

"(B) beginning on a date which is 30 days after receipt by the Congress of the report referred to in subparagraph (A) unless the Congress within such 30-day period enacts, in accordance with subsection (c), a joint resolution prohibiting the payment of the remaining one-fifth of such funds.

"(3) For each calendar year beginning with calendar year 1987, no payment may be made of an assessed contribution by the United States to any of the specialized agencies of the United Nations if such payment would cause the United States share of the total assessed budget for such agency to exceed 20 percent in any calendar year unless the President determines and so reports to the Congress that such agency has made substantial progress toward the adoption and implementation of decision-making procedures on budgetary matters in a manner that substantially achieves the greater financial responsibility referred to in subsection (a).

"(4) Subject to the availability of appropriations, when the presidential determinations referred to in paragraphs (1)(B), (2), and (3) have been made, payment of assessed contributions for prior years may be made to the United Nations or its specialized agencies (as the case may be) without regard to the contribution limitation contained in this section prior to its being amended by the Foreign Relations Authorization Act, Fiscal Year 1988 and 1989.

"(c) DEFINITION AND PROCEDURES.—

"(1)(A) The provisions of this subsection shall apply to the introduction and consideration in the Senate of a joint resolution described in subsections (b)(1)(C) and (b)(2).

"(B) For purposes of this subsection, the term 'joint resolution' means only a joint resolution introduced within 3 days after the date on which the report of the President described in subsection (b)(1)(B) is received by Congress, the matter after the resolving clause of which is as follows: 'That the payment to the United Nations of those contributions described in section 143(b)(1)(C) of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987, is prohibited'.

"(2) A joint resolution introduced in the Senate shall be referred to the Committee on Foreign Relations of the Senate. Such a joint resolution may not be reported before the 8th day after its introduction.

"(3) If the committee to which is referred a joint resolution has not reported such joint resolution (or an identical joint resolution) at the end of 15 days after its introduction, such committee shall be deemed to be discharged from further consideration of such joint resolution and such joint resolution shall be placed on the appropriate calendar of the Senate.

(3) deportations based on activities occurring during 1988 or for which deportation proceedings (including judicial review with respect to such a proceeding) are pending at any time during 1988.

SEC. 902. ADJUSTMENT TO LAWFUL RESIDENT STATUS OF CERTAIN NATIONALS OF COUNTRIES FOR WHICH EXTENDED VOLUNTARY DEPARTURE HAS BEEN MADE AVAILABLE.

(a) Adjustment of Status.—The status of any alien who is a national of a foreign country the nationals of which were provided (or allowed to continue in) "extended voluntary departure" by the Attorney General on the basis of a nationality group determination at any time during the 5-year period ending on November 1, 1987, shall be adjusted by the Attorney General to that of an alien lawfully admitted for temporary residence if the alien—

(1) applies for such adjustment within two years after the date of the enactment of this Act;

(2) establishes that (A) the alien entered the United States before July 21, 1984, and (B) has resided continuously in the United States since such date and through the date of the enactment of this Act;

(3) establishes continuous physical presence in the United States (other than brief, casual, and innocent absences) since the date of the enactment of this Act;

(4) in the case of an alien who entered the United States as a nonimmigrant before July 21, 1984, establishes that (A) the alien's period of authorized stay as a nonimmigrant expired not later than six months after such date through the passage of time or (B) the alien applied for asylum before July 21, 1984; and

(5) meets the requirements of section 245A(a)(4) of the Immigration and Nationality Act (8 U.S.C. 1255a(a)(4)).

The Attorney General shall provide for the acceptance and processing of applications under this subsection by not later than 90 days after the date of the enactment of this Act.

(b) STATUS AND ADJUSTMENT OF STATUS.—The provisions of subsections (b), (c)(6), (d), (f), (g), (h), and (i) of section 245A of the Immigration and Nationality Act (8 U.S.C. 1255a) shall apply to aliens provided temporary residence under subsection (a) in the same manner as they apply to aliens provided lawful temporary residence status under section 245A(a) of such Act.

SEC. 903. PROCESSING OF CUBAN NATIONALS FOR ADMISSION TO THE UNITED STATES.

(a) PROCESSING OF CERTAIN CUBAN POLITICAL PRISONERS AS REFUGEES.—In light of the announcement of the Government of Cuba on November 20, 1987, that it would reimplement immediately the agreement of December 14, 1984 establishing normal migration procedures between the United States and Cuba, on and after the date of the enactment of this Act, consular officers of the Department of State and appropriate officers of the Immigration and Naturalization Service shall, in accordance with the procedures applicable to such cases in other countries, process any application for admission to the United States as a refugee from any Cuban national who was imprisoned for political reasons by the Government of Cuba on or after January 1, 1959, without regard to the duration of such imprisonment, except as may be necessary to reassure the orderly process of available applicants.

(b) PROCESSING OF IMMIGRANT VISA APPLICATIONS OF CUBAN NATIONALS IN THIRD COUNTRIES.—Notwithstanding section 212(f) and section 243(g) of the Immigration and Nationality Act, on and after the date of the enactment of this Act, consular officers of the Department of State shall process immigrant visa applications by nationals of Cuba located in third countries on the same basis as immigrant visa applications by nationals of other countries.

(c) DEFINITIONS.—For purposes of this section:

(1) The term "process" means the acceptance and review of applications and the preparation of necessary documents and the making of appropriate determinations with respect to such applications.

(2) The term "refugee" has the meaning given such term in section 101(a)(42) of the Immigration and Nationality Act.

SEC. 904. INDOCHINESE REFUGEE RESETTLEMENT.

(a) FINDINGS.—It is the sense of the Congress that—

(1) the continued occupation of Cambodia by Vietnam and the oppressive conditions within Vietnam, Cambodia, and Laos have led to a steady flight of persons from those countries, and the likelihood for the safe repatriation of the hundreds of thousands of refugees in the region's camps is negligible for the foreseeable future;

(2) the United States has already played a major role in responding to the Indochinese refugee problem by accepting approximately 850,000 Indochinese refugees into the United States since 1975 and has a continued interest in persons who have fled and continue to flee the countries of Cambodia, Laos, and Vietnam;

(3) Hong Kong, Indonesia, Malaysia, Singapore, the Philippines, and Thailand have been the front line countries bearing tremendous burdens caused by the flight of these persons;

(4) all members of the international community bear a share of the responsibility for the deterioration in the refugee first asylum situation in Southeast Asia because of slow and limited procedures, failure to implement effective policies for the region's "longstayer" populations, failure to monitor adequately refugee protection and screening programs, particularly along the Thai-Cambodian and Thai-Laotian borders, and the instability of the Orderly Departure Program (ODP) from Vietnam which has served as the only safe, legal means of departure from Vietnam for refugees, including Amerasians and long-held "reeducation camp" prisoners;

(5) the Government of Thailand should be complemented for allowing the United States to process ration card holders in Khao I Dang and potentially qualified immigrants in Site 2 and in Khao I Dang;

(6) given the serious protection problem in Southeast Asian first asylum countries and the need to preserve first asylum in the region, the United States should continue its commitment to an ongoing, generous admission and protection program for Indochinese refugees, including urgently needed educational programs for refugees along the Thai-Cambodian and Thai-Laotian borders, until the underlying causes of refugee flight are addressed and resolved;

(7) the executive branch should seek adequate funding levels to meet United States policy objectives to ensure the well-being of Indochinese refugees in first asylum, and to process 29,500 Indochinese refugees within the overall refugee admissions level of 68,000 as determined by the President; and

(8) the Government of Thailand should be complimented for the progress that has been made in implementing an effective antipiracy program.

(b) RECOMMENDATIONS.—The Congress finds and recommends the following with respect to Indochinese refugees:

(1) The Secretary of State should urge the Government of Thailand to allow full access by highland refugees to the Lao Screening Program, regardless of the method of their arrival or the circumstances of their apprehension, and should intensify its efforts to persuade the Government of Laos to accept the safe return of persons rejected under the Lao Screening Program.

(2) Refugee protection and monitoring activities should be expanded along the Thai-Laotian border in an effort to identify and report on incidents of refugees forcibly repatriated into Laos.

(3) The Secretary of State should urge the Government of Thailand to address immediately the problems of protection associated with the Khmer along the Thai-Cambodian border. The Government of Thailand, along with appropriate international relief agencies, should develop and implement a plan to provide for greater security and protection for the Khmer at the Thai border.

(4) The international community should increase its efforts to assure that Indochinese refugee camps are protected, that refugees have access to a free market at Site 2, and that international observers and relief personnel are present on a 24-hour-a-day basis at Site 2 and any other camp where it is deemed necessary.

(5) The Secretary of State should make every effort to identify each person at Site 2 who may qualify for admission to the United States as an immigrant and for humanitarian parole.

(6) The United Nations High Commissioner for Refugees should be pressed to upgrade staff presence and the level of advocacy to revive the international commitment with regard to the problems facing Indochinese refugees in the region, and to pursue voluntary repatriation possibilities in cases where monitoring is available and the safety of the refugees is assured.

(c) ALLOCATIONS OF REFUGEE ADMISSIONS.—Given the existing connection between ongoing resettlement and the preservation of first asylum, the United States and the United Nations High Commissioner for Refugees should redouble efforts to assure a stable and secure environment for refugees while dialog is pursued on other long-range solutions, it is the sense of the Congress that—

(1) within the worldwide refugee admissions ceiling determined by the President, the President should continue to recommend generous numbers of admissions from East Asia first asylum camps and from the Orderly Departure Program sufficient to sustain preservation of first asylum and security for Indochinese in Southeast Asia, consistent with worldwide refugee admissions requirements and the consultative processes of the Refugee Act of 1980;

(2) within the allocation made by the President for the Orderly Departure Program from Vietnam, the number of admissions allocated for Amerasians and their immediate family members should also be generous;

(3) renewed international efforts must be taken to address the problem of Indochinese refugees who have lived in camps for 3 years or longer; and

(4) the Secretary of State should urge the United Nations High Commissioner for Refugees to organize immediately an international conference to address the problems of Indochinese refugees.

(d) REPORTING.—The President shall submit a report to Congress within 180 days after the date of the enactment of this Act on the respective roles of the Immigration and Naturalization Service and the Department of State in the refugee program with recommendations for improving the effectiveness and efficiency of the program.

SEC. 905. AMERASIAN CHILDREN IN VIETNAM.

(a) FINDINGS AND DECLARATIONS.—The Congress makes the following findings and declarations:

(1) Thousands of children in the Socialist Republic of Vietnam were fathered by American civilians and military personnel.

(2) It has been reported that many of these Amerasian children are ineligible for ration cards and often beg in the streets, peddle black market wares, or prostitute themselves.

(3) The mothers of Amerasian children in Vietnam are not eligible for government jobs or employment in government enterprises and many are estranged from their families and are destitute.

(4) Amerasian children and their families have undisputed ties to the United States and are of particular humanitarian concern to the United States.

(5) The United States has a longstanding and very strong commitment to receive the Amerasian children in Vietnam, if they desire to come to the United States.

(6) In September 1984, the United States informed the Socialist Republic of Vietnam that all Amerasian children in Vietnam, their mothers, and qualifying family members would be admitted as refugees to the United States during a three-year period.

(7) Amerasian emigration from Vietnam increased significantly in fiscal year 1985 under the Orderly Departure Program of the United Nations High Commissioner on Refugees.

(8) On January 1, 1986, the Socialist Republic of Vietnam unilaterally suspended interviews of all individuals seeking to leave

Vietnam legally under the auspices of the Orderly Departure Program for resettlement in the United States.

(9) On the 19th and 20th of October 1987, the Socialist Republic of Vietnam permitted the United States to resume interviewing Amerasians and their families.

(b) Sense of the Congress.—It is the sense of the Congress that—

(1) the United States should maintain its strong commitment to receive the Amerasian children in the Socialist Republic of Vietnam and their families;

(2) the Socialist Republic of Vietnam should cooperate fully in facilitating the processing of all Amerasians who desire to be resettled in the United States; and

(3) the Socialist Republic of Vietnam should cooperate fully in the processing of Amerasians for emigration.

SEC. 906. REFUGEES FROM SOUTHEAST ASIA.

(a) Findings.—The Congress finds that—

(1) the United States remains firmly committed to the security of Thailand and to improving relations between our two nations;

(2) the United States refugee resettlement and humanitarian assistance programs constitute an important factor in bilateral relations between the United States and Thailand;

(3) the preservation of first asylum for those fleeing persecution is one of the primary objectives of the United States refugee program;

(4) the actions of another government in labeling refugee populations as "displaced persons" or closing its borders to new arrivals shall not constitute a barrier to the United States considering those individuals or groups to be refugees;

(5) it is in the national interest to facilitate the reunification of separated families of United States citizens and permanent residents, and the Congress will look with disfavor on any nation which seriously hinders emigration for such reunifications;

(6) the persecution of the Cambodian people under the Khmer Rouge rule from 1975–1979, which caused the deaths of up to two million people and in which the bulk of the Khmer people were subjected to life in an Asian Auschwitz, constituted one of the clearest examples of genocide in recent history; and

(7) the invasion of Cambodia by Vietnam and the subsequent occupation of that country by 140,000 Vietnamese troops backing up the Heng Samrin regime, which itself continues to seriously violate the human rights of Cambodians, and the presence of 40,000 heavily armed troops under the control of the same Khmer Rouge leaders, overwhelmingly demonstrate that the life or freedom of any Cambodian not allied with the Khmer Rouge or supporting Heng Samrin would be seriously endangered if such individual were forced by a country of first asylum to return to his or her homeland.

(b) Statement of Policy.—It is the sense of the Congress that—

(1) any Cambodians who are, or had been, at Khao I Dang camp should be considered and interviewed for eligibility for the United States refugee program, irrespective of the date they entered Thailand or that refugee camp;

(2) any Cambodian rejected for admission to the United States who can demonstrate new or additional evidence relating to his claim should have his or her case reviewed;

(3) the United States should work with the United Nations High Commissioner for Refugees, the International Committee of the Red Cross, and the Government of Thailand to improve the security of all refugee facilities in Thailand and to prevent the forced repatriation of Cambodian refugees;

(4) the United States should treat with utmost seriousness the continued reports of forced repatriations to Laos of would-be asylum seekers, and should lodge strong and continuous protests with the Thai Government to bring about an end to these repatriations, which endanger the life and safety of those involuntarily returned to Laos; and

(5) within the Orderly Departure Program the United States will give high priority consideration to determining the eligibility of serious health cases and cases involving children separated from both parents.

SEC. 907. RELEASE OF YANG WEI.

(a) Findings.—The Congress makes the following findings:

(1) Yang Wei, a Chinese national, studied at the University of Arizona from 1983 until he received his masters of science degree in microbiology in 1986.

(2) In May 1986 Yang Wei returned to China to marry Dr. Che Shaoli and arrange for funding for his continued studies under a Ph.D. program at the University of Arizona.

(3) On January 11, 1987, while still an official student at the University of Arizona, Yang Wei was arrested by the Shanghai Public Security Bureau.

(4) Yang Wei has been held without charge or trial since January 11, 1987.

(5) Mr. Yang's wife, a student at Baylor Medical College in Houston, Texas, has been refused any information about her husband's whereabouts or condition by Chinese authorities.

(6) Mr. Yang's father, Yang Jue, and his mother Bi Shuyun, have been denied all contact with their son.

(7) The Chinese Criminal Procedure law of 1979, sections 92, 97, 125, and 142 provides for a maximum of four and a half months of detention without charge or trial and Yang Wei has now been held over six months, contrary to Chinese law.

(8) Yang Wei has not committed any crime under United States or Chinese law.

(9) Yang Wei and his wife only aspire to freedom and democracy.

(10) The treatment of Mr. Yang and his family is frightening to all Chinese students now studying in the West and meant to be so by Chinese authorities.

(11) Recently more than two thousand Chinese students signed an open letter to express their concern about recent political developments in their country.

(b) Policy.—It is the sense of Congress that—

(1) the People's Republic of China should immediately release Yang Wei; and

(2) the United States should consider sympathetically applications for asylum from Chinese students studying in the United States who can, on a case-by-case basis, demonstrate a well-founded fear of persecution.

TITLE X—ANTI-TERRORISM ACT OF 1987

SEC. 1001. SHORT TITLE.

This title may be cited as the "Anti-Terrorism Act of 1987".

SEC. 1002. FINDINGS; DETERMINATIONS.

(a) Findings.—The Congress finds that—

(1) Middle East terrorism accounted for 60 percent of total international terrorism in 1985;

(2) the Palestine Liberation Organization (hereafter in this title referred to as the "PLO") was directly responsible for the murder of an American citizen on the Achille Lauro cruise liner in 1985, and a member of the PLO's Executive Committee is under indictment in the United States for the murder of that American citizen;

(3) the head of the PLO has been implicated in the murder of a United States Ambassador overseas;

(4) the PLO and its constituent groups have taken credit for, and been implicated in, the murders of dozens of American citizens abroad;

(5) the PLO covenant specifically states that "armed struggle is the only way to liberate Palestine, thus it is an overall strategy, not merely a tactical phase";

(6) the PLO rededicated itself to the "continuing struggle in all its armed forms" at the Palestine National Council meeting in April 1987; and

(7) the Attorney General has stated that "various elements of the Palestine Liberation Organization and its allies and affiliates are in the thick of international terror".

(b) Determinations.—Therefore, the Congress determines that the PLO and its affiliates are a terrorist organization and a threat to the interests of the United States, it allies, and to international law and should not benefit from operating in the United States.

SEC. 1003. PROHIBITIONS REGARDING THE PLO.

It shall be unlawful, if the purpose be to further the interests of the Palestine Liberation Organization or any of its constituent groups, any successor to any of those, or any agents thereof, on or after the effective date of this title—

(1) to receive anything of value except informational material from the PLO or any of its constituent groups, any successor thereto, or any agents thereof;

(2) to expend funds from the PLO or any of its constituent groups, any successor thereto, or any agents thereof; or

(3) notwithstanding any provision of law to the contrary, to establish or maintain an office, headquarters, premises, or other facilities or establishments within the jurisdiction of the United States at the behest or direction of, or with funds provided by the Palestine Liberation Organization or any of its constituent groups, any successor to any of those, or any agents thereof.

SEC. 1004. ENFORCEMENT.

(a) Attorney General.—The Attorney General shall take the necessary steps and institute the necessary legal action to effectuate the policies and provisions of this title.

(b) Relief.—Any district court of the United States for a district in which a violation of this title occurs shall have authority, upon petition of relief by the Attorney General, to grant injunctive and such other equitable relief as it shall deem necessary to enforce the provisions of this title.

SEC. 1005. EFFECTIVE DATE.

(a) Effective Date.—Provisions of this title shall take effect 90 days after the date of enactment of this Act.

(b) Termination.—The provisions of this title shall cease to have effect if the President certifies in writing to the President pro tempore of the Senate and the Speaker of the House that the Palestine Liberation Organization, its agents, or constituent groups thereof no longer practice or support terrorist actions anywhere in the world.

TITLE XI—GLOBAL CLIMATE PROTECTION

SEC. 1101. SHORT TITLE.

This title may be cited as the "Global Climate Protection Act of 1987".

SEC. 1102. FINDINGS.

The Congress finds as follows:

(1) There exists evidence that manmade pollution—the release of carbon dioxide, chlorofluorocarbons, methane, and other trace gases into the atmosphere—may be producing a long term and substantial increase in the average temperature on Earth, a phenomenon known as global warming through the greenhouse effect.

(2) By early in the next century, an increase in Earth temperature could—

(A) so alter global weather patterns as to have an effect on existing agricultural production and on the habitability of large portions of the Earth; and

(B) cause thermal expansion of the oceans and partial melting of the polar ice caps and glaciers, resulting in rising sea levels.

(3) Important research into the problem of climate change is now being conducted by various United States Government and international agencies, and the continuation and intensification of those efforts will be crucial to the development of an effective United States response.

(4) While the consequences of the greenhouse effect may not be fully manifest until the next century, ongoing pollution and deforestation may be contributing now to an irreversible process. Necessary actions must be identified and implemented in time to protect the climate.

(5) The global nature of this problem will require vigorous efforts to achieve international cooperation aimed at minimizing and responding to adverse climate change; such international cooperation will be greatly enhanced by United States leadership. A key step in international cooperation will be the meeting of the Governing Council of the United Nations Environment Program, scheduled for June 1989, which will seek to determine a direction for worldwide efforts to control global climate change.

(6) Effective United States leadership in the international arena will depend upon a coordinated national policy.

SEC. 1103. MANDATE FOR ACTION ON THE GLOBAL CLIMATE.

(a) GOALS OF UNITED STATES POLICY.—United States policy should seek to—

(1) increase worldwide understanding of the greenhouse effect and its environmental and health consequences;

(2) foster cooperation among nations to develop more extensive and coordinated scientific research efforts with respect to the greenhouse effect;

(3) identify technologies and activities to limit mankind's adverse effect on the global climate by—

(A) slowing the rate of increase of concentrations of greenhouse gases in the atmosphere in the near term; and

(B) stabilizing or reducing atmospheric concentrations of greenhouse gases over the long term; and

(4) work toward multilateral agreements.

(b) FORMULATION OF UNITED STATES POLICY.—The President, through the Environmental Protection Agency, shall be responsible for developing and proposing to Congress a coordinated national policy on global climate change. Such policy formulation shall consider research findings of the Committee on Earth Sciences of the Federal Coordinating Council on Science and Engineering Technology, the National Academy of Sciences, the National Oceanic and Atmospheric Administration, the National Science Foundation, the National Aeronautic and Space Administration, the Department of Energy, the Environmental Protection Agency, and other organizations engaged in the conduct of scientific research.

(c) COORDINATION OF UNITED STATES POLICY IN THE INTERNATIONAL ARENA.—The Secretary of State shall be responsible to coordinate those aspects of United States policy requiring action through the channels of multilateral diplomacy, including the United Nations Environment Program and other international organizations. In the formulation of these elements of United States policy, the Secretary of State shall, under the direction of the President, work jointly with the Administrator of the Environmental Protection Agency and other United States agencies concerned with environmental protection, consistent with applicable Federal law.

SEC. 1104. REPORT TO CONGRESS.

Not later than 24 months after the date of enactment of this Act, the Secretary of State and the Administrator of the Environmental Protection Agency shall jointly submit to all committees of jurisdiction in the Congress a report which shall include—

(1) a summary analysis of current international scientific understanding of the greenhouse effect, including its environmental and health consequences;

(2) an assessment of United States efforts to gain international cooperation in limiting global climate change; and

(3) a description of the strategy by which the United States intends to seek further international cooperation to limit global climate change.

SEC. 1105. INTERNATIONAL YEAR OF GLOBAL CLIMATE PROTECTION.

In order to focus international attention and concern on the problem of global warming, and to foster further work on multilateral treaties aimed at protecting the global climate, the Secretary of State shall undertake all necessary steps to promote, within the United Nations system, the early designation of an International Year of Global Climate Protection.

SEC. 1106. CLIMATE PROTECTION AND UNITED STATES-SOVIET RELATIONS.

In recognition of the respective leadership roles of the United States and the Soviet Union in the international arena, and of their joint role as the world's two major producers of atmospheric pollutants, the Congress urges that the President accord the problem of climate protection a high priority on the agenda of United States-Soviet relations.

TITLE XII—REGIONAL FOREIGN RELATIONS MATTERS

PART A—SOVIET UNION AND EASTERN EUROPE

SEC. 1201. SOVIET BALLISTIC MISSILE TESTS NEAR HAWAII.

(a) FINDINGS.—The Congress finds that—

(1) the Union of Soviet Socialist Republics and the United States are presently negotiating a reduction of nuclear weapons and have recently concluded an agreement with respect to reducing the risks of accidental nuclear war;

(2) the Soviet Union has recently conducted two tests of its heavy intercontinental ballistic missiles over trajectories similar to those which could be used in actual attacks on the Hawaiian Islands;

(3) the announced impact points for reentry vehicles from these tests could have resulted in the overflight of sovereign United States territory, namely the Hawaiian Islands;

(4) the Soviet Union reportedly encrypted telemetry from the flight tests in potential violation of the provisions of bilateral arms control agreements;

(5) the Soviet Union used a directed energy device, believed to be a laser, to irradiate a United States military aircraft in international airspace that was monitoring the tests, having the potential effect of interfering with our national technical means of verification;

(6) had this test misfired, Soviet ballistic missile test reentry vehicles could have landed among the Hawaiian Islands; and

(7) the United States does not test strategic missiles in the direction of or in close proximity to sovereign Soviet territory.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) the actions of the Soviet Union in testing intercontinental ballistic missiles in the Hawaiian region and irradiating United States monitoring aircraft are provocative, unnecessary, and inconsistent with behavior designed to reduce the risk of nuclear war;

(2) the United States Government—

(A) should officially and at the highest levels protest these actions by the Soviet Union and should inform the Soviet Union that it cannot tolerate flight tests in close proximity to sovereign United States territory or interference with United States monitoring aircraft; and

(B) should seek Soviet assurances that such missile testing near United States territory and irradiation of United States territory and irradiation of United States aircraft will not occur in the future; and

(3) the President should, within 10 days of the date of enactment of this Act, report to the Congress in both classified and unclassified form, on—

(A) the details of these Soviet missile tests, including the irradiation of the United States monitoring aircraft;

(B) Soviet explanations offered in response to United States protests; and

(C) what steps will be taken to ensure that such activities will not happen in the future.

SEC. 1202. EMIGRATION OF JEWS AND OTHERS WHO WISH TO EMIGRATE FROM THE SOVIET UNION.

It is the sense of the Congress that the Government of the Soviet Union should—

(1) permit the emigration of Jews and others who wish to emigrate from the Soviet Union;

(2) remove restrictions on the practice of religion and the exercise of cultural rights; and

(3) cease the official harassment of individuals who wish to emigrate, practice their religion, exercise their cultural rights, or engage in free intellectual pursuits.

SEC. 1203. SYSTEMATIC NONDELIVERY OF INTERNATIONAL MAIL ADDRESSED TO CERTAIN PERSONS RESIDING WITHIN THE SOVIET UNION.

It is the sense of the Congress that—

(1) the President should express to the Government of the Soviet Union the disapproval of the United States regarding the systematic nondelivery of international mail; and

(2) at the Congress of the Universal Postal Union in Washington, District of Columbia, in 1989, the Department of State should bring to the attention of other member countries of the Universal Postal Union patterns of nondelivery of international mail by the

Soviet Union contrary to the Acts of the Universal Postal Union and the delegation of the United States should ask other member countries to support the adoption of amendments to the Universal Postal Convention and other measures to encourage improved postal performance by the Soviet Union.

SEC. 1204. UNITED STATES POLICY AGAINST PERSECUTION OF CHRISTIANS IN EASTERN EUROPE AND THE SOVIET UNION.

It is the sense of the Congress that—

(1) the President should continue to express to the governments of the Union of Soviet Socialist Republics and Eastern European countries the deep concern and opposition of the United States with respect to the harassment of Christians and other religious believers;

(2) the governments of the Union of Soviet Socialist Republics and Eastern European countries should comply with their commitments under the United Nations Universal Declaration of Human Rights, the International Covenants on Human Rights, the Final Act of the Conference on Security and Cooperation in Europe, and the Madrid Concluding Document; and

(3) the governments of the Union of Soviet Socialist Republics and Eastern European countries should immediately cease persecuting individuals on the basis of their faith and should afford Christians and other believers their internationally recognized right to freedom of religion.

SEC. 1205. OBSERVANCE BY THE GOVERNMENT OF ROMANIA OF THE HUMAN RIGHTS OF HUNGARIANS IN TRANSYLVANIA.

The Congress deplores activities of the Government of the Socialist Republic of Romania restricting the internationally recognized human rights of Hungarians and other nationalities in Transylvania and elsewhere in Romania.

SEC. 1206. SELF-DETERMINATION OF THE PEOPLE FROM THE BALTIC STATES OF ESTONIA, LATVIA, AND LITHUANIA.

It is the sense of the Congress that—

(1) the continuing desire and right of the people of the Baltic States of Estonia, Latvia, and Lithuania for freedom and independence from the Soviet Union should be recognized; and

(2) the President should—

(A) direct world attention to the right of self-determination of the people of the Baltic States by issuing on July 26, 1988, a statement that officially informs all member nations of the United Nations of the support of the United States for self-determination of all peoples and nonrecognition of the forced incorporation of the Baltic States into the Soviet Union;

(B) call attention to violations of internationally recognized human rights in the Baltic States; and

(C) promote compliance with the human rights and humanitarian provisions of the Helsinki Final Act of the Conference on Security and Cooperation in Europe in the Baltic States.

SEC. 1207. ASSISTANCE IN SUPPORT OF DEMOCRACY IN POLAND.

(a) SUPPORT FOR SOLIDARITY.—It is the sense of the Congress that—

(1) Solidarity deserves special praise and recognition as the only free and independent trade union in Poland;

(2) Solidarity reflects the Polish people's desire for free and democratic institutions and activities; and

(3) Solidarity is one of the leading democratic representatives of the Polish working people.

(b) ASSISTANCE IN SUPPORT OF DEMOCRACY IN POLAND.—Notwithstanding any other provision of law, of the amounts authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund) for fiscal year 1988, not less than $1,000,000 shall be available only for the unconditional support of democratic institutions and activities in Poland.

PART B—LATIN AMERICA AND CUBA

SEC. 1211. CUBAN HUMAN RIGHTS VIOLATIONS AND THE FAILURE OF THE UNITED NATIONS TO PLACE CUBA ON ITS HUMAN RIGHTS AGENDA.

(a) FINDINGS.—The Congress finds that—

(1) the Universal Declaration of Human Rights, which was adopted and proclaimed by the General Assembly of the United Nations, states in paragraph 2 of Article 13 that "Everyone has the right to leave any country, including his own, and to return to his country";

(2) the Universal Declaration of Human Rights states in Article 19 that "Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions without interference and to seek, receive, and impart information and ideas through any media regardless of frontiers";

(3) the Government of Cuba has violated the Cuban people's internationally recognized human rights, including freedom of movement, emigration, opinion, and expression;

(4) Cuban human rights violations are a major obstacle to improved United States-Cuban relations; and

(5) the United Nations Human Rights Commission has acted selectively in addressing human rights violations in various countries and has failed to place Cuba on its agenda despite overwhelming evidence of the continuing disregard and systematic abuse of internationally recognized human rights by the Government of Cuba.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) the Government of Cuba should respect internationally recognized human rights, including freedom of movement, emigration, opinion, and expression; and

(2) the United States delegation to the United Nations should continue its commendable efforts to bring this issue before the attention of the United Nations and to place Cuban human rights abuses on the agenda of the United Nations Human Rights Commission.

(c) DISTRIBUTION OF TEXT TO U.N. MEMBERS.—The Secretary of State shall cause the text of this section to be circulated by the United States among the members of the United Nations in order to highlight Cuba's behavior in violation of the Universal Declaration of Human Rights.

SEC. 1212. PARTIAL LIFTING OF THE TRADE EMBARGO AGAINST NICARAGUA.

It is the sense of Congress that the President should exempt from the trade embargo against Nicaragua those items which would benefit Nicaragua's independent print and broadcast media, private sector and trade union groups, nongovernmental service organizations, and the democratic civic opposition.

SEC. 1213. TERRORIST BOMBING IN HONDURAS.

(a) FINDINGS.—The Congress finds that—

(1) a terrorist bomb exploded on August 8, 1987, in the China Palace restaurant in Comayagua, Honduras;

(2) the bomb was directed at American soldiers and did in fact wound American soldiers and an American contractor;

(3) the United States military personnel were in Honduras assigned to Joint Task Force Bravo;

(4) Honduran authorities have named Alfonso Guerrero Ulloa as a suspect in this act of terrorism and have a warrant for his arrest;

(5) the Government of Mexico, contrary to accepted norms of international law on harboring terrorists, has granted asylum to Mr. Guerrero, and

(6) the United States Government has protested to the Government of Mexico.

(b) STATEMENT OF POLICY.—It is the sense of the Congress that—

(1) the United States Congress deplores the harboring of international terrorists, and

(2) the United States Government should call upon the Government of Mexico to turn Mr. Guerrero over to the Government of Honduras.

SEC. 1214. HUMAN RIGHTS IN PARAGUAY.

(a) FINDINGS.—The Congress finds that—
